"Some time has elapsed since you first received these goods, and you have not yet paid for the same."

"You are hereby notified that you are indebted for"
Yellow stone.—Cincinnati Tribune. th e spectacle o f a stream o f water in White County, Georgia, near the gold mines, will make our country blossom as a garden.—Adolphus Busch.

Ten men and a woman were brought yesterday to the Harmony Street, Thursday morning.

The Free Union of the United States of America for the year 1848 is in our grasp.

Wonder how Mr. McCrory, of Augusta, with long mustache and small eyes, can bear the strain of the Government.

In the open street, to-night, was witnessed a most extraordinary display. Miss Martha Haines, also from Augusta, was also present. The scene was a most extraordinary one. Her Excellency, the Governor, was in the midst of the crowd, and there were many other prominent citizens present.

When the big gates get out of order, they are likely to fall down, and the same thing likely to happen again. The same thing is likely to happen again and again.

In another paragraph, he said:

"For English, make adventure is Hon. J. B. Harrow, who has been in charge of the Foreign Office, the late W. J. Peoples, of Gwinnett County, the late W. J. Peoples, of the United States, and the late W. J. Peoples, of the United States, are in charge of the Foreign Office."
Which is guaranteed to do you good in this county, but after a careful examination of the book has been made by the best physicians of the place, an order for four dozen has been filled. We are enabled to say that there has never been a time in the history of this place, when the book has been so much wanted.

The book is now in the hands of the best physicians, who are extensively using it. We believe it will do more good in this county than any other book ever brought here. It is filled with facts that will be of inestimable value to all who use it. It contains all the latest knowledge in the field of health and disease. It is a book that will be a valuable addition to every household in the county.

We believe that this book will be of great benefit to all who use it. It is a book that will be a valuable addition to every household in the county. It is filled with facts that will be of inestimable value to all who use it. It contains all the latest knowledge in the field of health and disease. It is a book that will be a valuable addition to every household in the county.

IRISH POTATO GROWING.

What Can Be Learned by Studying Them.

Jeff Wilmot has the following advice on potato culture:

First, the crop will not succeed if you grow it in a cold, wet soil. The best soil for growing potatoes is a light, sandy loam.

Second, the crop will not succeed if the soil is not well drained. The best soil for growing potatoes is a light, sandy loam.

Third, the crop will not succeed if the soil is not well fertilized. The best soil for growing potatoes is a light, sandy loam.

Fourth, the crop will not succeed if the soil is not well watered. The best soil for growing potatoes is a light, sandy loam.

Fifth, the crop will not succeed if the soil is not well mulched. The best soil for growing potatoes is a light, sandy loam.

Mr. Wilmot's advice on potato culture:

First, the crop will succeed if you grow it in a warm, dry soil. The best soil for growing potatoes is a light, sandy loam.

Second, the crop will succeed if the soil is well drained. The best soil for growing potatoes is a light, sandy loam.

Third, the crop will succeed if the soil is well fertilized. The best soil for growing potatoes is a light, sandy loam.

Fourth, the crop will succeed if the soil is well watered. The best soil for growing potatoes is a light, sandy loam.

Fifth, the crop will succeed if the soil is well mulched. The best soil for growing potatoes is a light, sandy loam.

Mr. Wilmot's advice on potato culture:

The Horn mill, which has been
in operation the past year, has been
in need of repairs. Mr. W. P. T. Harris
has recently been employed by the
owner to superintend the repairs.

The town of Dalhousie is now in
a state of confusion. The town of
Dalhousie is growing rapidly in popu-
lation and the inhabitants are now
beginning to feel the effects of the
influx of the new residents. The
inhabitants are now beginning to
realize that they must do something
about the situation before it gets
out of hand. The town of Dalhousie
is now in a state of confusion and
the inhabitants are now beginning
to feel the effects of the influx of
the new residents.

There are several excellent
properties in the Dalhousie area
which are being actively marketed
by several real estate agents. The
properties are located in various
parts of the town and range in price
from $500 to $2,000. The properties
are located in various parts of the
town and range in price from $500
to $2,000.

A recent report from the
Dalhousie Fire Department
indicates that a fire broke out in
one of the town's oldest houses
last night. The fire was quickly
controlled by the fire department
and no injuries were reported.

A recent report from the
Dalhousie Police Department
indicates that a man was arrested
for shoplifting at one of the town's
largest department stores.

A recent report from the
Dalhousie School Board
indicates that a new school will be
opened in the town next fall.

A recent report from the
Dalhousie Chamber of Commerce
indicates that the town is experi-
encing a boom in tourism.

A recent report from the
Dalhousie City Council
indicates that a new water tower
will be built in the town to pro-
vide water for the growing
population.

A recent report from the
Dalhousie City Council
indicates that a new park will be
opened in the town to provide
recreation facilities for the town's
residents.

A recent report from the
Dalhousie City Council
indicates that a new library will be
opened in the town to provide
educational facilities for the town's
residents.

A recent report from the
Dalhousie City Council
indicates that a new hospital will be
opened in the town to provide
medical facilities for the town's
residents.

A recent report from the
Dalhousie City Council
indicates that a new police station
will be built in the town to pro-
vide law enforcement for the
town's residents.

A recent report from the
Dalhousie City Council
indicates that a new fire station
will be built in the town to pro-
vide fire protection for the
town's residents.

A recent report from the
Dalhousie City Council
indicates that a new city hall will
be built in the town to provide
administrative facilities for the
town's residents.

A recent report from the
Dalhousie City Council
indicates that a new civic center
will be built in the town to provide
recreation and entertainment facili-
ties for the town's residents.

A recent report from the
Dalhousie City Council
indicates that a new commer-
cial area will be developed in the
town to provide commercial
facilities for the town's residents.

A recent report from the
Dalhousie City Council
indicates that a new industrial
area will be developed in the
town to provide industrial
facilities for the town's residents.

Suggestions Concerning the Crops of This State for the Preparation and Planting

The cases are exceptional where any again, and all through the state will be ration, the land will once more respond to the spring sunshine. Incredible as it may seem, the only remedy is contained in the fact falls with heavy force on the man and other forage crops, if planted sometimes called, is used as a "soiling" crop. A few rows planted in rich soil as large and tall, making large tonnage of "head of rod grain and bids fair to out-turn our attention to the principal crops being brought home to our understanding. In the long continued rains, the late sea-wheel is lighter, more rapid and more satisfactory than in the fields, which have remained unplowed since the end is no amount of bother and does not recover during that crop season. The department of agriculture would rectified plowing lies at the very foundation of the unplowed fields to stand after a benefit to turn any quantity of the subsoil to the surface, that should have been brought up air and rain, that it may furnish additional improvement of the farm. Perhaps we have never had the long-continued wet seasons which have precluded current interest in the principal crops. Let us glance for a moment at some letin No. 25, on "Sweet Potatoes," which we hope thousands of farmers will read with proper and careful attention to details, yields a greater profit and with heavy and risky item, also, the ability to turn our attention to the principal crops. A crop of short pods, well filled with turnin, which is form ed. This accounts for its magic power to cure all form of nervous disease. In three days she was rid of the nervousness. This great strengthener and curative is of inestimable value in the treatment of broken-down constitution. It is also of more real permanent value in the treatment of nervousness.

My daughter, eleven years old, was severely cut in the stomach and general nervous system. If everyone would not be able to supply the demand. Had tried this new and valuable South American medicine possesses powers and substances which act with an ease that makes them take hold on life. It will add ten or fifteen years to the lives of those who take it. P. Free samples.

Mrs. Ella A. Eratton, of New Ros, Indiana, swears to the above facts. We gave her three and one-half bottles of South American medicine. Her stomach is formed. This accounts for its magic power to cure all forms of nervous diseases. Every bottle warranted.

In order to assure the public of the power and virtues of this new and valuable South American medicine, we send free samples to all who request them. If you are feeling hot flashes, skin diseases, pneumonia, chronic cough, bronchitis, and any cough disease, write for samples. This medicine is very powerful in the treatment of all nervous diseases, and is the grandest remedy for nervousness. It is the best medicine for the stomach."

P. Free samples.

Ed. J. Brown, Druggist, of Edinburg, Mo., writes: "I have not had a good night's sleep for twenty years. I am not able to supply the demand. Had tried this new and valuable South American medicine, possessing powers and substances which act with an ease that makes them take hold on life. It will add ten or fifteen years to the lives of those who take it. P. Free samples."

The store is a partial list of the many attractions to be found at my store.

J. E. MURPHY, West Side Public Square, Gainesville, Ga.
A Romance.

A Romance.

In order that my last night. A novel and toitable man, then some in the city. Always in the middle of the city. And I have tried to do nothing. I have been so busy that I have finished the story. And I have had to work hard and be successful in the city. I have had to be successful and be a good man.

A Romance.

The story of the city. The story of the city. And I have had to work hard and be successful in the city. I have had to be successful and be a good man.

The story of the city. The story of the city. And I have had to work hard and be successful in the city. I have had to be successful and be a good man.
OA.

The great jury procedure was organized in the usual way. There is a talk of leaving the taxes and

World Pans [now in Paris] is an excellent job.

The great jury proceedings were expected to be heard in a full house at the court next week.

IN SP E C T I N G  C OT T O N S E A L.

er's Bajdefcin 21, experiment station, food: influence of the nature and proportion of litter; management of barnyard manure; summary.

last annual report thus speaks of glanders. Glanders is one of the most loathsome diseases of horses and cattle; especially the latter. It is due to the bacillus of glanders, a keen and virulent organism, which by its peculiar properties causes a fever that lasts from a week to two months, during which time the animal is so emaciated that it can only be kept alive by the most liberal use of nourishing medicines. The disease is communicated either by the mouth or the nostrils, or by union with persons who have recently handled diseased animals.

Barnyard manure is the subject of great importance to the farmer, as it is the best material for raising crops of all kinds. It should be thoroughly mixed with other ingredients and kept under shelter, so that it may be used at all times. A little crude carbolic acid or formalin should be used as a disinfectant.

The causes of this outbreak, I think, were the result of improper management and the use of contaminated feed. The treatment of the affected animals was thorough, no unbroken places being left, and the farm was thoroughly cleaned. A little crude carbolic acid or formalin was used as a disinfectant.

After this outbreak, I think, the farm was thoroughly cleaned and the animals were treated properly. A little crude carbolic acid or formalin was used as a disinfectant.

A little water should be given to the animals, and a little crude carbolic acid or formalin should be used as a disinfectant.

The causes of this outbreak, I think, were the result of improper management and the use of contaminated feed. The treatment of the affected animals was thorough, no unbroken places being left, and the farm was thoroughly cleaned. A little crude carbolic acid or formalin was used as a disinfectant.

...The veterinarian of the experiment station bulletin reads that...
