NOTICE OF RESPONSIBILITIES

Institutional

1. North Georgia College does not discriminate on the basis of handicap in violation of Section 504 of the Rehabilitation Act of 1973. This nondiscrimination policy applies to admission or access to, or treatment, or employment in, its purpose and activities.

2. No person shall, on the ground of sex, age, creed, race, or national origin, be excluded from participation in or be denied the benefits of any program or activity conducted by North Georgia College.

Student

1. It is important all students note that it is their responsibility to keep themselves apprised of current admission, retention and graduation requirements for their particular degree program. The statements set forth in this catalog are for informational purposes only and should not be construed as the basis of a contract between a student and North Georgia College. The College reserves the right to change any provision listed in this catalog, including, but not limited to academic requirements for graduation, without actual notice to individual students.

2. It is important that all students satisfy their financial obligations to North Georgia College. The College reserves and intends to exercise its right to withhold copies of educational records and/or to disenroll students who owe money to the College.

North Georgia College is a Senior Unit of the University System of Georgia
For clarification of or additional information about any part of this book, please contact the Director of Graduate Studies, North Georgia College, Dahlonega, Georgia 30597 or 404-864-3391.
GRADUATE CALENDAR 1983-85

Fall Quarter, 1983
September 15  Student Advisement
September 16  Late Registration
September 19  First Day of Classes
September 21  Final Day for Changing Schedules
October 21    Last Day for Drop with W
October 24    Mid-Term Grade Reports Due
November 7-10 Advisement
November 8-11 Registration for Winter Quarter
November 12   Comprehensive Examination
November 24-25 Thanksgiving Recess
              (Begins at 12:00 noon on Weds., Nov. 23)
November 30-  Final Examinations
December 2
December 5    Final Grade Reports Due

Winter Quarter, 1984
January 2     Student Advisement (1:00-5:00 p.m.)
January 3     Late Registration/First Day of Classes
January 5     Final Day for Changing Schedules
February 6    Last Day for Drop with W
February 7    Mid-Term Grade Reports Due
February 13-16 Advisement
February 14-17 Registration for Spring Quarter
February 24   Comprehensive Examination
March 13, 14, 15 Final Examinations
March 16      Final Grade Reports Due

Spring Quarter, 1984
March 26      Late Registration/First Day of Classes
March 28      Final Day for Changing Classes
April 27      Last Day for Drop with W
April 30      Mid-Term Grade Reports Due
May 4 & 7     Advisement for Summer Quarter
May 7-8       Registration for Summer Quarter
May 11-16     Advisement for Fall Quarter
May 14-17     Registration for Fall Quarter
May 19        Comprehensive Examination
June 3        Commencement
June 4-6      Final Examinations
June 7        Final Grade Reports Due
**Summer Quarter, 1984**

GENERAL INFORMATION

History

North Georgia College was founded in 1873 as an agricultural and mechanical college for men and women. At present it is a state-supported, liberal arts, senior college unit of the University System of Georgia under the direction of the State Board of Regents. It is located in Dahlonega, Georgia, on the site of the original U.S. Government Gold Mint. Dahlonega, a town of about 3,000 people, is set in the foothills of the beautiful Blue Ridge Mountains—55 miles/1 hour north of metropolitan Atlanta via Georgia 400.

North Georgia College was approved by the Board of Regents of the University System of Georgia to initiate a graduate program for teachers in June, 1974. This approval followed a four-year period of service by the College as a resident graduate center for the University of Georgia. In its approval, North Georgia College was authorized to offer the Master of Education degree in the areas of Early Childhood Education, Elementary Education, Secondary Education, and Special Education. Middle Grades Education was added in 1978.

Statement of Purpose

The objectives of the program are directly related to the goals of North Georgia College as stated in the statutes of the college. More specifically, the program is designed to provide preparation for teachers at the fifth year level, to equip superior graduate students for study at advanced levels, and to provide teachers who do not desire a graduate degree the opportunity to enhance their skills and knowledge. Any graduate of the program should be capable of sustained study, possess a relatively broad knowledge of the literature in his area of study, and have a reasonable ability to engage in appropriate research.

Accreditation and Memberships

North Georgia College, as a senior member of the University System of Georgia, is a fully accredited member of the Association of American Colleges, the Association of Military Colleges and Schools, the Southern Association of Colleges, and the Association of Georgia Colleges. Its work in the field of education is recognized and accredited by the National Council for the Accreditation of Teacher Education and the Georgia State Department of Education. The quality of the training offered in all departments has long enjoyed national recognition. A significant number of its graduates attend graduate and professional schools.
COLLEGE EXPENSES AND FEES*

All fees are payable at the time of registration for each quarter. Registration is not complete until all fees have been paid. All matriculation and other charges are subject to change without notice. Payment may be made either in cash or by check. If a check given in payment of a student's fees, books, or supplies is not paid upon presentation to the bank on which it is drawn, the student will be charged the maximum service charge for late registration, which is $15.00 and a $5.00 bad check service charge.

Application Fee

ALL APPLICANTS to North Georgia College for graduate studies must submit a ten dollar ($10.00) Application Fee with their Application Form before the applicant will be given consideration as a prospective student. The Application Fee is non-refundable and will not apply toward the student's registration fees.

Tuition

The University System of Georgia requires no general tuition fee of students who are legal residents of the State of Georgia, and there is no charge for instruction, except for certain courses requiring instruction on an individual and small-group basis.

Matriculation Fee—Resident Students

Each student is required to pay matriculation fees. A student who is a legal resident of the State of Georgia according to the regulations of the Board of Regents of the University System of Georgia, and who has been a legal resident of the state for at least twelve months preceding the date of his registration must pay Resident Student fees. These fees are payable in advance at the beginning of each quarter.

Matriculation Fee $247.00 per quarter
21.00 per quarter hour

Matriculation and Tuition Fees—Non Resident Students

Each student who has not been legally domiciled in the State of Georgia under the regulations of the Board of Regents for at least twelve months preceding the date of his registration shall pay at the beginning of each quarter the following matriculation and tuition fees:

*All dollar amounts are subject to change without notification.
Matriculation Fee $247.00 per quarter
21.00 per quarter hour

Tuition—Out-of-State $495.00 per quarter
41.00 per quarter hour

Total $742.00 per quarter
62.00 per quarter hour

Student Activity Fee

A student activity fee of $30.00 is charged every student taking six or more hours each quarter. The opportunity for students to enhance their total college environment and more fully appreciate the aesthetics of cultural, religious, social, and athletic participation is an integral part of a sound educational process. Student activity fees are utilized to provide cultural, social, and athletic programs for the entire student body. In addition, these fees provide financial support for student facilities at the College, guest speakers and lecturers, student publications, and similar projects which are available for the exclusive use of the students of North Georgia College.

Student Health Fee

A student health fee of $26.00 is charged every student taking six or more hours each quarter. The Infirmary is open for student use on a 24 hour a day basis and consultation with a physician is available daily.

Room and Board

Room and board is available at the following rates:

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Room</td>
<td>$216.00 per quarter</td>
</tr>
<tr>
<td>Board</td>
<td>$280.00 per quarter</td>
</tr>
</tbody>
</table>

Room reservations can be made by submission of a $25.00 deposit.

Late Registrants

A student who fails to register during the period set aside for this purpose will be required to pay a $15.00 service charge for late registration.

Transcript Fee

A student who has discharged all financial obligations to North Georgia College is entitled to receive on request and without charge one transcript of his academic record. A charge of $1.00 will be made for each additional transcript. If supplementary work is taken at the College, one additional transcript of the student’s total record will be furnished without charge.
Graduation Fee

Every student receiving a degree must pay a graduation fee of $20.00 to cover all expenses, including the rental of cap, gown, hood, and the cost of the diploma. Students may procure the necessary forms and pay the graduation fee at the Registrar’s office.

Refund of Matriculation Fees

Formal withdrawal must begin with a written approval from the Director of Graduate Studies. At the time this approval is granted, specific instructions will be given for the student to complete his formal withdrawal. Any deviation from this procedure will be considered as an irregular withdrawal and will result in the forfeiture of the refund.

In the case of formal withdrawal, a refund of the Matriculation Fee may be made on the following basis:

1. Withdrawal during one week following the scheduled registration date; a refund of 80% of the Matriculation Fee paid for that quarter;
2. Between one and two weeks, 60%;
3. Between two and three weeks, 40%;
4. Between three and four weeks, 20%;
5. After four weeks, no refund.

No refund can be made on Activity or Health fees.

In case of withdrawal, a refund on board and room may be made on the number of full weeks remaining in the quarter.

In the case of excused absence, a refund on board, not room, may be given on that part of the student’s absence which is in excess of two weeks.

FINANCIAL AID

Graduate Assistantships

Assistantships are available in departments offering degrees. Stipends vary, depending upon services rendered. Students interested in such grants may obtain further information by writing the Dean of the College.

Residence Hall Directors

Hall director positions are periodically available to a very limited number of graduate students. Students awarded these positions receive compensation based upon work done and responsibilities. Detailed information regarding these positions can be obtained from:

Ms. Katherine Hinz, Assistant Dean of Students
North Georgia College
Dahlonega, Georgia 30597
Loans and Part-Time Employment

North Georgia College participates in the Direct Student Loan Program. Loan ceilings are $12,000 in the aggregate for graduate students (including any undergraduate loans). If the student enters the teaching field after college and teaches the physically handicapped or children in a defined poverty area, 100% of the loan (plus interest) may be cancelled. Cancellation of the loan (plus interest) takes place at the rate of 15% per year for the 1st and 2nd year, 20% per year for the 3rd and 4th year, and 30% per year for the 5th year.

Part-time positions are available for graduate students. Those interested in loans or part-time employment may obtain detailed information by writing the Director of Financial Aid.

Teachers seeking state grant-in-aid should write: Consultant, In-Service Teacher Education, State Office Building, Atlanta, Georgia 30334.

Veterans Administration Benefits

North Georgia welcomes the opportunity to assist former servicemen and women eligible for benefits under Public Law 894 or Public Law 550 and war orphans eligible for benefits under Public Law 634. The Veterans Affairs Office at North Georgia College provides an advisory service for students eligible for benefits under these laws. Students planning to attend college under these laws should obtain an application for the Veterans Affairs Office at the College. This office will process the application and certify enrollment.

Service-cancelable Loans for Teacher Training in Special Education

The Georgia legislature appropriates funds annually to the Georgia Student Finance Authority to provide service-cancelable loans to eligible teachers as an incentive for increasing teacher manpower in specific fields of special education.

Those interested may obtain detailed information by contacting Dr. Jewell Wade, Department of Education or Arnold Hulsey, Director of Financial Aid at North Georgia College.
FACILITIES

Library

Stewart Library, completed in 1971, holds approximately 100,000 volumes and more than 250,000 units of microtext including daily issues of the New York Times from September 1, 1851 to date, Dissertation Abstracts from 1938 and the complete files and index of the Educational Resources Information Center (ERIC). Subscriptions are maintained to about 900 periodicals including the major education journals.

Reference services include: interlibrary loan and access to the Southeastern Regional Medical Library Program (SERMLP).

Stewart is the U.S. Government Selective Depository Library for the North Georgia area.

Circulated materials include books, audio-visual equipment, filmstrips, films, musical recordings, clipping and pamphlet files.

The library is open and professional staff available 7 days each week of the academic quarter including evenings to 10 p.m. (except Friday and Saturday evenings). Library cards for Graduate Students are reissued quarterly and are kept on file at the main circulation desk.

Computer Facilities

Thru the University System of Georgia Computer Network, North Georgia College has access to the following Computers:

- University of Georgia
- Georgia Tech
- Georgia State University

CYBER 70
CYBER 70
UNIVAC 90/80

At the present time there are thirteen terminals located in various locations on campus that can provide access to these computers for academic use. Due to line limitation, a maximum of eight terminals can be connected at any time.

A TI 990/10 computer is currently being used by North Georgia College for administrative applications. This computer can be used as a remote job entry terminal to the facilities provided by the University System Computer Network.

Instructional Media

The Department of Education maintains an Instructional Media Laboratory and a Video-tape Laboratory. The laboratories exist not only to provide audio-visual equipment, but have trained staff on hand to provide services and consultation for more effective means of instruction.
North Georgia College and State University's Student Loan Program.

The maximum allowable undergraduate loan amount for graduate students is $33,300. This maximum is based on the estimated cost of attendance. If the estimated cost of attendance is less than $33,300, the loan amount will be adjusted accordingly. Additional factors such as the student's expected family contribution and other sources of income will also be considered in determining the loan amount.

Loan amounts are determined on an individual basis and vary depending on the student's financial need. The financial aid office will provide additional information about the loan program and the application process.

For more information, contact the Financial Aid Office at North Georgia College and State University.
Admission
ADMISSION

Requirements

To be admitted, an applicant must hold a bachelor's degree from an accredited college or university and must meet other admission requirements as outlined below. The applicant must submit transcripts from all institutions attended prior to North Georgia College, as well as satisfactory test scores on the Graduate Record Exam (GRE), the National Teachers Exam (NTE) or the Miller Analogies Test (MAT).

Procedure

Application forms may be obtained from the Office of Graduate Studies or the College Admission Office. The completed form with the $10.00 application fee, transcripts and tests scores should be returned to the Admissions Office, North Georgia College. All materials should be in the Admissions Office at least 20 days prior to the time of enrollment.

If applicants cannot enter the Graduate Studies Program at the quarter indicated on the application form, they should inform the Admissions Office of their plans.

Transfer

Students wishing to transfer into the Graduate Studies Program must become a degree seeking candidate and meet all the requirements of applicants for regular standing. The student may offer in transfer, to be approved by the advisor and the Director of Graduate Studies, a maximum of 10 hours with grades of "B" or better from an accredited graduate school. This request for transfer of graduate credit must be done in writing by the student through the Office of Graduate Studies. All work, including transfer credit, must be completed within the 6 year period.

Standings

Applicants may be admitted to the Graduate Studies Program in one of the following standings:

A. Regular Standing—A student who has graduated from an accredited institution with a cumulative undergraduate GPA of 2.5 or above, GRE score of 800 or above on the aptitude portion; or NTE score of 550 or above on the common exam (if taken prior to Fall, 1982); or a MAT score of 44 or above.

B. Provisional Admission

1. The student must hold an undergraduate degree from an accredited college or university with an undergraduate major in, or
prerequisites for, the planned field of study where applicable.

2. If a student fails to meet either the minimum undergraduate grade point average or entrance test requirements for regular admission, the student may be considered for provisional admission if:
   a. the undergraduate grade point average multiplied by 100 and added to the student's score on the aptitude test of the GRE equals at least 1000
   \[(\text{GPA} \times 100) + (\text{GRE Aptitude}) \geq 1000, \text{ or}\]
   b. the undergraduate grade point average multiplied by 100 and added to the student's Miller Analogies Test score multiplied by 10 equals at least 560
   \[(\text{GPA} \times 100) + (\text{MAT} \times 10) \geq 560, \text{ or}\]
   c. the undergraduate grade point average multiplied by 100 and added to the student's score on the common examination of the NTE, taken prior to the Fall of 1982, equals at least 750
   \[(\text{GPA} \times 100) + (\text{NTE Common}) \geq 750. \]

   In no event:
   (a) may the undergraduate grade point average be less than 2.2,
   (b) the score on the aptitude test of the GRE be less than 700, or
   (c) the score on the MAT be less than 27, or
   (d) the score on the common examination of the NTE be less than 450.

3. Students may remain admitted on a provisional basis until they have attempted 15 hours of graduate work. If they satisfactorily complete the initial 15 hours of work with no grade of less than a "B", they may be admitted to a degree program subject to approval by appropriate college/university officials.

**NON-DEGREE STUDY**

C. **Post-Baccalaureate Admission** (Definition: The student has applied for admission for the purpose of taking courses for certification or personal enrichment.)

1. A student in this category must have a baccalaureate degree from an accredited college with a minimum grade point average of 2.0 calculated on all undergraduate work attempted.

2. No more than 15 hours of credit earned in this category may subsequently be applied toward meeting the requirements of a master's degree at an institution in the University System provided that provisional or regular admissions are met. No credit earned in this classification may be applied to programs of study leading to the Specialist in Education degree.

D. **Special Admission** (Definition: The student has applied for admission for the purpose of taking courses for certification or personal enrichment but does not meet minimum requirements for post-bacca-
laureate admission.)
1. A student in this category must have a baccalaureate degree from an accredited college.
2. Credit earned in this category may not later be applied to a Master's degree.

E. Post-Graduate Admission (Definition: The student, holder of an earned graduate degree, has not applied for another degree program, but wishes to take work for certification or personal enrichment.)
1. Students in this category must have a graduate degree from an accredited college.
2. No more than 15 hours of graduate credit earned in this category may subsequently be applied toward meeting the requirements of a graduate degree at an institution in the University System. No credit earned in this classification may be applied to the Specialist in Education degree programs.

ADMISSION TO THE GRADUATE STUDIES PROGRAM DOES NOT IMPLY ACCEPTANCE AS A CANDIDATE FOR A MASTER'S DEGREE.
Degree Requirements
REQUIREMENTS FOR GRADUATE DEGREES

Admission to Candidacy

Admission to candidacy may be granted to any regular graduate student when the following requirements have been met: (1) the student has completed at least 15 quarter hours of acceptable graduate work at North Georgia College; (2) the student has filed in the office of Graduate Studies an application for candidacy/program of study approved by the advisor, the appropriate departmental chairman, the Director of Graduate Studies and the College Dean; (3) if applicable the student has on file an approved plan for thesis or research project.

Students must be admitted to candidacy prior to enrollment in their sixth course. If a student is seeking fifth-year teacher certification then the student should furnish evidence of eligibility for the Georgia T-4 Certificate.

Entrance Tests for Regular Standing

For any applicant one of the following tests is acceptable:

1. The Aptitude Test of the Graduate Record Examination with a minimum score of 800.
2. The Miller Analogies Test with a minimum score of 44.
3. The Common Examination of the National Teacher Examination, taken prior to Fall, 1982, with a minimum score of 550.

Academic Performance

A graduate student must maintain a grade point average of 3.0 or better. No grade below a "C" will be accepted toward a degree. The record of any student receiving more than two "C's" will be subject to review by an ad hoc graduate review committee appointed by the Chair of the Graduate Council and composed of no fewer than three members.

Graduate students whose academic performance is unsatisfactory will be subject to the following:

1. Academic Notice. When any student's GPA falls below a B average, that student will be placed on academic notice until the B average is attained. No student may become a candidate for the degree or take the comprehensive examination while on academic notice.
2. Probation. A student will be placed on probation for either of the following reasons:
   a. The student's grade point average falls below 2.67 any time after 30 quarter hours have been attempted. (Probation is removed when the GPA reaches 3.0 or higher.)
b. The student earns one "F". (Probation is removed when the course or a substituted course, approved by the Director of Graduate Studies, is taken and a grade of "B" or "A" is attained.) No student may be a candidate, or take the comprehensive examination while on probation.

3. Suspension. Any student receiving 2 "F's" or any 3 grades below "C" will be suspended. No student may enroll in any graduate courses while on suspension. (If suspended, a student may reapply for admission. Readmission is subject to the approval of the Graduate Admissions Committee.)

Program of Study

The Program of Study must be completed and on file in the Graduate Office by the completion of 25 hours of graduate work. If the student is following the program requiring a thesis, the thesis subject must also be submitted for approval.

The Program of Study shall consist of those courses for which graduate credit is granted toward a degree or teacher's certificate. No changes may be made in the Program of Study without approval in advance by the Director of Graduate Studies. A memorandum of such changes must be appended to the Program of Study in the candidate's file.

North Georgia College offers the following degrees in the field of Education:

Master of Education in Early Childhood Education
Master of Education in Elementary Education
Master of Education in Middle Grades Education
Master of Education in Special Education
- Interrelated
- Learning Disabilities
- Mental Retardation
- Behavior Disorders

Master of Education in Secondary Education:
- Art
- Behavioral Science
- Biology
- Business Education
- Chemistry
- English
- History
- Mathematics
- Modern Languages
- Physical Education
- Physics
- Political Science
- Science
- Social Science

North Georgia College has been designated as a Residence Center for certain 6th year programs offered by the University of Georgia. For information contact the Director of Graduate Studies.
Course Requirements

The program, planned as a logically organized whole and interrelated with the student’s undergraduate years, will meet the following minimum requirements:

Program Without Thesis. The program without thesis requires a MINIMUM OF 55 QUARTER HOURS OF COURSE WORK, of which 30 hours must be in courses numbered 700 or above. The 55 quarter hours shall be organized in the following manner:

A. Education 700—Foundations of Education ............... 5 hours
B. Education 701—Educational Research .................. 5 hours
C. Education 702—Psychology of Classroom Learning .... 5 hours
D. Education 713, 734, 773, or Special Education 770 .... 5 hours
   (Students should take the curriculum course related to their area.)
E. Academic Concentration (Minimum) ................... 25 hours
F. Elective—(To be chosen from Education) ............... 5 hours
G. Elective—(Chosen from Education or Academic
   concentration) ........................................ 5 hours
Total .............................................. 55 hours

Program With Thesis. The program with thesis requires a minimum of 45 quarter hours of course work, of which 25 quarter hours must be in courses numbered 700 or above. The program with thesis will be organized in the following manner:

A. Education 700—Foundations of Education ............... 5 hours
B. Education 701—Educational Research .................. 5 hours
C. Education 702—Psychology of Classroom Learning .... 5 hours
D. Education 713, 734, 773, or Special Education 770 .... 5 hours
   (Students should take the curriculum course related to their area).
E. Academic Concentration ................................ 25-30 hours
F. Thesis
   (Students should register for Education 709) .......... 5-10 hours
Total .............................................. 55 hours

Candidates for the M.Ed. degree must meet certain undergraduate and graduate requirements in the teaching area. Since these requirements vary from department to department it will be necessary for the student to plan with an adviser in the department. It is the student’s responsibility to insure that all requirements both undergraduate and graduate have been met. Each department will provide the candidate with a list of requirements upon request.
Thesis

The thesis must embody the results of a study related to the student's academic concentration. The study must demonstrate the student's ability to successfully attack a genuine education problem and draw logical and significant conclusions from the data.

Each student undertaking a thesis should register for Education 709 above the required 45 quarter hours. Grading for this course will be done by the student's major professor. Grades given should depend upon the progress of the student with his thesis.

The format of the thesis must conform to the requirements specified by the College.

The candidate must consult with all members of his committee as the thesis progresses, and suggestions must be incorporated before the final form of the thesis is typed. The final copy of the thesis must be submitted to all members of the examining group not later than one week preceding the date of the examination. Revisions or corrections by the examining committee must be made before acceptance of the thesis becomes final.

Time Limit, Residence Requirement

In any graduate program all work submitted for a degree (including the comprehensive examinations) must be completed within a six-year period. It is expected that the student will complete his program with reasonable continuity. Students called into military service, stricken by serious illness, or the like, may apply for an extension of time.

At least half of all coursework must be completed on-campus.

Transfer, Extension, Correspondence Credit

In any graduate program a maximum of 10 quarter hours of graduate credit may be transferred from another accredited institution subject to the following conditions: (1) work already applied toward another degree cannot be accepted; (2) work must have been completed within the six-year period allowed for the completion of degree requirements; (3) work must have been applicable toward a graduate degree at the institution where credit was earned; (4) work offered for transfer must have the approval of the Director of Graduate Studies and the head of the department or advisor of the student's major; (5) acceptance of the transfer credit does not reduce the residence requirement stated above.

Under no circumstances may credit earned through correspondence work be applied toward satisfaction of degree requirements.

Course Numbers, Load, and Schedule

Courses numbered 700 and above are open only to graduate students. Certain courses devoted to fundamental knowledge carry a 300/400
number for an undergraduate in the senior division and a corresponding
600 number for a graduate student.
A full load for a graduate student is 10-15 hours per quarter. If a student is
fully employed, he should take only five hours of graduate work during the
time he is employed. A student on a graduate assistantship may take a
maximum of ten hours of graduate work per quarter.
The College makes every effort to maintain the schedule of courses as
announced in its bulletin. However, the right is reserved to withdraw
courses, change instructors, or change the schedule of classes at any time
without previous announcement.
All students should be careful not to enroll in courses which they have
previously taken. The final responsibility for duplication of courses rests
with the student.

**Grading System**

All institutions of the University System of Georgia shall be on a 4.0 grade
point average system. The following grades are approved for use in institu-
tions of the University System of Georgia and are included in the determi-
nation of the grade point average:

- A — Excellent
- B — Good
- C — Satisfactory
- D — Passing
- F — Failure
- WF — Withdrawn, failing

The following grading symbols are approved for use in the cases indicated,
but will not be included in the determination of the grade point average.

- I — This symbol indicates that a student was doing satisfactory work but,
  for non-academic reasons beyond his control, was unable to meet
  the full requirements of the course. If an “I” is not satisfactorily
  removed within two quarters, the symbol “I” will be changed to the
  grade “F” by the appropriate official.
- W — This symbol indicates that a student was permitted to withdraw
  without penalty. Withdrawals without penalty will not be permitted
  after the mid-point of the total grading period except in cases of
  hardship as determined by the appropriate official of the respective
  institution.
- V — This symbol indicates that a student was given permission to audit
  this course. Students may not transfer from audit to credit status or
  vice versa.
Teacher Certification

Teacher certification is a complex process. If students work closely with their advisors in establishing and implementing their Program of Studies, difficulties regarding State certification can be kept to a minimum. However, if the student does not hold a teaching certificate additional work will be required. Questions should be referred to the Director of Graduate Studies or to the Head of the Department of Education.

Area Teacher Education Services

North Georgia College is a member of the Northwest Georgia Area Teacher Education Service (NWGATES). The area services attempt to coordinate the off-campus education courses offered by the state-supported graduate institutions within the state. Students are allowed to take as many as twenty-five hours of their graduate work through the area services, provided their major professor approves the courses to be taken.

Off-campus work through the area services should not be confused with transfer credit. Only ten quarter hours of work done in an accredited graduate institution may be counted toward an advanced degree. No correspondence work may be counted.

Advisers

The Director of Graduate Studies in Education is the general adviser for all graduate students, but, so far as particular courses are concerned, a student is counseled by the head of the major department or by professors appointed as academic advisers for each student. A new student seeking an adviser should go to the Director of Graduate Studies, who will assign him to a particular adviser.

The adviser is expected to provide the graduate student with a list of courses required for graduation. At the time of each registration, the adviser should approve the student’s program of study for that quarter.

Faculty Committees

For students admitted to candidacy in programs requiring a thesis, an advisory committee is appointed by the Director of Graduate Studies in Education. The chairman shall come from the academic department concerned, with the remaining two members coming from the Department of Education. The chairman serves as the major professor for work on the thesis, but the candidate is expected to consult regularly with all members of the committee while the work is in progress. The thesis defense is conducted by the student’s committee.

Students who are candidates in the program not requiring the thesis will be advised only by their major professor until they reach the point of taking
their comprehensive examinations. At this time the major professor will choose two additional faculty members and form a committee to administer the examination. The committee must be approved by the Director of Graduate Studies. The core comprehensive examination is required of all candidates and is administered by the Director of Graduate Studies.

Change of Program

Before a graduate student may transfer from one degree program to another, he must submit his request in writing to the Graduate Director. This request must then be approved by the new major department and the Director of Graduate Studies. Unauthorized changes may result in additional degree requirements.

Comprehensive-Final Examinations

A comprehensive-final examination is required of all candidates for a graduate degree after the other requirements have been met. The following regulations govern the administration of the comprehensive examination:

1. The student must be registered when he takes the examination.
2. Students must apply with the Director of Graduate Studies to be permitted to take the examination.
3. Each student is required to take an examination. Whether it is oral and/or written is determined by the student’s major department.
4. The examinations are administered by the committee comprised of the major professor and two or more additional faculty members. The committee must be approved by the Director of Graduate Studies.
5. The examination covers all work prescribed by the student’s program of work, including transferred work, and, if applicable, the thesis or research project.
6. The core comprehensive examination is required for all candidates and is administered by the Director of Graduate Studies.

GRADUATION

Students must apply for graduation at the Registrar’s Office during the first week of their final quarter. However, students completing degree requirements during spring quarter must apply for graduation the first week of the winter quarter. The fee will be submitted to the Registrar of the College. Students are expected to attend the graduation exercise at which their degree is to be conferred. No students will be issued diplomas or transcripts of credits if they are in default of any payments due the College.

Course Descriptions
BEHAVIORAL SCIENCE

PSYH—Statistics for the Behavioral Science 5 hrs
Prerequisite: Math 240. A survey of the statistics which are most frequently used in the behavioral sciences. Particular emphasis will be placed on analysis of variance techniques; some of the more useful nonparametric techniques will also be covered. Primary concern will be with computation and interpretation.

PSYH—Experimental Psychology 5 hrs
Prerequisite: PSYH 300A and Math 240. This course is designed to introduce students to experimental methods as applied to behavior. Some basic standard tools will be presented. Students will learn design of elementary experiments. Laboratory time will be spent implementing simple procedures.

PSYH—Child Development 5 hrs
A study of the roles played by maturation and experience in the social, emotional, moral, and physical development of children from the prenatal period to adolescence. Observation of children in public school required for two hours weekly.

PSYH—Psychology of Youth 5 hrs
A study of the physical, social, and cognitive adolescent with emphasis on the problems of transition to adulthood.

PSYH—Educational Psychology 5 hrs
Emphasis on learning, its nature, motivation, retention, appraisal, transfer, and application. Adjustment of educational practices to individual differences in abilities and interests among pupils will be considered. Some observation in teaching-learning situations will be done.

PSYH—History and Systems 5 hrs
An integrative course emphasizing the origins and background of the science of behavior. Important contributors and their schools of thought will be studied. Relating these schools of thought to present systematic developments in psychology will be emphasized.

PSYH—Psychological Reading and Research 2 hrs
Prerequisite: Permission of Instructor

PSYH—Social Psychology 5 hrs
A survey of the effects of the social environment on human behavior. Coverage includes: aggression, altruism, attitude change, audience effects, conformity, group dynamics, interpersonal attraction, leadership, sex roles and social perception.

PSYH—Measurement of Individual Differences 5 hrs
An introduction to theories and practices of psychological measurement. The characteristics and uses of specific maximum and minimum performance assessment devices will be included.

PSYH—Psychology of Leadership 5 hrs
Psychology 101 is recommended but not required as a prerequisite. The characteristics of an effective leader will be studied and analyzed employing both a theoretical and an applied approach.

PSYH—Physiological Psychology 5 hrs
Prerequisite: 10 hours Biology. Personality is viewed as the integration of the morphology, physiological and psychological aspects of the organism. The relationship between the internal environment and such behaviors as food intake control, mating behavior, neural action, emotion, etc., will be considered.

PSYH—Sensation and Perception 5 hrs
A study of sensory systems emphasizing behavioral significance of structure and physiology.

PSYH—Comparative Behavior 5 hrs
A treatment of evolutionary trends
in behavior including neural and hormonal mechanisms, with emphasis on physiology and function.

**PSYH—Psychology of Learning**  
631  
**and Memory**  
5 hrs  
An empirical and theoretical study of classical, instrumental and operant conditioning, reinforcement, discrimination learning, extinction, verbal learning, and other phenomena.

**PSYH—Individual Intelligence Testing:**  
633  
**Wechsler and Stanford-Binet Scales**  
5 hrs  
Prerequisite: Psychology 419. Training in the administration, scoring, and interpretation of the Wechsler and the Stanford-Binet Scales. A minimum competency in the use of these scales for both children and adults is required.

**PSYH—Fundamentals of Behavior**  
635  
**Modification**  
5 hrs  
Selected behavior modification techniques including experimental analysis, successive approximation and other operant techniques, counterconditioning, reciprocal inhibition, and others as applied to learning problems, mild behavioral disturbances, and mild cases of retardation.

**PSYH—Theories of Personality**  
643  
5 hrs  
A critical evaluation of the major theories of personality and a survey of research on major personality variables comprise this course.

**PSYH—Applied Research Techniques**  
644  
5 hrs  
A study of the research methodology for applied problems and for non-laboratory settings. Coverage includes consumer, field, marketing, policy-oriented, program evaluation and survey research techniques. Active student participation in applied research projects is emphasized.

**PSYH—Abnormal Psychology I**  
653  
5 hrs  
This course involves the study of the historical perspectives of abnormal behavior, the various psychosocial models used to understand behavior as well as the study of personality development and adjustment. The major emphasis of the course will be a thorough investigation—involving the causes, dynamics, and treatment—of the following forms of abnormal behavior: transient situational disorders, neuroses, schizophrenia and paranoia, major affective disorders and suicide, sociopathic disorders, delinquency and crime, alcoholism and drug dependence.

**PSYH—Abnormal Psychology II**  
654  
5 hrs  
This course deals with the causes, dynamics and treatment of the following forms of abnormal behavior: sexual deviations, psychosomatic disorders, organic brain syndromes, mental retardation, behavior disorders of childhood, maladaptive behavior of groups. Special emphasis will be given to contemporary approaches to therapy.

**PSYH—Industrial/Organizational Psychology**  
662  
5 hrs  
The study of human problems in work settings, selection, placement, motivation and job satisfaction, leadership, performance assessment, organizational development.

**PSYH—Psychological Counseling and Psychotherapy**  
663  
5 hrs  
Prerequisites: Psy 453. A study of the various methods employed in counseling and psychotherapy. These methods will be interpreted as they are applied in the treatment of both the "disturbed" and the "normal" individual.

**PSYH—Group Dynamics**  
665  
5 hrs  
The study of the psychology of small group behavior. Coverage includes situational, physical and personality factors as they relate to group formation, interaction, and performance.

**PSYH—Advanced Educational Psychology**  
715  
5 hrs  
Prerequisite: PSY 101, PSY 305 and two senior division courses in psychology. Applications of the scientific findings of psychology to the more complex problems of the educative process.

**PSYH—Applied Psychology**  
721  
5 hrs  
Application of the principles of psy-
chology to social, business, industrial, governmental, educational, military and other professional fields.

PSYH—Independent Study in
780  Psychology  5 hrs
Independent reading and research

in the area of student's interest with consent of instructor.

BIOLOGY

M. Ed. in Biology
Requirements

Persons who pursue the graduate program in Biology should normally have an undergraduate background in the Biological Sciences equivalent to the Major in Biology-Secondary Education curriculum as listed in the most recent North Georgia College Bulletin. Other requirements are found in various sections of the Graduate Bulletin. The 25 to 30 hours in graduate level Biology should consist of a broad coverage of the area or select courses designed to complement an individual's specific background or objectives.

BIOL—Plant Taxonomy  5 hrs
601  Prerequisites: Biology 221 and 222 or by permission of the Head of the Department. An introductory plant taxonomy course utilizing the spring wild flowers of North Georgia to treat the principles of systematics, nomenclature, classification, phylogenetic relationships and collecting techniques. Four lectures and one, two-hour laboratory period per week.

BIOL—Human Form and Function  5 hrs
610  Prerequisites: Biology 102. An individual human anatomy and physiology course designed for physical education majors, but open to early childhood and middle grade education majors, deals primarily with the human skeletal, muscular, nervous, circulatory and respiratory systems. Laboratory study will include detailed study of charts, models and the dissection of a mammal using a systems approach. Four hours of lecture and one two-hour laboratory per week.

BIOL—Seminar in Teaching of
615  Biology  5 hrs
Prerequisites: Biology 101 and 102 and a minimum of three 200-400 level Biology courses. A seminar in techniques and procedures for illustrating central concepts in Biology. A survey of the history of science education and a consideration of modern perspectives in Biology are also included. This course is recommended for secondary education majors in Biology but is available to all who wish to gain insight into teaching in the Biological Sciences. The course meets five hours per week.

BIOL—Genetics  5 hrs.
620  Prerequisite: Biology 102, or by permission of the Head of the Department. A study of the principles of heredity in plants and animals, with applications to human heredity. Four lectures and one, two-hour laboratory period per week.

BIOL—Comparative Anatomy of
621  the Vertebrates  5 hrs
Prerequisite: Biology 220. A course especially for pre-medical students and biology majors, who need preparation for more intensive study of anatomy. Representative vertebrates will be dissected and studied in the laboratory. Three lectures and two, two-hour laboratory periods per week.

BIOL—Parasitology 5 hrs
623 Prerequisites: Biology 220 or permission of the Head of the Department. The course will include a detailed study of the nature of parasitism, the classification, morphology and life histories of animal parasites, the epidemiology, pathology and treatment of parasitic diseases of man, domestic animals and other selected hosts. Three hours of lecture and two, two-hour laboratory periods per week.

BIOL—Introductory Microbiology 5 hrs
624 Prerequisites: Biology 221 and two courses in Chemistry or by permission of the Head of the Department. An introduction to the principles of microbiology, utilizing the microorganisms facilitate an understanding of the life processes. The course is designed for biology majors and students in pre-professional medical programs. The laboratory phase includes exercises to develop proficiencies in the microbiological techniques. Four lectures and one, two-hour laboratory period per week.

BIOL—Ecology 5 hrs
626 Prerequisites: Four courses in Biology or by permission of the Head of the Department. A study of plants and animals in their relations to each other and to the physical and chemical factors of the environment. Four lectures and one, three-hour laboratory period per week.

BIOL—Cell Biology 5 hrs
630 Prerequisites: Two upper level Biology courses and two courses in Chemistry or by permission of the Head of the Department. An integrated approach to the biochemistry, physiology, and morphology of the plant, animal and prokaryote cell. Topics include: cell architecture, energy transduction, regulatory and feedback pathways, organellogenesis, membrane biogenesis; and, the methods and special problems encountered in studying these phenomena. Additional topics include: viroids and viruses, bacteria and plasmid technology, intracellular parasitism and symbiosis, specialized cells, antibody formation, hybridomas, and cancer cells. Four lectures and one, two-hour laboratory period per week.

BIOL—Immunology 5 hrs
640 Prerequisites: Biology 280 or 324 and two courses in Chemistry or by permission of the Head of the Department. An introduction to the principles of immunology to include: structure and function of the cells participating in the immune response, structure and biology of antigens, antibodies, and lymphokines. Additionally, hypersensitivity, auto-immunity molecular recognition at cell surfaces, and cancer biology will be treated. Laboratory exercises will demonstrate the basic antigen-antibody reactions, antibody titering, and the principles of diagnostic immunology. Four lectures and one, two-hour laboratory period per week.

BIOL—Evolutionary Biology 5 hrs
645 Prerequisites: Four courses in Biology or by permission of the Head of the Department. A study of the principles of evolutionary biology utilizing specific examples, the course will begin with a historical review showing how evolutionary ideas became possible with the growth of biological knowledge. This will be followed by consideration of the mechanisms of evolution and of evolution as a process affecting contemporary organisms including humans. The latter portion of the course will deal with what has happened in the past and how we know about it, and will trace the evolutionary origins of the major groups of plants and animals culminating in a study of human evolution. Four lectures and one, two-hour discussion/seminar sessions per week.
BIOL—Physiology 5 hrs
650  Prerequisites: Biology 220 or 250. An advanced course which explores in detail the function of cells, tissues and organs. Students will examine and evaluate current literature in professional journals and conduct independent study which will be reported using an acceptable scientific format. Laboratory will include introduction to techniques in physiological research. The course meets for 4 lectures and one, two-hour laboratory per week.

BIOL—Marine Biology 5 hrs
660  Prerequisites: Biology 220 or 326. This course will cover basic principles of marine ecology with particular emphasis on the marine communities of the Georgia coast. The student will become familiar with the dominant flora and fauna for each of the major coastal communities through extensive field and laboratory work as well as lectures. First-hand experience will be provided in qualitative and quantitative sampling methods, and techniques for the measurement of pertinent environmental parameters. Laboratory and lecture will be tied closely together, and will consist of four hours of laboratory-lecture per day. There will be a one-week field trip to the coast. Participation in this trip is mandatory for successful completion of the course requirements.

BIOL—Animal Histology 5 hrs
670  A study of selected tissues in the organ systems of vertebrates. Laboratory work involves the microscopic study of mammalian tissues. In addition, each student will use a number of microanatomic techniques to prepare a series of animal tissue slides. Three lectures and two, two-hour laboratory periods per week.

BIOL—General Embryology 5 hrs
680  Prerequisites: Biology 321. A study of the germ cells and early development stages of vertebrates. Emphasis is placed on organology of the chick, pig, and man. Three lectures and two, two-hour laboratory periods per week.

BIOL—Man and the Environment 5 hrs
700  A study of the fundamentals of ecology with emphasis upon man’s interaction with the natural world. The fundamentals will be used to analyze environmental problems and their implications for the human future. Projects will individualize the course according to student need, interest and expertise.

BIOL—Teaching Strategies for
704  Middle and Secondary School
Science Teachers 5 hrs
This course has as its primary objective the assisting of individuals working to improve their teaching of science. The format of the class will include discussion, lecture, and practice of teaching techniques.

BIOL—Field Zoology 5 hrs
705  A study of the general biology and ecology of the local fauna with emphasis on field identification.

BIOL—Curriculum Planning
708 in Science 5 hrs
This course includes a study of factors which influence science instruction in today’s schools. Historical, psychological, social, philosophical and practical concerns will be addressed and considered in the processes of selecting and developing curriculum materials.

BIOL—Field Botany 5 hrs
710  A study of the general biology and ecology of the local flora with emphasis on field identification.

BIOL—Advanced Invertebrate
715 Zoology 5 hrs
Prerequisites: Biology 220 or by permission of the Head of the Department. The morphology, physiology, ecology and evolutionary relationships of non-vertebrate animals will be examined. Laboratory exercises will be designed to familiarize teachers with culture methods, experiments, and demonstrations that could be used in their classes. Local sources of living animals will be demonstrated through field trips. Three lectures and one, two-hour laboratory periods per week.
BIOI—Vertebrate Zoology 5 hrs
720  A survey of the taxonomy of vertebrate groups from fishes through mammals, with attention to basic organization and function, ecology, and evolutionary relationships. Select groups will be considered in terms of life history, behavior, and population patterns.

BIOI—Plant Ecology 5 hrs
772  for Teachers

This course introduces the teacher to subject matter in plant ecology that is appropriate for use in middle and secondary school science courses. A lecture/laboratory/field format will be employed.

BIOI—Independent Study in 5 hrs
780  Biology

BUSINESS EDUCATION

BADM—Intermediate Macro 5 hrs
621  Economic Analysis
Prerequisites: BADM 151 and 152. An intensive study of the measurement, analysis, and control of aggregate economic activity. The economic principles underlying national income, business cycles, and growth are examined; and particular attention is given to problems involved in formulating economic policies.

BADM—Intermediate Micro 5 hrs
622  Economic Analysis
Prerequisites: BADM 151 and 152. An intensive study of price theory and its uses. Specific topics covered include the theory of demand, the theory of the firm, pricing in competitive and monopolistic markets, and the pricing of economic resources.

BADM—Money and Banking 5 hrs
625  Prerequisites: BADM 221. A study of the basic principles and concepts of money and credit and their importance in the present economy. The major topics emphasized are the key role of the commercial banking system in our economy, central banking as a means of expanding and stabilizing the supply of money and credit, monetary theory, monetary and fiscal policies, international banking and finance, and other banking and credit institutions.

BADM—Labor Economics 5 hrs
626  Prerequisites: BADM 221 and 222. A study of the origin of the labor movement; population and labor force; organized labor; union organization and management; collective bargaining; and the problems of unemployment, full employment, wage theory and policies, and labor legislation.

BADM—Intermediate Accounting 5 hrs
631  Prerequisites: BADM 231 and 232. An advanced study of the accounting theory, principles, and procedures of corporate, partnerships, and proprietorship forms of business. This includes the fundamental accounting processes, financial statements, working capital items, valuation procedures, current liabilities, investment, and plant equipment acquisition and use.

BADM—Intermediate Accounting 5 hrs
632  Prerequisites: BADM 631. A continuation of BADM 631. Major emphasis is devoted to accounting for intangibles, long-term debt, corporate capital, paid-in capital, retained earnings, analytical processes, and statement of applications of funds.

BADM—Advanced Accounting 5 hrs
633  Prerequisite: BADM 632. A more advanced study of accounting procedures with attention given to the
more difficult and specialized phases that arise in consignment, installment sales, larger organizations, consolidations, estates and trusts, and actuarial science.

**BADM—Income Tax Accounting 5 hrs**
635 Prerequisites: BADM 231 and 232. A study of federal income tax laws. The various types of returns are studied and emphasis is placed on the determination of income and legal deductions in order to determine taxable net income.

**BADM—Cost Accounting 5 hrs**
636 Prerequisites: BADM 231 and 232. A study of the theory and practice of accounting for manufacturing and selling costs. Detailed consideration is given to elements of cost—direct labor, direct materials, and factory overhead. Process, job order, and standard cost systems are also emphasized.

**BADM—Managerial Accounting 5 hrs**
637 Prerequisites: BADM 231 and 232. A study of the use of accounting as a tool in the decision making process. Major topics covered include budgeting, gross profit, and break-even and cost profit-volume analysis, capital expenditures, and internal profit measurement.

**BADM—Auditing 5 hrs**
638 Prerequisite: BADM 231 and 232. A course in the theory and practice of professional and general auditing. Auditing standards, internal control, government regulation, and formal report writing are other major topics emphasized.

**BADM—Risk and Insurance 5 hrs**
641 Prerequisite: BADM 221 or permission of instructor. Studies the nature of risk and the role of insurance in risk management from individual and business viewpoints by considering insurance carriers, contracts, underwriting, and regulation.

**BADM—Real Estate 5 hrs**
642 A study of the concepts, principles, practices, and laws relating to acquiring, holding, utilizing, and disposing of real property.

**BADM—Business Finance 5 hrs**
645 Prerequisites: BADM 221 and 222. A study of financial organization and management from the standpoint of the chief financial officer of an operating business. Major topics emphasized are choosing a form of organization, planning and managing assets, planning the financial structure, managing short- and long-term funds, and valuing business enterprises.

**BADM—Public Finance 5 hrs**
646 Prerequisites: BADM 221 and 222. A study of the principles and techniques of government debt; specific tax and non-tax revenues; and expenditures at the national, state, and local levels.

**BADM—Mathematics of Business and Economics 5 hrs**
651 Prerequisites: BADM 221 and 222, MATH 101 and 102. A study of mathematical topics which have relevance for students whose major is in one of the management-economic areas. Topics included are linear systems logarithms, mathematics of finance, and differential and integral calculus.

**BADM—Principles of Statistics 5 hrs**
652 Prerequisites: BADM 221 and 222, MATH 101 and 102. A study of mathematical topics which have relevance for students whose major is in one of the management-economic areas. Topics included are linear systems logarithms, mathematics of finance, and differential and integral calculus.

**BADM—Personnel Management 5 hrs**
665 A study of the principles and procedures of the recruitment, selection, and placement of a labor force. Treatment of grievances, problems of collective bargaining, compensation policies, merit rating, promotion, transfer and discharge, training and personnel records are emphasized.
BADM—Retailing Management  5 hrs
666  A study of the organization, planning, policies, procedures problems, and controlling of the various types of retailing institutions. The major topics emphasized include the selection of retailing locations; organization of retailing services; and the selection, training, compensation and supervision of retailing personnel.

BADM—Management in the  
668  Non-Profit Organization  5 hrs
An examination of management principles applied to the non-profit organization. Topics covered would include but not be limited to planning, organizing, staffing, and controlling.

BADM—Principles of Advertising  5 hrs
672  A study of planning, organizing, and controlling involved in the management of the advertising function of business. Major consideration is given to budgeting for advertising, advertising research media selection, preparation of advertisements, services of advertising agencies and the economic and social effects of advertising.

BADM—Principles and Problems in Business Education  5 hrs
701  The theory and psychological principles of skill building and evaluation.

BADM—Problems in Teaching  5 hrs
702  Basic Skill Courses
Teaching procedures, materials, standards and evaluation in teaching bookkeeping, management, economics and related courses in the secondary school.

BADM—History and Philosophy  5 hrs
705  of Vocational and Business Education
This course is designed to acquaint students with the philosophy and principles of vocational education in general and vocational business education specifically; federal financial support and other encouragement; organization, administration, and supervision of vocational education.

BADM—Economics for High School Teachers  5 hrs
720  Develops the content, teaching, and application of economics to citizen needs for teachers who desire an understanding of general economics in the public school curriculum.

BADM—Economics for Elementary and Middle School Teachers  5 hrs
721  Develops the content, teaching, and application of economics for teachers who desire an understanding of general economics in the K-8 public school curriculum.

BADM—Consumer Economics  5 hrs
722  This course is designed for teachers and those students who desire a detailed study of consumer problems. The more important elements of consumer education are reviewed, including consumer goods, consumers' services, buying problems, consumer organization, problems of personal finance, and well-balanced spending programs.

BADM—Accounting Theory  5 hrs
731  A study of financial and cost accounting theory and application. Emphasis will be placed on problem solving.

BADM—Theory of Accounting  5 hrs
739  A study of accounting thought to include both financial and cost accounting theory. Topics of historical significance as well as current problems will be examined.

BADM—Office Management  5 hrs
760  Principles
A study of the principles of scientific office management and their application. Such courses to include the principles underlying operation, organization, and control of business
CHEMISTRY

CHEM—History of Chemistry and Chemical Literature  5 hrs
The historical development of modern theories in chemistry will be examined. The chemical literature as an aid in teaching will be examined. In addition, sources of teaching aids such as films and literature will be discussed.

CHEM—Chemical Process  5 hrs
A discussion of important inorganic industrial processes. This course will also include discussion of such everyday operations as photography, bleaches, detergents, and dyeing. Four hours of lecture and one laboratory period per week.

CHEM—Chemistry and the Environment  5 hrs
A comprehensive discussion of the effects of chemical technology on our environment and of the effect of this technology on our standard of living. Four hours lecture and one laboratory period per week.

CHEM—Introduction to Biochemistry  5 hrs
Prerequisites: Chemistry 230 or 331. This course discusses intermediate metabolism and the various classes of compounds involved in those transformations. Four lectures and one laboratory period per week.

CHEM—Inorganic Chemistry  5 hrs
Prerequisite: Chemistry 340 or 341. An extension of the study of inorganic chemistry begun in general chemistry. The current theories of atomic structure and bonding in complex ions, crystal systems, and some descriptive inorganic chemistry will be discussed. Four lectures and one laboratory period per week.

CHEM—Organic Chemistry  5, 5, 5 hrs
631-632-633
Prerequisite: Chemistry 123. These courses are designed to introduce the student to functional groups and their interconversion, the mechanism of chemical reaction, conformational analysis, and stereochemistry. The third quarter includes an introduction to carbohydrates and amino acids, kinetic methods and an introduction to problems of organic synthesis.

CHEM—Physical Chemistry  5 hrs
640
This course is a non-calculus introduction to physical chemistry. Emphasis is placed on the application of physical chemical principles to the life sciences. Four lectures and one laboratory period per week.

CHEM—Physical Inorganic Chemistry  5 hrs
721
A comprehensive application of modern theories and of thermodynamics to periodicity and to chemical reactions.

CHEM—Introduction to Organic Analysis  5 hrs
Prerequisite: Two quarters of organic chemistry or permission of Department Head. The course will be devoted to qualitative organic analysis and will be an extension of the identification done as part of the laboratory work of the basic year course in
organic chemistry. Instrumentation such as the infrared spectrophotometer, the ultraviolet spectrophotometer, the gas chromatograph, and other tools will be used to accomplish the stated objectives. Four hours lecture, and one laboratory period per week.

CHEM—Advanced Organic Chemistry 5 hrs
The use of chemical reactions in synthesis. A survey of industrial reactions and industrially important chemicals. Introduction to catalysis.

CHEM—Instrumental Analysis 5 hrs
751 An examination of the use of instruments such as pH meters, spectronic 20, infrared, atomic absorption to teaching chemical concepts. Four hours lecture and one laboratory period per week.

EDUC—Special Problems in Education 5-10 hrs
600

EDUC—Child Development 5 hrs
601 A study of the roles played by maturation and experience in the social, emotional, moral, cognitive, and physical development of children from the prenatal period to adolescence. Observation of children in public school required for two hours weekly.

EDUC—Human Growth and Development 5 hrs
603 A study of the development of the human from the prenatal period through adolescence. Focuses on the role played by maturation and experience in the social, emotional, intellectual, moral, and physical development of the individual. Includes genetic and environmental influences on the development of the person. Educational practices considered in relation to their effect on the development of children. Treats the relationship of learning and learning theory on classroom teaching and planning. Observation and study of children in public school required two hours weekly.

EDUC—The Nature and Development of the Middle Grades Learner 5 hrs
604 This course focuses on the nature and diversity of the middle grade learner. Emphasis is placed on the physical, emotional, social, and intellectual development of children from the end of early elementary into the early high school years.

EDUC—Problems in Teaching 5 hrs
610

EDUC—The Young Child in the Home and Community 5 hrs
612 A study of the role of the home, community, and state in the education of the young child. Special emphasis is placed upon working with parents of young children in order to get maximum home reinforcement of the knowledge and skills taught by schools.

EDUC—Communication Arts 5 hrs
614 This course includes language development, methods and materials, literature for young children and assessment of language skills.

EDUC—Educational Measurements and Evaluation 5 hrs
616 Theory of and practice in construction, administration, and interpretation of tests and other measuring devices for mental ability, special aptitudes, scholastic achievement and personality.
EDUC—Mental Hygiene  5 hrs  
617  An advanced course dealing with mental hygiene problems, especially of children and adolescents; problems of different stages of matura-
tion adjustments in the home, school and play groups; and special needs in cases of retardation and delin-
quency.

EDUC—Principles of Guidance  5 hrs  
618  A survey of vocational and educational guidance services designed to give a fundamental understanding of the role of guidance in school programs.

EDUC—Teaching of Social Studies  5 hrs  
623  An integrated social studies course designed for teachers. Topics con-
sidered include responsibilities of family membership, occupations, labor unions, taxation, local govern-
ment functions, ways of communications and world cultures other than our own.

EDUC—Classroom Management  and Organization  5 hrs  
640  This course is designed to provide classroom teachers with the knowl-
edge and skills for managing the total instructional setting, including the individualization of instruction. Emphasis will be placed on group-
ing, teacher-student relationships, establishing the classroom environment and coping with class conflict.

EDUC—Educational Media  5 hrs  
641  The psychological principles under-
lying the use of audiovisual equipment and materials will be discussed. Extensive laboratory work will be in-
cluded.

EDUC—Teaching Elementary  School Science  5 hrs  
660  A course dealing with the everyday aspects of physics, chemistry, and astronomy as they might need to be explained by the elementary teacher with little specific training in the physical sciences. The work will in-
clude demonstrations and suitable experiments that can be performed with materials available in the average elementary and home situation.

EDUC—Teaching of Modern Science  
661  Curricula—(K-8)  5 hrs  
Five hours of “hands on” class ac-
tivity per week designed to familiar-
ize the student with modern Ele-
mentary Science Programs and how to teach them. The course will in-
volve curriculums such as ESS, SCIS, 
SAPA, and COPES.

EDUC—Teaching of Modern Science  
662  Curricula—(7-12)  5 hrs  
Five hours of “hands on” class activity per week designed to familiarize the student with modern Junior High and Secondary Science Programs and how to teach them. The course will involve curriculums such as ESS, SCIS, 
SAPA, and COPES.

EDUC—Career Education  5 hrs  
667  This course provides the student with an orientation toward special-
ized skills and approaches in im-
plementing world of work concepts through numerous classroom and field based activities. The student will examine existing materials for the purpose of adaptation to this classroom setting.

EDUC—Foundations of Education  5 hrs  
700  The sociological, historical, and phil-
osophical foundations for education in America.

GEOG—Concepts and Materials in  
700  Geography for Teachers  5 hrs  
This course considers the evolution of the discipline, its current concep-
tional core; area “element-com-
plexes,” systematic vs. regional ana-
lytical procedures. Considers stand-
ad bibliographic statistical and carto-
graphic sources. Procedures in adapting information from several sources to the classroom.

EDUC—Educational Research  5 hrs  
701  Research procedures, experimental designs and the application of find-
ings, and a research project conduct-
ed by the students.

EDUC—Psychology of Classroom  
702  Learning  5 hrs  
Analytical study of learning activities in the classroom, with reference to
the learning of school subjects. The focus is on the learning process. Theories and principles of learning are related to classroom situations.

EDUC—Statistics for Teachers 5 hrs
703 A basic introduction to probability and statistics for classroom teachers. Emphasis is placed on the normal distribution, sampling, and measures of central tendency.

EDUC—Fundamentals of Student
704 Teaching Supervision 5 hrs
Prerequisites: Hold Professional Certificate. The first course of the two-course sequence designed to provide teachers with an introduction to the theory, knowledge and practices utilized in effective supervision of student teaching and other field experiences. The course focuses upon specific supervising teacher competencies and the relationship of these competencies to effective supervision.

EDUC—Internship in Student
705 Teaching Supervision 5 hrs
Prerequisites: EDUC 704 and serving as student teaching supervisor. Purpose of the internship is to assist in the development and utilization of supervisor of a student teacher. This field-oriented course is designed to meet specific individual needs of the supervisor. Direct assistance is provided through on-site observations and feedback in addition to group seminars.

EDUC—Humanistic Psychology 5 hrs
707 Humanistic psychology includes the study of self-theory, being-psychology, and contributions of the humanities to psychology.

EDUC—Research Problems—
709 Thesis 5-15 hrs

EDUC—Seminar in Early Childhood 5 hrs
710 Provides opportunities to analyze trends, issues, theories, and practices in early childhood education.

EDUC—Curriculum Planning 5 hrs
711 Study of curricula in the public school. Areas of concentrated study will be determined jointly by the school districts involved and the college.

EDUC—Language and the
712 Young Child 5 hrs
Language and its acquisition; studied in relation to mental development and school achievement.

EDUC—Early Childhood Curriculum 5 hrs
713 Principles and practices for planning learning activities for preschool and primary grades. Directed observation in selected schools is required.

EDUC—Administration and Supervision of
714 Early Childhood Programs 5 hrs
A study of administrative and supervisory procedures, organization, policies, standards, funding, staffing, housing, and educational program planning for various kinds of programs for young children. Parent involvement and education will be given special attention.

EDUC—Practical and Creative
715 Activities for the
Young Child 5 hrs
A course designed to give students experiences in selecting and presenting art activities, stories, finger plays, music, rhythms, woodworking, science and nature experiments.

EDUC—Early Childhood Workshop 5 hrs
725 Developing teacher-made books, materials and equipment for educational use. Provides opportunities for study of philosophy or organization of open education.

EDUC—Trends in Early Childhood 5 hrs
727 An overview of the history of early childhood education. Current trends and issues with emphasis placed on various approaches to Early Childhood Education.

EDUC—Books and Materials for
729 Young Children 5 hrs
Designed to familiarize students with appropriate books, materials, and equipment for program planning in
day care centers, nursery schools, kindergartens, and primary schools. Language development will receive special emphasis.

EDUC—Practicum in the
730 Middle Grades 5 hrs
Prerequisites: ED 604, ED 734. A supervised practicum for teachers working with 9-13 year olds.

EDUC—Practicum in Early
731 Childhood 5 hrs
Field work based upon the background and individual needs of each student. Prerequisite: Permission of instructor.

EDUC—Elementary School
733 Curriculum 5 hrs
Deals with theories and philosophies of curriculum and the development of learning experiences. Students will analyze and evaluate current curriculum practices and trends.

EDUC—Middle School Curriculum 5 hrs
734 In this course students will analyze and evaluate current curriculum trends and practices. Theories and philosophies of curriculum for the middle grades learner will be used as the basis for analysis and evaluation. Development of appropriate learning experiences will provide practical application of the theories and philosophies of curriculum.

EDUC—Diagnostic Teaching 5 hrs
735 Deals with the learners' needs. This course is designed to help the practitioner learn to diagnose learning problems and learning needs. Students will develop diagnostic models to be implemented in the classroom.

EDUC—Seminar in Elementary
740 Education 5 hrs
This seminar is based on current trends in elementary education.

EDUC—Teaching of Math (K-8) 5 hrs
742

EDUC—Problems in School Organization and Curriculum 5 hrs
743

EDUC—Advanced Techniques of Teaching Music 5 hrs
745 Advanced techniques and materials involved in the effective guidance of learners in kindergarten through high school are studied. Field experience and observation are required.

EDUC—Guidance in the Elementary
748 School 5 hrs
Studies the nature and development of guidance services in the elementary school. Emphasis is given the particular characteristics of the elementary school as a unique climate for learning.

EDUC—Secondary School
773 Curriculum 5 hrs
Deals with theories and philosophies of curriculum and the development of learning experiences in the secondary schools. Students will analyze and evaluate current curriculum practices.

EDUC—Independent Study 5 hrs
780

EDUC—Internship in Supervision in Early Childhood Education 5 hrs
791 Field work under the supervision of an administrator or supervisor and the college staff.
LART—Children’s Literature  
608  The reading and evaluation of books for children. Discussed in the course are sources of information about children’s books, children’s interests in reading, the work of important authors and illustrators, and problems in the guidance of reading.

LART—Language Arts for
609  Elementary Grades  
      5 hrs  This course provides for individual diagnosis and correction of problems in the student’s handwriting, spelling, oral and written expression. Consideration is given to the study of appropriate techniques and materials for the teaching of reading, handwriting, spelling, and oral and written expression in the elementary school.

LART—The Teaching of Reading  
620  An intensive study of reading skills. The role of readiness, vocabulary development, phonics, and word recognition as each is related to comprehension will be studied. Students will be required to participate in the teaching of reading in the public school.

LART—Diagnosis of Reading  
621  Disabilities  
      5 hrs  Prerequisites: LART 620. This is an advanced course dealing with the causes of reading disability and methods for diagnosis both in the classroom and in the special reading program. Emphasis will be placed on preparing the classroom teacher for a role of a “diagnostician” of students with reading disabilities. In depth studies of formal and informal testing procedures as well as field experiences will be required.

LART—Remediation of Reading  
622  Disabilities  
      5 hrs  Prerequisites: LART 620, 621. This is an advanced course dealing with the correction and remediation of reading disabilities. Emphasis will be placed on the study of a variety of remedial strategies, materials needed for a program of remediation and management of the remedial program. Field experiences will be required.

LART—Teaching Reading in the
630  Middle, Junior High, and Secondary School  
      5 hrs  Study of objectives and methods for teaching comprehension, vocabulary, study skills, and critical reading in the content areas. Attention to remedial and enrichment techniques for secondary students.

LART—Juvenile Literature  
633  Reading and study of the various types of literature for young people, as well as a study of the appropriate reading programs for junior high school pupils, are included in this course.

LART—The Teaching of
642  Composition  
      5 hrs  A study of current approaches to the teaching of composition with specific emphasis on sequential curriculum development K-12, motivational strategies, techniques of student evaluation, processes of revision, and program evaluation. Prerequisite: Enrollment in Georgia Mountains Writing Project.

LART—Trends and Practices in
720  Reading Education  
      5 hrs  Survey and critical study of recent research, changes, and innovative approaches in the field of reading. Current methods and practices in the teaching of reading will be examined, with emphasis on classroom organization or developmental reading.

LART—Practicum in Developmental
732  and Remedial Reading  
      5 hrs  Supervised practice of diagnosis and remediation of disabled readers with in public school setting. Regular classroom teaching of reading using a variety of approaches. Experience
in working with a reading specialist under faculty supervision.

LART—Teaching Reading in Elementary and Middle Schools 5 hrs
In-depth analysis of current methods and practices in the teaching of reading. Examination and evaluation of various commercial materials will be studied as to effectiveness and adaptability. Laboratory time for teacher-made materials.

LART—Organization and Supervision of the Reading Program 5 hrs
Study of methods of organizing the reading program as part of the total curriculum. Role and responsibilities of the reading specialist. Steps to follow in coordinating a school-wide reading program.

LART—Materials and Reading 5 hrs
Examination of leading basal readers with manuals and skill texts. Phonics materials, audio visuals, games, and various commercial materials will be studied as to effectiveness and adaptability. Laboratory time for teacher-made materials.

LART—Psychology of Reading 5 hrs
Study of neurological and psychomotor development, the processing of information, learning principles, motivation, the effects of culture and the use of operant conditioning as related to reading.

SPECIAL EDUCATION

Mental Retardation, Interrelated, Learning Disabilities, Behaviorally Disordered (Programs for endorsement in Hospital and Home Instruction and Gifted Education are also offered.)

SPED—Assessment of Exceptional Children 5 hrs
Prerequisites: SPED 660 and SPED 670 or 690. A course offering tests unique to assessing the developmental levels and potential achievement or exceptional children. Emphasis is on the use of the tests in planning and selecting curricular programs and activities.

SPED—Behavior Management 5 hrs
A course emphasizing clinical management of life events; permitting, tolerating, interfering, environmental manipulation, life-space interviewing. Focuses on classroom management.

SPED—Introduction to Exceptional Children 5 hrs
A study of physical, social, intellectual and emotional differences in children. The characteristics, both physical and behavioral, as well as methods of diagnosis and remediation for the academically talented, the mentally retarded, blind, partially sighted, deaf, hard of hearing, specific learning disabled, culturally disadvantaged and behaviorally disordered are reviewed.

SPED—Working with Parents of Exceptional Children 5 hrs
A course designed to teach the techniques which an educator uses in communicating with parents of exceptional children. The means of interpreting handicapping conditions and school programs to parents in order to get maximum home reinforcement of the attitudes, skills and knowledge taught in school are covered.

SPED—Educational and Medical Aspects of Crippling and
Special Health Conditions 5 hrs
A study of physically disabling conditions which cause educational difficulties. Orthopedic conditions, progressive deterioration conditions, low vitality conditions, central nervous system injury and multiple handicaps are covered.

SPED—Practicum in Home/Hospital 5 hrs

SPED—Introduction to Mental Retardation 5 hrs
A course designed to review the historical treatment, etiology and characteristics of the mentally retarded. Methods of diagnosing, placing and working with the retarded are covered.

SPED—Speech and Language Development of Exceptional Children 5 hrs
This course covers the current understandings of speech and language development of exceptional children, including non-English speaking and diverse cultural and racial groups.

SPED—Vocational Training and Career Education for the Exceptional Child 5 hrs
A course emphasizing the educator's role in career development and vocational experiences in the school and community. Job counseling, working with other disciplines and agencies in the community, and supervision in job training situations are covered.

SPED—Methods and Materials for Teaching the Mentally Retarded 5 hrs
Prerequisites: SPED 650 and 670. Methods and materials as they relate to the development of desirable attitudes, abilities and skills of the mentally retarded.

SPED—Methods and Materials for Teaching Severely Mentally Retarded 5 hrs
Prerequisites: SPED 650 and 670. A course covering diagnostic criteria and the development of teaching materials and relationships with community organizations interested in developing schools or centers for mentally retarded.

SPED—Introduction to the Education of Children with Emotional Problems 5 hrs
A course designed to discuss behavioral characteristics of children with emotional and/or behavioral problems. Factors of etiology, identification and therapy are covered.

SPED—Methods and Materials for Teaching Children with Behavioral/Emotional Disorders 5 hrs
Prerequisites: SPED 650 and 680. A review of major approaches in the education of behavioral and emotionally disordered children. Understanding and planning adaptations in the educational programs for disturbed children. Appropriate plans and materials are identified for use with disordered children.

SPED—Practicum in Behaviorally Emotionally Disordered I 5 hrs

SPED—Practicum in Behaviorally Emotionally Disordered II 5 hrs

SPED—Characteristics of the Gifted 5 hrs
A course covering the identification and characteristics of gifted and talented students from pre-school through high school. Consideration is given to the exploration of alternatives for recognizing gifted and talented children who are culturally different and/or underachieving. Alternative services models and the major instruments used for identifying gifted and talented will be studied.

SPED—Program Development and Curriculum Planning for the Gifted 5 hrs
Prerequisites: SPED 685. Methods and materials as they relate to fostering creativity, developing interests, and channeling abilities of the gifted and talented students from preschool through high school. The course will explore ways of organizing and promoting programs within the public school setting.
SPED—Practicum with the Gifted  5 hrs
687  Prerequisites: SPED 685 and SPED 686. Supervised practicum in programs for the gifted.

SPED—Introduction to Children with
690  Learning Disabilities  5 hrs
A course giving an overview of the field of learning disabilities as concerned with etiology, referral, diagnosis, management and educational practices.

SPED—Practicum in Learning
746A-747A Disabilities I & II  10 hrs
Prerequisites: SPED 690, 650, and 676. Supervised practicum in programs for children with practicum in programs for children with learning disabilities.

SPED—Practicum for Teachers of the
746B-747B Interrelated Area I & II  10 hrs
Prerequisites: Approval of adviser. Supervised practicum in programs for children with learning and/or adjustment problems.

SPED—Administering and Supervising
760  Public School and Special Education Programs  5 hrs
The administrative practices and problems of organizations, staffing, curriculum development, and supervision of special education in schools. Consideration is given to self-contained and mainstreaming programs.

SPED—Advanced Theory in Curriculum
770  Development and Methods for Teaching the Exceptional Child  5 hrs
Prerequisites: SPED 670 or 690, and 674 or 676, and 650. Advanced techniques in class organization, curriculum adjustment, and methods and techniques of teaching children with learning and/or behavior problems.

SPED—Practicum with the
771-772  Mentally Retarded  10 hrs
Prerequisites: permission of adviser. Supervised practicum in programs for the mentally retarded.

SPED—Methods and Materials
776  for Teaching Children with Learning Disabilities  5 hrs
Prerequisites: SPED 690 and 650. A review of theory and research in identifying effective methods of prescriptive teaching and task analysis. Appropriate materials are identified for use in teaching children with specific learning disabilities.

SPED—Competencies in Diagnostic
777  Prescriptive Teaching  5 hrs
Prerequisites: Two of the following: SPED 670, 680, 690. The major objective of this course is to offer the appropriate skills and techniques to enable teachers of children with school achievement and/or adjustment problems to more adequately ascertain areas of performance deficiencies of individual children and prescribe and administer corrective measures.

SPED—Problems of Teaching
790  Special Education  5 hrs
Prerequisite: Permission of instructor. A seminar providing the opportunity of examining problems and issues which teachers have in teaching handicapped and gifted children. The seminar is taught in relation to actual experiences of teachers.

SPED—Seminar in Special Education  5 hrs
791  Prerequisite: Permission of instructor. An advanced seminar designed to meet individual needs which teachers have in teaching handicapped and gifted children. The seminar focuses on current issues and trends in special education.
ENGLISH

ENGL—History of the
601 English Language 5 hrs
A study of the background, origins, and development of the English language, with emphasis on phonological and morphological aspects.

ENGL—Southern Literature 5 hrs
604 The literature of the South, including a brief background study of the literary trends from the Civil War to the Southern Renaissance and concentrating on writers of the twentieth century.

ENGL—Shakespeare 5 hrs
606 A study of selected comedies, chronicles, and tragedies, with emphasis on the tragedies.

ENGL—Advanced English Grammar 5 hrs
607 A comprehensive study of English grammar.

ENGL—Selected Studies 1-5 hrs
620 Prerequisite: Permission of the Department. Reading, investigation, and writing, in the classroom or under informal direction of the faculty, on selected topics or areas not covered in other catalog listings. This course may be repeated for credit.

ENGL—Chaucer 5 hrs
640 Emphasis on The Canterbury Tales.

ENGL—Composition Studies 5 hrs
650 for Teachers Study and practice of composition theory and teaching techniques.

ENGL—English Renaissance 5 hrs
660 A survey of non-dramatic English literature from 1500 to the Restoration.

ENGL—English Literature of the 5 hrs
680 Eighteenth Century
A study of Romanticism with emphasis on the major poets.

ENGL—English Literature of the 5 hrs
690 Nineteenth Century
A study of the major writers of the period in both prose and poetry. A general study of social conditions in England from 1832 to 1900.

ENGL—Seminar in Nineteenth Century 5 hrs
715-716 American Literature Content will vary according to writers and movements studied.

ENGL—Seminar in Twentieth Century 5 hrs
720-721 American Literature Content will vary according to genres, authors, movements studied.

ENGL—Shakespeare's Tragedies 5 hrs
740 An intensive study of Shakespeare's major tragedies.

ENGL—Shakespeare's Comedies 5 hrs
741 An intensive study of Shakespeare's major comedies.

ENGL—Studies in Nineteenth Century 5 hrs
790-791 British Romanticism An intensive study of Wordsworth-Coleridge or Byron-Shelley-Keats.
FINE ARTS

FNAR—Drawing
610 A sequence of directed studies in drawing. 5 hrs
611      5 hrs
612      5 hrs
613      5 hrs
614      5 hrs

FNAR—Painting
615 A sequence of directed studies in painting. 5 hrs
616      5 hrs
617      5 hrs
618      5 hrs
619      5 hrs

FNAR—Elementary School Art 5 hrs
631 Through lecture, slides, films, and filmstrips the developmental stages of Children's Art, media and techniques appropriate for pre-school and elementary grade levels, and planning for art lessons are introduced. Studio activities involve the student in experimentation with art materials, design concepts, and projects for art teaching at the elementary level.

FNAR—Secondary School Art 5 hrs
632 Art teaching concepts directed toward the adolescent and adult age levels. Studio activities will involve experimentation with art materials, teaching techniques, and art education philosophy that can be applied to secondary school and/or adult art program.

FNAR—Teaching Crafts 5 hrs
633 Experiences in a variety of craft activities to encourage design and cultural awareness. Skills of children at various levels will be considered as Craft Units are planned and adapted to classroom use.

FNAR—Graphics
640 A sequence of directed studies in printmaking. 5 hrs
641      5 hrs
642      5 hrs
643      5 hrs
644      5 hrs

FNAR—Contemporary Art History 5 hrs
650 Contemporary art and its development.

FNAR—American Art History 5 hrs
651 The development of painting, sculpture, architecture, and crafts in the United States.

FNAR—Renaissance Art History 5 hrs
652 An analysis of art monuments of the Renaissance.

FNAR—Textile Design
660 A series of directed studies in surface design on fabrics. 5 hrs
661      5 hrs
662      5 hrs
663      5 hrs
664      5 hrs

FNAR—Weaving
665 A series of directed studies in weaving, theory, spinning, and dyeing. 5 hrs
666 intermediate and advanced 5 hrs
667      5 hrs
668      5 hrs
669      5 hrs

FNAR—Pottery
670 A sequence of directed studies of advanced ceramic techniques will be studied 5 hrs
671      5 hrs
672 which will include the following: Production 5 hrs
673      5 hrs
674      5 hrs
675 techniques as well as forms of individual expression, clay and glaze formulation various methods of kiln firing and kiln construction.

FNAR—Thesis I and II 10 hrs
719 Preparation and execution of an applied project in Art Education.

FNAR—Classroom Art Curriculum 5 hrs
733 In-depth researching into problems of teaching art in the classroom. Curriculum planning and involvement in art materials and classroom teaching techniques will be observed.

FNAR—Techniques of Teaching Art 5 hrs
734 In-depth techniques involved in effective methods of guiding and supervision sequential art learning for early childhood to adolescence.

FNAR—Analysis of Art for Teachers 5 hrs

735 A non-studio course designed to assist the teacher in "art appreciation" activities. Historical and contemporary art movements will be compared and analyzed.

MATHMATICS

In addition to the basic requirements of North Georgia College for admission to the graduate program, a candidate in the area of Mathematics Education must exhibit training in Mathematics and Mathematics Education which qualifies the candidate for the T-4 teaching certification in Mathematics. Until such requirements are met as approved by the Director of Certification of the State Department of Education, the student will not be allowed to file a program of study toward the degree.

All study programs must include Mathematics 701 and/or Mathematics 702.

MATH—Differential Equations 5 hrs
600 Prerequisite: MATH 246. An introductory course in ordinary differential equations with emphasis upon linear differential equations of the first and second orders.

MATH—Introduction to Mathematics for Elementary and Junior High Teachers I 5 hrs
610 This course promotes facilities with the concepts, structure, and style of mathematics studied and taught in the elementary school with emphasis on the arithmetic strands.

MATH—Introduction to Mathematics for Elementary and Junior High Teachers II 5 hrs
611 This course promotes facilities with the concepts, structure, and style of mathematics studied and taught in the elementary school with emphasis on the geometric strands.

MATH—Geometry for Teachers 5 hrs
612 Designed to prepare the student to teach modern secondary school geometry. Euclidean and non-Euclidean geometrics.

MATH—Elementary Vector Analysis 5 hrs
615 Prerequisites: Math 247 or Consent of the Department Head. The elements of vector algebra and vector calculus with some space generalizations.

MATH—Orthogonal Functions and Boundary Value Problems 5 hrs
616 Prerequisite: MATH 247 and MATH 300; or consent of Department Head. A study of fourier series and integrals, Sturm-Liouville systems, applications to solution of partial differential equations with boundary conditions.
MATH—Functions of a Complex
618 Variable 5 hrs
Prerequisite: Math 247 or consent from Department Head. Conditions for analyticity, elementary functions, the Cauchy integral theorem, the fundamental theorem of algebra, power series, residues, poles, conformal mapping.

MATH—Mathematical Analysis I 5 hrs
620
Prerequisite: MATH 247 or consent of the Department Head. An introduction to the real number system, the basic notions of set theory, limit concepts and continuity, and the foundations of the differential and integral calculus of one variable.

MATH—Mathematical Analysis II 5 hrs
621
Prerequisite: MATH 410 and MATH 247. A continuation of MATH 410 to include the calculus of several variables, improper integrals, Taylor series, and uniform convergence.

MATH—Theory of Numbers 5 hrs
631 A study of elementary problems in number theory with topics from divisibility, congruences, residues, special functions, Diophantine equations, continued fractions.

MATH—Probability and Statistics 5 hrs
639 Prerequisite: MATH 246. A calculus-based introduction to probability distributions and statistical inference. Topics will include probability distributions, expectation, hypothesis testing, and estimation procedures.

MATH—Theory of Probability 5 hrs
640 Principal topics include combinatorial methods, axiomatic probability, discrete and continuous probability, distributions, mathematical expectation, moment generating functions.

MATH—Mathematical Statistics 5 hrs
641 Prerequisite: Math 640. Principal topics include sums of random variables, sampling distributions, properties of estimators, tests of hypothesis.

MATH—Introduction to Discrete
650 Mathematics 5 hrs
A course in discrete mathematical structures. Topics will include sets, logic, Boolean algebra, elementary graph theory, and combinatorial methods.

MATH—Numerical Analysis 5 hrs

MATH—Mathematical Models 5 hrs
659 Prerequisite: MATH 240 and MATH 246 or consent of Department Head. A study of various mathematical models, with emphasis on problems from the managerial, social, and biological sciences. Topics will be selected from the following: Graph Theory, Matrix Algebra, Probability, Combinatorial Theory, Mathematical Programming, Calculus-based Models.

MATH—Abstract Algebra 5 hrs
660 Prerequisite: Math 246 or consent of Department Head. A formal introduction to the algebra of groups, rings, and fields.

MATH—Linear Algebra 5 hrs
665 Prerequisite: Math 246 or consent of Department Head. An introduction to the basic concepts of linear algebra. Topics include finite-dimensional vector spaces, bases, linear transformations, and matrices.

MATH—History of Mathematics 5 hrs
670 A survey of the historical development of mathematics with emphasis on topics for secondary teachers.

MATH—Seminar in Applications
701-702 of Mathematics 5 hrs
Topics will vary among social, business, and scientific applications of mathematics, statistics, operations research and the computer.
MATH—Foundations of Geometry  5 hrs
712   A study of Euclidean and Non-Euclidean topics.

MATH—Topics in Modern Algebra for Teachers  1-5 hrs
721

MATH—Topics in Matrix Algebra for Teachers  1-5 hrs
722

MATH—Topics in Calculus for Teachers  1-5 hrs
723

MATH—Topics in Geometry for Teachers  1-5 hrs
724

MATH—Topics in Graph Theory for Teachers  1-5 hrs
725

MATH—Topics in Combinatorial Mathematics for Teachers  1-5 hrs
726

MATH—Topics in Computer Science for Teachers  1-5 hrs
727

MATH—Topics in Discrete Mathematics for Teachers  1-5 hrs
728

MATH—Probability and Statistics A study of various distributions and hypothesis testing.
740

MATH—Independent Study in Math  5 hrs
780

CpSc—Independent Study in Computer Science  1-5 hrs
780

MODERN LANGUAGES

MLAN
615   Advanced French Composition and Syntax  5 hrs

MLAN
617—French Literature of the Seventeenth Century  5 hrs

MLAN
618—French Literature of the Nineteenth Century  5 hrs

MLAN
619—Contemporary French Literature  5 hrs

MLAN
620—Guided Study in Foreign Languages  5 hrs

MLAN
650—French Phonetics  5 hrs
An intensive study of pronunciation building fluent expression.

MLAN
695/696—“Study Abroad Program”  5 hrs/5 hrs

MLAN
701—Advanced French Grammar  5 hrs

MLAN
702—Advanced German Grammar  5 hrs

MLAN
722—French Literature of the Eighteenth Century  5 hrs

MLAN
731—German Literature Since 1945  5 hrs

MLAN
780—Independent Study in Foreign Languages  5 hrs
PHED—Sex Education 5 hrs
600 A study of the attitudes and standards of the physical, emotional and behavioral aspects of sex.

PHED—Materials and Methods in Physical Education 5 hrs
605 A study of the administrative processes and methodology needed to develop a thorough understanding of desirable standards and program implementation in physical education.

PHED—Elementary and Secondary School Physical Education 5 hrs
620 A study and practicum in the objectives, needs, methods, and materials of elementary and secondary school children involved in a modern day physical education program.

PHED—Exercise Physiology 5 hrs
650 A combined study of the structure and function of the human body. Lecture and laboratory experience includes the study of the minute and gross anatomical and physiological structures of man as it relates to man living in the physical world of muscular activity.

PHED—Kinesiology and Therapeutics 5 hrs
660 A study of the movements of the human body and their working relationship in normal and atypical individuals.

PHED—Health Education 5 hrs
690 A study of the physical and mental health problems of society as they relate to man and his confrontations with mental health, alcohol, disease, drugs, marriage, nutrition, physical fitness and sex.

PHED—Curriculum Planning in Physical Education 5 hrs
700 Deals with the administration, planning, construction, and content of curriculum in modern day physical education programs.

PHED—Scientific Aspects of Exercise 5 hrs
704 A consideration of the effect of exercise on the functions of the organic systems of the body with particular emphasis on the physiological changes occurring during exercise.

PHED—Prevention and Treatment of Athletic Injuries 5 hrs
705 This course deals specifically with the immediate care and long term prevention, treatment and rehabilitation of injuries occurring from sports and physical activities.

PHED—Analysis of Motor Skills 5 hrs
706 Analysis of motor skills based on laws and principles of mechanics.

PHED—Administration of Physical Education in the School Program 5 hrs
713 Program planning; budgeting, selection, care and maintenance of equipment and facilities; personnel; and other administrative problems; evaluation of physical education in the school programs.

PHED—Current Problems in Health, Physical Education and Recreation 5 hrs
714 Problems met in a comprehensive program of health, physical education, or in recreation in the school and community. Special emphasis given to problems in areas of students' interests.

PHED—History of Physical Education 5 hrs
715 Greek and Roman concepts of physical education, education and physical education in the Renaissance and Reformation, historic events, and principles of European and American physical education. Special reference given to the value of physical education in the current economic and social life of the nation.

PHED—Case Studies in Physical Education and Athletics 5 hrs
717 Problems dealing with the administration and teaching of physical education and athletics are studied by using the case study method.
PHED—Movement Education 5 hrs
720 Movement education, which emphasizes exploration and discovery of sound natural movement, will be studied to provide a basic understanding of the evolution, nature, purpose, methods, and various techniques used in this modern approach to physical education.

PHED—Aspects of Sports in American Culture 5 hrs
722 An analysis of the place of sport in American culture. A study of the historical influences of sport on economics, politics, nationalism, curriculum and methods of instruction, professional preparation, dance, leisure, and amateur and professional status.

PHED—Theories of Coaching 5 hrs
723 A focus on why athletics and spectators behave the way they do in various athletic and physical activity settings and how said scope encompasses the major psychological dimensions underlying such behavior.

PHED—Independent Study in Physical Education 5 hrs
780 The study of a topic or problems in Physical Education significantly related to the student's interest. (By approval of student's adviser.)

PHYS—Mechanics—Analytical 5 hrs
615 Prerequisite: Physics 230. May be taken concurrently with Math 300. Kinematics, using vector analysis, dynamics of particles, rotation and planetary motion, the linear harmonic oscillator, studies of energy, momentum and impact, introduction to the most general methods of solving dynamical problems.

PHYS—Mechanics for Teachers 5 hrs
620 Four lectures and discussions and one, two-hour laboratory period per week. Prerequisite: Math 245. This course is designed to aid the elementary physics teacher in dealing with problems in mechanics which may arise in his teaching. The effective presentation of physics concepts in this area will be emphasized. Four lectures and discussions and one, two-hour laboratory period per week.

PHYS—Waves, Electricity, and Magnetism 5 hrs
630 Prerequisite: Physics 615. This course is designed to aid the elementary physics teacher in dealing with problems in waves, electricity, and magnetism which may arise in his teaching. The effective presentation of physical concepts in this area will be emphasized. Four lectures and discussions and one, two-hour laboratory period per week.

PHYS—Modern Physics 5 hrs
635 Prerequisite: Physics 615. This course is designed to aid the elementary physics teacher in dealing with problems in modern physics which may arise in his teaching. The effective presentation of physical concepts in this area will be emphasized. Four lectures and discussions and one, two-hour laboratory period per week.

PHYS—Electronics 5 hrs
640 Prerequisite: Physics 224. A study of the elementary principles of electronics. The laboratory work consists of the study of electronic circuits and the use of testing equipment. Four lecture-recitations and one, two-hour laboratory per week.

PHYS—Digital Electronics 5 hrs
645 Prerequisite: PHYS 224. An introduction to Digital Electronic Technology. Topics to be included are number systems, Boolean algebra, logic families in use, comparisons of
the logic families, and logic circuit design. The laboratory exercises will be selected to complement the classroom lectures. Four one-hour lectures and one two-hour laboratory per week.

PHYS—Computer Interfacing  5 hrs
650 Prerequisite: PHYS 224, PHYS 376L. This course will demonstrate some of the possible applications of micro computing to scientific data acquisition, display and processing, in Basic or machine language or a hybrid combination of the two. The students will be provided with hands-on experience with the different types of hardware and interfaces usually found in microcomputer systems.

PHYS—Teaching Elementary
660 School Science  5 hrs
A course dealing with the everyday aspects of physics, chemistry, and astronomy as they might need to be explained by the elementary teacher with little specific training in the physical sciences. The work will include demonstrations and suitable experiments that can be performed with materials available in the average elementary and home situation.

PHYS—Teaching of Modern Science
661 Curricula—(K-8)  5 hrs
Five hours of "hands-on" class activity per week designed to familiarize the student with modern Elementary Science Programs and how to teach them. The course will involve curriculums such as ESS, SCIS, SAPA, and COPES.

PHYS—Teaching of Modern Science
662 Curricula—(7-12)  5 hrs
Five hours of "hands on" class activity per week designed to familiarize the student with modern Junior High and Secondary Science Programs and how to teach them. The course will involve curriculums such as ESS, SCIS, SAPA, and COPES.

PHYS—Physics Laboratory I
675A, 676A, 677A  1, 1, 1 hrs
Selected experiments from the various branches of physics, clarifying and expanding the work of the classroom, and developing good laboratory techniques. The evaluation and the interpretation of experimental data.

PHYS—Thermodynamics  5 hrs
700 Prerequisites: Physics 225 and Math 300. A study of temperature and its measurement, calorimetry, and some topics from thermodynamics. Five lecture-recitations per week.

PHYS—Curriculum Study in Physics for Secondary Teachers  5, 5 hrs
701-702 These courses are designed to acquaint the student with some of the problems encountered in a high school physics presentation. A personalized system of instruction (self-paced-self-study) will be used to introduce the students to PSSC, Harvard Project, and ECCP curriculum projects. Both need not be taken to get credit.

PHYS—Electricity and Magnetism I  5 hrs
710 Prerequisite: Physics 240. With consent of Instructor, may be taken concurrently with Math 300. A course considering in somewhat more advanced manner the topics of electrostatics, magnetostatics, electrolysis, basic circuit theory, and related topics.

PHYS—Electricity and Magnetism II  5 hrs
720 Prerequisite: Physics 410. This course is a continuation of Physics 410 with emphasis on electromagnetic theory, alternating current theory, transmission lines, filters, electromagnetic wave theory and related topics.

PHYS—Nuclear Physics  5 hrs
740 Prerequisite: Physics 320 or 310. A study of natural radioactivity, interaction of radiation with matter, radiation measuring instruments and the detection of nuclear particles plus a survey of the current state of experimental and theoretical nuclear physics.

PHYS—Quantum Mechanics  5 hrs
750 Prerequisites: Physics 310 or 320, Math 300. Introduction to the quantum mechanics of one-dimensional
systems. An introduction to Schroedinger's equation with emphasis being placed on solutions for one-electron atoms.

PHYS—Physics Laboratory II
775, 776, 777 1, 1, 1 hrs
A continuation of Physics Laboratory I.

PHYS—Independent Study
780

PHYS—Introduction to Research Methods

790, 791, 792 5, 5, 5 hrs
This course consists of two or three lectures and demonstrations per week with laboratory work. The lectures will include the various research techniques, theory of errors, analysis of experimental data, use of library sources, and report writing. The student will be required to use library sources and to perform various experiments. The student will also be required to report his work by class talks and written reports.

research will be examined. Field Survey Evaluation, Experimentation and Content, Pragmatic and Theoretical considerations will also be examined. A research project will be required of all students.

**SOSC—Family Violence** 5 hrs
635 Interdisciplinary course which will deal with the main areas of family violence, wife beating, husband beating, child abuse, sibling violence and “granny-bashing”. These areas will be explored concerning causation social and cultural context. Research in the area, responsibility and proposed means of prevention will also be dealt with.

**SOSC—Law and Society** 5 hrs
650 A general overview of how laws can affect society and how people’s attitudes can affect the law. It will deal with several landmark cases and laws including Brown vs. Board of Ed. (desegregation), Roe vs. Wade (abortion), prohibition laws, drug abuse laws, and laws against homosexuality. The course will be taught in a seminar format.

---

**SOCIOLoGY**

**SOCI—Race and Ethnicity** 5 hrs
605 An examination of the development and persistence of racial and ethnic cleavages in societies, especially the U.S. Close attention will be given to the historical and economic functions of racism and discrimination, as well as their implications for a pluralistic society.

**SOCI—Sociological Theory** 5 hrs
610 A survey of the major theoretical concepts of major writers in sociology from Comte to the present.

**SOCI—Social Stratification** 5 hrs
615 Explores the economic, political and social basis of stratification and inequality in the U.S. today. Attention is given to the origins and nature of social classes, as well as other social divisions such as occupation, sex, race, ethnicity, wealth and power.

**SOCI—Social Movements and Collective Behavior** 5 hrs
618 An analysis of mass movements and collective protest from a historical and behavioral perspective. Emphasis is on understanding social movements as both agents and products of social change and their relationship to various other forms of collective phenomena.

**SOCI—Juvenile Delinquency** 5 hrs
621 This course emphasizes three areas of the problem of juvenile delinquency—Castration, Treatment, and Prevention.

**SOCI—The Feminist Movement** 5 hrs
630 A historical study of the Feminist Movement in the United States emphasizing its political, economic, and social impact.

**SOCI—Political Sociology** 5 hrs
635 A sociological analysis of political systems and power and their relationship to social and economic forces. Attention is given to exploring the question of “who rules America” and the processes involved in maintaining and legitimating political order.

**SOCI—Population and Environment** 5 hrs
640 An examination of the sociological relationships between population growth, economic policies, natural resources, and environmental degradation. Emphasis is on viewing such problems from an ecological perspective and their consequences for future survival.

**SOCI—Occupations and Organizations** 5 hrs
650
An analysis of occupations, professions, and work roles from an organizational perspective. Attention is paid to such topics as occupational inequalities, mobility, and professional ethics, as well as the effect of technology on work and job satisfaction.

The following Economics courses offered by the Department of Business Administration will be acceptable toward the fulfillment of requirements for the M.Ed. degree in Social Science Education.

**BADM—Macroeconomic Analysis 5 hrs**
621 Prerequisites: BADM 151 and 152. An intensive study of the measurement, analysis, and control of aggregate economic activity. The economic principles underlying national income, business cycles, and growth are examined; and particular attention is given to problems involved in formulating economic policies.

**BADM—Intermediate Economic Analysis 5 hrs**
622 Prerequisites: BADM 151 and 152. An intensive study of price theory and its uses. Specific topics covered include the theory of demand, the theory of the film, pricing in competitive and monopolistic markets, and the pricing of economic resources.

**BADM—Money and Banking 5 hrs**
625 Prerequisites: BADM 151 and 152. A study of the basic principles and concepts of money and credit and their importance in the present economy. The major topics emphasized are the key role of the commercial banking system in our economy, central banking as a means of expanding and stabilizing the supply of money and credit, monetary and fiscal policies, international banking and finance, and other banking credit institutions.

**SOCI—Readings and Research in Social Problems 5 hrs**
700 (Permission of Instructor)

**SOCI—Independent Study 5 hrs**
780 (Permission of Instructor)

**BADM—Labor Economics 5 hrs**
626 Prerequisites: BADM 151 and 152. A study of the origin of the labor movement; population and the labor force; organized labor; union organization and management; collective bargaining; and the problems of unemployment, full employment, wage theory and policies, and labor legislation.

**BADM—Public Finance 5 hrs**
646 Prerequisites: BADM 151 and 152. A study of the principles and techniques of government debt; specific tax and non-tax revenues; and expenditures at the national, state and local levels.

**BADM—Economics for High School Teachers 5 hrs**
720 Develops the content, teaching, and application and economics to citizen needs for teachers who desire an understanding of general economics in the public school curriculum.

**BADM—Economics for Elementary and Middle School Teachers 5 hrs**
721 Develops the content, teaching, and application of economics for teachers who desire an understanding of general economics in the K-8 public school curriculum.
BADM—Consumer Economics  5 hrs
722  This course is designed for teachers and those students who desire a detailed study of consumer problems. The more important elements of consumer education are reviewed, including consumer goods, consumers' services, buying problems, consumer organization, problems of personal finance, and well-balanced spending programs.

GEOG—Readings and Research in Geography for Teachers  5 hrs

This course considers the evolution of the discipline, its current conceptual core; area "element-complexes," systematic vs. regional analytical procedures. Considers standard bibliographic statistical and cartographic sources. Procedures in adapting information from several sources to the classroom.

(OFFERED THROUGH THE DEPARTMENT OF EDUCATION)
The following economics courses offered by the Department of Business Administration will be acceptable toward the fulfillment of requirements for the M.Ed. degree in Social Science Education:

**ECON**—Principles of Economics 3 hrs
Prerequisite: ECON 101 and 102. An introduction to the study of macroeconomic and microeconomic principles and concepts, including consumer and producer behavior, the determination of price and quantity, international trade, money and banking, and basic economic models.}

**ECON**—Public Finance 3 hrs
Prerequisite: ECON 101 and 102. A study of the principles and techniques of government finance, including tax and expenditure systems, budgeting, and the analysis of the public debt.}

**ECON**—Economics for Business 3 hrs
Prerequisite: ECON 101 and 102. An introduction to the principles and applications of economics for business decision-making, including supply and demand, cost and revenue analysis, and the role of government in the economy.

**ECON**—Microeconomic Theory 3 hrs
Prerequisite: ECON 101 and 102. An introduction to microeconomic theory, including the study of consumer behavior, market structure, and the role of government in the economy.

**ECON**—Macroeconomic Analysis 3 hrs
Prerequisite: ECON 101 and 102. An introduction to macroeconomic analysis, including the study of aggregate economic activity and the role of government in economic policy. The course covers the principles of supply and demand, the determination of price and quantity, and the role of government in the economy.

**ECON**—Labor Economics 3 hrs
Prerequisite: ECON 101 and 102. A study of the labor market, including the concepts of supply and demand, the determination of wage and employment levels, and the role of government in labor market policies.

**ECON**—International Economics 3 hrs
Prerequisite: ECON 101 and 102. An introduction to international economics, including the study of trade, the balance of payments, and the role of government in international economic policies.

**ECON**—Public Policy 3 hrs
Prerequisite: ECON 101 and 102. A study of the role of government in public policy, including the analysis of government expenditure, taxation, and regulatory policies.
GRADUATE FACULTY

LINDA AUGUST (1972) .................. Associate Professor of Social Science
A.B., Wesleyan College; M.S.S.W., University of Tennessee

GEORGE B. BELDEN (1971) ............... Associate Professor of Education
B.A., Florida State University; M.S., Florida State University; Ph.D., Florida State University.

BIRDIE E. BELL (1966) ................ Assistant Professor of Physical Education
B.S., University of Montevallo; M.Ed., University of Arizona.

WILLIAM D. BELLAMY (1964) ................. Professor of Psychology
A.B., Bob Jones University; M.R.E., New Orleans Baptist Theology Seminary; M.S.,
Ph.D., University of Southern Mississippi.

SIDNEY E. BENTON (1975) .................. Professor of Education
B.S., University of Montevallo; M.A., University of Alabama; Ed.D., University of Georgia.

JOSEPH A. BIESBROCK (1970) ............... Professor of Biology
B.S., Utah State University; M.S., University of Georgia; Ph.D., University of Georgia.

DOROTHY L. BROCK (1975) .................. Associate Professor of Biology
A.B., Tift College; M.S., Oregon State University; Ed.D., University of Georgia.

PHILIP G. BUCKHIESTER (1976) ............... Professor of Mathematics
B.S., Clemson University; Ph.D., Clemson University.

MAC A. CALLAHAM (1963) .................. Professor of Biology
B.S., University of Georgia; M.A., Ed.S., Peabody College; Ph.D., University of Georgia.

MARJORIE J. CLARK (1973) ............... Head Librarian and Adjunct Assistant
Professor of Library Science
A.B., Piedmont College; M.Ln., Emory University.

V. KAY COLBERT (1972) .................. Professor of Education
B.A., University of Arkansas; M.A., Ph.D., University of Alabama.

JIM G. COONE (1968) .................. Associate Professor of Psychology
A.B., Carson-Newman College; M.S., Ph.D., University of Georgia.

WINSLOW G. CRANNELL (1971) ............... Associate Professor of Art
A.A., Manatee Junior College; B.A., M.F.A., Florida State University.

TALMADGE M. DAVIS (1977) ................ Associate Professor of Physics
B.S., North Georgia College; Ph.D., Clemson University.

THOMAS C. DAVIS (1964) .................. Professor of Chemistry
B.S., North Georgia College; Ph.D., Florida State University; further study, National
Science Foundation Summer Institute of Emory University.
H. LAWRENCE DENNIS (1968) ................. Professor of Business Education
B.S., Newberry College; CPA, State of South Carolina; M.S., University of South
Carolina; D.B.A., University of Kentucky.

PAUL G. DOBSON (1972) ....................... Professor of Social Science
B.A., Brooklyn College; Ph.D., New York University.

LEO DOWNING (1980) ....................... Associate Professor of Criminal Justice/Sociology
B.S., Northeastern University; M.A., Indiana State University; Ph.D., Oklahoma
State University.

ALLEN R. ELLINGTON (1964) ............... Professor of Business Education
B.S., M.A., Appalachian State College; further study, Appalachian State College;
Ed.D., University of Georgia.

JAMES M. EWING, JR. (1971) ................. Professor of English
B.A., M.A., University of Mississippi; Ph.D., University of Southern Mississippi.

TERRY R. FLESCH (1978) ................... Associate Professor of Physics
A.B., Thomas More College; Ph.D., University of Florida.

DAVID FORE (1978) ......................... Assistant Professor of Education
A.B., Davidson College; M.A., Boston University; Ed.D., University of Houston.

THOMAS H. FOX (1976) ...................... Associate Professor of Biology
B.A., Gettysburg College; Ph.D., University of North Carolina at Chapel Hill.

MARC GILBERT (1981) ....................... Assistant Professor of History
B.A., University of California; M.A., University of California; Ph.D., University of
California.

CECIL L. JACKSON (1967) ................... Professor of Psychology
A.B., Mercer University; M.Ed., Ph.D., University of Georgia; further study at San
Diego State.

DONALD E. KINKAID (1965) .................. Professor of Physics
B.S., M.A., Clemson University; Ph.D., Clemson University.

JUDY LONG (1979) ......................... Assistant Professor of Education
B.A., Georgia State University; M.Ed., Georgia State University; Ph.D., University of
Georgia.

PAUL E. MCCCLURE (1969) ................. Associate Professor of English
A.B., Berry College; M.Ed., Georgia Southern College; Ph.D., University of Georgia.

TOMMYE L. MCCCLURE (1972) .............. Assistant Professor of Fine Arts
B.S., University of Georgia; M.A.E., University of Georgia; MFA., East Tennessee
State University.

PETER J. MCDONALD (1977) ............... Associate Professor of Psychology
B.A., Macalaster College; M.S., Ph.D., Tulane University.
TERRY M. McLEOD (1975) .......................... Associate Professor of Education

MARY RUTH MILLER (1976) .......................... Professor of English
A.B., Florida State University; M.A., George Peabody College; Ph.D., Duke
University.

BRIAN MURPHY (1981) .............................. Assistant Professor of Political Science
B.A., University of Dayton; M.A., Miami University; Ph.D., Miami University.

CHARLES S. NOBLE (1972) .......................... Professor of Psychology
B.A., Hanover College; M.S., Ph.D., University of Georgia.

W. GUY OLIVER (1964) .............................. Professor of Modern Languages
B.S., B.D., University of Manchester; Ph.D., Hebrew Union College; further study,
University of Nevada.

JANIE D. OSBORN (1975) .......................... Associate Professor of Education
B.S., M.A., Ed.D., University of Alabama.

JOHN H. OWEN (1970) .............................. Professor of Biology
B.S.A., University of Florida; M.S., Ph.D., University of Wisconsin.

ROBERT L. OWENS (1965) .......................... Professor of Art
B.F.A., M.F.A., University of Georgia.

DAVE PANDRES, JR. (1971) ........................ Professor of Mathematics
B.S., University of Texas; M.A., University of Texas; Ph.D., University of Texas.

JAMES C. PARKER (1975) .......................... Assistant Professor of Biology
B.A., Shorter College; Ph.D., Virginia Polytechnic Institute and State University;
Postdoctoral Studies, Medical College of Virginia, Commonwealth University.

JAMES C. PARKS (1980) ............................ Professor of Psychology
B.S.Ed., Auburn University; M.Ed., Ph.D., University of Georgia; Postdoctoral and
Clinical Internship, Northern Arizona University.

JOHN F. PEARCE (1970) ............................ Fuller E. Callaway Professor of Economics
B.S., Furman University; M.A., University of Pennsylvania; Ph.D., University of
Alabama; C.L.U., American College of Life Underwriters.

JOHN E. RABER (1971) ............................. Associate Professor of Physical Education
B.S., Lock Haven State College; M.S., Bucknell University; Ed.D., University of
Georgia.

RAY C. RENSI (1966) ............................... Professor of History
A.B., Milligan College; M.A., East Tennessee State University; Ph.D., University of
Georgia.

THOMAS W. RICHARDSON (1971) ........................ Associate Professor of Chemistry
B.S., University of Texas at Austin; M.A., University of Texas at Austin; Ph.D.,
University of Florida.
WILLIAM P. ROBERTS (1949) ......................... Professor of Social Science
A.B., Emory University; M.A., Ph.D., University of North Carolina; further study,
Tunghai University.

WILLIAM G. ROUGHEAD (1966) ...................... Professor of Mathematics
B.S., M.S.Ed., Illinois State University; M.A., University of Illinois; Ph.D., Florida
State University.

ROBERT G. SABA (1972) ............................... Professor of Education
B.S., College of Santa Fe; M.Ed., Louisiana State University; Ph.D., University of
Southern Mississippi.

CHRISTOPHER S. SHARP (1971) ....................... Professor of Education
B.A., Wofford College; M.Ed., University of North Carolina; Ph.D., University of
South Carolina.

HUGH I. SHOTT, II (1966) ............................ Professor of English
A.B., West Virginia University; B.S., Concord College; M.A., University of Virginia;
Ph.D., University of Denver.

LAWRENCE J. SOROHAN (1972) ....................... Professor of Education
B.S.Ed., University of Dayton; M.Ed., Ph.D., Ohio University.

JUDITH N. TRUE (1975) .............................. Associate Professor of Education
B.A., Marshall University; B.S., M.S., Florida State University; Ph.D., Georgia State
University.

JEWEL M. WADE (1975) .............................. Professor of Education
A.B., Mercer University; M.Ed., Ed.D., University of Georgia.

EUGENE E. WIGGINS (1969) ......................... Professor of English
A.B., University of Chattanooga; M.A., Ph.D., Vanderbilt University.

JOHN B. WOOLFOLK (1969) ......................... Assistant Professor of Chemistry
B.S., Auburn University; M.S., Auburn University.
MARY RUTH MILLER (1971).............. Assistant Professor of Political Science University of Massachusetts, M.A.; University of Maryland, B.A.

ROBERT R. MILLER (1976)................. Assistant Professor of Political Science University of Georgia, Ph.D.; University of Virginia, M.A., B.A.

CHARLES E. R. SHARPE (1971)............. Assistant Professor of Education University of California, Ph.D.; University of Arizona, M.S.; University of Saskatchewan, B.A.

HUGH R. SHOTLTON (1970)................. Assistant Professor of History University of California, M.A., B.A.; University of Wisconsin, M.A., B.A.; University of Oregon, Ph.D.

LAWRENCE SCHARF (1975)................. Professor of Mathematics University of California, Ph.D.; University of Arizona, M.S.; University of New Mexico, B.A.

DAVE SANDERS, JR. (1971)................. Professor of Accounting and Information Management University of Colorado, Ph.D., M.S.; University of North Carolina, B.S.

AMY C. SKINNER (1974).................. Assistant Professor of Biology University of Arizona, Ph.D.; University of Arizona, M.S.

JOHN W. SMITH, III (1975).............. Associate Professor of Chemistry University of Arizona, Ph.D.; University of Arizona, B.S.

R. J. T. SMITH (1975).................. Associate Professor of Chemistry University of Arizona, Ph.D.; University of Arizona, B.S.

THOMAS W. RICHARDSON (1971)............ Associate Professor of Chemistry University of Alabama, Ph.D.; University of Alabama, B.S.
