December 18 . . . . Christmas Vacation Begins

1938

January 3 . . . . Registration for Winter Quarter
January 4 . . . . Class Work Begins
February 1 . . . . Preliminary Reports
February 12 . . . . Mid-term Reports
March 15-18 . . . . Winter Quarter Examinations
March 19-23 . . . . Spring Recess
March 24 . . . . Registration for Spring Quarter
March 25 . . . . Class Work Begins
April 23 . . . . Mid-term Reports
June 6-9 . . . . Spring Quarter Examinations
June 10-11 . . . . Commencement Week
June 15 . . . . Registration for Summer Term
June 16 . . . . Class Work Begins
July 22 . . . . Summer Term Ends
UNIVERSITY SYSTEM OF GEORGIA

The state supported institutions of higher learning in Georgia were integrated into the University System of Georgia by legislative enactment at the regular session of the General Assembly in 1931. Under the articles of the Act all existent boards of trustees were abolished and control of the System was vested in a board of regents with all the power and rights of the former governing boards of the several institutions. Control of the System by the Board of Regents became effective January 1, 1932.

North Georgia College is one of the junior colleges of the University System of Georgia, and as such is fully recognized and accredited.

FOUNDING OF THE COLLEGE

North Georgia owes its origin to the Act of Congress of July 2, 1862, entitled "An Act donating public lands to the several states and territories which may provide colleges for the benefit of agriculture and mechanic arts." The Act contemplated the "endowment, support and maintenance of at least one college in each state where the leading object will be, without excluding other scientific and classical studies, and including military tactics, to teach such branches of learning as are related to agriculture and mechanic arts in such manner as the legislatures of the states may respectively prescribe, in order to promote the liberal and practical education of the industrial classes."

From the proceeds of the sale of this public land, and through the Trustees of the University of Georgia, there came to the College an annual grant of $2,000.

MILITARY TRAINING

North Georgia College was originally organized and administered on a military basis which system has prevailed from the date of its founding.

In April, 1933, North Georgia College was reorganized by the Board of Regents as a liberal arts junior college, but its equity in the proceeds from the sale of public lands was retained. The military features also were continued, and the college thus enjoys the distinction of being the only State junior college operating on a military schedule.

The college has been classified by the United States Government as an "essentially military college," being one of eight colleges in the United States so designated. It is the only one in Georgia, and, since "essentially military colleges" endeavor to emulate the traditions of West Point, North Georgia College has well been called "Georgia's West Point." General Robert Lee Bullard, formerly Commandant of Cadets and Professor of Military Science and Tactics, referred to the college as one of the two finest military schools in the country.
CO-EDUCATION

In line with present practice at nine-tenths of the American colleges and universities, North Georgia College admits men and women on the same basis. Military training under Government officers is retained for the young men, but the revised and broadened curricula prescribed by the Board of Regents admirably meet the needs of the young women students.

THE UNIVERSITY SYSTEM

North Georgia College is a member of the University System of Georgia. Its courses of study correspond to the curricula for junior colleges and junior divisions of senior colleges of the University System as outlined by the Board of Regents.

Credits of the college may be transferred to senior divisions of the University System, and after two years of successful work at North Georgia College, the student is in line for full Junior Class standing at the parent institution in Athens, and elsewhere. Students of North Georgia College are thus a part of the state-wide program of higher education, and they enjoy the full prestige and influence of the University System.

ACADEMIC STANDING

North Georgia College is fully accredited and nationally recognized. It holds membership in the Georgia Association of Junior Colleges, Association of Georgia Colleges, Association of Southern Colleges and the American Association of Junior Colleges. The college is also accredited by the State Department of Education.

LOCATION

North Georgia College is located at Dahlonega, the center of Georgia’s gold area, twenty-five miles from Gainesville, which is on the main line of the Southern Railway. The paved highway from Gainesville to Dahlonega makes the college easily accessible by motor cars at all seasons of the year. A forty-five minute drive from Gainesville brings one to the college campus.

The college is also quickly accessible because of the National Highway from Atlanta via Roswell, Alpharetta, Cumming, Dahlonega, and on through the mountains to Asheville, North Carolina. By this highway, automobiles can make the trip to Dahlonega from Atlanta in less than two hours.

There is also daily Bus service to Dahlonega from Gainesville
and Atlanta. From points south, Dahlonega can best be reached by bus from the Atlanta Union Bus Station. The present schedules are eight A. M. and three P. M. Central Standard Time, but these hours are subject to change.

While North Georgia College is thus within easy reach of its constituency, it is free from the distracting influences which so often interfere with the work and rounded development of college students in the large city.

HEALTH

Dahlonega and Lumpkin County are known afar for their fine climate. The elevation is 1,500 feet. Nature seems to have designed the location, in the foothills of the Blue Ridge, as a health resort and a seat of learning.

The college location is free from the enervating climatic conditions of the lower altitudes, and students from other sections quickly respond to the stimulating effects of North Georgia air and pure spring water. Practically without exception, students gain in weight and physical vigor; the college has, therefore, a state-wide patronage.

PHYSICAL EXAMINATION

A necessary protection to the health of the entire student group is the physical examination given upon admission to the college. No student having a communicable disease is admitted until the danger is removed. The examination also shows what particular development and corrective measures are needed to bring the individual student to strong and vigorous health. As a precaution, students will be given such vaccination and inoculations as are authorized by the college physician.

MEDICAL SERVICE

Every precaution is taken to conserve student health, and through the college physician, the college provides free medical service to its boarding students in all cases of usual or minor illness. It does not assume responsibility for the cost of necessary special or trained nurses or consultation and hospital expenses in the more serious cases of illness.

ATHLETICS AND PHYSICAL EDUCATION

The college recognizes the need of a sound and co-ordinated body for individual success in most occupations and professions.
Provision, therefore, is made for a reasonable emphasis upon athletics and physical training for both men and women.

The aim of the department is to bring health, vigor and recreation to every student on the campus. All men, except those physically disqualified, take Military, and all women take the regular work in Physical Education.

The enthusiasm of intercollegiate athletics is supplemented by general campus interest in an extensive program of intramural activities appropriate for both men and women. These include tennis, basketball, soft ball, volley ball, touch football, horseshoes, cross country, track, table tennis, badminton, rifle competition, boxing and wrestling.

CAMPUS ORGANIZATIONS

DRAMATIC CLUB

The Dramatic Club presents frequent amateur programs through the year. These include chapel skits, one-act plays, and full evening performances.

THE CORONA

The Corona Hederae is a literary organization for young women. The bi-weekly programs feature reports on current books, and the study of drama, art and music.

SPEECH FORUM

The Speech Forum is an informal organization composed of those who wish to meet from time to time for the discussion of current topics and social, economic and political developments.

HOME ECONOMICS CLUB

This is an organization open to all students who take courses in Home Economics. The aim of the club is to afford students opportunity to become better acquainted with the social and professional activities of Home Economics leaders, and also to provide for their own personal development through active participation in club programs.
"D" CLUB

The "D" Club is made up of those men and women students who have won the official Athletic Letter. Varsity Team membership and satisfactory scholastic averages constitute eligibility.

WOMAN'S RECREATIONAL ASSOCIATION

The membership of the Woman's Recreational Association, sponsored by the Physical Education Department, includes all women students. Through dances and other activities it contributes generously to the general social life.

GLEE CLUBS

The Men's Glee Club, under the direction of Professor Booth, provides enjoyable and valuable training and experience to approximately twenty-five young men. Concerts are given at home and in neighboring high schools and colleges; the programs of the club are everywhere received with enthusiasm.

The Women's Glee Club, under the direction of Professor Dismukes, makes frequent appearances during the year and renders both sacred and secular programs.

THE BAND

One of the outstanding features of North Georgia College is the College Band. Instruments are furnished for about thirty-five parts. Professor Angelsberg has had many years' experience in the United States Army as Band Director, but his special pride is the high-class student bands which he produces at North Georgia. To one with any musical ability, the band presents an unusual opportunity.

COLLEGE ORCHESTRA

The Orchestra under the direction of Mr. Booth provides music for various social functions, chapel and evening programs.

STUDENT PUBLICATIONS

The college newspaper, The Cadet Bugler, and the annual, The Cyclops, are published under the direction of the Students' Association and a faculty adviser.
ALUMNI SOCIETY

The Alumni Society of North Georgia College includes in its membership all students who have ever attended the college, many of whom are now the outstanding leaders of the State. The purpose of the Society is to keep alive the traditions and memories of the college and to promote its welfare. The Society has recently turned its attention to various movements connected with the college, the latest of which was the unveiling of a tablet June 3, 1934, to the memory of Hon. W. P. Price, the founder of the college.

The officers of the Society for 1937-'38 are Mr. O.L. Amsler, Decatur, Ga., President; Prof. A. W. Cain, Dahlonega, Ga., Secretary.

SOCIAL AND RELIGIOUS LIFE

CHAPEL

Chapel is held Tuesday and Thursday morning at 11:30 o'clock in the college auditorium. Attendance is required.

The chapel exercises are brief, but effort is made to have them inspirational and genuinely helpful. College life is here interpreted and in turn is expressed through student participation. Visiting speakers are frequently present.

CHURCH SERVICES

There are three Protestant denominations in Dahlonega, the Baptist, the Methodist Episcopal South and the Presbyterian, two of which regularly maintain Sunday Schools and weekly services. Students are required to attend Sunday morning church services and are heartily welcomed by the local membership. The students also have the opportunity of participating in such organizations as the Epworth League and the Baptist Young People's Union.

CHRISTIAN ASSOCIATIONS

The Young Men's Christian Association is organized to promote a wholesome campus life, to stimulate ideals of honesty and right living and thinking at North Georgia College, and to develop the sense of personal religion among the college students.

The Young Women's Christian Association sponsors a similar work among the women of the college; it exerts a strong influence over the social as well as the religious life of the campus.
SOCIAL LIFE

Equally important as academic training is the attainment of that personal culture and bearing which prepares one to take his rightful place in an exacting social, business and professional world. Every effort, therefore, is made to promote a natural, wholesome social life. The fine traditions of the college are observed, while the student campus organizations make contributions through their various programs and social evenings.

All women students, whether residing in the dormitory or, by special permission, in private homes, are subject to the general social policies of the college, the immediate administration of which is in the hands of the Dean of Women.

A special social committee composed jointly of faculty members and students plan for frequent informal social gatherings.

SOCIAL CLUBS

The Officers' Club and two local fraternities, Rex and Sigma Theta, make fine contributions to the college life through their frequent social occasions.

ENTERTAINMENT COURSE

That the college community may be kept in close touch with the best in music, art and current thought, an Entertainment Course is maintained without cost to students or faculty. The frequent musical, dramatic and lecture programs add a distinct atmosphere of culture to the social and recreational life.

BUILDINGS

Price Memorial Hall stands on the foundations of the old Government Mint and was named in honor of William P. Price, founder of North Georgia College. It contains several class rooms, the Chapel, Band Room, Book Store and Library.

Academic Hall is the main academic building of the college. Besides class rooms, it accommodates the laboratories for Chemistry, Biology and Home Economics, and offices for the President, Dean, Registrar, Military Department and Treasurer.

Company Barracks and Band House provide living quarters for 150 men. Each building is under the immediate supervision of resident members of the faculty, who give their personal attention to the needs of the individual student.

Moore Hall, a two-story frame building adjacent to the
campus and formerly occupied as a residence for young women, is now an additional barracks for men. It is equipped with steam heat, electric lights and hot and cold running water.

Sanford Hall is the new dormitory for young women recently completed and dedicated in honor of Dr. S. V. Sanford, Chancellor of the University System of Georgia. This is a beautiful two-story, absolutely fire-proof building of steel, concrete and brick construction. It is equipped in the most modern manner and has venetian blinds and asphalt tile floors throughout. The spacious social room is the center of the college social life.

All men, except those who reside in Dahlonega and those who are able to make approved arrangements elsewhere, are required to live in the barracks, or in other quarters provided by the college for the accommodation of additional students.

Control of the barracks is vested in the President and faculty. The Commandant of Cadets is the executive officer for the enforcement of regulations.

Young women not living in their own homes or with near relatives are expected to reside in the dormitory, unless other arrangements are approved by the Dean of Women and the President. In no case may young women reside in other than officially approved homes, and all plans for residence outside the dormitory must be submitted to the college officials before final arrangements are made. Irrespective of residence all are subject to the general college regulations.

Alumni Hall is the gift of the alumni and other former students. It is the college gymnasium and contains the basketball court and the indoor rifle range. The building is an important social center of the college; here are held the dances, informal socials and other college functions.

Library

The library contains some 6,500 books, and the leading magazines are found on the reading tables.

The books and periodicals have been carefully selected, and from year to year there is an increased interest in the library for reference and general reading purposes. New books are regularly being added to meet the growing demands of the various departments.

The library is open to students, faculty and citizens alike, and a trained librarian seeks to make it of educational and cultural value to both the college and the community.
FRESHMAN WEEK

The days, September 17, 18, 19 and 20, are designated as "Freshman Week." All Freshmen are expected to report on Thursday, September 16, on which day the dormitories open to them.

Sophomores will not report until Tuesday, September 21. Registration of all students is completed September 21 and class work begins Wednesday, September 22.

During Freshman Week, the new students are introduced to the college atmosphere, the buildings and the library; they also become acquainted with the North Georgia ideals and purposes. During this period required physical examinations and placement tests are taken, and an especial effort is made to select for each one a program of studies suited to his needs and preparation. The faculty and selected upper classmen assist the Freshmen in making the best possible start in college life.

ARTICLES BROUGHT FROM HOME

Dormitory rooms are furnished with single beds, mattresses, tables, chairs, electric lights, and other necessary furniture, but each student must provide towels, a pillow, two pillow cases, four sheets, and blankets and other personal articles.

Such personal articles as the student will bring from home may be shipped by express or otherwise via Gainesville, Georgia, to P. M. Hutcherson, Superintendent of Dormitories, North Georgia College, Dahlonega, Georgia, so as to reach their destination about a week before the student expects to arrive. It is, of course, satisfactory for the student to bring a trunk at the same time he or she comes to the college. Names of owners should be printed or written on trunks or other packages in such a way that they will not be effaced in shipment.

COLLEGE EXPENSES

North Georgia College, as one of the units of the University System, furnishes two years of college training at surprisingly small expense. There is no charge for tuition, whereas academic fees are almost nominal. The college dairy, gardens, farm and orchard enable the Dining Hall Matron to serve superior meals at actual minimum cost.

Personal expenses for both men and women may be kept as low as the individual students and parents wish; every condition favors economy.
PAYMENT OF BILLS

Fees and deposits are paid in advance at the beginning of each quarter, but board and room rent may be paid either by the quarter (three payments) or by a special eight-payment plan outlined below under the heading, Board and Room. This special plan of distributed payments, requiring minimum outlay at any time, enables many students to be in college who otherwise could not attend.

ACADEMIC FEE

The academic fee is $40.50 for the college year; this is paid by the quarter on the following dates:

- September 21 . . . . . . $13.50
- January 3 . . . . . . $13.50
- March 24 . . . . . . $13.50

For out-of-state students, the academic fee is $76.50, and each payment will be $25.50.

Payment of the Academic Fee also entitles the student to admission to all athletic events, lyceum entertainments, glee club concerts, dramatic club programs, and to a subscription to The Cadet Bugler.

HONOR STUDENT SCHOLARSHIP

The First Honor Graduate of any fully accredited high school in Georgia is entitled to an Honor Student Scholarship valued at $40.50, which is the full amount of the academic fee. Such a student must be certified to the President of the College on a special blank furnished upon request to the High School Superintendent and returned by him directly to the President. Honor Scholarships must be used during the academic year immediately following high school graduation.

BOARD AND ROOM

The charge for board and room rent is $144.00 for the college year, and all payments must be made in advance. In line with the policy prescribed by the Board of Regents, open accounts cannot be carried.

Following are the dates on which payments for board and room, or for board only in case the student rooms off the campus, must be made; no extension of time can be granted. The
amounts indicated are based on the special eight-payment plan which is proving so convenient for many students and patrons.

* If a room reservation is desired this payment, $16.00 together with the Dormitory Breakage Deposit, $2.50, must be paid when application is filed. Rooms are reserved in the order in which applications and advance deposits are received. Since requests for rooms exceed accommodations, both old and new students are urged to forward applications as early as possible. Should attendance later become impossible, the entire deposit will be refunded upon request. A room reservation blank will be found at the back of this catalogue.

**TOTAL COSTS**

The total cost for board, room and academic fees, to all students living in the State, is $184.50; an average of approximately $20.00 a month.

For First Honor students this cost is reduced to $144.00 during their Freshman year. This surprisingly low cost represents "A Service from the State to the State."

The estimated necessary cost of laundry, dry cleaning and pressing is $20.00 for the year, whereas approximately the same amount will be adequate for books. Cost of books, after the initial purchase, may be considerably reduced should the student wish to sell his used texts; these generally bring about two-thirds of the original price.

**LABORATORY FEES**

Should the student’s study program include any of the following courses, small fees intended to cover actual cost of demon-
stratation or of materials are paid at time of registration:

Chemistry: $3.00 a Quarter, or $6.00 for the year.
*Human Biology: $3.00 (Payable once).
*Physical Science: $2.00 a Quarter, or $4.00 for the year.
Zoology: $1.00 a Quarter, or $2.00 for the year.
Physics: $2.00 a Quarter, or $4.00 for the year.
Clothing: $1.00.
Foods: $2.00.
Typewriting: $3.00 a Quarter.

* The laboratory fees in Human Biology and Physical Science cover also the cost of the Syllabus used as the textbook for the course.

BREAKAGE DEPOSITS

The following are deposits only and are returnable at the end of the year if there is no damage to college property or equipment. Laboratory deposits are required only if the science courses are taken. All deposits are paid at time of registration.

Dormitory Deposit . . . . . . . . . . . . . $2.50
Laboratory Deposits:
  Chemistry . . . . . . . . . . . . . . . . . . . $4.00
  Zoology . . . . . . . . . . . . . . . . . . . $2.00
*Military Deposit (boys only) . . . . . . . . . $5.00

* The refund of the Military Deposit is subject to the special residence regulation explained under "Military Uniform."

MILITARY UNIFORM

All male students, except those whose first registration is for the Spring Quarter, are organized as a Corps of Cadets, and each is required to provide himself with the regulation college military uniforms. The approximate net manufacturer's cost of the uniforms is $69.00, of which amount the United States Government pays $9.00. Uniforms are purchased after arrival at the college, and measurements are taken within five days after registration, at which time payment is made.

The Government allowance of $9.00, toward the purchase of uniforms, is available for both first and second year men, but it is granted on the assumption that there will be nine months of continuous residence in college; should the student withdraw earlier, he must refund $1.00 for each month his residence is shortened.
That there may be no competition in dress and that parents and students may be freed from the heavy expense of a replenished civilian wardrobe, civilian clothes are not permitted. The uniforms, therefore, effect a very great economy in clothing costs covering as they do every major item of wardrobe expense. With reasonable care, the original uniforms are sufficient for the two years, as the Government allowance to second-year men should adequately replace all worn articles. On articles of uniform equipment there is frequently a resale value of approximately 35% at the end of two years, in which cases the clothing costs are reduced to about $20.00 for each year of college residence.

Through The Uniform Exchange, operated without profit by the College, good second-hand articles may frequently be purchased at reduced prices, but this opportunity is necessarily limited by supply and appropriate sizes. Used equipment must be approved by the Military authorities before purchase is made. While certain economies may be effected through The Exchange, the purchase of absolutely new equipment throughout is strongly recommended. Students should come to the College prepared to meet, if necessary, this maximum expense.

The official uniforms for fall, winter and spring wear include: one blouse, two pairs wool slacks, two pairs khaki slacks, two pairs white ducks, two wool shirts, two khaki shirts, pair black shoes, sweater, dress cap, wool overseas cap, khaki overseas cap, leather belt, khaki belt, military tie, four shoulder patches, set of ornaments and pair of overalls.

The purchase of the sweater, costing about $5.00, is optional as the cadet may wear the blouse instead. However, if a wrap is worn the uniform color is required; various civilian colors are not permitted. Any pair of black shoes is satisfactory, but it is believed that outside purchases are more expensive. It is recommended that shoes be purchased through the College unless a good pair is already available.

First-year students find it convenient to deposit $60.00 with the college for the purchase of uniform equipment, with the understanding that any unused portion will be immediately refunded upon request. For second-year men, this deposit need not exceed $15.00.

GYMNASIUM SUIT FOR YOUNG WOMEN

For use in the gymnasium each young woman must provide herself with the regulation college gymnasium suit, costing approximately $1.75, a pair of white tennis or gymnasium shoes
and white socks. The gymnasium suit should not be purchased prior to college entrance; orders will be mailed directly from the college after the classes have been organized and measurements taken.

COLLEGE BOOK STORE

All text books and necessary classroom supplies can be purchased at the College Book Store. In no case will books be charged. Since a number of the courses are offered a second time during the year, used texts may frequently be sold to other students at approximately two-thirds the original cost.

CHARLES MCDONALD BROWN FUND

From the Charles McDonald Brown Scholarship Fund the college receives $1,800 annually. This is to aid worthy young men who are unable to pay their way through college. The applicant must be at least eighteen years of age, in good health, of proven intellectual ability, and must reside in one of the following counties: Rabun, Habersham, Union, Towns, Fannin, Dawson, Murray, White, Lumpkin, Gilmer, Pickens, Cherokee, Forsyth, Stephens, Banks, Hall, Madison and Hart in Georgia, and Oconee, Anderson and Pickens in South Carolina.

It is the purpose of the bequest to aid one young man from each of these counties, but in no case may the grant exceed $90.00 for the year. All applications for a Brown Fund loan must be sent to the chairman of the Committee, Mr. John C. Barnes, Dahlonega, Ga., on or before September 1st.

ADMISSION OF STUDENTS

Students who expect to room on the Campus should fill in the application blank to be found at the back of this catalogue, and mail it to The President, North Georgia College, Dahlonega, Georgia. Upon receipt of this Application for Admission, and of the $18.50 advance deposit, quarters in the college dormitories will be reserved. This advance deposit constitutes part payment of the regular charges for board and room rent; it will be refunded upon request.

Each Freshman must furnish the college, through his principal or superintendent, a transcript of his high school record. Blanks for this purpose may be secured from the office of President or Registrar, and the transcript must be mailed directly to the College by the high school official.
THE UNIVERSITY SYSTEM

ENTRANCE UNITS

The entrance requirement is graduation from an accredited four-year high school with not less than fifteen units acceptable for college entrance. These units must be distributed as follows:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td>3</td>
</tr>
<tr>
<td>Mathematics</td>
<td>2</td>
</tr>
<tr>
<td>Science</td>
<td>1</td>
</tr>
<tr>
<td>Social Studies</td>
<td>2</td>
</tr>
<tr>
<td>Elective</td>
<td>7</td>
</tr>
</tbody>
</table>

SPECIAL STUDENTS

Applicants, twenty years of age or over, who are not high school graduates, may be admitted as Special Students provided they satisfy the Committee on Admission of their ability to profit by work of college grade. Entrance requirements must be fully met before special students may become candidates for the diploma.

CORRESPONDENCE COURSES

North Georgia College offers no Correspondence or Home Study courses. Those who cannot enroll for residence work at the college should communicate with Dr. J. C. Wardlaw, Director, Division of General Extension, University System of Georgia, 223 Walton Street, N. W., Atlanta, Georgia.

ACADEMIC REGULATIONS

CREDITS

Credits are expressed in terms of courses. One "course" is equivalent to five or six recitations a week for one quarter of twelve weeks, or to three and one-third semester hours. For each hour of recitation, two of preparation are expected.

GRADING SYSTEM

The class-room and laboratory work of all students is graded by letters which may be interpreted as follows:
A—90-100. Distinctly superior.
B—80-89. Above the average.
C—70-79. Work of the average student.
D—60-69. The lowest passing grade; below average. E—Conditional Failure; work not of passing quality.

E may be removed during the following quarter by a second examination, additional work, higher grades in a continuation course, or other methods satisfactory to the instructor; the final grade can not be higher than D. A condition not removed within the stipulated time becomes F.

F—Failure. F can be removed only by repeating the course in class.

I—Incomplete Work. I indicates the withholding of a grade because of prolonged illness, or the consent of the Registrar. I must be removed within six weeks, otherwise it automatically becomes E.

QUALITY POINTS

Quality points are awarded on the basis of passing grades as follows: "A" for any full course, six points; "B," four points; "C," two points. The grade of "D" carries no Quality Points, and thus actually delays or prevents promotion and graduation.

For graduation, at least thirty-six Quality Points, or an average of "C," must be earned in courses other than Military Science and Physical Education. Grades of C or higher must be earned in at least three-fourths of all courses completed.

COLLEGE HONOR

Particularly in military colleges does a sense of self-respect, dependability and high honor prevail. Hence at North Georgia any degree of dishonesty in academic or military work, or the giving or receiving of unauthorized help in any quiz, test or examination is regarded as one of the most serious offenses that can be committed against the honor of the college and the student group.

CLASS ATTENDANCE

1. Regular class attendance is a student obligation. Absence from class or laboratory lowers grades and makes it more difficult to secure a passing average. In case of unsatisfactory scholarship, for any cause, the instructor is at liberty to require conferences, expect additional preparation or make further assignments as may seem necessary for the student's final success.

2. There are no excused absences from class or chapel, except those necessitated by trips of athletic teams, the band, the glee club, or debating clubs; illness certified by the physician,
Commandant or Dean of Women immediately upon the student's return to college; death or critical illness in the student's family; or permission, secured in advance from the President or his representative. In every case, the student is responsible to his instructors for the satisfactory make-up of all work missed.

3. When an instructor reports that a student has incurred as many as three unexcused absences in a course, the Dean places the student on probation and sends notice to the parents. Further absence may cause the student to be dropped from the College.

4. All absences are reported until the instructors are notified in writing by the Registrar that permission has been given to discontinue the course.

5. Absences are reported daily to the Registrar, who notifies the Commandant and the Dean of Women. Each cadet is directly responsible to the Commandant for all absences, irrespective of the application of any of the foregoing academic regulations.

Absences of the young women are excused only by the Dean of Women.

CHANGE OF CLASSIFICATION

Individual study programs are changed only by written permission from the Dean. Courses are not "dropped."

Unless for very exceptional reasons, all changes in study programs must be made during the first ten days of the quarter.

Withdrawal from a course after the first four weeks results in a grade of "F" being entered on the permanent record.

SPECIAL REGISTRATION FEES

Former students who enter after the Fall quarter registration days pay a fee of $1.00 for each day late until a maximum of $5.00 is reached, with no exception for any reason, unless the student has been unable, on account of illness, to reach the College at registration periods; such cases will be excused on doctor's certificate only.

The college Calendar is definite as to all dates, and permission for early departure or late return can not be granted. In view of the Thanksgiving week-end recess, all classes will meet at the scheduled hours on the two preceding Saturdays; permission to be off campus on these days should not be requested.

A student desiring to continue his college work after being absent from any class, laboratory or other exercise on the day im-
Immediately preceding or immediately following Thanksgiving recess, Christmas recess, Spring recess, or other college holidays, shall pay a fee of $2.00 for each day on which the absence occurred, and a fee of $1.00 for each additional day until the maximum of $7.00 is reached. Only certified illness of the student constitutes an acceptable excuse.

STUDENT WORK LOAD

Three courses, other than Military or Physical Education, constitute the maximum schedule unless an average of B was maintained during the preceding quarter. In no case may more than four academic courses be carried.

Second-year students with a general minimum average of C and a similar average for the fifth term may be permitted four courses during the sixth term, provided they definitely declare a desire to qualify for the College Diploma, and provided the fourth subject is immediately dropped should reports to the Registrar indicate unsatisfactory work.

REPORTS

D, the lowest passing grade, represents work below the average, and actually tends to prevent promotion and graduation. Such work is, therefore, regarded as being unsatisfactory, and at each mid-term, the student and parents are notified. These reports on "unsatisfactory" work should be regarded as friendly and timely warnings.

At the close of each quarter final reports are mailed to parents or guardians, provided bills have been paid and all library obligations met.

REQUIREMENTS FOR RESIDENCE

Following are the uniform requirements for residence adopted by the University Council for the entire University System of Georgia:

1. A student earning credit in less than one course during any quarter shall not be eligible to register for the succeeding quarter.

2. Any student who in any quarter earns credit for less than two courses shall be placed on probation for the succeeding quarter. This probation shall continue until the student has passed for one quarter a normal load of work of three courses.

3. Any student while on probation who earns credit in less
than two courses in one quarter shall not be eligible to register for the succeeding quarter.

4. A student who, at the end of his fourth or any succeeding quarter, has failed to earn 50 per cent of the number of quality points required for an average of C in all the courses passed to that time shall be ineligible to register for the next succeeding quarter.

5. Students dismissed for defective scholarship may register in the same institution, or in another unit of the System, after an absence of one academic quarter.

6. The courses referred to above are exclusive of the usual required courses in Physical Education or Military Science.

7. The institutions concerned will determine the eligibility of all students who fail to comply with the regulations as set forth above because of illness or because of properly permitted less than a normal load of work.

8. While the summer quarter is to be considered as a regular quarter by those institutions who maintain a summer quarter, students are not to be excluded from this quarter under the action of the above rules, but are to be allowed to make up deficiencies in the summer quarter of the institution concerned or other approved Summer Schools. However, credit may not be earned in more than two courses in any six weeks' term. Students excluded under the action of the rules for poor work done during the spring quarter are to be excluded during the fall quarter if they do not take advantage of the opportunity to make up their deficiencies during the summer quarter.

9. The above rules constitute the minimum conditions under which students can remain in any institution in the University System who are deficient in scholarship. It is understood, however, that any institution may in exceptional cases dismiss a student for deficiencies in scholarship at any time, even though he is not excluded under the above rules.

10. At the option of the administration of any institution of the University System any of the above regulations may be modified or suspended in so far as it or they may apply to a student during the first quarter of the first year of his college work.

ELIGIBILITY

No student may represent the College in athletics, debate, glee club or other intercollegiate or extra-curricular activity who makes below D in any subject during the preceding quarter. One grade below D may be excused, however, if the remaining grades
average C or above. "Satisfactory" in Military is regarded as being equivalent to C or higher. "Unsatisfactory" in Military is considered as being below C.

A student on probation will not be allowed to take part in extra-curricular activities.

The above eligibility regulations govern also the holding of the following student publication offices during the year 1937-'38: Editor and Business Manager of The Cyclops, and Editor and Business Manager of The Cadet Bugler. Beginning with the Fall Quarter of 1938, the minimum eligibility requirement for the holding of these offices will be an academic average of "C" during preceding quarters.

HONORS AND AWARDS

Honors List.

An average of B, with no grade below C, entitles the student to a place on the Honors List, provided at least three academic courses are being carried. The Honors List is published each quarter.

Freshmen who earn at least forty-five Quality Points in nine academic subjects receive special recognition on Commencement Day.

Clark Mathematics Medal.

This medal was donated to the college about fifty years ago by the late Hon. Harlow Clark. It is annually awarded to the member of the Sophomore Class who, during his Freshman and Sophomore years, establishes the highest scholarship average in not less than three courses in Mathematics.

Public Speaking Cash Prize.

Two cash prizes are annually donated by friends of the College; these are awarded at Commencement for excellence in public speech.

The "Y" Cup.

The Memorial Committee of the North Georgia College Y. M. C. A. annually awards its Memorial trophy to the student whose campus influence has been outstanding. The basis of the award is high scholastic average, interest in literary activities, general campus influence and quality of religious leadership within both the college and the community.
GRADUATION REQUIREMENTS

Eighteen academic courses besides two in military science (men) or physical education (women) are required for graduation. Ten courses, at least, must be completed in North Georgia College.

The academic courses must be distributed as follows:

- English .......................................... 3 courses
- Social Science .................................. 4 courses
- Mathematics .................................... 1 course
- Biological Science ............................. 2 courses
- Physical Science ................................ 2 courses
- *French .......................................... 2 courses
- Elective Sequences .............................. 4 courses

*French is not an absolute requirement for graduation, but since a large proportion of the graduates of North Georgia College expect to work toward a degree in some senior college, at least two courses in modern language are strongly urged as a part of the junior college program of every student. The student should acquaint the Registrar and Classification Committee with his plans for future study that helpful advice and guidance may be given.

If, however, the student intends to complete his college work at the end of two years, that is, if he wishes to pursue a "terminal course," the number of electives may be increased through the omission of language, to six.

A minimum of thirty-six Quality Points in the academic courses must be presented. A minimum average of C must be maintained during the last three quarters regardless of the number of Quality Points previously earned.

A Diploma Fee of $3.00 covering the cost of the Junior College Diploma is required.

GRADUATION WITH HONORS

Students who have earned from eighty-one to ninety-nine Quality Points on not less than eighteen academic courses will be graduated with Honors. Those who have earned from one hundred to one hundred six Quality Points will be graduated with High Honors.
FRESHMAN—SOPHOMORE CURRICULA

The curricula for the junior colleges and junior divisions of senior colleges of the University System are followed at North Georgia College. The required and elective courses for both the Freshman and Sophomore years are indicated below.

### Freshman Year

<table>
<thead>
<tr>
<th>Required:</th>
<th>Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>Social Studies 1, 2, 3..................</td>
<td>3</td>
</tr>
<tr>
<td>Human Biology or</td>
<td></td>
</tr>
<tr>
<td>Physical Science........................</td>
<td>2</td>
</tr>
<tr>
<td>*English Composition....................</td>
<td>1</td>
</tr>
<tr>
<td>*French</td>
<td>2</td>

ELECTIVE SEQUENCES

The University System of Georgia is working toward uniform requirements in the Freshman year and, to a limited extent, in the Sophomore year. This enables a student to transfer from one university unit to another without loss of credit, and at the same time assures a broad general education as a foundation for useful citizenship or further study toward a degree. On the other hand, freedom of individual choice is preserved through provision for certain elective courses. These should be chosen with thought and purpose; hence they are referred to as "elective sequences." The choice of these sequences naturally depends upon the time the student can remain in college, his preference as to the degree which he may finally seek, and the type of work he wishes later to do.
Elective sequences may be chosen from the following departments:

Chemistry  
Commerce  
Education  
English  
French  
Home Economics  
Mathematics  
Physics  
Psychology  
Social Sciences  
Zoology

CHOICE OF ELECTIVES

Students who will later seek the Bachelor of Arts degree should take the uniform Freshman and Sophomore work including two courses in French.

Those working for the Bachelor of Science degree should take the uniform courses, including two courses in French, and in addition two in Chemistry, Physics or Zoology. Further work in Mathematics would prove helpful.

For the Bachelor of Arts or Bachelor of Science in Education degree, Orientation in Education, Educational Psychology and School and Society should be taken in addition to the uniform basic course including French. If the student is to seek the B.S. degree in Elementary Education, French may be omitted.

For the Bachelor of Science in Commerce degree, the uniform courses including French should be completed, and also Principles of Economics, World Resources and Industries, and Accounting.

Women students working toward the Bachelor of Science in Home Economics degree should take Introductory Home Economics, Elementary and Intermediate Clothing and Foods. They should also substitute Chemistry 21-22 for Physical Science.

DESCRIPTION OF COURSES

DEPARTMENT OF BIOLOGY

Biology 1, Fall and Winter Quarters; Biology 2, Winter and Spring Quarters. Five or six hours per week. Lectures, demonstrations, conferences.

The aim of this course is to give the student some acquaintance with the vital phenomena in general and their application to the human organism. The first half will deal particularly with the problems of
the individual. Its subject matter will include an introduction to the fundamental facts of biology, human anatomy, and physiology, and the maintenance of health in the individual. The second half will deal with problems of the racial life of man. In this phase of the course will be included studies of public health problems, reproduction, genetics and eugenics, and racial development. Fee $3.00.

Fall and Winter Quarters. Five or six hours per week. Lecture, recitation, laboratory, conferences.

An introductory course in which the fundamental principles and problems of biology, and a survey of animal types are included. A study of the vital processes in lower forms is made as a basis for better understanding of similar processes in the higher forms. Laboratory embraces a special study of representative types. Fee $1.00 per quarter; deposit, $2.00.

DEPARTMENT OF COMMERCE

Fall and Spring Quarters. Five or six recitations per week.

A study of those social phenomena that are due to the wealth-getting and wealth-using activities of man. Production and consumption; value and exchange; distribution of income; problems of industry, labor, and government control; and public finance. The above subjects constitute the divisions of the field that are studied, the object being to develop principles as a guide for human action.

Winter and Spring Quarters. Five or six recitations per week.

In this course the subject of law is treated in an essentially practical manner. The course covers such subjects as: The basis of legal liability; acquiring and transferring real and personal property; contracts; negotiable instruments; agency; sales; corporations; partnerships; employer and employee; insurance; deeds of conveyances; mortgages; landlord and tenant; business crimes; taxation; and domestic relations. Reference in every subject is made to the Georgia law. Principles are dwelt upon to some extent and the student is referred to decided cases to find the nature of the reasoning which brought forth the principles in question.

Spring Quarter. Five or six recitations per week.

It is the purpose of this course to give an introductory view of the tasks falling to the business executive and the methods he uses in accomplishing these tasks. Location of plant; administration of personnel, market problems, finance, production; the forms of business unit; and the basic features of administration, are among the subjects discussed. Business problems and cases are given to the student for discussion and solution.

55. World Resources and Industries. Single course.

Fall and Winter Quarters. Five or six recitations per week.

This course is intended to give an understanding of the cultural, technological, institutional, social, as well as the natural or physical basis of the modern economic system. It utilizes the materials that the allied social sciences have brought to light, especially geography, human, social, cultural, and economic, and vitalizes the study of economics. It places emphasis upon concepts as well as factual knowledge.

56-57. Introductory Accounting. Double course.

Accounting 56, Fall Quarter; Accounting 57, Winter Quarter. Three lecture periods and three laboratory periods per week.

A study of the fundamental principles of accounting, both theoretically and practically. It is intended to give the student a working knowledge of the types of business organization, proper record keeping, negotiable instruments, preparation and interpretation of statements, and other fundamentals. The purpose of the course is to prepare the student to continue the study in Advanced Accounting, or to be of practical benefit to those who terminate their college work at the end of two years.

A course in the Gregg system of Shorthand continuing through the Fall, Winter and Spring quarters, three or more hours a week. Phrase and sentence drills, dictation, speed study and practice. Attention is given to Business Spelling.

This is a terminal non-credit course open to qualified second-year students whose previous academic average is not less than "C."
65-6-7. Typewriting.

A terminal, non-credit course continuing through the Fall, Winter and Spring quarters, three or more hours a week. Keyboard mastery, correct touch, posture, mechanics of letter writing and use of carbon paper. Attention is given to Business English. Tabulations and various forms of clerical work. Open only to students enrolled for Shorthand, unless in special cases permission is obtained from the Dean. Practice fee, $3.00 each quarter.

DEPARTMENT OF EDUCATION AND PSYCHOLOGY

1. Orientation in Education. Single course.

Fall and Spring Quarters. Five or six recitations per week.

This is an introductory course, intended to orient the student to the field of education and to prepare him for a study of specialized problems. Detailed study is made of the following: The development of our school system; the organization and administration of education in the United States; educational vocational guidance; learning how to study; recent developments in education; health education; character education; aims and objectives in education; the curriculum; the teaching process; essential qualities of a good teacher; teaching as a life work.

50. Educational Psychology. Single course.

Winter and Spring Quarters. Five or six recitations per week.

The individual and social aspects of the principles of general psychology are applied to the problems of education. Man’s equipment for learning; the learning processes; types of learning; laws of learning; improvement of learning; transfer of training; factors influencing learning and efficiency; problems of motivation; adjustment, discipline and guidance; the measurement of intelligence and achievement; the construction and use of examinations; heredity and environment.

53. The School and Society. Single course.

Spring Quarter. Five or six recitations per week.

Since we must recognize that the issues in education are born of the critical issues in society, and since many of the problems of the school are closely related to the problem of the social order, the purpose of this course is to give the student a comprehensive picture of the activities and needs of children, youth and adults in the social order. Consideration is given to the place and function of the school in a changing society, including the principles of education.
51. General Psychology.  Single course.

   Winter Quarter.  Five or six recitations per week.

   The work in this course deals chiefly with habit-formation; attention; sensation; perception; instinctive tendencies; memory; association and economy of learning; the effective life; the thought processes. The course includes the fundamental facts and laws of psychology and is given so as to indicate something of the various problems in the field of psychology, its relations to other fields, and some of the more important applications of psychology, especially in the fields of business and social relationships.

Teacher Certification

The professional courses in Education required for the Junior College Certificates are Orientation in Education, Educational Psychology, and School and Society. It is recommended that students who wish to secure the State Junior College Certificate choose these courses during the Sophomore year.

DEPARTMENT OF ENGLISH

0. Remedial English.  Single course.

   Fall, Winter and Spring Quarters.  Five or six recitations per week.  Non-credit course.

   This is a course in grammar and good usage given throughout the University System to Freshmen who are found by a placement test to be deficient in this subject.  Every effort is made to teach the student to write and speak correctly and forcibly and to read understandably. Theme writing and parallel reading required.

   Fall, Winter and Spring Quarters.  Five or six recitations per week.

   This is a course in Composition and Rhetoric for those Freshmen who pass the University Placement Test. A good handbook of writing will form the basis of the course, but a study of essays of modern thought and frequent discussions of articles of contemporary opinion will also be included. Comprehensive reading on the part of the student will be encouraged. Parallel reading and intensive practice in theme writing will be required.
53. Humanities I. Single course.

Fall, Winter and Spring Quarters. Five or six recitations per week.

This course generously surveys world literature and culture from the earliest beginnings to the Seventeenth century. It includes readings in Hebraic, Asiatic, Greek, Latin, early English, Spanish and French literatures, followed by extensive reading in the literature of the Renaissance. Emphasis is given the architecture, sculpture, and painting which parallel this literature.

54. Humanities II. Single course.

Fall, Winter and Spring Quarters. Five or six recitations per week.

This course surveys world literature from 1600 to the present, considering essays, poetry, drama, the novel and the short story. It also treats such related subjects as painting, sculpture, architecture, music and city planning.

DEPARTMENT OF FRENCH

Winter Quarter. Credited only as first half of a double course. Five or six recitations per week.

Elementary grammar, pronunciation, and reading.

Spring Quarter. Prerequisite: French 1. Five or six recitations per week.

Mastery of pronunciation, continuation of grammar, and rapid reading of easy French.

Fall Quarter. Prerequisite: French 1-2 or two entrance units in French. Five or six recitations per week.

Mastery of pronunciation and grammar and the building of a standard vocabulary in reading of more difficult texts.
Winter Quarter. Five or six recitations per week.
Extensive class and collateral reading designed to develop the ability to read average French books and newspapers with ease.

DEPARTMENT OF HOME ECONOMICS

10. Introductory Home Economics. Single course.
Fall Quarter. Five recitations per week. Open to all students.
A course which deals with problems of self-discovery and self-direction. Designed to help the student to adjust in a new environment, utilizing facilities for promoting personal development through right social relationships and avocational leisure-time pursuits. Personality, aptitudes and interests are checked against contemplated vocations in order to insure wise vocational choices. The latter part of the course includes the basic facts of the interrelation of family and society under changing conditions and forces of present-day living.

Winter and Spring Quarters. Two recitations and three laboratory periods per week. Open to all students showing ability to meet the standard set for the course.
This course presents the fundamental principles involved in the planning, construction, purchase and care of attractive and suitable clothing. Problems based upon the interests and needs of the students will afford actual experience in applying these principles. Garment construction will be the basis of laboratory work. Assigned reading, illustrative material, conferences and demonstrations. Fee $1.00.

Fall and Spring Quarters. Two recitations and three laboratory periods per week.
This course includes a review of the principles of clothing construction; a study of design from the standpoint of personality, color, and corrective dress; and some of the more advanced problems in selection of clothing and in dress construction. Emphasis is given to individual problems which afford opportunity for originality in design and
construction. Class demonstrations and style shows are included. Fee, $1.00.

52. Foods. Single course.

Fall and Winter Quarters. Two recitations and three laboratory periods per week. Prerequisite or parallel: Chemistry 21-22.

A practical course to present the facts and principles which govern food selection, preparation and table service. The basic facts of nutrition along with their application to individual needs are studied. Field trips in marketing are included. Fee, $2.00.

54. Home Planning and Management. Single course.

Winter Quarter. Five recitations per week. Open to all Sophomore girls.

Designed to promote more effective living in the well-managed home. Beauty, comfort and efficiency in the home environment through scientific planning and budgeting.

55. Foods—Home Cookery and Table Service. Single course.

Spring Quarter. Two recitations and three laboratory periods per week. Elective as a junior college terminal course; does not carry senior college credit.

This course includes the application of the general principles of cookery to the preparation of menus and meals for the home, as well as a study and execution of different forms of table service as applied to different types of meals for special occasions. Georgia food products will be used for laboratory and practice wherever possible. Fee, $2.00.

DEPARTMENT OF MATHEMATICS

Fall, Winter and Spring Quarters. Five or six recitations per week for one quarter. This course is required of all Freshmen who do not show proficiency in mathematics.

This course embraces algebra, theory of investment, statistics and trigonometric functions, and is intended as a terminal course for those students who need a minimum of mathematics, especially for those who do not plan to go beyond the work of a junior college. Those who are planning to major in physical science or to teach mathematics in the high school are advised to take further courses in mathematics.

Fall and Winter Quarters. Five or six recitations per week for one quarter. Prerequisite to College Algebra.

Angles and their measure; trigonometry of the right triangle, with exercises in the solution of right triangles and use of natural function tables. The functions of obtuse, fractional and multiple angles, with exercises in their application to trigonometric identities. The trigonometry of the oblique triangle, the law of sines, the law of cosines and the law of tangents. Logarithms with application to and exercises in numerical and trigonometric calculations.

Winter and Spring Quarters. Prerequisite: Mathematics 20 and 21. Five or six recitations per week for one quarter.

Quadratics; the Binomial Theorem; Complex numbers; determinants; probability; the theory of equations; progressions; finite and infinite series and mathematical theory of investments.

Winter and Spring Quarters. Five or six recitations per week for one quarter. Prerequisite: Mathematics 21.

An analytical study of coordinate systems; the straight line; the circles; parabolas, ellipses and a few of the more common higher plane curves. Algebraic, trigonometric and geometric principles stressed.

Spring Quarter. Prerequisite: Mathematics 52.

This course is designed to give the student a fair working knowledge of surveying instruments and their care and use. Field work in chaining, leveling, compass, plane table and transit surveys. Office work in calculations from field notes and map making. The course is given from mimeographed notes and library references, and will conform to methods and forms in use in good engineering practice.

DEPARTMENT OF PHYSICAL EDUCATION

The purpose of the Department of Physical Education is to bring health, vigor and recreation to every student. All men, unless physically disqualified, enroll for Military and all women take Physical Edu-
cation throughout the year. In addition to the Military work, there is an extensive program of recreational activities for the men, particularly planned for those who do not take an active part in intercollegiate athletics. Opportunity is given every student to participate in horse shoes, touch football, boxing, wrestling, basketball, handball, tennis, cross country, badminton, track, soft ball, paddle tennis and table tennis.

Interest in this intramural program is heightened because of the inter-company competition between the R. O. T. C. teams organized in all these sports.

Courses for Women

10. Freshman Physical Education. Single course.

This course in Physical Education continues through Fall, Winter and Spring Quarters with two activities and one lecture period per week.

This is an orientation course in Physical Education. The Fall Quarter includes Volley Ball, Basketball, Folk Dancing, Bar Work, Tumbling, Marching and low organized games. The Winter Quarter has no activity period, but lectures stress the techniques of activities to be used in the Spring; also, lectures and the use of a Physical Education textbook. The Spring Quarter program includes Deck Tennis, Badminton, Shuffleboard, Paddle Tennis, Tennis, Ping-Pong, Horse Shoes, Soft Ball and Folk Dancing.

This course in Physical Education continues through Fall, Winter and Spring Quarters with two activities and one lecture period per week.

It is designed for Sophomores who have had an orientation course in Physical Education. The Fall Quarter includes Volley Ball, Basketball, Folk Dancing, Bar Work, Tumbling and Pyramid Building, Formal Work, low organized games and individual gymnastics. The Winter Quarter includes instruction in American Red Cross First Aid. Three periods a week are given to this work. During this quarter no activity work is given. The Spring Quarter includes Badminton, Horse Shoes, Shuffleboard, Deck Tennis, Paddle Tennis, Tennis, Soft Ball, and Modern Dancing.

Physical Science 1, Fall and Winter Quarters; Physical Science 2, Spring Quarter. Five or six recitations per week for two quarters.

The first half of the double course will use largely the subject matter of physics and astronomy and the second half will use the subject matter of chemistry, geology and geography (physiography) to accomplish the objectives. No textbook will be adopted but a syllabus will be furnished the students containing concise statements of the more important portions of the subject matter with detailed references to selected texts where the student can find amplified treatments following the general method of the lectures. Fee, $2.00 each quarter.

Winter and Spring Quarters. Three or four lectures or recitations per week and two laboratory periods.

This is a course in General Physics: Mechanics, Heat, Electricity, Sound, and Light. Lectures, illustrations, demonstrations, recitations, quizzes, practical problems, and laboratory work.

Fee, $2.00 each quarter.

Given during 1937-38 if requested by a sufficient number of adequately prepared students. Prerequisites: Mathematics 20 or its equivalent and Plane Trigonometry.

Fall and Winter Quarters. Three or four lectures or recitations per week and two laboratory periods.

A course in general inorganic chemistry. Chemistry 21 is a presentation of the fundamental principles of chemistry, including the elements of molecular and atomic theory, formulae and equations, reaction velocity and chemical equilibrium, and the theory of ionization. Chemistry 22 is a continuation of Chemistry 21 in which the principles taken up in the preceding course are applied to the more common metallic elements. Oxidation and reduction reactions and the periodic table are taken up in detail. Fee, $3.00 each quarter.
56. Qualitative Analysis. Single course.

Spring Quarter. Three or four lecture-recitation periods and two laboratory periods per week. Prerequisite: Chemistry 21-22 with a grade of C.

A study of the metals and of the fundamental theories of qualitative analysis. The laboratory work includes the separation and detection of the common cations and anions. Fee, $3.00.

DEPARTMENT OF SOCIAL SCIENCE

Fall Quarter. Required of all Freshmen.

A glimpse of primitive man, together with his geological background. The emergence of man into civilized life. The adjustment of physical conditions to man's needs. Human reactions to the forces of nature, fear, hatred, ambition. Human adjustments, modifications and progress.

The geographical, economic, social, and political phases of historical movements are emphasized. The course is an outline of man's progress from the earliest times to the opening of the sixteenth century.

Winter Quarter. Required of all Freshmen.

This course embraces a study of man's progress for about four hundred years from the time of the discovery of America.

Spring Quarter. Required of all Freshmen.

This course is mainly concerned with man's activity throughout the earth during the last half-century.

Fall, Winter and Spring Quarters. Required of all Sophomores.

This course includes a study of the economic, social and political
position of Georgia at the present time. In order to secure the proper perspective for the course, frequent references are made to the history, government, institutions, and progress of Georgia of the past. As a means of comparison, statistical and other materials pertaining to the southeast and to the United States as a whole are utilized.

Spring Quarter. Should be elected by students who expect to pursue history courses in the senior college.

The course embraces a study of the American government of today, with only enough emphasis on the historical background to enable the student to understand the organization, growth, and functions of governmental institutions, federal and state.

56. Rural Sociology. Single course.

Fall Quarter. Five or six recitations per week.

This course is intended to give an insight and an appreciation of social life in the communities that are rural. The non-school educational institutions of Southern rural communities are studied and discussed with a view to giving a sympathetic understanding of the lives and needs of the rural people. Special and definite study is made on problems of social and economic life in Georgia. These study problems are centered around hygienic conditions, health, housing, recreation, education, religious activities, police protections, community organizations, which influence the social and economic life in the rural situation. It is proposed to take a few selected and representative counties in the State of Georgia and make a definite study of them in the light of the above conditions.
DEPARTMENT OF MILITARY SCIENCE AND TACTICS

Jonathan C. Rogers
President of the College

Major James E. Matthews, Infantry
Professor of Military Science and Tactics

Captain Paul M. Hutcherson, O. R. C.
Commandant

Sergeant R. S. McConnell, D. E. M. L.
Assistant to the P. M. S. & T.

Congress, by Acts of June 3, 1916 and June 4, 1920, authorized educational institutions throughout the United States to establish units of Reserve Officers Training Corps upon compliance with certain requirements. North Georgia College, being a "Land Grant" college, is obligated to the Government to give military training under the Act of July 2, 1862. The United States Government, in turn, provides instructors and equipment adequate to obtain maximum efficiency in this department, and each cadet receives an allowance toward the purchase of uniforms.

The Board of Inspectors sent out by the Fourth Corps Area Headquarters to reclassify military colleges of the area, divided them into three classes: "Excellent," "Satisfactory," and "Unsatisfactory." North Georgia College has been graded "EXCELLENT" since 1928.

The male students of the college are organized as a Corps of Cadets, to which all belong, whether or not they are eligible to enter the Government organization known as the Reserve Officers Training Corps. All physically fit male students are required to take a complete course in Military Science. The Corps of Cadets consists of a battalion which has a headquarters and staff, a band, and three companies. Each company, as well as the band, has its own cadet officers and non-commissioned officers chosen by the college authorities from among the older students. When selecting the cadet officers consideration is given not alone to military knowledge and drill technique, but also to academic standing, participation in general campus activities, spirit of cooperation, loyalty to the entire institution, qualities of leadership and personal character. To remain an officer an academic average of "C" must be maintained.
The discipline and conduct of the male student body is controlled largely through these cadet officers and non-commissioned officers who, in turn, are responsible to the President of the College, the Professor of Military Science and Tactics and the Commandant. They enforce the college regulations, report violations of same, supervise formations and exercises, call the rolls, report absentees, and are responsible for the care of the rooms and parts of the barracks assigned to their organization, having power to make details for the purpose.

COMMANDANT

The immediate administration of discipline is placed, under regulations made by the President and faculty, in the hands of a faculty member known as "Commandant of Cadets."

The Commandant publishes and enforces the regulations laid down by the faculty, awards punishment for violations of the rules, bringing serious offenders before the President or the Discipline Committee.

The President, as executive officer of the faculty, may at any time, request the withdrawal of a student whose spirit, influence, conduct or scholarship is unsatisfactory, even though no specific charge is preferred.

GENERAL REGULATIONS

Students must obtain permission from the President or the Dean to be absent from general college duties; permission from the Commandant must be obtained for going more than five miles from the college, and to be absent from dormitory or military duties.

Fire-arms, other than rifles issued to cadets, playing cards, fireworks of any kind, or any other article that would endanger the buildings to fire or the occupants to accident or discomfort, will not be allowed in the barracks.

Students not living in their own homes are not permitted to have automobiles at the college.

Punishment shall consist of denial of privileges, extra duty, reduction of officers to ranks, restrictions to limits, arrest, suspension, and dismissal. As restrictions and arrest are questions of honor, violations of the same are punished by dismissal. "Unfailing respect for order, morality, personal honor and the rights of others" is due the Corps from each cadet.

Hazing, fagging, personal indignities, any form of so-called
initiation of Freshmen, the exercise of unauthorized authority by one cadet over another and the exaction of any form of service of a new cadet by an old one are prohibited.

Each cadet is held strictly responsible for attention to duty, courtesy to his cadet officers and non-commissioned officers, and for the carrying out of all legitimate military orders, but cadet officers, non-commissioned officers and upper-class men in general, whether as individuals or groups, are not authorized to punish offenders or those who may be delinquent in Company or general military duties by any form of intimidation, personal indignity, fagging, the exercise of unwarranted authority or any kind of physical force.

While cadet life is largely governed by a military schedule, the Military is but a Department of the larger organization—North Georgia College. All cadet officers of every rank, as well as the cadets themselves, are, therefore, subject also to the broader regulations of the College itself, and each heartily cooperates with the members of the academic staff, the Dean of the College and the Dean of Women in carrying out academic and social policies.

Members of the R. O. T. C. unit are required to provide themselves with regulation college uniforms. These uniforms are purchased by the student after arrival at the college, and cost approximately $69.00. On the assumption that the cadet will remain in college for the full nine months' term, the Government pays nine dollars of this uniform price, thus reducing the net wholesale cost to approximately $60.00.

This equipment of uniforms should serve the cadet during his two years in college, as the Government will pay nine dollars in the sophomore year for replacement of worn articles. For detailed description of the uniforms see page 20.

ADVANTAGES OF MILITARY TRAINING

The direct advantages of military training to any individual may be summed up as follows:

(a) Discipline as a leader; of value in any life work.
(b) Training in team play and in methods of securing organized action by a group.
(c) Assurance of service as an officer in a period of national emergency.
(d) Physical training that will make him fit to pursue a civil career as well as to perform military duties.
(e) Preparation for national service, thereby fulfilling a patriotic duty.
(f) Training which develops neatness, mental alertness, respect for authority, leadership, self-reliance, confidence, courtesy and a keen sense of duty.

COURSES OF INSTRUCTION

The instruction of the Reserve Officers Training Corps is divided into two courses, the Basic and the Advanced, which correspond to the four years' college training. North Georgia being a junior college, affords instruction in the Basic course. Students who desire to continue their Reserve Officers' Training will be admitted to the Advanced course at the University of Georgia where a quota is provided for them. Those who desire to attend other institutions where ROTC is given, will receive full credit for work completed at North Georgia College.

MILITARY MEDALS AND AWARDS

INDIVIDUAL DRILL MEDAL. Awarded at commencement to the best drilled cadet.

MARKSMANSHIP MEDAL. Awarded at commencement to the cadet who has proven himself the best rifle shot for the year.

SMALL BORE COMPETITION. Awarded at commencement to the company having the highest average in small bore rifle firing.

HONOR COMPANY. This designation is given for the following year to the company rated the highest for the entire year in military proficiency, academic grades, extra-curricular activities, and personal conduct of its members.

HONOR SABER. Awarded at commencement to the outstanding cadet officer.

APPLICATION FOR ADMISSION

Application for admission to North Georgia College in September should be made on the following Blank.

Rooms are reserved in the order in which applications and reservation deposits are received. The reservation deposit of $18.50 represents the dormitory breakage deposit of $2.50 and payment of board and room rent for the first month.

Dormitory accommodations are greatly in demand; students are urged to secure reservation of room as early as possible. If later, the applicant finds attendance to be impossible, the entire deposit will be promptly refunded upon request.

APPLICATION FOR ADMISSION
TO
NORTH GEORGIA COLLEGE

Date 1937.

President,
North Georgia College,
Dahlonega, Georgia.

Dear Sir:

I apply for admission to North Georgia College, and enclose Room Reservation Deposit of $18.50. This covers dormitory breakage deposit and payment of board and room rent for the first month.

School or College last attended

Grade completed When

Graduated: (Yes or No)
