BULLETIN
North Georgia College
DAHLONEGA, GA.
1954-55 ISSUE
EIGHTY-FIRST

ISSUE

SERIES 21  JANUARY, 1954  No. 1

The North Georgia College Bulletin is published quarterly by North Georgia College.

Entered as Second Class Matter June 26, 1934, at the Post Office at Dahlonega, Georgia, under Act of August 24, 1912
September 19—Dormitories open to Freshmen for lunch. All Freshmen are expected to report during the day and to meet in the Auditorium at 8:00 p.m. Freshmen should not come to the campus before Sunday.

September 20, 21, 22, 23, 24—Freshman Week. Attendance of all Freshmen is required.

September 22  Sophomores and Upperclassmen Report
September 23  Registration of all new students for Fall Quarter
September 24  Registration of all returning students for Fall Quarter
September 25  Class Work Begins
November 24, 12:00 Noon  Thanksgiving Recess Begins
November 28, 7:30 P. M.  Thanksgiving Recess Ends
December 15-18  Fall Quarter Examinations
December 18  Christmas Vacation Begins

1955

January 3  Registration for Winter Quarter
January 4  Class Work Begins
February 14-18  Religious Emphasis Week
February 25  Constitution Examinations
March 16-19  Winter Quarter Examinations
March 19-23  Spring Recess
March 24  Registration for Spring Quarter
March 25  Class Work Begins
April 7  Honors Day
May 8  Parents’ Day
June 4  Student-Alumni Day
June 5  Commencement
June 6-9  Spring Quarter Examinations
UNIVERSITY SYSTEM OF GEORGIA

The state supported institutions of higher learning in Georgia were integrated into the University System of Georgia by legislative enactment at the regular session of the General Assembly in 1931. Under the articles of the Act all existent boards of trustees were abolished and control of the System was vested in a board of regents with all the powers and rights of the former governing boards of the several institutions. Control of the System by the Board of Regents became effective January 1, 1932.

North Georgia College is one of the senior colleges of the University System of Georgia.

FACULTY OF THE COLLEGE

Merritt E. Hoag, B.S., M.Ed.
President

JOHN DURHAM ANTHONY. Associate Professor of Biology
Transylvania University, B.S.; Emory University, A.M.; graduate study, University of Kentucky.

ROBERT H. BELCHER. Associate Professor of Chemistry
Georgia State College for Men, B.S.; University of North Carolina, M.S.; graduate study, University of North Carolina.

W. DESMOND BOOTH. Assistant Professor of English
Georgia State College for Men, B.S.; Emory University, A.M.; graduate study, University of North Carolina, University of Michigan.

MARIAN P. BOUFFARD. Assistant Professor of Education
Florida State College for Women, A.B.; George Peabody College for Teachers, A.M.; graduate study, University of Georgia, Ohio State University.

JIMMIE D. BRAY, Sergeant First Class, Inf. Instructor of Military Science
Marine School, Platoon Leaders' Course; European Command School, Non-commissioned Officers' Course.

DOROTHY BROWN. Associate Professor of English
University of Alabama, A.B., A.M.; University of Colorado, Ph.D.

T. CONN BRYAN. Professor of Social Science
Duke University, A.B.; University of North Carolina, A.M.; Duke University, Ph.D.

WALTER J. CARPENTER. Assistant Professor of Mathematics
Western Carolina College, B.S.; University of North Carolina, A.M.

CHARLES C. CHADBourn, JR. Associate Professor of English
Union College, A.B.; Columbia University, A.M.; Syracuse University, Ph.D.

CAMILLUS J. DISMUKES. Professor of Modern Languages
Birmingham Southern College, A.B.; University of North Carolina, A.M.; Laval University, Ph.D.

ALICE DONOVAN. Instructor of Home Economics
Georgia State College for Women, B.S.H.E.

GABRIEL H. ENGERRAND. Associate Professor of Modern Languages
Texas Technological College, A.B.; State University of Iowa, A.M., Ph.D.
WILLIAM T. FANNING, Sergeant First Class, Inf. Instructor of Military Science Clemson College; Far East Command Adjutant General School, Administrative Course; Provost Marshal General School, Advanced Non-commissioned Officers' Course.

HARRY B. FORESTER Professor of Biology Piedmont College, B.S.; University of Alabama, M.S.; University of Wisconsin, Ph.D.

BESSIE LEE FREEMAN Associate Professor of Home Economics Oklahoma Central State, B.S.; Oklahoma A. & M., M.S.

LORIMER B. FREEMAN Associate Professor of Business Administration University of Georgia, B.S.C., M.S.C.; graduate study, Northwestern University, Harvard University, New York University.

SUSIE M. HARRIS Librarian Piedmont College, A.B.; George Peabody College for Teachers, B.S. in L.S., M.S. in L.S.

ORVIL R. HAUSE Assistant Professor of Physical Education University of Alabama, B.S., A.M.; graduate study, University of Alabama, George Peabody College for Teachers.

MARY E. HOOD Assistant Librarian Piedmont College, A.B.; George Peabody College for Teachers, B.S. in L.S.

STEPHEN M. HUNTLEY Associate Professor of Modern Languages University of South Carolina, A.B., A.M.; University of Toulouse, Ph.D.

JAMES C. KIDD Assistant Professor of Mathematics Erskine College, A.B.; University of South Carolina, A.M.; graduate study, University of South Carolina.

WANDA JONES Demonstration Teacher North Georgia College, B.S., A.B.; University of Georgia, A.M.

ULYSSES G. MATHERLY Assistant Professor of Physical Education Wittenberg College, B.S.; University of Florida, M.P.H.; graduate study, Columbia University.

WALTER H. MURPHEY, Capt., Inf. Asst. Professor of Military Science and Tactics College de France; Airborne School, Fort Benning, Georgia.

NEWTON OAKES Professor of Business Administration University of Kentucky, B.S., A.M.; graduate study, University of Kentucky.

EWELL G. PIGG Associate Professor of Physics Central Missouri Teachers College, B.S.; George Peabody College for Teachers, A.M.; graduate study, University of Colorado.

WILLIAM P. ROBERTS Assistant Professor of Social Science Emory University, A.B.; University of North Carolina, A.M., Ph.D.

BEN W. SANDERS Assistant Professor of Biology University of Mississippi, B.S.; University of Alabama, M.S.; graduate study, University of Alabama.
TOMMY F. SATTERFIELD  Assistant Professor of Business Administration North Georgia College, B.S.; University of Tennessee, A.M.

JOHN C. SIMMS  Professor of Chemistry Millsaps College, B.S.; Vanderbilt University, M.S.; Western Reserve University, Ph.D.

JOHN T. SIMPSON, JR.  Assistant Professor of English Mississippi State College, B.S.; George Peabody College for Teachers, A.M.; graduate study, George Peabody College for Teachers, Columbia University.

ESTELLA M. SIRMONS  Assistant Professor of English LaGrange College; Emory University; Georgia State College, B.S. in Ed.

WILLIAM A. SMITH, JR., Capt., Inf.  Asst. Prof. of Military Science and Tactics The Citadel, B.S.; The Infantry School, Officers’ Basic and Advanced Courses.

ORBY SOUTHARD  Professor of Education Arkansas State Teachers College, B.S.; University of Arkansas, M.S.; University of Pittsburgh, Ph.D.

C. E. STEVENSON  Associate Professor of Education and Psychology Oglethorpe University, A.B.; George Peabody College for Teachers, A.M.; graduate study, University of Georgia, Duke University.

LAMBUTH R. TOWSON  Associate Professor of Mathematics Emory University, B.S.; University of Georgia, A.M.; graduate study, University of Chicago, University of North Carolina.

WALTER M. TURNER, Major, Inf.  Professor of Military Science and Tactics University of Florida, B.S.; The Infantry School, Officers’ Advanced Course; The Tank Destroyer School, Armor and Automotive Course; The Cavalry School, Army Pack Course, Electrical Communications Course.

JANET WELLS  Assistant Professor of Physical Education Florida State University, B.S.; University of Florida, M.Ed.

MARION C. WICHT  Associate Professor of Mathematics Mississippi Southern College, B.S.; Vanderbilt University, A.M.; graduate study, Louisiana State University, Alabama Polytechnic Institute.

GLENN C. WILHITE, JR., Capt., Inf.  Asst. Prof. of Military Science and Tactics United States Military Academy, B.S.; The Infantry School, Officers’ Basic Course.

ROGER L. WILLIAMS, JR.  Assistant Professor of Physical Education University of North Carolina, A.B., A.M.

CHARLES M. YAGER  Associate Professor of Physics University of Maryland, B.S. in M.E.; Duke University, M.Ed.

WILL D. YOUNG  Associate Professor of Social Science Cumberland University, A.B., A.M.; graduate study, University of Chicago, George Peabody College for Teachers.

NORTH GEORGIA COLLEGE
Dahlonega, Georgia
A FOUR-YEAR COLLEGE OF ARTS AND SCIENCES

THE COLLEGE YEAR

North Georgia believes that as a state supported college its plant and staff should be available to citizens of the state throughout the year. The college, therefore, operates on a full-four-quarter schedule with the summer quarter an integral part of the college year.

High school graduates may begin a regular freshman program in June, but should fall quarter enrollment be preferred, adequate and satisfactory study schedules are available in all departments. Students may also enter at the beginning of the winter and spring quarters. The fall quarter begins September 20; the winter and spring quarters, January 3 and March 24 respectively. Continued residence through four quarters in the year enables students to complete their college course and secure the degree in three years. A full calendar year is thus saved for graduate study or profitable employment.

This catalogue outlines in general the work of the fall, winter and spring quarters. A special summer quarter bulletin is issued in April.

FOUNDING OF THE COLLEGE

North Georgia College, founded in 1873, owes its origin to the Act of Congress of July 2, 1862, entitled "An Act donating public lands to the several states and territories which may provide colleges for the benefit of agriculture and mechanic arts." The act contemplated the "endowment, support and maintenance of at least one college in each state where the leading object will be, without excluding other scientific and classical studies, and including military tactics, to teach such branches of learning as are related to agriculture and mechanic arts in such manner as the legislatures of the states may respectively prescribe, in order to promote the liberal and practical education of the industrial classes."

While North Georgia no longer offers agricultural courses it has otherwise remained true to the general vision of its founders. A small annual income from the sale of public lands is still received by the college.
INSTITUTIONAL OBJECTIVES

It is the purpose of North Georgia College as a state institution to raise the general level of health, efficiency and character of its constituency, by imparting general scientific and cultural knowledge and by providing opportunity for professional advancement and social and economic betterment.

In order to accomplish this aim the college attempts to familiarize the student with the several divisions of knowledge and the methods of study therein so that he may make intelligent decisions regarding the nature and the direction of his contribution to society; to prepare the student to take his place in society by affording him opportunity for continuing a liberal and cultural education, by providing specific preparation in the fields of business administration, home economics, the teaching profession and military leadership, and by offering pre-professional training in such fields as law, journalism, dentistry, medicine.

CO-EDUCATION

North Georgia has also been "historically co-educational" since the day of its founding. In line, therefore, with present practice at nine-tenths of the American colleges and universities, North Georgia admits both men and women. Military training under carefully selected U. S. Army officers prevails for the young men, whereas the revised and broadened curricula admirably meet the needs of young women.

MILITARY TRAINING

North Georgia College was originally organized on a military basis, and for its cadets this policy has continuously prevailed.

The college enjoys the distinction of being one of nine senior institutions in America which hold the MC rating, "essentially military," from the Department of the Army. This status has enabled a substantial percentage of graduates each year, who earn the title Distinguished Military Graduate, to be offered commissions in the Regular Army on an equal basis with graduates of the United States Military Academy.

However, while North Georgia has thus appropriately been called "Georgia's West Point," its prime purpose is to train cadets for successful civilian life. Civilian and military leaders alike must be able to meet calmly, confidently and effectively the unex-
pected and threatening situations of life, and North Georgia, through its military instruction, endeavors to instill the principles of leadership and of followership; of discipline and self-discipline; of truth, honor and stability; of initiative, resourcefulness and dependability; and of neatness, dispatch, orderliness and method.

The college thus hopes that everywhere its cadets may be outstanding and distinguished as men and citizens of poise, public spirit, intelligence and integrity and that they will respond, as always in the past, with devotion and courage to a national emergency and acquaint themselves as leaders and as trained and efficient soldiers to bring honor and credit to themselves, their alma mater, their state, and their nation.

**MILITARY POLICY**

All male students who pass the required college physical examination must take the Basic Course in Military Science and Tactics prescribed by the Department of the Army for R. O. T. C. during their freshman and sophomore years, except as outlined for certain veterans and seniors under the heading “Veterans Program” below. Recognition is given to successful completion of Junior ROTC work.

Upon completion of the Basic Course, qualified students apply for admission to the Advanced Course, and if accepted by the Department of the Army, will work toward a reserve commission at graduation. Such students receive the usual subsistence and uniform allowance of the Department of the Army. All others, except as provided for veterans under “Veterans Program” and for special classes of students transferring from other colleges under “Transfer Students and ROTC,” will carry Advanced Military Science with college credit but without government allowance.

Notwithstanding the exceptions indicated which excuse certain students from the ROTC courses, North Georgia is a Military College, and all male students are members of the Corps of Cadets. They are required (within the limits of physical ability —those few who are disabled being excused by the Physician) to participate in the drills, ceremonies, formations and activities of the Corps and are subject to the rules and regulations of the military life. Rewards as well as responsibilities are administered in an impartial and democratic manner, and veterans and other non-ROTC students are eligible and are encouraged to accept leadership positions in the Cadet Battalion. All male students are thus considered as military students and are treated on an equal basis with all others.
VETERANS PROGRAM

Veterans, both men and women, are cordially admitted to North Georgia College. They are admitted as regular students interested in the usual program of the institution when the regular admission requirements have been fulfilled. Special care is taken to assign a study schedule which they may carry with greatest success.

Those who have not had opportunity to meet the specific entrance requirements, but who by virtue of experience and maturity may be able to profit by college life, will be admitted as Special Students. These will be given aid through special conferences and individual help that they may meet full entrance requirements as promptly as possible.

While ROTC is required of all male students, a partial and temporary deviation from this regular policy is permitted veterans. Veterans with a minimum of 12 months of active duty in the armed services and an honorable discharge, upon written request at the beginning of a college year or at time of their enrollment, may be excused from ROTC classroom training. However, all veterans entering after September 1, 1951, except those who transfer with senior class rank together with all other non-ROTC students, are assigned to a rifle company or the Band and will drill three hours per week. This drill is required in order to promote unity among the cadets corps. Students who drill but do not attend class will be given one quarter hour college credit per quarter. (Note: Any student who at time of enrollment has passed his twenty-seventh birthday may be excused from drill and wearing the uniform by contacting the Dean and P. M. S. & T.)

Veterans who were discharged from service as commissioned officers are given the rank of Honorary Cadet Captain in the Corps of Cadets and will train three hours per week, in supervisory capacity, and will be given credit for Reserve Training so far as existing regulations will permit.

Veterans who elect to take Advanced Military Science under Government contract and fail to maintain the required grades will continue the course without government assistance during the remainder of the academic year.

TRANSFER STUDENTS AND ROTC

Juniors who transfer from other colleges and are without military credit, but who pass the physical examinations, will
take Basic Military Science, or in lieu thereof, offer for graduation an equivalent 10 additional hours of approved electives.

Those who transfer to North Georgia with Senior class rank and are without credit in Basic Military Science are excused from ROTC work.

Students are subject to the prevailing cadet system of control directed by the Commandant of Cadets and will attend college formations including those for chapel and church.

SELECTIVE SERVICE AND DEFERMENT

Under the provisions of existing directives, all men are required to register at 18 years of age, reporting to their local board the fact of their enrollment in ROTC. They must notify the P.M.S.&T. of the number and address of their local board.

ROTC students will be deferred until graduation provided they (1) maintain academic and ROTC standing, (2) attend summer camp as ordered, (3) are selected by the P. M. S. & T. in the selective service quota, (4) “sign ROTC contract and agreement to accept a commission if and when tendered and to serve two years active duty as an officer subject to call by the Secretary of the Army and to remain in an active component as ORC or NG, until the eighth anniversary of their date of commission.”

THE UNIVERSITY SYSTEM

North Georgia is a senior member of the University System of Georgia. Its students are thus a part of the state-wide program of higher public education and enjoy the prestige and influence of this great State University System. Its program follows through varied fields of concentration to the A. B. and the B. S. degrees.

ACADEMIC STANDING

North Georgia College is a member of the Southern Association of Colleges. Because of its MC rating, the college has earned wide recognition as a military college. It holds membership in the Association of Georgia Colleges and the Georgia Education Association. The college is accredited by the Georgia State Department of Education.
LOCATION

North Georgia College is located at Dahlonega, the center of Georgia’s gold area, twenty miles from Gainesville, which is on the main line of the Southern Railway. An excellent highway from Gainesville to Dahlonega makes the college easily accessible by automobile at all seasons of the year. A short scenic drive places the campus within a few minutes of Gainesville.

The college is also quickly accessible because of the National Highway from Atlanta via Roswell, Alpharetta, Cumming, Dahlonega, and on through the mountains to Asheville, North Carolina. By this highway, automobiles can make the trip to Dahlonega from Atlanta in less than two hours.

TRANSPORTATION SCHEDULES

There is excellent bus service between Dahlonega, Atlanta and Gainesville, from which cities connections to all points may be made.

HEALTH

Dahlonega and Lumpkin County are known widely for the climate and recreational opportunities. The altitude is 1,500 feet. Nature seems to have designed the location, in the foothills of the Blue Ridge, a center of learning amid beautiful and healthful surroundings.

The college location is free from the enervating climatic conditions of the lower altitudes, and students from other sections quickly respond to the stimulating effects of North Georgia air and tested spring water. Practically without exception, students gain in weight and physical vigor; the college has, over the years, attracted students from every section of the state.

PHYSICAL EXAMINATIONS

As a protection to the health of the student group, physical examinations are required upon admission to the college. No student having a communicable disease is admitted until the danger is removed. The examination also shows what particular development and corrective measures are needed to bring the individual student to a state of vigorous health. As a precaution, students will be given such vaccination, inoculations, and chest X-rays as authorized by the college physician.
HEALTH SERVICE

Every precaution is taken to maintain student health, and through the college physician and a full time registered nurse, the college provides medical service to its boarding students in cases of usual or minor illness. The service includes necessary ambulance service for recumbent patients to the hospital within the state designated by the college physician. The college assumes no responsibility, however, for injuries received in voluntary or required activities, and neither does it assume responsibility for the cost of prescriptions, of necessary special nurses, for consultation and hospital expenses in the more serious cases of illness and accident, nor for special X-ray work or surgery of any kind. With the exception of veterans and their wives who are students living in college operated apartments, day students are not entitled to infirmary service. Definition of a day student will be found on catalogue page 31.

PHYSICAL EDUCATION AND ATHLETICS

The college recognizes the importance of a healthy, vigorous and coordinated body in successful living. Provision is made for a modest program of intercollegiate competition in selected sports. A highly competitive sports program reaching the entire student body is traditional. Emphasis here is placed on developing skills in those activities which have a high degree of carry over into adult life. All men, except those physically disqualified by the college physician, take ROTC (optional with some veterans and transfer students), and all freshman and sophomore women take regular work in Physical Education. This Physical Education work for women is supplemented by a competitive sports program which includes archery, tennis, table tennis, shuffleboard, basketball, softball, volley ball and hockey.

As a part of the general physical fitness program of the college, participation in physical education is required of all freshman and sophomore men except those returning from Service. The requirement is two scheduled periods a week. The work is conducted by the Director of Health and Physical Education and his assistants. Men, who for approved reasons, may not be taking Military Science are usually not excused from this physical fitness requirement.
CAMPUS ORGANIZATIONS

Dramatic Club

The Dramatic Club presents frequent amateur programs through the year. These include chapel skits, one-act plays, and evening performances.

The Forensic Senate

The Forensic Senate offers to a select group of students the opportunity to improve themselves in the art of public speech and debate and in the technique of research. A number of chapel and intercollegiate debates are held during the year.

Home Economics Club

This is an organization open to all students who take courses in Home Economics. The aim of the club is to afford students opportunity to become better acquainted with the social and professional activities of Home Economics leaders, and also to provide for their own personal development through active participation in club programs.

Physics Club

Through the activities of the Physics Club students in physics have an opportunity to discuss and work on projects of common interest. Professional requirements discussed in the meetings lead to a clearer understanding of vocational opportunities in the field.

Science Club

The membership is composed of science majors and those students especially interested in pre-professional study. The club meets twice monthly.

Glee Club

The North Georgia College Glee Club offers to both men and women students thorough training in choral expression. The Club travels extensively, giving programs of both sacred and secular music. While previous training in vocal technique and music rudiments are very desirable, membership is open to students in general of reasonable ability and sincere interest.
Physical Education Club

The membership of this club is composed of those students majoring in Physical Education. It seeks to develop a closer relationship, to acquaint students with current progress in their field and to collectively solve many of the problems that might confront the individual or the group. A study of the related professional organizations and their publications is an important work of this club.

The Military Band

One of the outstanding features of North Georgia College is the College Military Band. Instruments are furnished by the college for about thirty-five parts. Other members of the band furnish their own instruments. To a student with musical ability, the band presents unusual opportunity for further training. Since the band schedule is under the partial direction of the Military Department, participation in band work is recognized by appropriate military credit.

College Orchestra

The Orchestra provides music for various social functions, chapel and evening programs.

Woman's Recreation Association

The Woman's Recreation Association, sponsored by the Department of Physical Education, is an organization open to all co-ed students. The association, better known as REC Club, is divided into four teams which carry on intramural activities beginning in the fall with speedball and volley ball, continuing in the winter with basketball, and concluding in the spring with softball. In addition to these team sports, individual tournaments, such as tennis, table tennis, and badminton, are held.

The social life of the young women at North Georgia College is enriched through participation in these different sports, hikes, parties, and dances which comprise the all-inclusive program of REC Club.

The Woman's Recreation Association is the largest organization for the college women. Meetings are held bi-monthly.
Varsity Letter Club

The Varsity Letter Club is made up of those students who have won the official Varsity Letter.

The Varsity Letter is granted to those students who comprise a varsity team, who have satisfactory scholastic averages, and otherwise meet the requirements set up by the Athletic Committee for the sport in which the student participates.

Radio Communications Club

The Radio Communications Club is composed of students especially interested in amateur and experimental radio and electronics. The College amateur station of this group operates under the licensed call W4PYM. Several radio transmitters and receivers are maintained for the use of club members, as well as electronics equipment which is used for experimental work.

Business Administration Club

The primary objectives are: to develop a greater awareness on the part of business and secretarial majors of the opportunities in their chosen province; to increase their knowledge of the skills and training requisite to success in positions in business; and to foster the growth of an esprit de corps within the Department of Business Administration.

In keeping with these objectives programs will consist principally of lectures and panels conducted by representatives of industrial enterprises and departmental faculty members with full opportunity for student participation. Membership is limited to those doing major work in the department.

Future Teachers of America

Membership in the John C. Sirmons Chapter of Future Teachers of America is open to students whose chief vocational interest is teaching. Professional and social activities are sponsored in an effort to promote growth of individual members. Meetings are held twice monthly.

Woman's Rifle Club

This organization is an increasingly popular campus activity for women. This Club is a member of the National Rifle Asso-
ciation and competes in caliber .22 rifle matches with other universities and women's colleges having rifle teams. The college athletic letter and sweater is awarded to outstanding competitors in this sport.

Student Publications

Certain college publications, including the annual, are published under the direction of the Students' Association and faculty advisers.

Alumni Society

The Alumni Society of North Georgia College includes in its membership all students who have attended the college, many of whom are now outstanding leaders of the State. The purpose of the Society is to keep alive the traditions and memories of the college and to promote its welfare. The Society has recently turned its attention to various movements of historic interest to the college and the community among which are the unveiling of a tablet on June 3, 1934, to the memory of Hon. William P. Price, the founder of the college, the presentation of a portrait of former president John W. West and the placing of a marker commemorating the founding of the old Government Mint on the site of Price Memorial Hall.

Present officers of the Alumni Society are: Lt. Thomas Edwin Kingery, Fort Benning, Georgia, President; Mr. Robert M. Moore, Dahlonega, Georgia, First Vice President; Mrs. Charles L. Stewart, Marietta, Georgia, Second Vice President; Mrs. W. A. Hedden, Dahlonega, Georgia, Secretary-Treasurer.

SOCIAL AND RELIGIOUS LIFE

General Assembly

Assembly is held Thursday morning at 11:50 o'clock in the college auditorium. ATTENDANCE IS REQUIRED.

The exercises are brief, but effort is made to have them inspirational and helpful. College life is here interpreted and in turn is expressed through student participation, and announcements of general unifying interest and importance are made. Visiting speakers of national reputation are frequently present.
Church Services

There are three Protestant denominations in Dahlonega, the Baptist, the Methodist and the Presbyterian, all of which maintain Sunday Schools and weekly services. All students, except married men living with their families, are required to attend Sunday morning church services. Following the usual custom and practice prevailing in military colleges, Sunday morning "Church Formation" is held for all male students excepting married men as above stated. Students also have the opportunity of participating in such organizations as the Wesley Foundation, the Baptist Training Union and the Westminster Fellowship, whereas many regularly attend the Bible classes of the three church schools.

Upon request to the Commandant of Cadets or the Dean of Women, students of Catholic or Jewish faith may be excused from church attendance.

Christian Associations

The Young Men's Christian Association is organized to promote a wholesome campus life and to develop a deep sense of value among the college men.

The Young Women's Christian Association sponsors a similar work among the women of the college; it exerts a strong influence over the social as well as the religious life of the campus.

The two organizations, in cooperation with local pastors and the Bible classes for college students, each year sponsor a week of special worship and meditation known as Religious Emphasis Week.

Social Life

Of equal importance with academic training is the attainment of that personal culture and bearing which prepares one to take his rightful place in an exacting social, business and professional world. Every effort, therefore, is made to promote a normal social life. The high traditions of the college are observed, while the student campus organizations make contributions through their various programs and social activities.

All women students, whether residing in the dormitory or, by special permission, in private homes, are subject to the general social policies formulated by the Faculty Committee on Social Activities and approved by the faculty as a whole. The imme-
diate administration of the social policies rests with the Dean of Women, the Commandant of Cadets and the Dean of the College.

A special social committee composed jointly of faculty members and students plan the frequent informal social gatherings.

Social Clubs

The Officers' Club, Non-Commissioned Officers' Club, and two local fraternities, Rex and Sigma Theta, make their contributions to the college life through frequent social functions.

SPECIAL PROGRAMS

That the college community may be kept in touch with the best in music, art, and current thought, an Entertainment Course is maintained without cost to students or faculty. Frequent musical, dramatic and lecture programs add a distinct atmosphere of culture to the social and recreational life. These special presentations are normally scheduled for the regular assembly hour.

BUILDINGS

Price Memorial Hall stands on the foundations of the old Government Mint and was named in honor of William P. Price, founder of North Georgia College. It contains classrooms, faculty offices, Bookstore and Canteen.

Academic Hall is a second academic building of the college. Besides classrooms it contains offices for the President, Dean, Registrar, Director of Guidance, Comptroller, Business Manager, and Alumni Secretary.

Science Hall, a three story, fireproof, brick and concrete building, accommodates the departments of biology, chemistry and physics. The building is equipped throughout with new laboratory furniture.

Military Building, a large two-story frame building and a gift of the Federal Works Agency, accommodates the Military Department. It contains classrooms and an auditorium as well as offices for the military personnel.

Home Economics Building is a large two-story building containing adequate kitchens, laboratories and social rooms. It is equipped throughout with new and modern home economics kitchen and laboratory furniture.
BUSINESS ADMINISTRATION BUILDING, a large two-story building, contains classrooms, laboratories and offices for the departments of business administration and education.

COMPANY BARRACKS, a two-story brick dormitory, provides exceptional accommodations for two hundred cadets. It is equipped throughout with all modern conveniences.

BAND HOUSE, the oldest campus dormitory for men, is in excellent physical condition; it is heated by steam and has all conveniences. This is the residence hall for members of the military band.

BARNES HALL, named in appreciation of the continuing services of Professor John C. Barnes, is a three-story residence hall for men and accommodates one hundred cadets. Its social center is the beautiful Fenster Memorial Room.

SANFORD HALL was dedicated in honor of the late Dr. S. V. Sanford, Chancellor of the University System of Georgia. This is a beautiful two-story, fireproof building of steel, concrete and brick construction. It is equipped in modern manner and has venetian blinds and asphalt tile floors throughout. The spacious social room is one of the centers of college life.

LEWIS HALL, the new girls' dormitory, is a magnificent addition to the campus. The building is a most modern and fireproof construction and houses 226 young women. The rooms, each accommodating a maximum of two persons, are delightfully and comfortably furnished in a modern manner.

VETERANS APARTMENTS, furnished by the Federal Public Housing Authority, comprise several housing units for married veteran students.

Men students will be accommodated in Company Barracks, Band House, Barnes Hall and Sanford Hall. Other college controlled accommodations and private homes are open to college men only. While the appointments are sometimes plain, they are adequate and acceptable. Students placed in these boarding houses or homes, that they may otherwise enjoy the advantages afforded by the college, are required to reside there throughout the college year. Transfer to campus or from one house to another cannot, for obvious reasons, be permitted.

Residence students are required to live on the campus. Should campus accommodations not be available, residence students may be assigned to approved private homes. Students placed in such accommodations are subject to all regulations in force for students residing on the campus. All resident students, regardless of the room assignment, are required to take meals in the college dining room.

Control of the barracks and all homes where students are assigned is vested in the president and the faculty. The Commandant of Cadets is the executive officer for the enforcement of regulations.

The rooms of all men students, whether on or off campus, shall be
subject to regular military inspection under the direction of the Commandant and his cadet officers.

Young women not living in their own homes or with near relatives are expected to reside in Lewis Hall, unless other arrangements are approved by the Dean of Women and the Dean of the College. In no case may young women reside in other than officially approved homes, and all plans for residence outside the dormitory must be submitted to the college officials before final arrangements are made. Irrespective of residence all are subject to the general college regulations.

Stewart Library, named in honor of Dr. Joseph Spencer Stewart, president of North Georgia College from 1897 to 1903, is a building of fire-resistant construction, and contains a large reading room, stack and storage rooms, office and work rooms.

The library contains over 26,000 books, exclusive of duplicates and government documents. Three hundred leading magazines are found on the reading tables.

The books and periodicals have been carefully selected, and from year to year there is increased interest in the library for reference and general reading purposes. New books are regularly being added to meet the growing demands of the various departments.

The library is open to students, faculty and citizens alike, and trained librarians seek to make it of educational and cultural value to both the college and the community.

Auditorium is a beautiful two-story brick building. The first floor is given over to the spacious kitchen and dining room, whereas on the second floor is located the college auditorium. Here center many of the college activities—chapel, religious services, entertainments and concerts.

Alumni Hall is the gift of the alumni and other former students. It is the college gymnasium and contains the basketball court. The building is an important social center of the college; here are held the dances, informal socials and other college functions.

The Infirmary is a well designed and appointed brick building. It contains adequate wards and bedrooms, offices for physician and nurse, examination room and kitchenette.

ORIENTATION WEEK

The days, September 20-24, are known as "Orientation Week." All new students are expected to report on Sunday, September 19, on which day the dormitories open to them for lunch. The
first appointment which all new students must meet is in the
College Auditorium at 8:00 P. M. Sunday, September 19.

Sophomores and upperclassmen will not report until Wednes-
day, September 22.

Registration of all students is completed September 23, 24 and
class work begins Saturday, September 25.

During Orientation Week, new students are introduced to the
college atmosphere, the buildings and the library; they also be-
come acquainted with the North Georgia ideals and purposes.
During this period required physical examinations and placement
tests are taken, and an especial effort is made to select for each
one a program suited to his needs and preparation. The faculty
and selected upperclassmen assist the new students in making
the best possible start in college life.

Transfer Students

Transfer students classified as freshmen are required to report
to the college at the same time as do other new students. All
features of the Orientation Program which apply to beginning
freshman students, with the possible exception of placement tests,
apply equally to new students who come to North Georgia Col-
lege with an insufficient number of transfer credits to be officially
classified as sophomores.

Articles Brought From Home

Dormitory rooms are furnished with single beds, mattresses,
tables, chairs, and other necessary furniture, but each student
must provide towels, a pillow, two pillow cases, four sheets, two
blankets, (Army type, olive drab, preferred), laundry bag, bath-
robe, and other personal articles. Special shoe requirements for
cadets are explained on page 36 under Articles of Uniform Equip-
ment.

Should a cadet desire to ship packages, boxes or trunks in
advance of his coming, they may be shipped prepaid by express
or otherwise via Gainesville, Georgia, to Commandant of Cadets,
North Georgia College, Dahlonega, Georgia. Young women stu-
dents may ship such packages to Dean of Women, Lewis Hall,
North Georgia College, Dahlonega, Georgia. Names of owners
should be printed or written on trunks, bags, or other packages
in such a way that they will not be effaced in shipment. It is,
of course, more satisfactory for the student to bring all such
personal property at the time he or she comes to the college.
Upon Arrival at the College

Upon arrival in Dahlonega students should report

(1) For Room Assignment: Young men to Commandant of Cadets in Band House; young women to the Dean of Women in Lewis Hall.

(2) For payment of bills: To the Comptroller's Office in the main academic building.

(3) For the next meal: Dining Hall which is centrally located on the campus.

(4) For the first appointment: To the Auditorium for the first appointment which all freshmen must meet, Sunday, September 19, 8:00 P. M.

(5) Books should not be bought until after the Classification Committee has assigned the schedule. Uniform deposits are left in the Comptroller's Office.

Personal Deposits

While all bills are paid at the Comptroller's Office the staff is prepared to handle only a very few personal deposits. The young women may, therefore, leave deposits of personal funds with the Dean of Women, and the young men may deposit such funds with the Commandant of Cadets or in the local bank.

COLLEGE EXPENSES

North Georgia College, as one of the senior units of the University System, furnishes four years of college training at THE LOWEST POSSIBLE COST. There is no charge for tuition, whereas matriculation, activity, and health fees are quite nominal. The college dining hall furnishes balanced and nourishing meals.

Personal expenses for both men and women may be kept as low as the individual students and parents wish; every condition favors economy.

Fees and deposits are paid in advance at the beginning of each quarter, but board and room rent may be paid either by the quarter or by a special seven-payment plan explained in Note No. 1 of the General Cost Summary. This special plan of distributed payments, requiring minimum outlay at any one time, enables many students to be in college who otherwise could not attend. Books, uniforms, and gym clothing must be paid for
at the time they are issued which is usually prior to, or immediately after registration. Checks and money orders should be made payable to North Georgia College.

The Veterans Administration pays all fees and textbook costs for students attending under Public Laws 346 and 16. If, however, a veteran does not have his certificate of eligibility at the time of registration, he must pay all fees and will receive refund in full when his certificate is received.

Following is a complete table of all costs at North Georgia College. This has been prepared in such a manner that the average student can immediately determine his total costs. Special cases, such as out-of-state students, may find their costs by reading the detailed description of each charge which follows the general tabulation.

ALL FEES, BOARD, ROOM RENT, AND OTHER CHARGES ARE SUBJECT TO CHANGE AT THE END OF ANY QUARTER.

SUMMARY OF COSTS
1954-1955

</table>

NOTE No. 2
All regular fees must be paid at registration.

NOTE No. 3
Military and Gymnasium Uniforms must be paid for at time of issue.

NOTE No. 4
Students and parents are expected to take notice of due dates on all payments and to pay promptly without further notice or request. For convenience, payment dates fall just after official college holidays so that students may bring checks back to college with them.
MATRICULATION—HEALTH—ACTIVITY FEES

All students pay the established Matriculation and Activity Fees, and all resident students pay the Health Fee. These fees cover all laboratory and other general fees of the college. Each student is entitled to admission to entertainments sponsored by the college and to glee club concerts, week-end movies, dramatic productions, and all athletic events. The Activity Fee also partially underwrites the Y.M.C.A., Y.W.C.A., and Religious Emphasis Week activities.

BOARD AND ROOM

The charge for Board and Room may be paid in advance at the beginning of each quarter or by a special seven-payment plan explained in note No. 1 of the General Cost Summary. Open accounts by order of the Board of Regents cannot be carried.

ENTERTAINMENT OF GUESTS

Students may entertain friends and relatives in the dining hall by making previous arrangements with the dietitian. The charge is 75 cents for each meal.

COST OF BOOKS AND LAUNDRY

The estimated costs shown for laundry and books are based upon the average experience. Cost of books after the initial purchase may be considerably reduced should the student wish to sell his used texts. These generally bring about two-thirds of the original price. Used books should not be purchased without first checking prices and editions in the bookstore.

RESIDENT STUDENT DEFINED

All students will be classified as resident students unless they live in home of parents or other close relative.

SPECIAL FEES

Since North Georgia College is a tax supported institution, there is a special fee charged out-of-state students. The Certificate
of Residence required under the admission regulations on page 39 determines out-of-state status.

The Graduation Fee covers the cost of the diploma and the rental of cap and gown. Of course, this fee is paid only once just prior to graduation.

A Transcript Fee is charged for each Transcript of college credits beyond the first copy which is free.

Certain Penalty Fees are necessary, and these are assessed for late registration, for unauthorized absences from class, and special examinations. Detail of these conditions will be found on page 44 under the heading "Penalty Fees."

APPLICATION—BREAKAGE DEPOSIT

The Application-Breakage Deposit is required with each application for room reservation. This application will be found in the back of the catalogue. This deposit serves two purposes. First, it is a reservation deposit to assure accommodations being available for each student. Rooms are reserved in the order in which the application and advance deposits are received. Since requests for rooms exceed accommodations, students are urged to forward applications as early as possible. Should attendance later become impossible, the entire deposit will be refunded upon request.

While all laboratory fees have been abolished, the second function of the Application-Breakage Deposit is to serve as a deposit against breakage and damage to college property. Each student is responsible for his own room and its furnishings and also for all other items of college property such as library books and laboratory equipment. Breakage tickets must be promptly paid at the Comptroller’s office. This deposit is paid with the original application for entrance into North Georgia College and is held throughout the student’s enrollment period. The deposit subject to reduction for unpaid charges is returnable upon regular withdrawal or graduation. In case of irregular withdrawal, the deposit is forfeited.

Refunds

Formal withdrawal must begin with a written approval from the Commandant or Dean of Women. At the time this approval is granted, specific instructions will be given for the student to
complete his formal withdrawal. Any deviation from this procedure will be considered as an irregular withdrawal with forfeiture of the breakage deposit.

In the case of formal withdrawal, refund of Matriculation Fee may be made on the following basis:

1. Withdrawal during one week following the scheduled registration date, a refund of 80% of the Matriculation Fee paid for that quarter;
2. Between one and two weeks, 60%;
3. Between two and three weeks, 40%;
4. Between three and four weeks, 20%;
5. After four weeks, no refund.

No refund can be made on the Activity or Health fees.

In case of withdrawal, refund on board and room may be made on the number of full weeks remaining in the quarter.

In case of excused absence, refund on board, not room, may be given on that part of the student’s absence which is in excess of two weeks.

Refunds in excess of $25.00 are sent directly to parents or applied as credits to the student’s account. Exceptions to this rule may be made in cases of students over 21 years of age paying their own expenses.

Government Allowances

All Basic Course students, in general freshmen and sophomores, now receive from the Government an allowance of $50.00 toward the purchase of uniforms. Since this covers the entire two years or 18 months of the Basic Course, it is not available for the initial purchase; it accumulates as a credit at the rate of $8.33 each quarter of college residence.

Advanced Course students now receive a monetary allowance, about $27.00 paid monthly, in lieu of subsistence. This, together with an allowance of $100.00 toward uniforms plus full degree credit, makes Advanced Military an attractive proposition. These allowances are, to veterans, in addition to their usual benefits under the G. I. Bill. This uniform allowance is almost sufficient to purchase the official college uniform, but since it covers the entire two years or 18 months of the Advanced Course, it is not available for the initial purchase; it accumulates as a credit at the rate of $16.67 each quarter of college residence.

Final settlement on uniform allowances cannot be made prior
to the date a student withdraws from college; however, earned allowances are credited to the student's account at the end of each quarter and are available for purchase of additional uniform.

All men are advised to deposit the full amount required for uniform and not to depend on the uniform allowance for articles of basic uniform needs. Not only is this wise from the standpoint of uniform needs but final settlements of uniform allowances on a cash basis depend upon this procedure or other proof of actual uniform purchase in the amount of the total allowance available.

GYMNASIUM UNIFORMS

Freshman and sophomore men, and upperclassmen who elect to take the work are required to wear gym uniforms for physical training classes—shorts, T-shirts, and rubber-soled gym shoes. Uniform shorts and T-shirts will be purchased at the Canteen. Cadets are advised to bring gym shoes from home, but they may be purchased after arrival through the college. Grey warm-up shirts and pants are also available through the Canteen at approximately $4.50 per suit. Cadets are strongly advised to purchase these for use in cold weather.

For use in physical education each young woman must provide herself with the regulation college gymnasium suit, tennis slippers or shoes, and white socks. Suits will be ordered through the College Bookstore after measurements have been taken. Students are asked to furnish tennis shoes, if they can secure them; if not, shoes will be ordered through the Bookstore. Students will furnish their own tennis rackets and balls. It would be well to bring extra gymnasium shorts, slacks and a bathing suit.

COLLEGE BOOKSTORE

Textbooks and classroom supplies can be purchased at the College Bookstore. Charge accounts may not be opened. Since a number of the courses are offered a second time during the year, used texts may frequently be sold to other students at approximately two-thirds the original cost.

The John C. Sirmons Chapter of The Future Teachers of America manages a used book exchange for the convenience of students.
Canteen

The North Georgia Student’s Canteen, located in the basement of Academic Building, is operated for the convenience of students and faculty. Here are sold soft drinks, sandwiches, other refreshments and school supplies.

There is provided in each campus dormitory a branch canteen operated by the students for their convenience during evening hours when the main canteen is not open. Automatic soft drink machines are also provided in each campus dormitory.

The canteen also accommodates the college post office where mail is deposited and distributed. One box is available for each two students and all students are assigned a box number regardless of their place of residence in Dahlonega. Each student is required to check his post office box daily for communications from various departments of the College as well as outside mail. The correct address will be, the student’s name, N. G. C., Box ............., Dahlonega, Georgia.

Military Uniforms

The distinguishing mark of a North Georgia College cadet is the college uniform proudly worn at all times as a symbol of his chosen college.

Since civilian clothes are not worn, entering male students should bring to the college only the suits they wear and a supply of personal linen sufficient for the first five days. The use of the regulation college uniform effects a decided economy in clothing costs, including as it does the major items of wardrobe expense except for tan shoes, handkerchiefs and underwear.

With reasonable care and the replacements made possible by the Government uniform allowances to all ROTC men, the uniform practically represents the student’s necessary clothing purchase for the full four-year college term.

All physically qualified male students, except those who transfer with senior class rank, will wear the prescribed college uniform, except that non-ROTC veterans may be permitted to wear an acceptable army uniform provided their request to do so is approved by the college supply Sgt. under regulations provided by the Professor of Military Science and Tactics. The requirement as to wearing the uniform does not apply to students transferring for summer work only or to teachers in service studying at the college.
ARTICLES OF UNIFORM EQUIPMENT

The regulation uniform for fall, winter, and spring wear includes: battle jacket, field jacket of drawstring type, raincoat, two wool slacks, four khaki slacks, four khaki shirts, two wool garrison caps, two khaki garrison caps, two wool ties, web belt, cartridge belt, helmet liner, two pairs gloves, one pair military boots, six pairs khaki socks, cap and collar ornaments, and a fatigue uniform.

A student entering for the first time in the spring or summer quarters is advised to purchase the entire uniform; however, if necessary, he will be permitted to delay purchase of the woolen articles until fall.

The Government furnishes the fatigue uniform and field jacket, the College furnishes the cartridge belt and helmet liner, but the cadet must buy all other articles. This issue by the Government and the College enables the College to reduce the uniform cost to a minimum figure.

One pair of tan shoes must be furnished extra by the cadet. These should be purchased before coming to the college. This shoe must be plain toe, low quarter shoes of conventional army type. Informal shoes of the so-called "loafer" type are not acceptable.

PURCHASE OF THE UNIFORM

Since the design and color of the North Georgia College uniform is a mark of distinction and pride, new students are advised to buy the uniform from the college exchange. Students should come to the college prepared to purchase the uniform at the time of entrance. Measurements are taken within five days after registration. The full price should be deposited with the Controller’s Office, and any unused portion of this uniform deposit will be held for future purchases subject to refund on request from the parent any time after the first quarter closes.

Any article of uniform not purchased at the college exchange must be checked and approved by the college supply Sgt. under regulations provided by the Professor of Military Science and Tactics. Acceptable uniform articles, as a rule, may not be purchased from other sources at anywhere near the low cost provided here at the college.
LOAN FUNDS

Charles McDonald Brown Fund

The purpose of the Charles McDonald Brown Loan Fund is to aid worthy young men who are unable to pay their way through college. The applicant must be at least eighteen years of age, in good health, of proven intellectual ability, and must reside in one of the following counties: Rabun, Habersham, Union, Towns, Fannin, Dawson, Murray, White, Lumpkin, Gilmer, Pickens, Cherokee, Forsyth, Stephens, Banks, Hall, Madison and Hart in Georgia, and Oconee, Anderson and Pickens in South Carolina.

All applications for a Brown Fund loan should be sent to the chairman of the Committee, Mr. H. H. Gilbert, Jr., Dahlonega, Ga.

Moore Loan Fund

This fund was donated by Mr. John H. Moore of Dahlonega and formerly a trustee of the college. The purpose of the fund is to provide a limited number of students with that portion of their expenses which they are unable to furnish in cash. Preference is given the graduates of the local Lumpkin County High School. Loan notes bear 4% interest on unpaid balances from date of loan and must be endorsed by two responsible persons. Applications for aid from the Moore Fund should be made to Mr. H. H. Gilbert, Jr., Dahlonega, Georgia.

Pickett and Hatcher Educational Fund

The late Mr. Claud A. Hatcher of Columbus, Georgia created an educational loan fund for the purpose of aiding a large number of worthy students in securing courses in broad liberal college training. Loans are available for students of all classes. Limitations prevent loans being granted to students of law, medicine and for the ministry.

Applications and requests for additional information should be addressed to Pickett and Hatcher Educational Fund, 215 First National Bank Building, Columbus, Georgia.
ADMISSION OF STUDENTS

Freshmen

Students who desire to reserve a room should fill in the application blank to be found at the back of this catalogue, and mail it to North Georgia College, Dahlonega, Georgia. Upon receipt of this application for Admission, and of the $15.00 advance deposit, quarters in the college dormitories will be reserved. This deposit constitutes part payment of the regular charges for board and room rent; it will be refunded upon request.

Each freshman must be able to furnish the college, through his principal or superintendent, a transcript of his high school record. Blanks for this purpose may be secured from the office of Dean or Registrar, but since the transcript must be sent directly to the college it is customary for the Registrar himself to forward the blank to the high school authority after the student’s application and reservation deposit have been received.

Entrance Units

The entrance requirement is graduation from an accredited four-year high school with not less than fifteen units acceptable for college entrance. These units should be distributed as follows:

- English ........ 3
- Mathematics ........ 2
- Science ........ 1
- Social Studies ........ 2
- Electives ........ 7

Of the two required units in Mathematics, one should be in Algebra. Students considering entering a field of concentration specializing in Mathematics or the physical sciences should offer two units in Algebra and one in Geometry. Freshmen whose high school transcript show insufficient preparation, must carry Mathematics 105 with either partial or no credit, depending upon the grade earned.

Any freshman whose high school preparation in English Grammar or in reading comprehension is inadequate for successful college work is required to take English Fundamentals, English A, with either partial or no college credit depending upon grade earned in the course.
AMENDMENTS TO ADMISSION REGULATIONS

As Approved by the Board of Regents April 8, 1953

1. Any resident of Georgia applying for admission to an institution of the University System of Georgia shall be required to submit certificates from two citizens of Georgia, alumni of the institution that he desires to attend, on prescribed forms, which shall certify that each of such alumni is personally acquainted with the applicant, that he is of good moral character, bears a good reputation in the community in which he resides, and, in the opinion of such alumnus, it a fit and suitable person for admission to the institution and able to pursue successfully the courses of study offered by the institution he desires to attend.

Provided, however, that any applicant who seeks admission to an institution with an enrollment of less than 1,000 students and who lives in a county in which no alumnus of the institution he wishes to attend resides, may furnish a certificate from the Judge of the Superior Court of his circuit in lieu of the certificate from alumni. In such a case the certificate of the Judge of the Superior Court shall set forth the same facts that the alumni certificate must contain in other cases.

Each such applicant shall also submit a certificate from the Ordinary or Clerk of the Superior Court of the county in which the applicant resides that such applicant is a bona fide resident of such county, is of good moral character and bears a good reputation in the community in which he resides.

2. Any non-resident of the State applying for admission to an institution of the University System of Georgia shall submit a similar certificate from two alumni of the institution that he desires to attend, or from two reputable citizens of the community in which the applicant resides.

Every such applicant shall also submit a certificate from a judge of a court of record of the county, parish or other political subdivision of the State in which he resides that he is a bona fide resident of such county, parish or other political sub-division and a person of good moral character and bears a good reputation in the community in which he resides.

3. There is reserved to every institution of the University System of Georgia the right to require any applicant for admission to take appropriate intelligence and aptitude tests in order that the institution may have information bearing on the applicant’s ability to pursue successfully courses of study for which the ap-
applicant wishes to enroll and the right to reject any applicant who fails to satisfactorily meet such tests.

4. This resolution shall become effective immediately and catalogs of all institutions of the University System shall carry these requirements. Catalogs already printed shall carry inserts or addenda showing these requirements. The foregoing requirements shall apply to all applicants who have applied for admission to any institution of the University System of Georgia, but have not been actually enrolled and admitted, and to all applicants who hereafter make application for admission to any such institution.

Admission to Advanced Standing

Students transferring from other colleges should file application for room reservation in usual manner, furnish the Registrar with evidence of honorable dismissal and submit official transcripts of college and high school records previously established. Wherever possible, transcripts should be filed three weeks before date of entrance. A student with honorable dismissal but whose grades average below "C" may be admitted on probation.

Provisional advanced standing assigned a student is dependent upon his later record. Should the quality of work prove unsatisfactory, the advanced standing may be reconsidered and credit appropriately reduced.

Special Students

Applicants, twenty years of age, or over, who are not high school graduates, may be admitted as Special Students provided they satisfy the Committee on Admission of their ability to profit by work of college grade. Entrance requirements must be fully met before special students may become candidates for class rank or degree.

Placement Tests

During Freshman Week, all freshmen are required to take general placement tests in English, Reading, Science and Mathematics. These tests are for the information of the administration in its counseling service and for placement in class sections. Any student without satisfactory excuse for not having taken any test will be charged $2.00 for each make-up.

Counseling Service

While all members of the faculty serve as advisers of students, certain designated counselors are charged with specific counseling
functions. Upon admission to college, each freshman is assigned to a member of the faculty who serves as his counselor. Normally this counselor serves until the student chooses his field of concentration. The head of the department in which the student chooses to do major work then becomes his adviser.

A student may choose a field of concentration as a sophomore, but will be required to make such a choice before he registers as a junior. After a choice has been made, his program must bear the approval of the head of the department in which he majors and of the Dean. Changes in majors will be permitted only with the approval of the Dean and the heads of the departments involved.

The college seeks to have each individual become familiar with a wide range of information about himself, his interests, his abilities, and his plans or ambitions for the future. By means of a testing service, he is offered facilities which are helpful in discovering these interests and abilities. Information given by these tests will help the student to meet his personal, educational and vocational problems.

Placement Service

Through its placement service the college assists seniors and alumni in securing positions best suited to their abilities and interests. The services of the placement office are available to all who desire guidance in vocational fields.

Correspondence Courses

North Georgia College offers no Correspondence or Home Study courses. Those who cannot enroll for residence work at the college should communicate with Director, Division of General Extension, University System of Georgia, Athens, Georgia.

ACADEMIC REGULATIONS

Credits

Credits are expressed in terms of quarter hours. One quarter hour is the credit given for the work of one hour per week throughout one quarter. A subject that is taken five times a week for one quarter is equal to five quarter hours. Laboratory science and some courses in home economics and business ad-
ministration carry credit value of one hour for each lecture period and one hour for each required laboratory period. For each hour of recitation, two hours of daily preparation are expected.

**Grading System**

The classroom and laboratory work of all students is graded by letters which may be interpreted as follows:

- **A** (90-100) Excellent
- **B** (80-89) Good
- **C** (70-79) Average
- **D** (60-69) Barely passing
- **F** (0-59) Failure. No credit unless course is repeated in class.

**WP** (Withdrew Passing)
**WF** (Withdrew Failing)

I (Incomplete). I indicates the withholding of a grade because of prolonged illness, or the consent of the Registrar or Dean. I must be removed within six weeks, otherwise it automatically becomes F.

**Quality Points**

Graduation depends upon quality of work done as well as quantity. One quarter hour is the credit given for the work of one hour per week through one quarter. The letter grades have the following values: A, three Quality Points per quarter hour; B, two; and C, one. The grades of D and F carry no Quality Points.

For graduation every candidate for a degree must complete a minimum of 185 quarter hours of academic work with an equal number of quality points, or an average of "C". This is exclusive of Orientation, Basic Military Science and Physical Education. The ratio of quality points to hours of credit cannot be less than one.

A grade of "D" represents work scarcely above failure and does not constitute acceptable credit. Indeed, a grade below "C" actually delays or prevents class promotion and graduation.
College Honor

At North Georgia College a sense of self-respect, dependability and high honor prevails. Hence any degree of dishonesty in academic or military work, or the giving or receiving of unauthorized help in any quiz, test or examination is regarded as one of the most serious offenses that can be committed against the honor of the college and the student group.

Class Attendance

1. REGULAR CLASS ATTENDANCE IS REQUIRED. Absence from class or laboratory lowers grades and makes it more difficult to secure a passing average. In case of unsatisfactory scholarship, for any cause, the instructor is at liberty to require conferences, expect additional preparation or make further assignments as may seem necessary for the student’s final success.

2. There are no excused absences or cuts from class or chapel, except those necessitated by trips of athletic teams, the band, the glee club, or debating clubs; illness certified by the physician, Commandant or Dean of Women immediately upon the student’s return to college; death or critical illness in the student’s family; or permission, secured in advance from the President or his representative. In every case, the student is responsible to his instructors for the satisfactory make-up of all work missed.

3. Unexcused absences may at any time cause the student to be placed on probation or asked to withdraw from college.

4. Courses may not be “dropped.” All schedule changes must be approved in advance by the Dean; the student will be held responsible for absences due to irregular change of schedule.

5. Absences are reported daily to the Registrar, who notifies the Dean, the Commandant and the Dean of Women. Each cadet is responsible to the Commandant for all absences, but in the application of the foregoing academic regulations governing absences he is responsible also to the Dean and Registrar.

Absences of the young women are excused only by the Dean of Women or the Dean of the College.

Week-End Visits

The college is regularly in session on Saturdays until 12:00 Noon, exclusive of regularly scheduled holidays.
Experience has shown that frequent visits home or elsewhere are distracting. Parents are, therefore, requested not only to discourage absence from college but to insist upon regular attendance and prompt return to the college when visiting permission is granted. Excessive absence from the campus may endanger academic progress.

**PENALTY FEES**

Former students who enter after any established registration date pay a fee of $3.00 for the first day late and $1.00 each for the second and third days with no exception for any reason unless the student has been unable on account of illness to reach the college at registration periods. Such cases will be excused on doctor's certificate only.

The college calendar is definite as to all opening and closing dates and dates for final examinations. Permission for early departure or late return cannot be granted.

A student desiring to continue his college work after being absent from any class, laboratory or other exercise on the day immediately preceding or immediately following Thanksgiving recess, or any college holiday shall pay the fee of $2.00 for each day on which the absence occurs. Only illness of the student, certified by the attending physician, constitutes an acceptable excuse. The student may not re-enter classes until this special fee is paid. Indeed, early departure or late return constitutes “absence without leave” and it is often questionable whether such a student should be readmitted.

A student who fails to complete his registration with both the Registrar and the Comptroller on the date specified is subject to the special fees outlined above.

Students failing to report for announced tests and examinations will be required to make up the work and pay a special fee of $2.00, unless officially absent with leave as indicated on the Morning Report.

**Student Work Load**

The normal or average schedule of work, including Orientation, is 16 credit hours for Freshmen and 15 hours for Sophomores, exclusive of Basic Military Science and physical education. A freshman whose high school transcript and college place-
ment tests indicate defective preparation will be required to carry
a reduced credit schedule for the first quarter.
The normal schedule for Juniors and Seniors is 15 hours each
quarter except one quarter in which 18 hours constitute the
normal load. Women students of Junior Class rank will carry
physical education in addition to these hours.
Each student must schedule at least one-third of his work in
the afternoon.

Work Load Variations

Should a student wish to carry a schedule other than the
normal load, written request may be filed for:

- (1) A minimum load of 10 credit hours.

(2) An increase of from 1 to 3 hours; (a) When advanced
military science is taken or there is unusual difficulty in
making up a practical schedule or when a satisfactory
program demands it; (b) An academic average of “B”
in at least a normal schedule of work during the preceding
quarter.

(3) In very exceptional cases, 21 hours: Sophomores or upper
classmen who (a) have been on the Honors List for at
least the two successive quarters immediately preceding;
(b) have earned an average of “A” on the work of the
preceding quarter.

(4) Seniors who can otherwise qualify for graduation and the
degree may increase the schedule a total of 10 hours
provided the extra hours are distributed over the last
three quarters of residence.

In no case can a student receive credit in excess of 21 hours
a quarter exclusive of Basic Military or physical education.

Reduction of Credit

After a student has earned 125 quarter hours of credit, the
following applies to certain lower division courses:

1. Only 3 quarter hours of credit may be earned in any one
course.

2. The rule does not apply to students repeating courses, teachers-in-service, or transfer students.
3. The courses are:

Biology 101, 102  
Chemistry 100, 101  
English 101, 102, 201, 202  
History 101, 102, 204  
Home Economics 101  
Mathematics 105, 111, 206  
Physics 120, 121  
Physical Education 110, 209  
Political Science 201  
Psychology 201  
Any Modern Language 101, 102

Change of Classification

Individual study programs are changed only by written permission from the Dean after approval of the student's adviser. Courses are not "dropped."

Unless for very exceptional reasons, all changes in study programs must be made during the first ten days of the quarter. Withdrawal from a course after the first four weeks results in a grade of "F" being entered on the permanent record.

Reports

In general, grades below "C" represent work below average—poor, deficient and unsatisfactory. Other than the final report at the close of the quarter, students receive three reports on their class standings and such reports are also sent to parents. These reports—the first preliminary, the mid-term, and the second preliminary—should be regarded as friendly and informative and should serve as suggestive and invaluable guides to students and parents alike.

At the close of each quarter, final reports are mailed to parents or guardians, provided all financial obligations to the college have been met.

REQUIREMENTS FOR RESIDENCE

The following constitute the minimum scholastic conditions, exclusive of Basic Military and required Physical Education, under which students can remain in the college. A student may, however, be dismissed for deficiencies in scholarship even though not automatically excluded under the provisions below indicated.

1. A student must earn credit in at least one five-hour course to be eligible to register for the succeeding quarter.
(2) Any student who fails to earn at least 10 hours of credit shall be placed on probation for the following quarter. Probation shall continue until a normal load has been passed.

(3) While on academic probation a student must earn at least 10 hours of credit, one-half of which shall carry a minimum grade of “C”.

(4) Failure to earn at least 50% of the quality points necessary for a “C” average in a normal load during the three quarters of a college year will debar a student the succeeding quarter. In case a student’s work has shown decided improvement in the last quarter, the application of this rule may be discretionary.

(5) Students who fail to meet the above regulations because of illness or because of an approved sub-normal load, may receive such special consideration as their cases merit.

(6) Students dismissed for defective scholarship may register after an absence of one quarter other than the summer quarter. In cases of low scholarship summer study is recommended. Indeed, students excluded because of poor work done during the spring quarter are ineligible for fall quarter registration unless deficiencies are removed during the summer quarter.

Eligibility

To be eligible for intercollegiate and off-campus extra-curricular activities, the student must pass during the preceding quarter, and with an average of “C”, at least ten of the fifteen hours of the usual normal load. However, a student with at least one “C” and whose grades showed marked improvement for the last half of the preceding quarter, and who maintains an average of “C” beginning with the first grade period of the current quarter, may be declared eligible under probation. Such eligibility becomes effective only after first reports are established.

The special eligibility requirement for editor or business manager of student publications is an average of “C” for the preceding quarter. This applies both for appointment and for continued tenure.

HONORS AND AWARDS

Honors List.

Students who carry a normal and regular study schedule and who during any quarter establish a grade-ratio of 2.0 with no
grade below C, and are satisfactory in Basic Military Science and Physical Education, are placed upon the Honors List. The Honors List is published each quarter.

**Scholastic Honor Bars.**

As a recognition of substantial scholarship, Scholastic Honor Bars are awarded annually and will be presented at Commencement or other appropriate occasion to members of the various classes who remain on the Honors List for three consecutive quarters:

1. Red Bar to members of the Freshman Class;
2. White Bar to Sophomores;
3. Blue Bar to Juniors;
4. Gold Bar to Seniors.

**Special Recognition.**

Students whose work has been consistently superior receive Special Recognition on Commencement Day. To qualify for this Citation, freshmen must earn at least 120 quality points on a normal and regular schedule; sophomores, 240 quality points during the two years; juniors, 350 quality points during the three years.

**Senior Honors.**

Candidates for the degree after four years at North Georgia may be graduated with special senior honors provided the following grade-ratios have been established. Grade ratio of 2.0—Cum Laude; ratio of 2.45—Magna Cum Laude; ratio of 2.9—Summa Cum Laude.

Transfer students who have been in residence for at least the junior and senior years and have established the following grade-ratios may be graduated with senior honors; Grade-ratio of 2.25—Cum Laude; ratio of 2.7—Magna Cum Laude.

**Clark Mathematics Medal.**

This medal was donated to the college about sixty years ago by the late Hon. Harlow Clark. It is annually awarded to the student who establishes the highest scholastic average in Mathematics above Mathematics 105 and including Mathematics 345.

**Faculty Citizenship Award.**

This award in the form of a key is given each year to a graduating senior, selected by the entire faculty, who has been out-
standing in general campus citizenship. The senior's name is engraved on a plaque which remains with the college in honor of those who have been selected.

This award was made possible by Captain H. E. Hawkins of the Class of '33 as a token of his gratitude to the college faculty during the years of his attendance.

**Good Conduct Bars.**

This bar is awarded to cadets at the end of their first year, based upon their compliance with regulations formulated by the Professor of Military Science and Tactics and the Commandant.

**Public Speaking Cash Prize.**

A cash prize is annually donated by a friend of the College; this is awarded at Commencement for excellence in public speech.

**Forensic Senate Award.**

Each year the Forensic Senate awards a plaque to the student who is outstanding in written or oral communication. The award is open to students excelling in radio work, dramatics, public speech, journalism or research.

**The "Y" Cup.**

The Memorial Committee of the North Georgia College Y. M. C. A. annually awards its Memorial trophy to the student whose campus influence has been outstanding. The basis of the award is high scholastic average, interest in literary activities, general campus influence and quality of religious leadership, within both the college and the community.

**Honors Day**

In recognition of those students who have made an average of B with no grade lower than C for the two preceding quarters, Honors Day will be observed during the spring quarter. In honor of this group some distinguished speaker will be invited to deliver an address, and the names of the students will be printed on the special Honors Day Program.

**Class Membership**

Class membership is determined by the type of courses completed and by the hours of credit earned with at least an equal number of Quality Points. The minimum requirements for class
membership are: Freshman, less than 40 hours; Sophomore, 40-84 hours of the Basic Curriculum; Junior, completion of at least 85 Basic Curriculum hours with an equal number of Quality Points; Senior, 132 hours and above.

REQUIREMENTS FOR GRADUATION

Degrees

The college offers sequences of courses leading to two degrees, the Bachelor of Arts (A.B.) and the Bachelor of Science (B.S.)

Basic Curriculum

The requirements of the Freshman and Sophomore years total approximately 90 quarter hours, exclusive of Orientation. Basic Military Science (men) and physical education (women). This Basic Curriculum, with few modifications, is required of freshmen and sophomores, and the completion of at least 85 of these basic hours, with an equal number of Quality Points, is prerequisite to Junior Class standing.

English .......................................................... 20 hours
Social Science ......................................................... 15 hours
Modern Language, until completion of degree requirements, or specific requirements of degrees not requiring language ......................................................... 20 hours
Mathematics ......................................................... 10-5 hours
Science ............................................................... 15 hours
Approved electives ................................................. 10-15 hours
Total ................................................................. 90 hours

Language, where required for the degree, should be started not later than the beginning of the Sophomore year. Any language exemptions earned through high school language credit or superior college work may be utilized for additional electives.

Interpretation of Language Requirements

(1) For the A.B. and the general B.S. degrees, the language requirement is 20 hours in one language combined in high school
and college. A student who passes the language Placement Test may satisfy this requirement with 10 hours in the intermediate courses of the language offered for entrance. The minimum language credit that can be earned in college is thus 10 hours in one language.

The above maximum (20 hours) may be reduced 5 hours provided college language grades average B (30 Quality Points), or above and provided not less than 10 hours in one language be in college.

(2) For the Pre-Medical curriculum the minimum requirement is 15 hours with not less than 10 hours in college.

(3) After 10 hours of language credit in college have been earned a student may be given a standardized proficiency test. Attainment of the fixed exemption score will excuse the student from further language requirements.

Majors and Minors

Not later than the third quarter of his sophomore year, each student chooses a field of Major Study in which must be completed at least 50 hours. Within this field, under the direction of the department head the student selects a Departmental Major of at least 30 hours and a closely related Departmental Minor of at least 20 hours. In Business Administration and Home Economics the Major and Minor are in the same field.

Detailed information as to majors is given as a preliminary statement under the department or is contained in the outline of degree requirements. The specific courses constituting the "related Minor" will be determined by conference with the major and minor department heads, and approval of Dean.

In general, the requirements of the Basic Curriculum do not count as Major or Minor hours.

The student must maintain a minimum average of "C" in his concentration field and take at least one quarter of work, 15 hours, in his major subject during the Senior year.

The concentration program, both required and elective courses, must be approved by the student's adviser and by the Dean of the college. The program then becomes a requirement for the degree. All approvals must be in writing and filed in the Office of the Registrar.

No major or minor may be changed without written recommendation from the major professor and approval of the Dean.
Such changes will usually not be permitted later than the third quarter of the Junior year. The change will probably result in loss of credit required for the degree and may necessitate an additional quarter or more to meet the full outlined requirements of the proposed new program.

**Major Work and the Degree**

Formal commencement is held one time per year, and degrees are conferred on this occasion.

The Bachelor of Arts degree is conferred when major work is completed in English, History, French, Spanish, or Mathematics.

The Bachelor of Science degree is conferred when the major program is Biology, Chemistry, Physics, Mathematics, Business Administration, Secretarial Science, Home Economics, Education, Physical Education, or Psychology.

A standard three-years’ pre-medical program is offered, but the degree of Bachelor of Science may be conferred on the completion of the fourth year of pre-medical work. The degree may also be awarded upon the full completion of the first year’s work in a standard, approved school of medicine.

**Candidacy for the Degree**

Membership in the Senior Class does not within itself imply candidacy for the degree. Before the degree can be conferred all indebtedness must be met and the published requirements for the particular degree fulfilled. Responsibility for meeting these requirements rests upon the student and each candidate should check with the Registrar and also the Dean of the college his program for graduation three quarters before the date of graduation. A final checking with each official should be made at the beginning of the student’s last quarter. Failure to meet these obligations will cause the student to assume responsibility in case of error or omission in his program.

**Application for Degree**

Formal written application for the degree must be filed with the Registrar at least six months before the student expects to complete the full outlined degree requirements. Special blank forms for this application may be secured from the Registrar.
Requirements for the Degree

For the Bachelor of Arts or the Bachelor of Science degree the student must complete the requirements of the Basic Curriculum of the Freshman and Sophomore years and all Junior and Senior prescribed courses; must fulfill the major and minor requirements, and offer sufficient approved elective courses to bring the total number of credit hours to at least 196. These hours include Orientation required of all freshmen (1 hour), Basic Military Science and Physical Education (10 hours) required of freshman and sophomore men, and work in Physical Education required of freshman and sophomore women (10 hours).

As a part of the required 196 hours, all men must offer 18 hours in Advanced Military Science, unless excused because of physical disability or because veterans or advanced transfer students request and receive exemption.

If because of physical disability or other reason, a student is excused from Basic Military Science or Physical Education, a like number of academic hours must be substituted.

All seniors are required to write the Graduate Record Examinations. The law of Georgia requires that all candidates for the degree pass a written examination on the Constitution of the United States and the Constitution of Georgia, unless exemption has been earned through credit in courses dealing with these constitutions. These examinations will be given February 26, 1954. A series of lectures will be given in order to aid students in preparing for the examination.

Courses numbered 300 and above constitute the normal Junior and Senior student program. Courses of lower number should not total more than 25 hours.

Unsatisfied required courses take precedence over elective courses.

Transfer students must complete a minimum of 45 hours in residence during their last three quarters.

Not more than 40 quarter hours of the work for a degree may be taken in Extension or by Correspondence. No work by Extension or Correspondence will be accepted after a student has reached senior status.

Graduation depends upon quality of work done as well as quantity. Every candidate for the degree must complete at least 185 hours of academic work, exclusive of Orientation, Basic Military Science and Physical Education. In these hours of
academic work, 185 or more, each candidate for the degree must earn an equal number of Quality Points. A minimum average of "C" must be maintained during the last three quarters regardless of the number of Quality Points previously earned. Not more than twenty-five per cent of the credits offered for graduation may be of "D" grade.

No student may be declared a graduate of the college until all requirements for entrance and for graduation have been met, the degree conferred and the diploma awarded. The graduation fee is $7.50. Each candidate must be present at graduation unless excused in writing by the Dean.

COURSE REQUIREMENTS FOR DEGREE

Bachelor of Arts Degree

English 101, 102, 201, 202 ........................................ 20 hours
Mathematics (Men) 111, 206 or 105, 111 .......................... 10-8 hours
Mathematics (Women) 111 or 105 .................................. 5-3 hours
*Modern Language ................................................. 10-20 hours
Science ..................................................................... 15 hours
Social Science 101, 102, 204 ...................................... 15 hours
Philosophy 308 ......................................................... 5 hours
Political Science 201 ................................................. 5 hours
Psychology 201 ......................................................... 5 hours
Orientation .................................................................. 1 hour
Basic Military Science or Physical Education .................. 10 hours
Departmental Major .................................................. 30 hours
Departmental Minor .................................................. 20 hours
Approved Electives (Men) .......................................... 52-40 hours
Approved Electives (Women) ...................................... 57-45 hours

*See Interpretation of Language Requirements.

Minimum total, including Advanced Military if required, 196 hours.

Bachelor of Science Degree

(GENERAL)

English 101, 102, 201, 202 ........................................ 20 hours
Mathematics 111, 206 or 105, 111 .............................. 10-8 hours
*Modern Language ................................................. 10-20 hours
Science ..................................................................... 20 hours
Social Science 101, 102, 204 ................................... 15 hours
Philosophy 308 or American History .......................... 5 hours
Psychology 201 ......................................................... 5 hours
 Orientation ........................................ 1 hour
Basic Military Science or Physical Education .......... 10 hours
Departmental Major .................................. 30 hours
Departmental Minor .................................. 20 hours
Approved electives .................................. 52-40 hours

*See Interpretation of Language Requirements.
Minimum total, including Advanced Military if required, 196 hours.

Bachelor of Science Degree
(BUSINESS ADMINISTRATION)

English .................................................. 20 hours
Mathematics (Men) 111, 206 or 105, 111 .............. 10-8 hours
Mathematics (Women) 111 or 105 ..................... 5-3 hours
Political Science 201 ................................ 5 hours
Science ................................................... 15 hours
*Modern Language ..................................... 10-20 hours
Social Science 101, 102, 302 or 303 ................. 15 hours
Business Administration 160, 206, 207, 265, 266, 302,
  340, 350, 360, 362, 430, 460, 470, 480, 490 .......... 75 hours
Orientation ........................................... 1 hour
Basic Military Science or Physical Education .......... 10 hours
Approved electives (Men) .......................... 37-25 hours
Approved electives (Women) ......................... 42-30 hours

*See Interpretation of Language Requirements.

It is recognized, however, that there are students with highly specialized vocational interests. In these cases, upon the written recommendation of the Department Head, the Dean may permit the substitution of courses in the field of advanced accounting, business correspondence, consumer economics, and corporation finance for an equal number of hours in modern language.

Minimum total, including Advanced Military Science if required, 196 hours.

Bachelor of Science Degree
(SECRETARIAL SCIENCE)

English 101, 102, 201, 202 ......................... 20 hours
Mathematics (Men) 111, 206 or 105, 111 .............. 10-8 hours
Mathematics (Women) 111 or 105 ..................... 5-3 hours
Political Science 201 ................................ 5 hours
Psychology 201 ......................................... 5 hours
Science ................................................... 15 hours
Social Science 101, 102 ................................ 10 hours
Business Administration 160, 206, 207, 265, 266, 302,
  350, 362, 460, 480 .................................. 50 hours
Secretarial Science 320, 321, 322, 312, 314, 315, 416, 420, 424 ........................................... 36 hours
Orientation ................................................................ 1 hour
Basic Military Science or Physical Education .................. 10 hours
Approved electives ..................................................... 41-34 hours
Minimum total, including Advanced Military Science if required, 196 hours.

Bachelor of Science Degree

(PRE-MEDICAL)

Under the Department of Biology is outlined a standard three-years' pre-medical program, but since many schools of medicine require a college degree for admission, students of North Georgia College are given opportunity to complete a fourth year and receive the Bachelor of Science degree. Below is outlined the work of the first three years and also that of the fourth or Senior year.

Three Years' Program

English 101, 102, 201, 202 ........................................... 20 hours
*French or German ....................................................... 10-15 hours
Mathematics 111, 206 or 105, 111 ................................. 10-8 hours
Psychology 201 ........................................................... 5 hours
Social Science 101, 102, 201 or 204 ................................. 15 hours
Chemistry 201, 202, 203, 204, 301, 302 ......................... 30 hours
Physics 223, 224, 225 ................................................... 15 hours
Zoology 220, 321, 322, 401 ........................................... 21 hours
Botany 221 ................................................................. 5 hours
Orientation ................................................................ 1 hour
Basic Military Science or Physical Education .................. 10 hours
Approved electives ..................................................... 20-10 hours

*See Interpretation of Language Requirements.
Advanced Military Science (men) to be taken during the third year.

Senior Pre-Medical Year

A student having fully completed the Three Years' Pre-Medical program and who remains for the Senior Pre-Medical Year and the B.S. degree should complete a major in Chemistry or Biology, and take other advanced courses to give a schedule of at least 45 hours for the senior year. This schedule for men should include Advanced Military Science.
Minimum total, including Advanced Military Science if required, 196 hours.
Bachelor of Science Degree
(HOME ECONOMICS)

English 101, 102, 201, 202 ............................................. 20 hours
Biology 220, 390 (and 5 hours to be selected
from any science) .......................................................... 15 hours
Mathematics 111 or 105 .................................................... 5- 3 hours
Physics 120 .................................................................. 5 hours
Psychology 201 ................................................................ 5 hours
Social Science 101, 102, 204 ............................................. 15 hours
Public Speaking 211 ............................................................ 5 hours
Home Economics 101, 202, 205, 222, 275, 293, 300,
306, 323, 325, 411, 420, 445, 490 .......................................... 66 hours
Orientation .................................................................. 1 hour
Physical Education ............................................................... 10 hours
Approved electives ............................................................. 50 hours

Specified electives needed for certain curricula should be selected as
follows:
Home Service: Business Administration 330,
Secretarial Science 312, 314.
Textile: Chemistry 101, 300.
Food: Bacteriology 324, Chemistry 101, 300.

Students who expect to teach should take as electives 30 hours in
Secondary Education.
Minimum total, 196 hours.

PROGRAM OF TEACHER EDUCATION

The Four-Year Professional Teachers’ Certificate is the standard
credential for teaching in the state. This certificate is issued to persons who (1)
complete a bachelor’s degree program which is designed to serve the needs
of teachers in a specific teaching field and has been approved by the State
Department of Education, and (2) are recommended by the college whose
approved program has been completed.

This institution has an approved program leading to the B.S. degree
in Elementary Education, thus making it possible for graduates to qualify
for the Four-Year Professional Elementary Teachers’ Certificate.

Students wishing to obtain a Four-Year Professional Secondary Teachers’ Certificate may complete three years work at this institution. (See
“Three-Year Program Leading Toward B.S. Degree in Secondary Educa-
tion.”) The fourth year should be completed at a college having an ap-
proved program for the preparation of high school teachers in the subject
matter area selected.

The Four-Year Professional Certificate is valid for five years and may
be renewed by completing two courses of senior college or graduate level
work.

Other graduates who have had sufficient work in a teaching field and
have completed at least one course in professional education may be issued
the Four-Year Provisional Teachers Certificate. Likewise students who
have completed two or three years’ work including one course in profes-
sional education and the required amount of specialized subject matter
may qualify for the Two-Year or Three-Year Provisional Certificate, respectively. All provisional certificates are valid for one year and renewable upon the completion of two courses of additional study toward a higher certificate. Students with certification problems are advised to confer with the head of the Department of Education.

THREE-YEAR PROGRAM
Leading Toward
Bachelor of Science Degree
(SECONDARY EDUCATION)

Students wishing to obtain a four-year professional secondary school teacher's certificate may complete three years' work at this institution. The fourth year should be completed at an institution having an approved program for the training of secondary teachers.

Orientation .................................................. 1 hour
English 101, 102, 201, 202, 211 ................................ 25 hours
Mathematics
   (a) Men—111, 206, or 105, 111 .................. 10-8 hours
   (b) Women—111 or 105 ................................. 5-3 hours
Science ......................................................... 15 hours
Social Science 101, 102, 201, 204 ...................... 20 hours
Psychology 201, 302 .................................. 10 hours
Economics, Geography or Philosophy ..................... 5 hours
Art 305 ....................................................... 5 hours
Education 204, 305, 309, 312 ............................ 20 hours
Basic Military Science or Physical Education ............ 10 hours
Teaching Major and/or Minor ............................ 25 hours

Bachelor of Science Degree
(ELEMENTARY EDUCATION)

Orientation .................................................. 1 hour
English 101, 102, 201, 202 ................................ 20 hours
Mathematics
   (a) Men ................................................... 8 hours
   (b) Women ................................................ 3 hours
Natural Science ............................................. 15 hours
Social Science 101, 102, 201, 204 ...................... 20 hours
Economics or Sociology .................................. 5 hours
Psychology 201, 301 .................................. 10 hours
Education .................................................. 35 hours

Approved specialized courses for elementary teachers (To be selected from these fields: Geography, American
Consumer Problems ........................................ 5 hours
Basic Military Science or Physical Education ........... 10 hours
Approved Electives ......................................... 22-18 hours

Courses in Education must include 204, 305, 311, and 421.

Education 431 is required of all pre-service trainees. Students who have had at least a year of teaching experience may upon approval of the head of the Education Department and the Dean substitute Education 441 and 451 for this course.

Bachelor of Science Degree

(Physical Education)

English 101, 102, 201, 202 .................................. 20 hours
Biology 101, 102, 323, 390 .................................. 20 hours
Mathematics (Men) 111, 206, or 105, 111 .............. 10-8 hours
Mathematics (Women) 111 or 105 ......................... 5-3 hours
Psychology 201 ................................................... 5 hours
Public Speaking 211 ......................................... 5 hours
Social Science 101, 102, 201, or 204 .................... 15 hours
Orientation ...................................................... 1 hour
Basic Military Science or Physical Education .......... 10 hours
Physical Education Major .................................. 45 hours
Teaching Major ................................................. 35 hours
Approved electives (Men) .................................. 32-30 hours
Approved electives (Women) ............................. 37-35 hours

Of these electives 15 hours in Education are recommended; also Chemistry or additional Biology if the student's schedule permits.

Minimum total, including Advanced Military Science, if required, 196 hours.

DESCRIPTION OF COURSES

Guidance

100. Orientation. ............................................. 1 hour

Fall Quarter.

Two hours of recitation per week.
A procedure will be followed in this course to: build up skills and proper attitudes in study habits in the various fields of study; give instruction in the use of the library, with emphasis on how to use the card catalogue and reference books, and prepare a bibliography; acquaint the student with the aims, purposes, organization and regulations of the college; provide a time in which to gather information from the freshman which is necessary for proper guidance.

This course is required of all freshmen.

Department of Biology

Major Requirements:

A major in Biology consists of 36 hours chosen from the following courses: Biology 220, 321, 322, 320, 324, 426, 400, 401, 402, 323, 390, and Botany 221, 222, 343.

Human Biology 101-102 should be included in the Basic Curriculum.

101-102. Human Biology. 5-5 hours

Biology 101, Fall, Winter and Spring Quarters; Biology 102, Fall, Winter and Spring Quarters. Lectures, laboratory demonstrations, conferences.

The aim of this course is to give the student some acquaintance with the vital phenomena in general and their application to the human organism. The first half will deal particularly with the problems of the individual. Its subject matter will include an introduction to the fundamental facts of biology, human anatomy, and physiology, and the maintenance of health in the individual. The second half will deal with problems of the racial life of man. In this phase of the course will be included studies of public health problems, reproduction, genetics and eugenics, and racial development.

220. General Zoology. 5 hours

Fall Quarter.

Four lectures and two laboratory periods of two hours each per week. An introductory course preceding other courses in the department, in which the fundamental facts of the structure and activities of lower animals are stressed. The student will acquire technique of dissection and learn to use the microscope.

303. Nature Study. 5 hours

Summer Quarter.

Lecture, laboratory and field studies of plants, animals and other aspects of nature as they affect our everyday life. Designed especially for teachers.
321. **Comparative Anatomy of the Vertebrates.** 6 hours
   Winter Quarter.
   Four lectures and two laboratory periods of three hours each per week. A course especially for pre-medical students and biology majors, who need preparation for more intensive study of human anatomy. Representative vertebrates will be dissected and studied in the laboratory.
   Prerequisite: Zoology 220.

322. **Anatomy of the Cat.** 5 hours
   Spring Quarter.
   Three lectures and two laboratory periods of three hours each per week. The course is divided into osteology, myology, visceral anatomy, vascular and nervous systems.
   Prerequisite: Zoology 321.

323. **Human Anatomy and Physiology.** 5 hours
   Fall Quarter.
   Four lectures and two laboratory periods of two hours each per week. An advanced course in the general structure and function of the human body.
   Prerequisites: Biology 101, 102 or Zoology 220.

324. **Introductory Bacteriology.** 6 hours
   Fall Quarter.
   Four lectures and two double laboratory periods per week. Introduction to bacteriological principles and technique will be given. The course is designed for students in Home Economics, Technicians and biology majors.
   Prerequisites: Two courses in Chemistry and two courses in Biology.

426. **Technician Course.** 5 hours
   Spring Quarter.
   Three lectures and two laboratory periods of two hours each per week.
   The course includes a working knowledge of the following: Medical bacteriology, medical biology, parasitology, blood counts and blood typing. Blood sugar and hemoglobin determination, sanitary surveys, preparation of temporary and permanent tissue mounts and urinalysis.
   Prerequisites: Bacteriology and one course in Organic Chemistry.

320. **Genetics.** 5 hours
   Spring Quarter.
   Five lecture hours and demonstration per week.
   Elementary principles of heredity and their relationship to plants and animal breeding, with brief extension into human heredity.
   Prerequisite: One basic course in Biology.
   Not open to freshmen.
221, 222. Botany. 5-5 hours
Fall and Winter Quarters. Four hours of lecture and five of laboratory per week.
A survey of the plant kingdom with emphasis upon the economic plants. Botany 221 deals primarily with the structure and physiology of seed bearing plants. Botany 222, a continuation of Botany 221, places emphasis on development, reproduction and relationships.

343. Plant Physiology. 5 hours
Spring Quarter.
Two lectures and three double laboratory periods per week.
A study of the various aspects of the physiological processes occurring in plants.
Prerequisite: Botany 221-222.

390. Health Education. 5 hours
Winter and Summer Quarters.
This is a study of the human body, plan and posture, individual development, body functions and systems, exercises and rest, conditioning and training, bathing, narcotics and drugs, work and recreation, sex and social hygiene, body resistance and immunity. Food, water, air and climate, sewage and garbage disposal, communicable disease, vital statistics, and legal and social regulations pertaining to personal and community health.

400. Animal Histology. 5 hours
Winter Quarter.
Three lectures and two double laboratory periods per week. A study of histological structure of organ systems in the higher vertebrate groups.
Prerequisite: Zoology 322.

401. General Embryology. 5 hours
Spring Quarter.
Three lectures and two double laboratory periods per week. A study of the germ cells and early development stages of vertebrates. Emphasis on organogeny of the chick, pig, and man.
Prerequisite: Zoology 220-321.

402. Entomology. 5 hours
Spring Quarter (alternating with Embryology 401).
A study is made of the insects and related arthropods as they affect the public health and animal and plant industry. Three lectures and two laboratory periods of two hours each per week.
This course is planned for biology majors, especially for those who may wish to go into public health work.
Prerequisite: Zoology 220.
Not offered 1954-55.
Department of Business Administration

The department of Business Administration offers a program of study that is designed to equip its students for beginning useful careers in business and industry at graduation and, at the same time, to instill a command of fundamentals upon which they may build for subsequent advancement to positions of responsibility.

In attempting to attain these objectives the curriculum for the B.S. degree with a major in Business Administration includes in addition to basic courses in English, government, history, mathematics, and science, a well-integrated program of business administration courses including relatively specialized concentrations in accounting, distribution and finance.

The curriculum for the B. S. degree with a major in Secretarial Science includes in addition to basic courses in English, government, history, mathematics, psychology, and science, a comprehensive concentration in secretarial courses. It further includes a well-integrated sequence of general business courses.

160. INTRODUCTION TO BUSINESS. 5 hours

Spring Quarter.

This course is designed to assist students in making an intelligent choice of future careers and to provide an introductory view of the tasks of the business executive, and the methods he employs in accomplishing these tasks. Forms of business organization, plant location, finance, production, administration of personnel, marketing, and other basic elements of business management are the major topics emphasized.

206. ACCOUNTING. 5 hours

Fall and Winter Quarters.

An elementary course in the procedures and methods of maintaining accounting records and the preparation of accounting reports with emphasis on accounting for proprietorships. Recitation three hours a week; laboratory six hours.

207. ACCOUNTING. 5 hours

Winter and Spring Quarters.

A continuation of Business Administration 206 with emphasis on payrolls, taxes, partnership and corporate accounting procedures, and on accounting methods for manufacturing activities. Recitation three hours a week; laboratory six hours.

Prerequisite: Business Administration 206.

265. ECONOMICS. 5 hours

Fall and Winter Quarters.

This course provides a theoretical understanding of economic institutions and problems of the American capitalistic system. It concentrates
on inflation and depression; family income and national income; wages, prices and profit; conditions that will lead to economic progress, and the efficient use of all our resources.

266. ECONOMICS.  5 hours

Winter and Spring Quarters.

A continuation of Business Administration 265 with emphasis on the problems of pricing the national productive output, pricing of the production factors, international trade and finance, and alternate economic systems.

302. ECONOMIC GEOGRAPHY.  5 hours

Spring Quarter.

A study of the effects of man's physical environment on his economic activity to develop a basis for a better understanding of world production in agriculture, forestry, mining, and manufacturing. Distribution of the world's physical features, mineral resources, soils, and climates are the major topics emphasized; while the economic geography of selected places in various parts of the world is considered in greater detail.

330. CONSUMER ECONOMIC PROBLEMS.  5 hours

(On Demand).

This course is designed for teachers as well as for those who desire a detailed study of consumer problems. The more important elements of consumer education are reviewed, including: consumers' goods, consumers' services, buying problems, consumer organization, problems of personal finance, and well-balanced spending programs.

340. MATHEMATICS OF FINANCE.  5 hours

Fall Quarter.

A study of simple and compound interest, simple discount, annuities, amortization, sinking funds, valuation of bonds, life annuities and insurance.

Prerequisites: Business Administration 265 and Mathematics 105 or 206 and 111.

350. PRINCIPLES OF MARKETING.  5 hours

Fall Quarter.

A functional study of market organization designed to introduce the student to the major institutions and basic theory in the field of marketing. Different levels of marketing, organizations operating at each level and their functions, price policy, marketing cost, and relative efficiency of various marketing methods are the principal topics emphasized.

Prerequisites: Business Administration 265 and 266.

360. STATISTICAL METHODS.  5 hours

Winter Quarter.

A course in statistical materials and methods with special reference
to the economic applications of these methods. Topics covered will include: collection, tabulation, and presentation of data; sampling theory; frequency distribution; averages; dispersion and skewness; index numbers; the analysis of time series; correlation methods; confidence limits; and test of significance.

362. **Business Law.** 5 hours

Spring Quarter.

A study of contracts, sales, bailments, negotiable instruments, the law of employment, partnerships and corporations, and risk bearing devices. Several digests of decided cases are studied with each topic to make the discussion of principles specific and meaningful. Reference is made to modern legislation affecting business and the employers.

380. **Intermediate Accounting.** 5 hours

Fall Quarter.

An advanced study of detailed corporate accounting procedures and a study of the general procedures and practices that constitute acceptable accounting and reporting for all types of business organization.

Prerequisites: Business Administration 206 and 207.

390. **Advanced Accounting.** 5 hours

Winter Quarter.

A more advanced study of accounting procedures with attention given to the more difficult and specialized phases that arise in consignments, installment sales, insurance, larger organizations, foreign trade, estates and trust and liquidations.

Prerequisite: Business Administration 380.

395. **Auditing.** 5 hours

(On Demand)

A course in the theory and practice of professional and general auditing. The student will gain the basis for the expression of a general opinion regarding the conformity with accepted accounting procedure of statements prepared by a corporation or other form of business. Auditing standards, internal control, government regulation, and formal report writing.

Prerequisites: Business Administration 206 and 207.

426. **Cost Accounting.** 5 hours

(On Demand)

A study of the theory and practice of accounting for the costs of manufacturing and selling. The treatment of labor, material, and overhead costs in both job-order and process industries receive detailed consideration. Designed to develop an appreciation of the uses of cost information in the administration and control of business organizations.

Prerequisites: Business Administration 206 and 207.
430. **SALESMAINSHP.**  
Spring Quarter.  
A study of scientific methods of salesmanship. Analysis of prospects, knowledge of merchandise and its uses, preparation of sales talks, methods of approach and securing attention and interest, methods of handling objections and closing sales, and the selecting and training of salesmen are the major topics emphasized.  

5 hours

460. **MONEY AND BANKING.**  
Fall Quarter.  
A study of monetary standards, supply and value of money, problems of inflation and deflation, currency system of the United States, commercial banks and credit market, Federal Reserve System, international payments and the international monetary fund, exchange rates and control, International Bank for Reconstruction and Development, money and the interest rate, and monetary theory with special reference to the theories of Fisher and Koynes are the major topics.  
Prerequisites: Business Administration 265 and 266.

5 hours

465. **CORPORATION FINANCE.**  
(On Demand)  
A study of the financial organization and management of business; types of securities and their uses; problems of capitalization; promotion; the underwriting syndicate; securing new capital; sinking funds and refunding operations; methods of consolidation; causes of failure; and receivership and reorganizations.  

5 hours

470. **INVESTMENTS.**  
Winter Quarter.  
The purpose of this course is to provide training in the formulation of investment programs and the determination of policy adapted to the student's individual needs. The principal topics studied include sources of information for the investor, types of securities, security markets and their operation, movement of security prices, types of industries and their characteristics, analysis of financial statements, and investment principles and safeguards.  
Prerequisites: Business Administration 265 and 266.

5 hours

480. **RETAILING.**  
Winter Quarter.  
A study of the merchandising problems, policies, and procedures of the various retailing institutions. Selection of a location for, internal layout and organization of retail establishments, merchandising policies, store policies toward the public, and training and management of personnel are the major topics emphasized.  
Prerequisites: Business Administration 265 and 266.

5 hours
490. **Labor Problems.**

Winter Quarter.

A study of the origin of the labor problem, labor's grievances, unemployment, wages, hours, accidents and disease, labor's organization and economic and political program, employers' effort to combat unionism and to meet labor's grievances, and government and legislation.

Prerequisites: Business Administration 265 and 266.

### Courses in Secretarial Science

312. **Beginning Typewriting.**

Fall Quarter.

A practical course in typewriting with emphasis on the technique of machine operation, speed, accuracy, and continuity of movement. Introduction to business letter forms.

314. **Intermediate Typewriting.**

Winter Quarter.

Further study of the theory and techniques of typewriting, including a thorough study of business letter forms, tabulated material and manuscripts. A speed of 45 words a minute is required.

Prerequisite: Secretarial Science 312.

315. **Advanced Typewriting.**

Spring Quarter.

A continuation of Secretarial Science 314 with emphasis on the development of speed and accuracy sufficient for vocational use. A speed of 60 words a minute is required. Open for credit to secretarial students only.

Prerequisite: Secretarial Science 314.

320. **Beginning Shorthand.**

Fall Quarter.

The theory of Gregg Shorthand with sufficient practice to develop skill in writing at a speed of 60 words a minute. Secretarial duties and traits are given some consideration. Personal use as well as vocational values emphasized. Credit not given until Secretarial Science 321 is completed.

321. **Intermediate Shorthand.**

Winter Quarter.

A continuation of Gregg Shorthand with sufficient practice to develop a speed of (minimum) 80 words a minute in dictation required.

Prerequisite: Secretarial Science 321.

322. **Advanced Shorthand.**

Spring Quarter.

A continuation of Secretarial Science 321. Rapid dictation and tran-
scription. A speed of 100 words a minute required.
    Prerequisite: Secretarial Science 321.

416. BUSINESS CORRESPONDENCE.  5 hours
    Fall Quarter.
    Practice in the use of correct and forceful English in writing business
    letters and reports. Study and analysis of sales, credit, adjustment, and
    application letters and business reports.
    Prerequisites: English 101 and 102.

420. AN INTRODUCTORY COURSE COVERING VARIOUS TYPES OF
    MACHINES AND THEIR USES.  5 hours
    (On Demand).
    Students receive instruction and do individual work on each of the
    following machines: adding, calculator, transcribing (Ediphone and Dicta-
    phone), recording, bookkeeping, billing, and mimeograph, and others
    common to the modern business office.
    Prerequisites: Secretarial Science 315 and 322.

424. ADVANCED SECRETARIAL PRACTICE.  5 hours
    Spring Quarter.
    This course combines shorthand and typewriting in the transcription
    of shorthand notes and the development of office proficiency. Various
    activities of the modern office will be observed with special emphasis
    placed on the principles, procedures, and systems of filing with sufficient
    practice with laboratory sets to develop facility and skill.
    Prerequisites: Secretarial Science 315 and 322.

Department of Chemistry

The Department of Chemistry offers work leading to the profession
of Chemistry. It also offers pre-professional courses for Home Economics,
Medicine, Dentistry, Engineering, Agriculture, and other fields.

The Professional Curriculum

If a student pursues the professional curriculum, it is presumed that
the student wishes to become a professional chemist. The chemistry courses
which should be taken are: 201, 202, 203, 204, 205, 301, 302, 303, 304,
305, 401, 402, 406. A student should also take mathematics 111, 206,
222, 345, and 346. The physics requirements are 223, 224, and 225. A
student can complete minor requirements by taking one more mathematics
course or physics course. The student is urged to take one or more labo-
ratory courses in biology. The required foreign language is German. A
student following the professional curriculum should maintain a B average
at least in the last two years, and if he does not do so, he may be asked
to discontinue this program. After finishing his B.S. degree with a major in chemistry the student is urged to secure the M.S. or Ph.D. degree at some institution of higher learning in preparation for his career in chemical industry or research.

The Nonprofessional Curriculum

This curriculum is designed for those students who wish to study chemistry but who will probably not follow chemistry as a profession. Such students might be pre-medical, pre-engineering, army career, laboratory technician, high school teaching, or other students. The chemistry courses which should be taken are: 201, 202, 203, 204, 301, 302, and 400. One to three additional courses would be desirable. A student must also take Mathematics 111 and 206, Physics 121, and Biology 220. For the nonprofessional curriculum any foreign language is acceptable. By taking one or two summers of additional work the student could complete the professional curriculum.

A Minor in Chemistry

A minor in chemistry consists of chemistry 201, 202, 204, and 300. Any departure from these four courses must be by the consent of both the major and minor professor.

100. INTRODUCTION TO CHEMISTRY. 5 hours
    Fall and Spring Quarters.
    A course surveying Chemistry in one quarter for non-science majors. It will cover the applications of Chemistry in every day living. Scientific thinking, the philosophy of science, and the methods of the scientist will be touched on. Topics such as the concept of matter, the concept of energy, the fundamental structure of matter, the divisions of chemistry and the application of chemistry will be discussed. Students who take Chemistry 100 cannot later take Chemistry 101 for credit. Five hours lecture per week including demonstration laboratory.

101. GENERAL CHEMISTRY FOR HOME ECONOMICS. 5 hours
    (On Demand).
    Four hours lecture and one three-hour laboratory period per week. A one-quarter course in general chemistry for girls. The applications to Home Economics are stressed.

201-202, 203. GENERAL CHEMISTRY AND QUALITATIVE ANALYSIS. 5-5, 5 hours
    These three courses constitute the usual year’s work in beginning college chemistry.
    Chemistry 201—Fall Quarter. Four hours lecture and one three-hour laboratory period per week.
Chemistry 202—Winter Quarter. Four hours lecture and one three-hour laboratory period per week.

Chemistry 203—Spring Quarter. Three hours lecture and two three-hour laboratory periods per week. The laboratory work of this course consists of qualitative analysis.

Credit will not be given for 201 unless 202 is satisfactorily completed. However, all three courses must be taken if a student continues in Chemistry.

204, 205. Quantitative Analysis. 5-5 hours
Fall and Winter Quarters. Chemistry 205 will be offered on alternate years if demand is not sufficient.

These courses include gravimetric, volumetric and electrometric methods. Two hours lecture and nine hours laboratory work per week.

300. Organic Chemistry—Brief Course. 6 hours
Spring Quarter.

A short course in Organic Chemistry. Five lectures and one four-hour laboratory period per week.

301-302. Organic Chemistry. 5-5 hours
Fall and Winter Quarters.
Four hours lecture and one four-hour laboratory period per week.

303. Qualitative Organic Analysis. 5 hours
Fall Quarter.
Three hours lecture and six hours laboratory work per week.

304. Organic Reactions and Preparations. 5 hours
Fall Quarter.
Three hours lecture and six hours laboratory work per week.
Prerequisites: Chemistry 301 and 302.

305. Inorganic Chemistry and Inorganic Preparations. 5 hours
Spring Quarter.

An extension of the study of inorganic chemistry begun in General Chemistry and Qualitative Analysis. The presentation is based on the periodic table, and such matters as the atomic structure of the elements, nature of the chemical bond, crystal systems and atomic configurations are discussed. Three hours lecture and two three-hour laboratory periods per week.

400. Physical Chemistry—Brief Course. 5 hours
Fall Quarter.
Four hours lecture and one three-hour laboratory period per week. This course does not require calculus and should appeal to pre-medical students. This is the only additional course needed by pre-medical students to complete the nonprofessional major.
401-402. PHYSICAL CHEMISTRY. 5-5 hours

Fall and Winter Quarters.

A professional course presenting the fundamental principles of physical chemistry. Such topics as structure of atoms and molecules, states of matter, thermodynamics, chemical equilibrium, theory of ionization, electrochemistry, chemical kinetics and catalysis, colloids, and the phase rule are discussed. The laboratory work is integrated with the course work, and some familiarity with recent physicochemical techniques will be acquired. Four hours lecture and one or two three-hour laboratory periods each week.

Prerequisites: Chemistry 204, 301, and 302. Three quarters of General Physics and two quarters of calculus.

405. INSTRUMENTAL ANALYSIS. 5 hours

Spring Quarter.

This course involves a study of chemical analysis with the use of instruments. The instruments included are the refractometer, polarimeter, titrimeter, pH meter, polarograph, colorimeter, spectrophotometer and the spectrograph. Three hours lecture and six hours laboratory per week.

406 a, b, c. INTRODUCTION TO CHEMICAL RESEARCH. 6 hours

This course is designed to prepare the student for employment as a research assistant upon the completion of the B.S. degree or for the research work for an advanced degree. It will consist of one or two lectures or conference hours per week throughout the senior year (9 months), together with an indeterminate amount of unscheduled laboratory work. It is anticipated, however, that the laboratory work will not average less than five hours per week, the subject matter of the lectures will be the technique of research, use of technical reference literature, theory of errors and analysis of experimental data, and report writing. Reference will also be made to specialized research techniques. The laboratory work of the first quarter will consist of exercise in glass-blowing, the construction of glass equipment, and the attainment of high vacua. In the second and third quarters, the student will be assigned a minor research project on which he will prepare a report.

Department of Education and Psychology

Courses in Education

204. INTRODUCTION TO EDUCATION. 5 hours

Fall and Summer Quarters.

The primary purpose of this course is to furnish guidance to prospective teachers. Teaching as a profession will be carefully analyzed. Students will study and evaluate their own abilities and traits as attributes of the teacher's personality.
An overview of the American public school system will be presented. A minimum of one hour weekly will be spent observing a demonstration teacher.

Prerequisite to other education courses.

305. EDUCATIONAL PSYCHOLOGY.  5 hours
Winter and Summer Quarters.
Emphasis on learning: its nature, motivation, retention, appraisal, transfer, and application.
Adjustment of educational practices to individual differences in abilities and interests among pupils will be considered.

Some observation in teaching-learning situations will be done.

309. SCHOOL AND SOCIETY.  5 hours
(Offered on Sufficient Demand).
This course is designed to help prospective teachers familiarize themselves with the implications of social, economic, political and religious trends and conditions on our educational system. The relationships of community, state, national and international agencies and problems to education will be discussed.
Laboratory work will consist chiefly of making a community survey and pointing up its implication for faculty planning.

311. THE ELEMENTARY SCHOOL CURRICULUM.  5 hours
Fall and Summer Quarters.
This course is designed to familiarize teachers with the processes involved in setting up an elementary school program that will function in the life of the community. Consideration will be given to planning learning experiences in such a way that desirable home-school relationships will be fostered. Grade placement of learning experiences will be considered. Class will meet 10 hours each week.

312. SECONDARY SCHOOL CURRICULUM.  5 hours
Spring Quarter.
A study of principles and practices related to the organization of learning experiences for secondary school youth. Special phases of the curriculum will be observed and evaluated.
Opportunities to develop course outlines and teaching units will be given.

Prerequisite: Two courses in education or permission.

401. AUDIO-VISUAL EDUCATION.  5 hours
(Offered on Sufficient Demand).
It is intended that both beginning and experienced teachers will increase their efficiency in the use of such instructional aids as specimens,
models, photographs, drawings, cartoons, charts, graphs and maps as well as in the use of such equipment as the phonograph, tape recorder, radio, television, and projectors of various types (including motion pictures). The psychological principles underlying the use of these materials will be discussed. Some laboratory work will be included.

402. PROBLEMS OF RURAL EDUCATION. 5 hours
(Offered on Sufficient Demand).
Problems peculiar to rural schools will be studied.

416. EDUCATIONAL MEASUREMENT AND EVALUATION. 5 hours
Spring Quarter.
Theory of and practice in construction, administration, and interpretation of tests and other measuring devices for mental ability, special aptitudes, scholastic achievement and personality. Each student will do laboratory work in his field of interest. How such devices can be utilized to evaluate and improve instruction will be emphasized.
Prerequisites: Three courses in education or psychology, or an approved equivalent.

417. MENTAL HYGIENE. 5 hours
Offered Winter and Summer Quarters.
See Courses in Psychology.

419. PRINCIPLES OF GUIDANCE. 5 hours
(Offered on Sufficient Demand).
A study of the basic principles of personal, educational and vocational guidance: the organization, administration, and evaluation of guidance programs in the public schools; securing, evaluating and presenting guidance information; applying this information to the student; consideration of occupations; and the place of administrators and teachers in the guidance program.
Prerequisites: Three courses in education or an approved equivalent.

421. MATERIALS AND METHODS FOR THE ELEMENTARY SCHOOL. 5 hours
Fall Quarter.
This course is designed to acquaint the student with methods and materials appropriate to the elementary school. Textbooks, film strips, and other materials are studied and evaluated. Supervised observation in an elementary school is required. Class will meet 10 hours each week.

431. APPRENTICE TEACHING IN THE ELEMENTARY SCHOOL. 15 hours
Winter Quarter.
Observation and participation in teaching in a selected elementary school throughout the school day. Gradual induction into the situation
with increasing responsibility for full-time teaching role. One conference per week with college coordinator during quarter, to be followed by two conference periods weekly for six weeks the following quarter.

Scholastic standing of at least "C" a prerequisite. (Students wishing to enroll in this course should make application to do so at least one quarter in advance.)

**441. Workshop for Elementary Teachers.** 10 hours

Summer Quarter—First Session.

The entire school day will be devoted to activities especially planned to provide in-service teachers with an opportunity to work on instructional problems.

(Open only to juniors, seniors and postgraduates who have had no previous workshop experience but have completed at least three Education courses.)

**451. Advanced Workshop for Elementary Teachers.** 5 hours

Summer Quarter—First Session.

Problems concerning the evaluation of instruction will be given particular emphasis. One-half of the school day will be devoted to these and other problems of elementary teachers. The remainder of the day may be spent in a specialized course offered by the workshop staff.

Prerequisite (toward degree requirements only): Education 441 or the approved equivalent.

*Courses in Psychology*

The major in Psychology consists of 30 hours beyond Psychology 201.

**201. General Psychology.** 5 hours

Each Quarter.

A study of human behavior, including motivation, emotions, learning, individual differences and the development of personality. A general survey of the field of psychology.

Prerequisite to all other psychology courses.

**301. Child Development.** 5 hours

Fall and Summer Quarters.

A study of the roles played by growth and maturation in the social, emotional, moral and physical development of children from the prenatal period to adolescence.

Observation of children will be integrated with classroom discussion.

(Not open to students who have completed Home Economics 490).

**302. Psychology of Adolescence.** 5 hours

Fall Quarter.

A study of the development of the human being from puberty through adolescence with emphasis upon general life problems facing youth during
this period. Investigations will be made into ways and means of helping youth to make proper adjustments to these problems.

305. **Educational Psychology.**  
Winter and Summer Quarters.  
See Courses in Education.

313. **Applied Psychology.**  
Offered Spring Quarter.  
A study of the relation of psychology to business and industry; motivation and training of employees, advertising, salesmanship, employment and personnel procedures. Some attention will be given to the relationship of psychology to such fields as journalism, medicine and law.

315. **Social Psychology.**  
Winter Quarter, 1956.  
A study of human relationships as applied to social activities, language, customs, propaganda, pressure groups, leadership and crowds.

416. **Educational Measurements and Evaluation.**  
Spring Quarter.  
See Courses in Education.

417. **Mental Hygiene.**  
Offered Winter Quarter.  
A study of the more general factors which influence mental efficiency; the significance and importance of mental hygiene in modern life. Personal, family, vocational, and social problems as they are related to mental health will be discussed.

**Special Courses for Elementary Teachers**

107. **College Arithmetic.**  
Summer Quarter.  
A comprehensive study of the foundations and development of grammar school arithmetic designed to provide elementary teachers functional competence and a thorough understanding of the processes of arithmetic with an introduction to algebra and plane geometry.  
Not admissible as credit toward a major in mathematics, a teaching major or a teaching minor.

**ART**

205. **Public School Art.**  
Summer Quarter.  
A study of the place of art in the school program. Emphasis is placed on activities suitable for the elementary grades including simple lettering,
color study, nature drawing, clay modeling, finger painting and poster making.

305. **Public School Arts and Crafts.** 5 hours
    Summer Quarter.
    A continuation of Art 205 with emphasis on water color, tempera, block printing, art metal work and weaving. The importance of design will be stressed. Emphasis is given to crafts suitable for leisure time activities.

**Music**

206. **Fundamentals of Music.** 5 hours
    Winter and Spring Quarters.
    This course is designed to provide experiences in the fundamental aspects of music: rhythm, singing, playing an instrument, listening, reading, and notation.

306. **Music in the Elementary School.** 5 hours
    Summer Quarter.
    This course is designed to acquaint students with music materials and methods adapted to the elementary school. Emphasis is placed on learning songs, rote singing, ear and eye training, singing rounds and two-part singing.

**Language Arts**

**Public Speaking.** (English 211) 5 hours
    See page 83.

**Children's Literature.** (English 308) 5 hours
    See page 85.

**Social Studies**

**Geography 202—World Human Geography.** 5 hours
    Winter Quarter.
    Earth conditions will be studied with reference to the adaptations made to them by man. The influence of geographical factors on modes of living, types of occupations, social organization and government will be given emphasis.

**Economic Geography.** (Business Administration 302) 5 hours
    See page 66.

**American History** (History 301, 302, 303)
    See pages 97 and 98.

**Health**

**Health Education.** (Biology 390) 5 hours
    See page 64.
PHYSICAL EDUCATION FOR THE ELEMENTARY SCHOOL.
(Physical Education 420) 5 hours
See page 96.

NUTRITION FOR TEACHERS. (Home Economics 305) 5 hours
See page 82.

SCIENCE

NATURE STUDY. (Biology 303) 5 hours
See page 62.

304. SCIENCE FOR THE ELEMENTARY SCHOOL. 5 hours
   Summer Quarter.
   A course dealing with the everyday aspects of physics, chemistry, biology and astronomy as they might need to be explained by the elementary teacher with little other specific training in science. The work will include many demonstrations and simple experiments that can be performed with everyday materials that will be available in the average elementary school and home situation.

405. THE CONSERVATION AND USE OF NATURAL RESOURCES. 5 hours
   Spring Quarter.
   A course designed to acquaint students with the importance of and problems pertaining to the conservation and use of such resources as soil, minerals, water, forests and wildlife.

Department of Home Economics

The Department of Home Economics offers the Bachelor of Science degree in general home economics. The course is designed to meet the needs of students interested primarily in homemaking and of those who wish to enter certain commercialized fields of home economics. It also gives a thorough preparation for those who desire to enter selected fields of specialized home economics study.

Majors in other departments are encouraged to elect the following subjects without prerequisites being adhered to: Home Economics 101, 202, 205, 222, 275, 293, 300, 323, 420, and 490.

101. INTRODUCTORY HOME ECONOMICS. 5 hours
   Fall Quarter.
   A course in developing problems of self-discovery and self-direction, and designed to help the student to adjust in a new environment. The history and development of home economics and its relation to some of the problems that home economists must recognize and prepare to help solve.
202. **Art Survey.**
Winter Quarter.

Three hours lecture and two two-hour laboratory periods.

A survey of Art, providing a basis for the development of good taste and Art appreciation. Required of Home Economics majors but offered as a general elective.

5 hours

205. **Foods.**
Fall Quarter.

Three lecture and two laboratory periods of three hours each per week.

A practical course to present the facts and principles which govern food selection, preparation and table service. The basic facts of nutrition along with their application to individual needs are studied. Field trips in marketing are included.

5 hours

222. **Problems in Dress.**
Winter Quarter.

One lecture and four double laboratory periods. Clothing selections; emphasis on principles of pattern alterations, fitting and construction; construction of two garments.

5 hours

275. **Home Planning and Furnishings.**
Fall Quarter.

Three lecture and two three-hour laboratory periods.

Planning and furnishing the house from the standpoint of family needs; economic and social factors involved; historical background of furniture; application of the principles of art to home furnishing.

5 hours

293. **Family Relations.**
Spring Quarter.

Five hours' lecture.

The aim of this course is to give a greater appreciation of the home through a study of its history, of the problems in managing the modern home, and of the laws directly affecting it. Not open to students who have credit in Sociology 316.

5 hours

300. **Household Equipment.**
Winter Quarter.

Four lectures and one laboratory period.

Application to home situations of the principles involved in the performance of major types of household equipment used in food preparation, laundering, and cleaning, with emphasis placed upon safety in the home.

Prerequisite: Physics 120.
306. **Meal Planning and Table Service.**
Spring Quarter.
Two lectures and three double laboratory periods. The choice, purchase, preparation and service of meals considering the dietary standards and nutritional needs of the group and for special occasions.
Prerequisite: Foods 205.

323. **Textiles.**
Winter Quarter.
Four lecture periods and one two-hour laboratory.
A study of textiles, fibers, and fabrics, their properties, structure, manufacturing and wearing qualities from the consumer standpoint. Physical and chemical testing for adulterations and fiber content. Economic consideration in selection and buying.

325. **Clothing Selection and Construction.**
Spring Quarter.
Two lectures and three double laboratory periods.
Prerequisites: Home Economics 222, 323.

411. **Nutrition.**
Fall Quarter.
Four lectures and one two-hour laboratory period per week.
A study of the chemical and physical changes involved in the digestion and metabolism of foods. The nutritive value and relative cost of foods in relation to feeding the family.

420. **Home Nursing.**
Winter Quarter.
Three lectures and one four-hour laboratory period per week.
General procedure in nursing the sick in the home, home remedies, food for the sick, and physical care of infants.
Prerequisite: Home Economics 205.

445. **Clothing for Children.**
Winter Quarter.
Two two-hour laboratory periods and one-hour lecture per week.
This course is planned for Home Economics students, but may be taken by anyone properly qualified. The course considers infants' and children's clothing from the standpoint of health, economy and appropriateness. The topics studied are suitability of material, design, and color; simplicity of decoration; ease of construction, ease of laundry; and construction for children up to twelve years old.
Prerequisites: Home Economics 222, 323, 325.

490. **Child Development.**
Fall and Summer Quarters.
Four hours lecture and one two-hour period of supervised observation of children.
A study of the physical, mental, emotional, and social development of children from the prenatal period to adolescence. Observation of children required.
(Not open to students who have credit in Psychology 301.)

305. NUTRITION FOR TEACHERS.  5 hours
Summer Term.
Fundamental health habits and the essentials of an adequate diet in relation to the health of the school child; emphasis on how to teach nutrition information to school children; the use of the school lunch in nutrition instruction. (Not open to majors in home economics).

Department of Languages and Literature

Placement Tests. All freshmen are given an English Placement Test. Those who pass this test will satisfy Freshman English requirements with English 101-102 (10 hours). Those who fail this test will be required to take English A-101-102 (13 hours).

Students offering two high school units in a Foreign Language will take a Placement Test in that language. A passing score on this test will entitle admission to course 211 of the language offered for entrance, thereby reducing degree requirements from 20 to 10 hours of Foreign Language.

Foreign Language Proficiency Examination. The final course examination of all elementary and intermediate Foreign Language courses is a standardized Proficiency Examination. Attainment of the fixed exemption score will excuse the student from further language requirements provided he has a minimum of 10 college hours.

Major Requirements:
A major in English consists of 30 hours from courses numbered in the 300's and 400's. A minor in English consists of 20 hours from such courses.

A major in Foreign Language consists of 30 hours from the intermediate and advanced courses of two languages; a minor consists of 20 hours from such courses in one language. Elementary courses taken in preparation for intermediate and advanced courses are considered as satisfying Basic Curriculum requirements.

COURSES IN ENGLISH

A. English Fundamentals.  3 hours
Given all quarters. Five recitations a week.
Required of all Freshmen needing extra instruction in the fundamentals of English grammar and in reading comprehension.
The passing mark on this course is a grade of "C." The course must be repeated immediately on a grade less than "C."

101. COMPOSITION AND RHETORIC. 5 hours
Given all quarters.
A course teaching correctness in spelling, mechanics, grammar. Themes strive toward simple, correct, effective expression.
Required of all Freshmen after passing the English Placement Test or after passing English A.

102. COMPOSITION AND RHETORIC. 5 hours
Given all quarters.
Continued theme writing based on reading; studies in effective diction and sentence construction research technique; grammar and punctuation review.
Prerequisite: English 101. Required of all Freshmen.

201-202. HUMANITIES. 5-5 hours
Given all quarters.
A general survey of literature and culture required of all sophomores.
Prerequisites: English 101-102.

205. MUSIC APPRECIATION FOR THE LISTENER. 5 hours
Summer Quarter.
This course is designed to give the listener and especially the musically untrained listener the fundamental knowledge necessary for incorporating good music into his future recreational and spiritual life. It is of importance to public school teachers. No technical knowledge of music is needed.

206. ART APPRECIATION FOR THE TEACHER. 5 hours
Summer Quarter.
A general survey of art history and forms, with illustration of architecture, sculpture, and painting through the medium of projection slides and film strips.

209a. MUSIC APPRECIATION. 3 hours
209b. ART APPRECIATION. 3 hours
Spring Quarter.
A general course in Music and Art Appreciation for the layman. Students may enroll for either the Music or the Art recitations or for both. Independent credit will not be given for Music Appreciation 209a and for Music Appreciation 205, or for Art Appreciation 209b and Art Appreciation 206.

211. PUBLIC SPEAKING. 5 hours
Winter and Spring Quarters.
A course designed to help the speaker achieve a style of speaking which is natural, correct, and effective.
215. **Intermediate Composition.** 5 hours
Spring Quarter.
A course for those wishing to increase facility in composition, with emphasis on journalistic techniques and forms.
Prerequisite: A grade of “C” in English 101-102.

302. **American Literature.** 5 hours
Offered Spring Quarter, 1955.
A survey of American literature from Colonial days to the present time, emphasizing political and social developments.

306. **Shakespeare and His Tragedies.** 5 hours
Offered Spring Quarter, 1956.
A study of the chief tragedies of Shakespeare and of the author’s life and place in the Elizabethan Age.

307. **Advanced English Grammar.** 5 hours
Offered Spring Quarter, 1955.
A comprehensive study of English grammar, especially for English majors and prospective teachers. Extensive use will be made of diagramming. Special consideration will also be given to the historical and descriptive aspects of grammar. The general aim of the course is to teach the mechanics of the English language so that the student can speak, write, and teach with accuracy, understanding and force.

309. **The Novel.** 5 hours
Offered Winter Quarter, 1955.
Studies in the development of prose fiction from the eighteenth century to the present.

315. **The Drama.** 5 hours
Offered Fall Quarter, 1955.
A history of the drama from the days of the early Greeks to the present.

401. **The English Language.** 5 hours
Offered Winter Quarter, 1956.
An introduction to the study of the English language with respect to its history, its borrowings, and its present-day problems.

440. **Early English Literature.** 5 hours
Offered Fall Quarter, 1954.
A survey of English literature from its Anglo-Saxon beginnings to the Renaissance. Special attention is given to Chaucer.

460. **Renaissance Literature.** 5 hours
Offered (on demand) Fall Quarter, 1955.
A study of non-dramatic English literature from the Elizabethans to the Restoration. Special attention is given to Spenser, Donne, and Milton.

480. EIGHTEENTH CENTURY LITERATURE. 5 hours
Offered Winter Quarter, 1956.
A general survey of prose and poetry from Pope to the beginnings of Romanticism. Special attention is given to Dr. Johnson and his circle.

490. ROMANTIC POETS. 5 hours
Offered Winter Quarter, 1955.
A study of Romanticism and the major poems of Wordsworth, Coleridge, Byron, Shelley, and Keats.

495. VICTORIAN LITERATURE. 5 hours
Offered Spring Quarter, 1956.
Readings from the major writers of the period in both prose and poetry. A general study of social conditions in England during the last part of the nineteenth century.

308. CHILDREN'S LITERATURE. 5 hours
Summer Quarter.
The reading and evaluation of books for children. Discussed in the course are sources of information about children's books, children's interests in reading, the work of important authors and illustrators, and problems in the guidance of reading.

Courses in French

101-102. ELEMENTARY FRENCH. 10 hours
Fall-Winter and Winter-Spring Quarters.
Elementary reading and conversation. This course is non-credit for students presenting two high school units in French.

211. FRENCH GRAMMAR REVIEW. 5 hours
Fall and Spring Quarters.
Review of grammar and study of simplified reading material.
Prerequisite: French 102 or a passing score on the French Placement Test.

212. FRENCH FOR READING KNOWLEDGE. 5 hours
Offered Winter Quarter, 1955.
Reading of texts of standard difficulty with continued drill on pronunciation and conversation. This course is necessary for a reading knowledge of French.
Prerequisite: French 211 or permission of the Department.

215. FRENCH CONVERSATION AND COMPOSITION. 5 hours
Offered Winter Quarter, 1956.
An intensive course in oral and written composition.
Prerequisite: French 211, or permission of the Department.

301. FRENCH LITERATURE AND CULTURE. 5 hours
Offered Spring Quarter, 1955.
An introduction to the chief French authors through the Eighteenth Century with the reading of representative works. Instructional lectures and readings are provided on French customs and culture.
Prerequisite: French 212 or 215.

302. FRENCH LITERATURE AND CULTURE. 5 hours
Offered Spring Quarter, 1956.
An introduction to the chief French authors of the Nineteenth Century with the reading of representative works. Instructional lectures and reading are provided on French customs and culture.
Prerequisite: French 212 or 215.

417. SEVENTEENTH CENTURY LITERATURE. 5 hours
Offered (on demand) Winter Quarter, 1956.
A survey of the period, with emphasis on the Classical Theater.
Prerequisite: French 301, or permission of the Department.

419. NINETEENTH CENTURY PROSE. 5 hours
Offered (on demand) Winter Quarter, 1955.
A study of the chief novelists and short story writers of the Romantic, Realistic, and Naturalistic movements.
Prerequisite: French 302, or permission of the Department.

Courses in German

101-102. ELEMENTARY GERMAN. 10 hours
Fall-Winter Quarters.
Elementary reading. This course is non-credit for students presenting two high school units in German.

211. GERMAN GRAMMAR REVIEW. 5 hours
Spring Quarter.
Review of grammar and study of simplified reading material.
Prerequisite: German 102 or a passing score on the German Placement Test.

212. GERMAN FOR READING KNOWLEDGE. 5 hours
Fall Quarter.
Reading of texts of standard difficulty with emphasis on scientific material. This course is necessary for a reading knowledge of German.
Prerequisite: German 211.
Courses in Spanish

101-102. Elementary Spanish. 10 hours
   Fall-Winter and Winter-Spring Quarters.
   Elementary reading and conversation. This course is non-credit for
   students presenting two high school units in Spanish.

211. Spanish Grammar Review. 5 hours
   Fall and Spring Quarters.
   Review of grammar and study of simplified reading material.
   Prerequisite: Spanish 102 or a passing score on the Spanish Placement
   Test.

212. Spanish for Reading Knowledge. 5 hours
   Offered Winter Quarter, 1955.
   Reading of texts of standard difficulty with continued drill on pro-
   nunciation and conversation. This course is necessary for a reading
   knowledge of Spanish.
   Prerequisite: Spanish 211 or permission of the Department.

215. Spanish Conversation and Composition. 5 hours
   Offered Winter Quarter, 1956.
   An intensive course in oral and written composition.
   Prerequisite: Spanish 211, or permission of the Department.

301. Spanish Literature and Culture. 5 hours
   Offered Spring Quarter, 1955.
   An introduction to the chief Spanish authors through the Eighteenth
   Century with the reading of representative works. Instructional lectures
   and readings are provided on Spanish and Spanish-American customs and
   culture.
   Prerequisite: Spanish 212 or 215.

302. Spanish Literature and Culture. 5 hours
   Offered Spring Quarter, 1956.
   An introduction to the chief Spanish authors of the Nineteenth and
   Twentieth Centuries with the reading of representative works. Instructional
   lectures and readings are provided on Spanish and Spanish-American cus-
   toms and culture.
   Prerequisite: Spanish 212 or 215.

Department of Mathematics

Major Requirements:
   A major in mathematics consists of 30 hours from Mathematics 222,
   223, 345, 346, 347, 315, 400, 320 and 350. None of these major courses
may be taken unless the grade earned in each of the respective prerequisite courses was "C" or better.

Fall, Winter, and Spring Quarters.

Five hours of recitation per week, and designed to meet the needs of students who have had only one year's work in algebra or whose high school transcript or placement score indicates an inadequate mathematical preparation. The course carries three hours’ credit if passed with a grade of C or above, but in every case is non-credit unless taken prior to any other mathematics course.

The fundamental operations are reviewed and accuracy procedure stressed.

A detailed study of the equation, factor forms, fractions, functions, functions and graphs, linear equations, exponents, radicals and quadratics is given, supplemented by daily class problems.

111. Plane Trigonometry. 5 hours

Fall, Winter and Spring Quarters.

Angles and their measure; trigonometry of the right triangle, with exercises in the solution of right triangles and use of natural function tables. The functions of obtuse, fractional and multiple angles with exercises in their application to trigonometric identities. The trigonometry of the oblique triangle, the law of sines, the law of cosines and the law of tangents. A thorough study of the theory and practice of logarithms with particular application to the trigonometric calculations.

206. College Algebra. 5 hours

Fall, Winter and Spring Quarters.

A review of the fundamental operations, factoring, fractions linear and quadratic equations; a thorough study of the theory and practice in the use of logarithms, and the usual study in the Theory of Equations.

Prerequisite: Mathematics 111.

222. Plane Analytic Geometry. 5 hours

Fall, Winter and Spring Quarters.

The analytic geometry of the point, line, circle and elementary properties of conic sections; transformations of coordinates, polar and rectangular graphs and the simpler transcendental curves, and parametric equations.

Prerequisite: Mathematics 206.

223. Advanced Analytic Geometry. 5 hours

Winter Quarter.

A rapid review of the principles of plane analytics, tangents and normals, parametric and empirical equations and the elements of solid analytic geometry.
This course is recommended for students who wish to major in Mathematics.

Prerequisites: Mathematics 222.

315. **PlANE SURVEYING.**
     5 hours
     (On Demand).
     This course is designed to give the student a fair working knowledge of surveying instruments and their care and use. Field work in chaining, leveling, compass, plane table and transit surveys. Office work in calculation from field notes and map making. This course is given from mimeographed notes and library references, and will conform to methods and forms in use in good engineering practice.
     Prerequisites: Mathematics 222 and Engineering Drawing 101.

320. **Applied Mechanics.**
     Spring Quarter. See Department of Physics.

345. **Differential Calculus.**
     5 hours
     Fall and Winter Quarters.
     This course includes derivatives of algebraic and transcendental functions and application to slopes, maxima, minima and rates.
     Prerequisite: Mathematics 222.

346. **Differential and Integral Calculus.**
     5 hours
     Winter and Spring Quarters.
     This course is a continuation of Mathematics 345 and includes curvature, theorem of mean value, indeterminate forms, formal integration, integration by various devices, and applications to areas, lengths, and volumes.

347. **Advanced Calculus.**
     5 hours
     Spring Quarter.
     This course is a continuation of Mathematics 346 covering series, expansion of functions, hyperbolic functions, partial differentiation and multiple integrals.

350. **Descriptive Astronomy.**
     5 hours
     Summer Quarter.
     A general study of the celestial sphere, with applications to the practical problems of Spherical Trigonometry in the determination of latitude, longitude and time.

400. **Differential Equations.**
     5 hours
     Ordinary differential equations with application to Physics and Mechanics.

**Modern Languages**

See Languages and Literature.
Department of Physics

Major Requirements:

Students majoring in Physics should take the following courses in addition to those listed under basic requirements: Physics 223, 224, 225, 310, Physics Laboratories I and II, and at least two of the courses 320, 330, 340, 400, 410; Chemistry 201, 202; Mathematics 222, 345, 346.

120. Household Physics. 5 hours

Fall Quarter.

Four lecture-recitations and one three-hour laboratory period per week.

Required of all Home Economics students and open to all girls. The course surveys the fundamentals of physics with emphasis on the application of physical principles in the home. The laboratory work is devoted to experiments which are related directly to household appliances.

121. Introductory Physics. 5 hours

Fall, Winter, and Spring Quarters.

Five demonstration-lectures per week.

A survey of the principles of physics with applications to such modern devices as the automobile, radio, etc., which have been the result of the technological triumph of our age. Numerous demonstrations are used to clarify physical concepts.

223. Mechanics. 5 hours

Fall and Winter Quarters.

Four lecture-recitations and one three-hour laboratory period per week.

A study of the properties of matter, and the mechanics of solids and fluids. The numerous problems solved are selected to emphasize fundamental principles as well as to promote skill in numerical solutions. The laboratory work is designed to clarify physical concepts, develop skill in making precise measurements, and proficiency in the manipulation of apparatus.

Prerequisite: Mathematics 111.

224. Electricity. 5 hours

Spring Quarter.

Four lecture-recitations and one three-hour laboratory period per week.

The course is a continuation of general physics. It deals with magnetism and static and current electricity.

Prerequisite: Physics 223.

225. Heat, Light, and Sound. 5 hours

Winter Quarter.

Four lecture-recitations and one three-hour laboratory period per week.
The course is a continuation of general physics. It deals with wave theories generally and heat, light, and sound specifically.
Prerequisite: Physics 223.

310. **Modern Physics.**
    Fall Quarter.
    An introduction to modern physics dealing with the elemental nature of matter and radiation, ionization of gases, the quantum theory, and current developments in Atomic and Nuclear Physics. No laboratory work is included.
    Prerequisites: Physics 224 and 225.

320. **Applied Mechanics.**
    Winter Quarter.
    The course deals with the effect of forces on rigid bodies in equilibrium and on objects in motion. Emphasis is placed on solution of problems. Applied Mechanics may be used for either Mathematics or Physics credit.
    Prerequisite: Physics 223; may be taken concurrently with Mathematics 346.

330. **Theory of Optics.**
    Fall Quarter.
    Four lecture-recitations and one three-hour laboratory per week.
    A study of the electromagnetic field and its application to the phenomena of reflection, refraction, interference, diffraction, and spectroscopy.
    Prerequisite: Physics 225; may be taken concurrently with Mathematics 346.

340. **Radio Physics.**
    Winter Quarter.
    Four lecture-recitations and one three-hour laboratory per week.
    A study of the elementary principles of radio. The laboratory work consists of construction of radio sets and the use of testing equipment.
    Prerequisite: Physics 224.

360. **Communications.**
    Spring Quarter.
    The course deals with the theory and actual operation of both voice and continuous wave transmitters and communication receivers. The work parallels the requirements for F. C. C. examinations for operators as far as basic radio theory and Radio Physics are concerned.
    Prerequisite: Physics 340.

375-376, 377. **Physics Laboratory I.**
    Fall, Winter, and Spring Quarters.
    Selected experiments from the various branches of Physics, clarifying
and expanding the work of the classroom, and developing good laboratory techniques. The evaluation and interpretation of experimental data.

Required of third year students majoring in Physics.

400. **Heat.** 4 hours
Three lecture-recitations and two three-hour laboratory periods per week.
A study of temperature and its measurements, calorimetry, and some topics from Thermodynamics.
Prerequisite: Physics 225; may be taken concurrently with Mathematics 346.
Not offered 1954-55.

410. **Electricity and Magnetism I.** 4 hours
A course considering in somewhat more advanced manner the topics of electrostatics, magnetostatics, electrolysis, basic circuit theory and related topics.
Prerequisites: Physics 224 and Mathematics 346.
Not offered 1954-55.

420. **Electricity and Magnetism II.** 4 hours
Fall Quarter.
This course is a continuation of Physics 410 with emphasis on electrodynamics, alternating current theory, transmission lines, filters, electromagnetic wave theory and related topics.

430. **Electronics.** 4 hours
Spring Quarter.
A course dealing with the theory and application of the electro-magnetic spectrum from radio through X-rays as these radiations are produced, detected, and controlled by electronic devices.
Prerequisite: Physics 340; may be taken concurrently with Mathematics 346.

475-476-477. **Physics Laboratory II.** 1, 1, 1 hour
Fall, Winter, and Spring Quarters.
A continuation of Physics Laboratory I.
Required of fourth year students majoring in Physics.

*Courses in Engineering Drawing*

101. **Engineering Drawing.** 2 hours
Fall Quarter.
First quarter of a three-quarter course requiring six or more hours in the drawing room each week. The course covers proper use of drawing instruments and equipment, the theory of orthographic projection, applied
geometry, auxiliary projection, and pictorial representation. Particular emphasis is placed on development of technique. Only pencil drawings are required.

102. ENGINEERING DRAWING.  
    Winter Quarter.  
    The second quarter of the three-quarter course covers section work, dimensioning, working drawings, technical sketching, pencil drawings for reproduction and fastening devices. Pencil drawings only.
    Prerequisite: Engineering Drawing 101.

103. ENGINEERING DRAWING.  
    Spring Quarter.  
    The final quarter of the three-quarter course includes detailed sketching from assemblies, fits and decimal dimensioning, ink tracings, pipe fittings, springs, and assembly drawings.
    Prerequisite: Engineering Drawing 102.

Department of Health and Physical Education

The purpose of the Department of Health and Physical Education is three-fold: first, to provide a required program which will encourage vigorous health, desirable habits of conduct, and recreation to all students; second, to offer a program of competitive sports for all students aimed at developing attitudes and skills in physical activities which may be enjoyed in adult life; third, to prepare professional teachers of health, physical education, athletic coaches, and recreational workers.

All freshman and sophomore men, except those returning from Service, and all freshman, and sophomore women are required to enroll for physical education.

Physical Education for Men

All freshman and sophomore men, except those returning from Service, are required to take two hours of physical education per week. The program includes apparatus stunts, tumbling, and sports.

FRESHMAN PHYSICAL EDUCATION.
    100M. Fall Quarter—Touch football and soccer.  
    101M. Winter Quarter—Gymnastics and tumbling.  
    102M. Spring Quarter—Volleyball and softball.

SOPHOMORE PHYSICAL EDUCATION.
    200M. Fall Quarter—Boxing and wrestling.  
    201M. Winter Quarter—Basketball.  
    202M. Spring Quarter—Track and tennis.
THE UNIVERSITY SYSTEM

THE SPORTS PROGRAM FOR MEN includes the following activities:

Fall Quarter—Football and horseshoes.
Winter Quarter—Basketball, volleyball, and table tennis.
Spring Quarter—Softball, tennis, and track.

All students, who are physically able, are urged to take an active part in the sports program.

Courses in Health and Physical Education

Courses numbered as "M" courses are open only to men; courses numbered as "W" courses are open only to women; other courses are open to both men and women.

Required courses for physical education majors will include the following:

Men, 215, 305M, 310M, 325M, 330, 405, 410, 415, and 440abc.

210. DANCE. 3 hours

Winter Quarter.
A study of folk, square, social and contemporary dances with emphasis on their adaptation to school and playground uses. Five hours lecture, research and laboratory weekly.

215. HISTORY AND PRINCIPLES OF HEALTH AND PHYSICAL EDUCATION. 5 hours

Spring Quarter.
This is an orientation course for health and physical education majors and is divided into two parts. The first part deals with the history of health and physical education; the second part deals primarily with the basic principles of modern physical education, stressing aims and objectives with special reference to the value of physical education in the current economic and social life of the nation. Special consideration is given professional leadership and its prospects.

305M. FOOTBALL. 5 hours

Fall Quarter.
Classes will meet two hours per day for five days a week. One hour a day lecture on the theory of coaching football, and at least one hour a day of practical experience coaching intramural football teams. At least one hour a day of practical experience including intramural coaching.

310M. BASKETBALL. 5 hours

Winter Quarter.
Classes will meet two hours per day for five days a week. Five lectures and demonstrations every week on the theory and practice of coaching basketball. Each student will have experience playing every position on the team under actual game conditions.
Practical experience will be obtained through directing this phase of the intramural program.

325M. **Baseball and Track.** 5 hours
Spring Quarter.
Classes will meet two hours per day for five days a week. Five lectures and demonstrations every week on the theory and practice of coaching baseball and track. The first half of the quarter will be devoted to baseball and the remainder to track.

330. **First Aid and Safety in Physical Education and Athletics.** 5 hours
Winter Quarter.
Lectures and laboratory practices are given in the phases of first aid and safety that especially apply to physical education and athletics. This course will be taught by a qualified instructor certified by the American Red Cross.

405. **Materials and Methods in Health and Physical Education.** 5 hours
Winter Quarter.
A study of the methods and content of the physical education program according to age groups, capacities, needs, interests, and development of the individual. Consideration is given to adapting the program to the materials and facilities available.

410. **School and Community Recreation.** 5 hours
Spring Quarter.
A study of the background for the present school and community recreation movement and of the types of recreation activities and methods of organizing them. A consideration of recreation's place in education and a review of the social institutions which are making a conspicuous contribution in the field of play and of the needs to which they have responded. An attempt will be made to point the way to a better type of organization of the social institutions within the community. Intramural athletics may be treated as a part of a school recreational program.

415. **The Administration of Health and Physical Education.** 5 hours
Fall Quarter.
A study of organizing and administering a department of health and physical education.
In health, stress will be placed on the importance of an integrated and well organized health department that may be utilized in the secondary schools. The importance of the health program to our schools will be presented.
In physical education, stress will be placed on the importance of establishing a well organized department; the relationship of the varsity
and intramural programs to the student body as a whole; organization of
the athletic program, service program, and recreational program, with
emphasis placed on the best methods of organizing and administering.

420. PHYSICAL EDUCATION FOR THE ELEMENTARY SCHOOL.

Fall and Summer Quarters.
This course is designed to give the prospective teacher a better under-
standing of the elementary school child physically, mentally, and socially.
The student will receive practical experience in large and small group play,
rhythmic activities, and individual and dual games. Students of this course
will observe in the elementary school and have practical experience working
with elementary school pupils when possible. Five hours weekly of lecture,
research and laboratory.

440 a, b, c. CLASS AND PROGRAM PLANNING. 5 hours

Students will be assigned for two hours a week, these hours in con-
formity with the schedule for the required service program. The course
will consist of observation on the part of the student and participation
in the solution of the practical problems which occur in the administration
of the required physical education classes. Students will be assigned to
this program for three quarters.

Physical Education for Women

FRESHMAN PHYSICAL EDUCATION.
100W. Fall Quarter—Speedball and body mechanics.
101W. Winter Quarter—Folk, square and social dancing.
102W. Spring Quarter—Softball and tennis.

SOPHOMORE PHYSICAL EDUCATION.
200W. Fall Quarter—Hockey.
201W. Winter Quarter—Basketball and volleyball.
202W. Spring Quarter—Recreational games—table tennis, deck tennis,
badminton, and archery.

THE SPORTS PROGRAM FOR WOMEN includes the following:
Fall Quarter—Speedball and volleyball.
Winter Quarter—Basketball.
Spring Quarter—Softball, tennis, badminton, and table tennis. All
students are urged to take an active part in the sports program:

Special Courses for Women

310W. BASKETBALL AND VOLLEY BALL. 5 hours

Winter Quarter.
A study and practice of the fundamental skills, rules and officiating
techniques. Practical experience in supervised coaching and officiating will
be given in the competitive activities. Five hours weekly of lecture, research and laboratory.

315W. **SOFTBALL AND TENNIS.**

Spring Quarter.

A study and practice of the fundamental skills, rules and officiating techniques. Practical experience in supervised teaching, coaching, and officiating will be given in the competitive activities. Five hours weekly of lectures, research and laboratory.

**Department of Social Sciences**

Courses 101 and 102 are designed to give the student a foundation for historical study as well as an insight into responsible citizenship. Attention will be given to methods of study, historical geography, map work, bibliography, and the proper use of books of reference.

**MAJOR REQUIREMENTS:**

A student who chooses history as the area of major concentration will take 30 hours beyond "200" courses. The following courses are required: History 301, 302, 303, and 422. The remaining 10 hours should be selected from other upper-divisional courses in the department of history.

**101-102. CONTEMPORARY CIVILIZATION.**

Fall, Winter, Spring and Summer Quarters.

A survey of social, political and economic movements and institutions in western civilization from 1500 to the present. Major developments in Europe since the Renaissance and in the United States since the Revolutionary War.

**Courses in History**

**204. CONTEMPORARY GEORGIA.**

Winter and Summer Quarters.

This course includes a study of the economic, social and political position of Georgia at the present time. In order to secure the proper perspective for the course, frequent references are made to the history, government, institutions, and progress of Georgia of the past. As a means of comparison, statistical and other materials pertaining to the southeast and to the United States as a whole are utilized. A comprehensive discussion of all aspects of Georgia's development.

**301. AMERICAN HISTORY, 1492 to 1860.**

Fall Quarter.

A survey of American history from the discovery of the New World to the Civil War.
*302. **American History, 1860 to 1912** 5 hours
   Winter Quarter.
   A thorough study of the history of the United States from the
   beginning of the Civil War to the start of Woodrow Wilson’s Administra-
   tion.

*303. **American History, 1912 to the Present.** 5 hours
   Spring Quarter.
   The leading issues of current politics; social, economic, and political
   movements; and international relations of recent years. The course covers
   the period from World War I to the present.
   (*These courses may be taken by Sophomores if approved by the
   Dean.)*

311. **England From 1485 to the Present.** 5 hours
   Fall Quarter.
   A study of the growth and development of England and the British
   Empire from the reign of the Tudors to the present. Emphasis on
   political and economic factors.

315. **History of the Far East.** 5 hours
   Winter Quarter.
   A survey of Oriental history, with emphasis upon the role of Japan
   and China in world affairs during the nineteenth and twentieth centuries.
   Relations between the United States and the Orient will be stressed.

321. **History of the South.** 5 hours
   Spring Quarter.
   A detailed study of the growth and development of Southern political,
   social and economic institutions from the late colonial period to the present.
   Special attention is given to agricultural changes, political revolt, the
   growth of industry, racial conflicts and adjustments, and to economic pro-
   gress in the period since Reconstruction.

331. **Diplomatic History of the United States.** 5 hours
   A course designed to acquaint the student with the development of
   the foreign policies of the United States and the part which this nation
   has played in its relations with other countries from 1775 to the present.
   Not offered 1954-55.

411. **History of Latin America.** 5 hours
   A study of the Hispanic political and economic institutions in the
   Latin-American colonies, the Wars of Independence and the recent develop-
   ment of the Latin-American republics. Emphasis upon the relationship of
   the United States with Latin America.
   Not offered 1954-55.
420. **European History, 1500 to 1815.**

Fall Quarter on demand.
A study of the political, social, economic and cultural developments in Europe from the Renaissance through the Congress of Vienna.

421. **European History, 1815 to 1914.**

Winter Quarter.
A history of Europe from the Congress of Vienna to the beginning of World War I. The main political, economic, international and intellectual movements in Europe during the nineteenth and early twentieth centuries will be stressed.
Not offered 1954-55.

422. **European History, 1914 to the Present.**

Spring Quarter.
A study of the causes, chief phases, and results of the First and Second World Wars, and the principal political, economic, social and cultural problems of the European countries since 1914.

_Courses in Political Science_

201. **American Government.**

Fall, Spring and Summer Quarters.
An intensive examination of the Constitution and the three governmental divisions. Emphasis is given to the internal organization and actual work of the various departments of our national government. The course includes a study of the national government in its relation to the states.

301. **American Political Parties.**

Winter Quarter on demand.
A study of party development in the United States, the functions and organization of political parties, and current party problems. The influence of political parties upon American political thought will be considered.

401. **Comparative Governments.**

(On Demand).
A study and comparison of the more important governments of Europe with an emphasis upon the more recent revolutionary constitutional changes. The government of the United States in the comparative analysis.

_Courses in Sociology_

201. **Introduction to Sociology.**

Spring Quarter.
The student is introduced to the methods of human association; the nature of culture, custom, belief, institution, etc., and its role in the development of society.
256. **Rural Sociology.** 5 hours
(On Demand).
A study of rural culture and human nature in the United States. Recent trends and problems in the rural life with emphasis upon the changing nature of agriculture in the national economy.

316. **The Family and Society.** 5 hours
Spring Quarter.
Historical and contemporary view for understanding the American family system; domestic relations law in the United States; the social significance of current conflicting ideas relative to sex, marriage and family patterns; and the significance of the impact of war and post-war reconstruction. Not open to students who have credit in Home Economics 293.

*Courses in Philosophy*

308. **Introduction to Philosophy.** 5 hours
Spring Quarter.
A study in the fundamentals of philosophy, stressing the relation of philosophy to religion, art, literature, science, and other fields of knowledge. The purpose is to help the student to construct and refine his own interpretation of the world and life.
DEPARTMENT OF MILITARY SCIENCE AND TACTICS

Military Personnel

Major Walter M. Turner  
Captain Walter H. Murphey  
Captain William A. Smith, Jr.  
Captain Glenn C. Wilhide, Jr.  
SFC Jimmie D. Bray  
SFC William T. Fanning  
Sgt. Charles E. Bass  
Sgt. Samuel Randle

Mission of the Military Department

The mission of the Senior Division ROTC as established at North Georgia College is to produce junior officers who have the qualities and attributes essential to their progressive and continued development as officers in a component of the Army of the United States.

Military instruction also affords invaluable training for successful civilian life inculcating as it does the principles of neatness, mental alertness, self-reliance and confidence.

Through the Years

At the close of World War I, Congress authorized qualified and interested colleges to establish units of Reserve Officers Training Corps, but since North Georgia had been historically devoted to the ideals of military training, it then found itself merely in full accord with prevailing national thought.

At the end of World War II the college again finds its general program of educational and military training approved by the thought and plans of the nation's most forward-looking businessmen and statesmen.

The record of North Georgia as a military college, in time of peace as in time of war, has been distinguished. During each consecutive year since 1928, the college has earned high approval from the Department of the Army—achieving the coveted "SU-
PERIOR" rating in 1952. In making his report, an Inspecting Officer recently referred to the North Georgia Battalion as—
"This is the best trained, best general appearing unit I have seen in seven years of ROTC work."

The most recent change in the ROTC program at North Georgia College is the conversion to the Branch General ROTC curriculum on September 30, 1952. This conversion represents a major change in policy in view of the fact that the Army ROTC program since its inception in 1916 has presented specialized branch instruction for all ROTC students. Adoption of the Branch General Instruction as a general policy represents one of the steps the Department of the Army has taken recently to revitalize its ROTC program. This program will permit students a greater diversity in selection of Branch of Service in which they wish to serve.

Dress Parades

The colorful biweekly Sunday afternoon parades held during each quarter, afford opportunity for relatives and friends to visit the campus and to glimpse interesting phases of routine college life. These parades also constitute a pleasant social occasion upon which many of the faculty may become acquainted with visiting parents and friends. For each formal parade students are urged to take their guests directly to the Reviewing Stand.

Allowances

All qualified students enrolled in the Basic Course ROTC receive $25.00 each year from the Department of the Army to defray partial cost of uniforms. Advanced Course Students qualified and accepted by the P. M. S. & T. for government contract receive $100.00 toward the cost of their uniforms plus 90 cents a day for subsistence. For veterans, the above allowances are in addition to all the usual benefits under the G. I. bill. The Advanced Course allowances listed above are those in effect for the 1953-54 school year and are subject to revision by the Department of the Army at any time.

Summer Camp

As part of the instruction of the ROTC, the Department of the Army conducts summer camps for Advanced Course students. These usually are attended during the summer between the two
years of the Advanced Course. They are of six weeks duration and the work is all practical. In addition to military work, field sports and competitions are conducted. The government furnishes transportation to and from the camp. Students attending are provided with clothing, subsistence, medical attention, and in addition, are paid approximately $2.50 per day.

Graduation and the Commission

Members of the ROTC who successfully complete the course of instruction, have attained the required age of 21, and are recommended by the Professor of Military Science and Tactics as being physically, mentally, morally, and professionally qualified are tendered a commission as Second Lieutenant in the Officers Reserve Corps. Those designated as Distinguished Military Graduates are eligible to apply for a commission as Second Lieutenant in the Regular Army.

Military Medals and Awards

HONOR COMPANY. Designated at the end of the school year. Selection will be based upon military proficiency of the company, academic scholarship of company personnel, company participation in the over-all sports program and conduct record of company personnel.

DISTINGUISHED MILITARY STUDENTS. Selected from among seniors in the ROTC class who have distinguished themselves academically and while participating in recognized campus activities and who possess outstanding qualities of military leadership and high moral character.

HONOR SABER. Awarded at commencement to the outstanding cadet officer.

NONCOMMISSIONED OFFICER'S MEDAL. Awarded at commencement to the outstanding noncommissioned officer.

SMALL BORE COMPEITION PLAQUE. Awarded at commencement to the company having the highest average in small bore rifle firing.

MARKSMANSHIP MEDAL. Awarded at commencement to the cadet who has proven himself the outstanding marksman for the year.

GOOD CONDUCT RIBBON. Awarded at commencement to the cadets who have received recognition for good conduct for three quarters.
SOPHOMORE DRILL MEDAL. Awarded at commencement to the best drilled Sophomore.
FRESHMAN DRILL MEDAL. Awarded at commencement to the best drilled Freshman.

a. Organization of the Army and ROTC (5 hours)

Objective: To provide an understanding of the organization of the Army and an orientation on ROTC.

Scope: (a) Theory underlying the organization of the Department of the Army, stressing chain of command, assignment of responsibilities, and the position of the Department of the Army in the structure of the national defense system. (b) Organization of the infantry squad, rifle platoon, the weapons platoon and rifle company of the rifle battalion, emphasizing specific duties and responsibilities of key personnel. (c) Organization of the infantry battalion, including general organization for combat, comparison of infantry battalion with similar units of other arms, in the infantry division, stressing triangular organization pattern followed by most of the arms, and major points of difference that might exist because of varied missions. (d) A brief coverage of the organization of the infantry division, stressing the infantry regiment. (e) History and organization of the ROTC and reasons for continued growth.

b. American Military History (30 hours)

Objective: To provide the ROTC student with a sound foundation in the principles of the art of warfare as they are exemplified in American military history, and through this knowledge to aid in motivating the student toward an understanding and acceptance of his future role as an officer of the United States Army.

Scope: A survey of American military history from the origins of the American Army to the present with emphasis on the factors which led
to the organizational, tactical, logistical, operational, strategical, social and similar patterns found in our present-day army.

c. Individual weapons and marksmanship (25 hours)

Objective: To give the student a practical working knowledge of individual weapons presently used in the army. In addition this instruction will be aimed at making the student proficient in the conduct of preliminary marksmanship and enable him to coach others correctly.

Scope: Emphasis is placed on mechanical functioning, assembly and disassembly, care and maintenance, and methods of employment of rifle, M1, carbine, and submachine gun. Stress preliminary marksmanship training to teach fundamentals of marksmanship and good shooting habits. Familiarize student with rifle and hand grenade.

d. School of the Soldier and Exercise of Command (90 hours)

Course objective: To provide for leadership training, drill experience and the development of certain essential characteristics of leadership such as initiative and self-confidence, through progressive training in the school of the soldier and exercise of command. To further provide a thorough indoctrination in military courtesy and customs of the service.

Conduct of training: Provision is made for the largest practicable number of leadership positions without reducing to ineffective strengths the size of units. Maximum opportunity is afforded for the development of capabilities, for, and practice of, leadership by the largest number which may be utilized within the student corps. While permanent appointment and assignment of student commissioned and noncommissioned personnel is made, leadership positions are rotated so that maximum opportunity is afforded for development, evaluation and recording of leadership capabilities.

Training is progressive and reasons for learning are stressed throughout the four-year program. Instruction is conducted by student officers and noncommissioned officers and supervised by regular instructors. During the first year, students are taught the basic fundamentals of leadership, drill and exercise of command to include—principles of military courtesy and discipline, the receipt and execution of orders and the primary functions of individual soldiers, in developing and retaining the teamwork and esprit de corps essential to the success of any military organization. During the second year the above training is continued, and in addition students are trained to function as junior noncommissioned officers. They are taught the responsibilities of command and are required to exercise these responsibilities. In the third year the students' command and leadership potentials are further developed by requiring them to function as senior noncommissioned officers and/or junior officers and by requiring them to participate in the planning for and execution of various drills and ceremonies. Fourth-
year students exercise complete control and perform the duties and functions of officers incident to the planning for and conduct of training wherever applicable but particularly in the conduct of formal drills and ceremonies.

e. Supply Economy (3 hours)

Objective: To obtain maximum use of every defense dollar allocated Department of the Army by Congress.

Scope: Detail cost of specific items of army supplies and equipment. How to obtain maximum use of available supplies. Sound supply and maintenance procedure to follow in interest of economy and to prevent waste. Cost consciousness indoctrination.

Second Year—Basic Program

MILITARY SCIENCE 200, 201, 202 153 hours

Subjects Hours

Crew-served Weapons and Gunnery .............................................. 40
Map and Aerial Photograph Reading ........................................... 20
School of the Soldier and Exercise of Command .............................. 90
Supply Economy ......................................................................... 3

a. Crew-served Weapons and Gunnery (40 hours)

Objective: To familiarize the student with all types of infantry crew-served weapons in use by the Army and with the Browning Automatic rifle. To provide the student with a knowledge of the fire-power potential; to explain the gunnery principles and methods to control this fire; and to explain their employment in the United States Army.

Scope: (a) Emphasis is placed on mechanical functioning, nomenclature, care and maintenance, and employment of the Browning automatic machine guns, caliber .30 and caliber .50; 60-mm mortar; 81-mm mortar, 4.2" mortar; 57-mm and 75-mm recoilless rifles; 3.5" rocket launcher. (b) Technique of the rifle platoon and crew-served infantry weapons (exclusive of tank). The mil relation; range determination; target designation; application of fire; fire commands and fire control to include battery fire; direct and indirect fire methods for flat trajectory weapons and mortar fire. Stress direct fire of flat trajectory weapons and 60-mm mortar
fire. The subject of gunnery is integrated with the study of each weapon listed in (a) above. (c) Mechanical functioning, assembly and disassembly and methods of employment of Browning automatic rifle. Historical examples are used throughout to show the development and employment of the above listed weapons.

b. Map and Aerial Photograph Reading (20 hours)

Objective: To make the student proficient in the use of maps and aerial photographs so that this proficiency may be applied in the study of other subjects in which maps and aerial photographs are used.

Scope: Map and aerial photograph reading to include application of basic principles emphasizing terrain appreciation and evaluation; marginal information; military and topographic map symbols; methods of orientation and resection; military grid reference system; classes of aerial photography and methods of obtaining same.

c. School of the Soldier and Exercise of Command (30 hours)

Objective: Same as for Military 100.

Scope: As listed in MS I emphasizing the functions, duties and responsibilities of junior leaders (squad leaders, assistant squad leaders, guides, guidon bearers, and platoon sergeants). Special attention will be given to the continued development of the leadership potential during this year.

d. Supply Economy (3 hours)

Objective and Scope: Same as for Military 100.

a. Small Unit Tactics and Communications (60 hours)

Objectives: To provide the students with the principles and fundamentals of small unit tactics, to prepare him for advanced tactical studies and the principles of communications and communication systems used in the infantry division.

Scope: (a) Small unit tactics (45 hours)—technique of fire of the
rifle squad; landscape firing; combat formations; cover and concealment; patrolling (night and day); field fortifications; camouflage; principles of offensive and defensive combat and their application to the rifle squad, rifle platoon, weapons platoon, and the rifle and heavy weapons company of the infantry regiment; guerrilla warfare. The triangular concept is stressed throughout this course. (b) Signal communications (15 hours)—familiarization with the means and principles of signal communications; communication security, signal orders, message codes, and authentication; characteristics, operation and employment of radio equipment; characteristics, operation and employment of wire equipment; communication systems; field messages; radio telephone procedure; maintenance of signal equipment. Communications means within the infantry division. The means of controlling units are stressed in the presentation of small unit tactics. Historical examples from WW II and Korea are used throughout to illustrate tactical principles and control of units.

b. Organization, Function and Mission of the Arms and Services (30 hours)

Objective: (a) To familiarize the student with the organization, function and mission of the various arms and services in the overall mission of the Army. (b) To supply sufficient background information on the various branches of the arms and services so as to assist the student in selecting the branch of service in which he desires to be commissioned.

Scope: (a) The role of the infantry, field artillery, antiaircraft artillery and armor. (b) Role of the technical and administrative services in support of the combat elements to include specialized missions, combat support, supply, equipment and capabilities in theater of operations and zone of interior. Responsibilities for research and development; familiarization and functions of Military Intelligence and Army Security Agency. Historical examples are used to show the development and organization of the various branches of the service.

c. Military Teaching Methods (20 hours)

Objective: To develop an understanding of the principles, methods, and techniques which are fundamental to military instruction; to engender attitudes which will lead to the improvement of instruction; and to provide opportunities for the student to develop skill in the preparation, presentation, and evaluation of instruction.

Scope: Educational psychology as pertains to the five stages of instructional technique, and importance of each; techniques used in planning and presenting instruction; speech techniques for instructor; the construction and use of training aids; methods of instruction used in training; and use of tests to evaluate results of instruction. For the practical phase of this course students prepare and present lessons in the following subjects using the scope as listed below:
(a) First aid and military sanitation—necessity for personal hygiene; use of first aid equipment and splints; bandaging; methods of artificial respiration; first aid for emergencies; importance of early medical treatment; organizational hygiene and sanitation in garrison and field; care and storage of food; disposal of wastes; purification of field water supply. Responsibilities of platoon leader for health of his men.

(b) Rifle marksmanship—principles of marksmanship to include demonstration in sighting and aiming, positions; trigger squeeze; windage; scoring of targets; sight-seeing; targets; safety precautions. Range practice with caliber .22 rifle.

(c) Such other MS III subjects as deemed desirable.

(d) Conduct of course—Upon completion of the formal presentation of military teaching methods and an examination, students are required to prepare and present, to the remainder of the class, one of the following topics:

1. First aid, history of medical treatment in the Army. Treatment of everyday emergencies.
2. First aid, pressure points, application bandages, use of splints, care of broken back.
3. Artificial respiration, methods, practical application of these methods.
4. Military sanitation, organizational hygiene, communicable diseases, insect and rodent control.
5. Mess sanitation and inspections, care and storage of food in garrison and field, disposal of wastes.
6. Field water supply, reconnaissance for water sources and purification.
7. March hygiene, platoon leader’s responsibility for health of his men.

(Students are given an examination on the above listed topics. Students are also graded on preparation and presentation of topic assigned.)

8. Rifle marksmanship; sighting and aiming exercises.
9. Rifle marksmanship; use of sling; positions.
10. Rifle marksmanship; trigger squeeze; safety precautions.

(Examination will consist of range firing with caliber .22 rifle and scoring of targets.)

d. Leadership (10 hours)

Objectives: (a) To give the individual an elementary understanding of the psychological, physiological, and sociological factors which affect human behavior. (b) To convince the individual that it is both desirable and possible for him to be an effective leader. (c) To emphasize to him
the importance of personnel adjustment and the proven methods of accomplishing maximum motivation, to include the troop information and education media. (d) To show him proven practices and devices which tend to make the leader effective, including character guidance. (e) Practice in the application of sound principles of leadership to commonplace problems appropriate to his grade is conducted at summer camp.

Scope: Responsibilities and basic qualities of a leader, human behavior and adjustment to army life; objectives of leadership; leadership principles; leadership techniques; functions of the leader and special problems of military leadership; quality of initiative is stressed.

e. School of the Soldier and Exercise of Command (30 hours)

Objective: Same as MS I.

Scope: As listed in MS I emphasizing the functions, duties and responsibilities of leaders in the first three noncommissioned and/or junior officer grades. Special attention is given to further development of leadership potential by encouraging MS III students to participate in the planning and conducting of drills and ceremonies.

f. Supply Economy (3 hours)

Objective and scope: Same as Military 100.

a. Logistics (20 hours)

Objective: To afford the student with the fundamental knowledge of supply and movement of small units.

Scope: (a) Supply and evacuation (10 hours)—duties of company supply personnel; types of property; responsibility and accountability; requisitioning and receipt; methods of credit and debit; property book and preparation and use of property records common to company size units; importance of preventive maintenance and supply economy. Mission of supply, supply doctrine and principles; classes of supply. Outline of organization and operation of the infantry regiment and division for supply and evacuation.
(b) Troop movements (5 hours)—administration and tactical troop movements and bivouacs. Planning foot movements; conduct of the march; time and space factors; selection and occupation of bivouac.

(c) Motor transportation (5 hours)—description of the Army fleet of general purpose motor vehicles. Description and function of major components of general purpose vehicles. The Army system of preventive maintenance. Administration and operation of unit motor pool. Theory of driver selection and drive training methods. Practical work is conducted at summer camp.

b. Operations (55 hours)

Objective: To provide an understanding of staff organization, using division staff as a model; staff duties; forms; records; reports; and orders of the staff. To teach the student to arrive at a sound decision and transmit decision to combat order. Teach the value of military intelligence and methods of producing intelligence. To familiarize the student with the military team from the squad up to and including the regimental combat team, coordination with Air and Navy. To provide an understanding of duties and responsibilities of company and battalion officers toward training.

Scope: (a) Command and staff (10 hours)—origin and purpose of staff; staff organization and functions using the division staff as a model; relationship between commanders and their staffs, with subordinate commanders and their staffs; command channels and staff liaison; staff planning; staff forms and reports; stress functioning of the battalion staff in combat operations by means of exercises and by using historical examples from WW II and Korea.

(b) Estimate of the situation and combat orders (7 hours)—the process of arriving at a sound decision and transmitting that decision to subordinate units in form of combat orders.

(c) Military intelligence (8 hours)—definition and importance of military intelligence; the principles of combat intelligence; the value of combat intelligence in the exercise of command; steps in the production of combat intelligence; sources of information and collection agencies; handling of prisoners-of-war; enemy documents; counterintelligence to include methods; plans and application; safeguarding military information.

(d) The military team (25 hours)—composition and mission of the various military teams from the patrol to the RCT supported by air and appropriate arms. Coordination and planning necessary among the arms and Army, Navy, and Air Force is stressed.

(e) Training management (5 hours)—duties and responsibilities of company and battalion officers in training; training records; reports; problems of training supervision and technique of scheduling; use of regimental training directives; subject schedules; practical exercise in preparation of a squad tactical exercise; range safety regulations and ammunition allowances.
c. Military Administration and Personnel Management (25 hours)

Objective: To provide the student with the basic concepts and fundamentals of military administration (less supply). To introduce the student to the fundamental concepts of military justice in the armed forces of the United States, as provided for in the Uniform Code of Military Justice and the Manual for Courts-martial, United States, 1951; to teach the basic principles and methods of procedure for cases; and to teach the principles of nonjudicial punishments.

Scope: (a) Military administration (10 hours)—the role of the officer in unit administration to include familiarization with Department of the Army publications and the index system thereto; purpose and use of soldier’s qualification record and officer’s qualification record and unit punishment record; sick report; duty roster; morning report; pay and allowances; company correspondence and unit funds; essential aspects of the MOS structure; application of the aptitude area scores data to the initial assignment and reassignment within companies and platoon; familiarization with duties of company administration personnel; boards of officers.

(b) Military justice (15 hours)—brief history of military law including statutory revisions effective May 31, 1951; prevention; control and corrective measures of the individual; the Articles of the Uniform Code of Military Justice; nonjudicial punishment under Article 15 of the Uniform Code of Military justice; appointment; composition and jurisdiction of courts-martial; duties of personnel. Procedure before trial to include apprehension and restraint; preferring; action upon; and investigation of charges. The rules of evidence; trial procedure to include practical work in moot courts; action after trial to include findings, sentences and punishments; courts-martial records; action on proceedings by reviewing authority and confirming authority; courts-martial orders. The moot court: preparation of charges, trial of the case, findings, and sentence. Familiarization with functions of the Judge Advocate General.

d. Service Orientation (20 hours)

Objective: To prepare the future officer for active service by an orientation on geographical and economic factors, their influence on the division of peoples into nations and the courses of war; the responsibilities of a leader; service life.

Scope: (a) The role of the United States in world affairs and the present world situation (10 hours)—specific analysis of the United States as to its economic power; war potential; and its inclination and aptitude for the conduct of war, as conditioned by size, location on earth’s surface, and terrain, its rivers, harbors, agricultural and mineral resources and their development; water barriers and climate; adequacy and control of communications and trade routes. Students are assigned and will present a specific analysis, covering the material listed above, on one of the
following: Soviet Union, Far East, Mediterranean and Middle East, and the Western Hemisphere. Instructor summarizes the course with a presentation of the present world situation.

(b) Leadership (4 hours)—proven methods of gaining and maintaining discipline; importance of morale and the range of factors which affect morale; stress on the student's responsibility as a leader.

(c) Officer indoctrination (6 hours)—customs of the service; conduct and code of an officer; responsibilities and obligations of an officer; career management program as it pertains to the officer; purpose, use, preparation, and indorsement of officers efficiency reports.

e. School of the Soldier and Exercise of Command (90 hours)
   Scope: Same as for Military 100.

f. Supply and Economy (3 hours)
   Objective and scope: Same as for Military 100.

DEPARTMENT OF THE COMMANDANT

The Cadet Corps

The male students of the college are organized as a Corps of Cadets to which all belong regardless of their individual eligibility to enter the government organization known as the Reserve Officers Training Corps. While some veterans and special classes of transfer students are excused from ROTC instruction, all are members of the Cadet Corps and accept the general spirit and life of the Battalion.

The Corps of Cadets consists of a battalion which has a headquarters and staff, a headquarters company, a band, and four rifle companies. Each company as well as the band has its own cadet officers and non-commissioned officers.

Commandant of Cadets

The immediate administration of discipline in the Cadet Corps rests with the Commandant of Cadets. Under regulations approved by the faculty, he directs the daily life of The Corps, grants leaves and privileges, and awards punishment for violations of regulations, bringing the more frequent or serious offenders before the Committee on Discipline. This committee may request the withdrawal from college of a student whose spirit, influence, conduct or scholarship is not satisfactory even though no specific charge is preferred.
The Commandant keeps the records of conduct which become the basis of curtailment of privileges or of dismissal; of demotion or of promotion and citation for efficient discharge of duty. The commandant's department supervises the life in all living areas, makes daily inspection of rooms, corridors, bathrooms and premises in the immediate barracks areas.

Government of the Cadets

The cadet system of control is essentially a specialized system of student government. At North Georgia, therefore, the conduct of the male students is controlled largely through the cadet officers and non-commissioned officers. In the discharge of this responsibility, the officers are fully supported by the P.M.S.&T., the Commandant and the faculty. These student officers thus enjoy an outstanding opportunity for the development of tact, initiative, leadership, fairness, and honor to a very unusual degree.

It is the duty of the cadet officers and non-commissioned officers to enforce college regulations, report violations of same, supervise formations and exercises, call the rolls, report absentees, and they are responsible for the care of all rooms to which cadets are assigned.

Selection of the Cadet Officers

In selecting the cadet officers who are to lead their fellow students and direct all the military units consideration is given not alone to military knowledge and drill technique, but also to academic standing (a minimum average of C), participation in general campus activities, spirit of cooperation, loyalty, dependability, qualities of leadership and personal character.

To remain an officer, there must be continued evidence of efficiency, devotion to duty and responsibility, loyalty to the general policies of the entire institution, and adherence to high standards of personal conduct. A minimum of average of "C" in academic subjects must be maintained.

Due to their military experience and training, veterans are encouraged to qualify for leadership positions in the Cadet Corps. To insure continuity of training, attendance at all three drill periods per week is required of all cadet officers.

General Regulations

Detailed regulations governing cadet life are given in the hand-
book issued by the Commandant, but the following general policies have been proven from year to year advisable and necessary:

(1) Cadets must obtain permission from the Commandant to be absent from general college duties. Permission from his office must be obtained for going more than five miles from the college. The Commandant must also approve all other requests to be absent from any campus duty.

(2) Firearms other than rifles issued to cadets, explosives of any kind, gasoline or gasoline mixtures will not be allowed in the living areas.

(3) POSSESSION OR USE OF INTOXICANTS IS PROHIBITED.

(4) Gambling in any form or games of chance are prohibited.

(5) Students other than day students are not permitted to have motor vehicles at the college. An exception to this regulation may be made in the case of veterans and seniors provided their motor vehicles of all types are registered with and under the direct control of the Commandant of Cadets.

(6) Any cadet wishing part-time off-campus employment must have such employment approved by the Commandant.

(7) Punishment shall consist of denial of privileges, extra duty, reduction of officers to ranks, restriction to limits, arrest, suspension and dismissal. As restrictions and arrest are questions of honor, violations of the same are punished by dismissal.

(8) "UNFAILING RESPECT FOR ORDER, MORALITY, PERSONAL HONOR AND THE RIGHTS OF OTHERS" is due The Corps from each cadet.

(9) While cadet life is largely governed by a military schedule, cadet officers of every rank, as well as the cadets themselves, are subject also to the broader regulations of the College and each heartily cooperates with the members of the academic staff, the Dean of the College, the Dean of Women, the Commandant of Cadets, and the Social Committee, in carrying out academic and social policies.

**Hazing**

Hazing, personal indignities, any form of so-called initiation of Freshmen, the exercise of unauthorized authority by one cadet over another and the exaction of any form of service of a new cadet by an old one are prohibited. Each cadet, however, is held strictly responsible for attention to duty, courtesy to his cadet officers and non-commissioned officers, and for the carrying out of all legitimate military orders, but cadet officers, non-commissioned officers and upperclassmen in general, whether as individuals or groups, are not authorized to punish offenders or those who may be delinquent in Company or general military duties by any form of intimidation, personal indignity, lagging, the exercise of unwarranted authority or any kind of physical force.
