NOTICE OF RESPONSIBILITIES

Institutional
1. North Georgia College does not discriminate on the basis of handicap in violation of Section 504 of the Rehabilitation Act of 1973. This nondiscrimination policy applies to admission or access to, or treatment, or employment in, its programs and activities.

2. No person shall, on the ground of sex, age, creed, race, or national origin, be excluded from participation in or be denied the benefits of any program or activity conducted by North Georgia College.

Student
1. It is important all students note that it is their responsibility to keep themselves apprised of current admission, retention and graduation requirements for their particular degree program. The statements set forth in this catalog are for informational purposes only and should not be construed as the basis of a contract between a student and North Georgia College. The College reserves the right to change any provision listed in this catalog, including, but not limited to academic requirements for graduation, without actual notice to individual students.

2. It is important that all students satisfy their financial obligations to North Georgia College. The College reserves and intends to exercise its right to withhold copies of educational records and/or to disenroll students who owe money to the College.
For clarification of or additional information about any part of this book, please contact the Director of Graduate Studies, North Georgia College, Dahlonega, Georgia 30597 or 404-864-1543.
GRADUATE CALENDAR 1991-1993

Fall Quarter, 1991

September 24 (Tuesday) ............ Late Advisement, Registration, Pay Fees*, First Day of Classes
September 26 (Thursday) ............ Final Day for Changing Schedules
October 28 (Monday) .................... Last Day for Drop with W
October 29 (Tuesday) ............ Mid-Term Grade Reports Due
November 8, 11-14 (Friday, Monday-Thursday) .......... Winter Advisement
November 11-15 (Monday-Friday) ................ Winter Registration
November 16 (Saturday) ................ Comprehensive Examination
November 28-29 (Thursday-Friday) .......... Thanksgiving Recess**
December 4 (Wednesday) ............ Last Day of Class
December 5, 6, 7 (Thursday, Friday, Saturday) .................. Examinations
December 10 (Monday) 9:00 a.m. ............ Final Grade Reports Due

*All fees must be paid by 5:00 p.m. September 24.
**Thanksgiving Recess begins at noon on Wednesday, November 27.

Winter Quarter, 1992

January 2 (Thursday) 12:00-5:00 ............ Late Advisement
January 3 (Friday) . Registration, Pay Fees*, First Day of Classes
January 7 (Tuesday) ............ Final Day for Changing Schedules
January 20 (Monday) ................ Martin Luther King Jr. Day
February 7 (Friday) ............ Last Day for Drop with W
February 10 (Monday) ................ Mid-Term Grade Reports Due
February 14, 17-20 (Friday, Monday, Tuesday, Wednesday, Thursday) .......... Spring Advisement
February 17-21 (Monday, Tuesday, Wednesday, Thursday, Friday) .......... Spring Registration
February 29 (Saturday) ................ Comprehensive Examination
March 13 (Friday) ................ Last Day of Class
March 16, 17, 18 (Monday, Tuesday, Wednesday) .................. Examinations
March 19 (Thursday, 5:00 p.m.) ............ Final Grade Reports Due

*Fees must be paid by 5:00 p.m. on January 3.

Spring Quarter, 1992

March 25 (Wednesday) ............ Late Advisement, Registration, Pay Fees*, First Day of Classes
March 27 (Friday) .................... Final Day for Changing Schedules
April 28 (Tuesday) ............ Last Day for Drop with W
April 29 (Wednesday) ................ Mid-term Grade Reports Due
May 1, 2, 3 (Friday, Saturday, Sunday) .......... Parents Alumni Weekend
May 4, 5 (Monday, Tuesday) ............ Summer Advisement
May 5, 6 (Tuesday, Wednesday) ................................................................. Summer Registration
May 8, 11-14 (Friday, Monday-Thursday) ............................................ Fall Advisement
May 11-15 (Monday-Friday) ................................................................. Fall Registration
May 16 (Saturday) ..................................................................................... Comprehensive Examination
May 30 (Saturday) ..................................................................................... Last Day of classes for all students
May 31 (Sunday) ....................................................................................... Graduating Student Grades due at 5:00 p.m.
June 2, 3, 5 (Tuesday, Wednesday, Friday) ........................................... Examinations
June 4 (Thursday) ...................................................................................... Commencement (11:00 a.m.)
June 8 (Monday) (12:00 noon) ............................................................... Final Grade Reports Due

*Fees must be paid by 5:00 p.m. on March 25.

Summer Quarter, 1992

June 17 (Wednesday) .............................................................. Late Advisement, Registration, Pay Fees**, First Day of Classes
June 19 (Friday) ......................................................................................... Final Day for Changing Schedules
July 3-6 (Wednesday-Saturday) .............................................................. Independence Day Recess
July 16 (Thursday) ..................................................................................... Last Day for Drop with W
July 17 (Friday) ............................................................................................ Mid-Term Grade Reports Due
July 21, 22 (Tuesday, Wednesday) ....................................................... Fall Advisement
July 22, 23 (Wednesday, Thursday) ....................................................... Fall Registration
July 25 (Saturday) ...................................................................................... Comprehensive Examination
August 12 (Wednesday) ............................................................................... Last Day of Class
August 13, 14 (Thursday, Friday) .............................................................. Examinations
August 17 (Monday) (12:00 noon) ......................................................... Final Grade Reports Due
August 21 (Friday) ...................................................................................... Summer Graduation (7:00 p.m.)

**Fees must be paid by 5:00 p.m. June 17.

Fall Quarter, 1992

September 21 (Monday) .............................................................. Late Advisement, Registration, Pay Fees*
September 22 (Tuesday) ................................................................. First Day of Classes
September 24 (Thursday) ................................................................. Final Day for Changing Schedules
October 26 (Monday) .............................................................................. Last Day for Drop with W
October 27 (Tuesday) ................................................................................ Mid-Term Grade Reports Due
November 6, 9-12 (Friday, Monday-Thursday) ...................................... Winter Advisement
November 9-13 (Monday-Friday) ............................................................. Winter Registration
November 14 (Saturday) ............................................................................ Comprehensive Examination
November 26, 27 (Thursday, Friday) ..................................................... **Thanksgiving Recess
December 2 (Wednesday) ............................................................................. Last Day of Class
December 3, 4, 5 (Thursday, Friday, Saturday) .......................................... Examinations
December 8 (Tuesday) 9:00 a.m. ............................................................. Final Grade Reports Due

*Fees must be paid by 5:00 p.m. September 21.

**Thanksgiving Recess begins at 12:00 noon on Wednesday, November 25
Winter Quarter, 1993

January 4 (Monday) ................................................. Late Advisement, Registration, Pay Fees*
January 5 (Tuesday) .................................................. First Day of Classes

**Fees must be paid by 5:00 p.m. June 21.
GENERAL INFORMATION

History
North Georgia College was founded in 1873 as an agricultural and mechanical college for men and women. At present it is a state-supported, liberal arts, senior college unit of the University System of Georgia under the direction of the State Board of Regents. It is located in Dahlonega, Georgia, on the site of the original U.S. Government Gold Mint. Dahlonega, a town of about 3,000 people, is set in the foothills of the beautiful Blue Ridge Mountains—55 miles/1 hour north of metropolitan Atlanta via Georgia 400.

North Georgia College was approved by the Board of Regents of the University System of Georgia to initiate a graduate program for teachers in June, 1974. This approval followed a four-year period of service by the College as a resident graduate center for the University of Georgia. In its approval, North Georgia College was authorized to offer the Master of Education degree in the areas of Early Childhood Education, Elementary Education, Secondary Education, and Special Education. Middle Grades Education was added in 1978. In 1991, the Physical Therapy Program was approved by the Board of Regents.

Statement of Purpose
The objectives of the programs are directly related to the goals of North Georgia College as stated in the statutes of the College. More specifically, the programs are designed to provide preparation for professionals at the fifth year level, to equip superior graduate students for study at advanced levels, and to provide professionals who do not desire a graduate degree the opportunity to enhance their skills and knowledge. All graduates of the programs should be capable of sustained study, possess a relatively broad knowledge of the literature in their area of study, and have a reasonable ability to engage in appropriate research.

Accreditation and Memberships
North Georgia College, as a senior member of the University System of Georgia, is an accredited member of the Association of American Colleges, the Association of Military Colleges and Schools, the Southern Association of Colleges, and the Association of Georgia Colleges. Its work in the field of education is recognized and accredited by the National Council for the Accreditation of Teacher Education and the Georgia State Department of Education. The quality of the training offered in all departments has long enjoyed national recognition. A significant number of its graduates attend graduate and professional schools.
Graduate Degrees

Education
- Master of Education in Early Childhood Education
- Master of Education, Grades K-12
- Art
- Physical Education
- Master of Education in Middle Grades
- Master of Education in Special Education
  - Learning Disabilities
  - Mental Retardation
  - Behavior Disorders
- Master of Education in Secondary Education
  - Biology
  - Business Education
  - Chemistry
  - English
  - Mathematics
  - Modern Languages
  - Science
  - Social Science

Master of Physical Therapy
(North Georgia College is scheduled to begin graduate courses in physical therapy in the early 1990's. Contact the Director of Graduate Studies for exact starting dates.)

Specialist Degree
North Georgia College has been designated as a Residence center for certain 6th year programs offered by the University of Georgia. For information, contact the Director of Graduate Studies.

COLLEGE EXPENSES AND FEES*

All fees are payable at the time of registration for each quarter. Registration is not complete until all fees have been paid. All matriculation and other charges are subject to change without notice. Payment may be made either in cash or by check. If a check given in payment of a student's fees, books, or supplies is not paid upon presentation to the bank on which it is drawn, the student will be charged a returned check fee of $15.00 or 5% of the amount of the check, whichever is greater.

Application Fee
ALL APPLICANTS to North Georgia College for graduate studies must submit a ten dollar ($10.00) Application fee with their Application Form before the applicant will be given consideration as a prospective student. The Application Fee is non-refundable and will not apply toward the student's registration fees.

*All dollar amounts are subject to change without notification.
Tuition
The University System of Georgia requires no general tuition fee of students who are legal residents of the State of Georgia, and there is no charge for instruction, except for certain courses requiring instruction on an individual and small-group basis.

Matriculation Fee—Resident Students
Each student is required to pay matriculation fees. A student who is a legal resident of the State of Georgia according to the regulations of the Board of Regents of the University System of Georgia, and who has been a legal resident of the state for at least twelve months preceding the date of his registration must pay resident student fees. These fees are payable in advance at the beginning of each quarter. A full load is 10 or more hours per quarter.

Matriculation Fee
$340.00 per full load/quarter or
$34.00 per quarter hour

Matriculation and Tuition Fee—Non Resident Students
Each student who has been legally domiciled in the State of Georgia under the regulations of the Board of Regents for at least twelve months preceding the date of his registration shall pay at the beginning of each quarter the following matriculation and tuition fees:

Matriculation Fee
$340.00 per full load/quarter or
$34.00 per quarter hour

Tuition—Out-of-State
$680.00 per full load/quarter or
$68.00 per quarter hour

Total
$1020.00 per full load/quarter or
$102.00 per quarter hour

Students with a teaching contract in Georgia may be eligible for resident status and should contact the Registrar for details.

Student Activity Fee
A student activity fee of $47.00 is charged every student taking six or more hours each quarter. The opportunity for students to enhance their total college environment and more fully appreciate the aesthetics of cultural, religious, social, and athletic participation is an integral part of a sound educational process. Student activity fees are utilized to provide cultural, social and athletic programs for the entire student body. In addition, these fees provide financial support for student facilities as the College, guest speakers and lecturers, student publications, and similar projects which are available for the exclusive use of the students of North Georgia College.
Student Health Fee
A student health fee of $38.00 is charged every student taking six or more hours each quarter. The infirmary is open for student use on a 24 hour a day basis and consultation with a physician is available daily.

Room and Board
Room and board is available at the following rates:

- Room: $340.00 per quarter
- Board: $390.00 per quarter

Room reservations can be made by submission of a $50.00 deposit.

Late Registrants
A student who fails to register during the period set aside for this purpose will be required to pay a service charge of $5.00 per course.

Transcript Fee
A student who has discharged all financial obligations to North Georgia College is entitled to receive on request and without charge one transcript of his academic record. A charge of $2.00 will be made for each additional transcript.

Graduation Fee
Every student receiving a degree must pay a graduation fee of $35.00 to cover all expenses, including the rental of cap, gown, hood, and the cost of the diploma. Students may procure the necessary forms and pay the graduation fee at the Registrar's office.

Refund of Matriculation Fees
Formal withdrawal must begin with a written approval from the Director of Graduate Studies. At the time this approval is granted, specific instructions will be given for the students to complete his formal withdrawal. Any deviation from this procedure will be considered as an irregular withdrawal and will result in the forfeiture of the refund.

In the case of formal withdrawal, a refund of the matriculation fee may be made on the following basis:

1. Withdrawal during one week following the scheduled registration date; a refund of 80% of the matriculation fee paid for that quarter;
2. Between one and two weeks, 60%;
3. Between two and three weeks, 40%;
4. Between three and four weeks, 20%;
5. After four weeks, no refund.

In case of withdrawal, a refund on board and room may be made on the number of full weeks remaining in the quarter.

In the case of excused absence, a refund on board, not room, may be given on that part of the student's absence which is in excess of two weeks.
FINANCIAL AID

Graduate Assistantships

Assistantships are available in some departments offering degrees. Stipends vary, depending upon services rendered. Students interested in such grants may obtain further information by writing the Vice President for Academic Affairs.

Residence Hall Directors

Hall director positions are periodically available to a very limited number of graduate students. Students awarded these positions receive compensation based upon work done and responsibilities. Detailed information regarding positions can be obtained from:

Ms. Frances Saus
Associate Dean of Students
North Georgia College
Dahlonega, Georgia 30597

Loans and Part-Time Employment

North Georgia College participates in the Carl D. Perkins National Direct Student Loan Program. Loan ceilings are $18,000 in the aggregate for graduate students (including any undergraduate loans). If the student enters the teaching field after college and teaches the physically handicapped or children in a defined poverty area, 100% of the loan (plus interest) may be cancelled. Cancellation of the loan (plus interest) takes place at the rate of 15% per year for the 1st and 2nd year, 20% per year for the 3rd and 4th year, and 30% per year for the 5th year.

Part-time positions are available for graduate students. Those interested in loans or part-time employment may obtain detailed information by writing the Director of Financial Aid.

Teachers seeking state grant-in-aid should write: Consultant, In-Service Teacher Education, State Office Building, Atlanta, Georgia 30334.

Veterans Administration Benefits

North Georgia welcomes the opportunity to assist former servicemen and women eligible for benefits under Public Law 894 or Public Law 550 and war orphans eligible for benefits under Public Law 634. The Veterans Affairs Office at North Georgia College provides an advisory service for students eligible for benefits under these laws. Students planning to attend college under these laws should obtain an application from the Veterans Affairs Office at the College. This office will process the application and certify enrollment.

Service-cancelable Loans for Teachers

The Georgia legislature appropriates funds annually to the Georgia Student Finance Authority to provide service-cancelable loans to eligible students as an incentive for increasing teacher manpower in mathematics, science and special
education.

Those interested may obtain detailed information by contacting the Director of Financial Aid at North Georgia College.

Regents Opportunity Scholarship
This scholarship program is through the auspices of the Board of Regents of the University System of Georgia. Funds are provided for qualified minority students to pursue a graduate degree. Contact the Director of Graduate Studies for further information.

FACILITIES

Library
Stewart Library, completed in 1971, holds more than 100,000 volumes plus approximately 400,000 units of microtext including daily issues of the New York Times from September 1, 1851 to date, Dissertation Abstracts from 1938 and the complete files and index of the Educational Resources Information Center (ERIC). Subscriptions are maintained to about 900 periodicals including the major educational journals. Interlibrary loan services are also available.
Stewart is the U.S. Government Selective Depository Library for the North Georgia area.
Circulated materials include books, audio-visual equipment, filmstrips, films, documents, clipping and pamphlet files.
The library is open and staff are available 7 days each week of the academic quarter including evenings to 10 p.m. (except Friday and Saturday evenings). Library cards are kept on file at the main circulation desk.

Computer Facilities
As a member of the University System of Georgia Computer Network, North Georgia College has access to the computers at the University of Georgia, Georgia Tech, and Georgia State University. Terminals are readily available to students if they need to access these computers.
A personal computer center for student use is located in the Education Building. In addition, most academic departments have PC's available to students on a limited basis.
A TI 990/12 computer is currently being used by North Georgia College for administrative applications. This computer can be used as a remote job entry terminal to the facilities provided by the University System Computer Network.

Instructional Media
The Department of Education maintains an instructional media laboratory and a video-tape laboratory. The laboratories exist not only to provide audio-visual equipment, but have trained staff on hand to provide services and consultation for more effective means of instruction.
CODE OF CONDUCT

The standards of conduct expected of North Georgia College students are basically those prevailing in any well ordered society composed of intelligent, moral people. In terms of disruptive behavior, the Board of Regents of the University System of Georgia has stated that any student who, acting singularly or in concert with others, obstructs or disrupts, or attempts to obstruct, or disrupt, by force or violence, or by threat of force or violence, any teaching, research, administrative, disciplinary, public service or any other activity authorized to be held or conducted on the campus of North Georgia College or on any campus of the University System of Georgia, shall be subject to immediate dismissal.

The words "force" and "violence" shall be construed to include such obstructive and disruptive acts as stand-ins, sit-ins, and lie-ins.

Any student who remains in or refuses to vacate any building on the campus of North Georgia College or on the Campus of any institution within the University System of Georgia at a time when such building is normally, usually and customarily closed to students, and after having received notice to vacate from the President of the institution or other officer charged with the custody and control of the building, shall be subject to immediate dismissal.

INTERNATIONAL STUDENTS

International students are encouraged to attend North Georgia College. Prospective students are advised to consult with the Director of Admissions in terms of the most recent requirements regarding financial statements, I-20 and Visa forms, resident status and scores on English proficiency tests.
Therapy
Master of Physical
The Masters of Physical Therapy degree was approved by the Board of Regents of the University System of Georgia, February, 1991. This program is conducted in close collaboration with and the support of Northeast Georgia Medical Center, Saint Joseph’s Hospital in Dahlonega, Saint Joseph’s Hospital in Atlanta, Lanier Park Hospital, The Physical Therapy Center in Gainesville and Gainesville College.

The curriculum follows the 3 + 3 model in which the first three years consist of study in the liberal arts and pre-professional areas and the final three years are spent in professional study. An undergraduate degree in health science may be awarded after the first year of professional study to those students without a baccalaureate degree, and a master’s degree will be awarded after successful completion of the final two years of professional study.

Admission to the Physical Therapy program will occur after successful completion of the following:

a. All prerequisite courses with a GPA \( \geq 2.7 \).
   Prerequisite courses must include but not be limited to, psychology (incl. abnormal), statistics, research methods, oral and written communication, humanities, fine arts, mathematics (incl. Calculus I), physics, chemistry (incl. organic), and biology (incl. anatomy/physiology and developmental.)

b. A minimum of 135 credit hours with a minimum of 25+ upper division credits.

c. Volunteer or paid experience in a physical therapy department.

d. Acceptance by the Physical Therapy Admissions Committee.

Admission to the masters degree program in physical therapy will occur after successful completion of the following:

a. Application to the Graduate Program at North Georgia College.

b. A baccalaureate degree (with all prerequisite courses included) in health science with an overall GPA of 2.7 and a 3.0 GPA in physical therapy classes.

Detailed information, including course descriptions, course schedules, programs of study and so on, can be obtained by writing:

Director of Physical Therapy Program
Barnes Hall
North Georgia College
Dahlonega, GA 30597
(404) 864-1400
Master of Education
Admission
ADMISSION

Requirements
To be admitted, an applicant must hold a bachelor's degree from an accredited college or university and must meet other admissions requirements as outlined below. The applicant must submit transcripts from all institutions attended prior to North Georgia College, as well as satisfactory test scores on the Graduate Record Exam (GRE), or the Miller Analogies Test (MAT). Scores on admission tests may not be over 5 years old. Medical forms are also required.

Procedure
Application forms may be obtained from the Office of Graduate Studies or the College Admissions Office. The completed form with the $10.00 application fee, official transcripts sent directly from all prior Institutions attended and tests scores should be on file in the Admissions Office at least 20 days prior to the time of enrollment.

If applicants cannot enter the Graduate Studies Program in the quarter indicated on the application form, they should inform the Admissions Office of their plans.

Standings

Degree
All students seeking the Master of Education degree at North Georgia College are considered degree students.

A. Regular
   A student who has graduated from an accredited institution with a cumulative undergraduate GPA of 2.5 or above, GRE score of 800 or above on the aptitude portion, or a MAT score of 44 or above.

B. Provisional
   To be admitted provisionally a student must:
   1. have graduated from an accredited institution.
   2. have earned a cumulative undergraduate GPA of 2.5 or higher.
   3. have an undergraduate major in, or prerequisite for the planned field of study where applicable.
   4. have an MAT score so that MAT + GPA ≥ 560 or a GRE score so that GRE + GPA ≥ 1000. Minimum acceptable scores are: MAT of 27, GRE of 700.

   If a student fails to meet the requirements for provisional admission, then the student may appeal for admission through the office of the Director of Graduate Studies.
   Students may remain admitted on a provisional basis until they have attempted 15 hours of graduate work. If they satisfactorily complete the initial 15 hours of work with no grade less than a "B", they may be admitted to regular standing subject to approval by appropriate college officials.
Non-Degree

All students at North Georgia College taking graduate courses and not seeking the Master of Education degree are considered non-degree students.

A. Standard Post-Baccalaureate. (Definition: The student is seeking initial certification to teach in the State of Georgia.)
   1. A student in this category must have a bachelor’s degree from an accredited college with a minimum grade point average of 2.5 calculated on all undergraduate work attempted.
   2. If a non degree student should decide to seek a degree, requirements for provisional or regular standing must be met. In such cases no more than 15 hours of credit earned while in non-degree standing may subsequently be applied toward meeting the requirements of a masters' degree at an institution in the University System.

B. Alternate Post-Baccalaureate. (Definition: The student is seeking certification renewal or personal enrichment.)
   1. A student in this category must have a baccalaureate degree from an accredited college with a minimum grade point average of 2.0 calculated on all undergraduate work attempted.
   2. Hours earned in this category may not be subsequently applied toward meeting the requirements of a master's degree at North Georgia College.

C. Post-Graduate Admission. (Definition: The student, holder of an earned graduate degree, has not applied for another degree program, but wishes to take work for certification or personal enrichment.)
   1. Students in this category must have a graduate degree from an accredited college.
   2. No more than 15 hours of graduate credit earned in this category may subsequently be applied toward meeting the requirements of a graduate degree at an institution in the University System. No credit earned in this classification may be applied to the Specialist in Education degree programs.

ADMISSION TO THE GRADUATE STUDIES PROGRAM DOES NOT IMPLY ACCEPTANCE AS A CANDIDATE FOR A MASTER'S DEGREE.

Transfer

Students wishing to transfer into the Graduate Studies Program must become a degree seeking candidate and meet all the requirements of applicants for regular standing. The student may offer in transfer, subject to approval by their advisor and the Director of Graduate Studies, a maximum of 10 hours with grades of "B" or better from an accredited graduate school. This request for transfer of graduate credit must be done in writing by the student through the Office of Graduate Studies. All work, including transfer credit, must be completed within the 6 year period.
Master of Education
Academic Regulations
REQUIREMENTS FOR GRADUATE DEGREES

Admission to Candidacy

Admission to candidacy may be granted to any regular graduate student when the following requirements have been met: (1) the student has completed at least 15 quarter hours of acceptable graduate work at North Georgia College; (2) the student has filed in the office of Graduate Studies an application for candidacy/program of study approved by the advisor, the appropriate departmental chairman, and the Director of Graduate Studies; (3) if applicable, the student has on file an approved plan for thesis or research project.

Students must be admitted to candidacy prior to enrollment in their sixth course. If a student is seeking fifth-year teacher certification then the student should furnish evidence of eligibility for the Georgia T-4 Certificate.

Program of Study

The Program of Study must be completed and on file in the Graduate Office by the completion of 25 hours of graduate work. If the student is following the program requiring a thesis, the thesis subject must also be submitted for approval.

The Program of Study shall consist of those courses for which graduate credit is granted toward a degree or teacher's certificate. No changes may be made in the Program of Study, without approval in advance by the Director of Graduate Studies. A memorandum of such changes must be appended to the Program of Study in the candidate's file.

Course Requirements

The program, planned as a logically organized whole and interrelated with the student's undergraduate years, will meet the following minimum requirements:

Program Without Thesis. The program without thesis requires a MINIMUM OF 55 QUARTER HOURS OF COURSE WORK, of which at least 25 hours must be in courses numbered 700 or above. The 55 quarter hours shall be organized in the following manner:

A. Education 700—Foundations of Education .......................................... 5 hours*
B. Education 701—Educational Research .................................................. 5 hours
C. Education 702—Psychology of Classroom Learning ............................. 5 hours
D. Education 713, 734, 773, or Special Education 770 ............................ 5 hours
   (Students should take the curriculum course related to their area.)
E. Academic Concentration (Minimum) .................................................... 25 hours
F. Elective—(To be chosen from Education or
   Academic concentration) ........................................................................ 5 hours
G. Elective—(Chosen from Education or
   Academic concentration) ........................................................................ 5 hours

Total .............................................................................................................. 55 hours

*Early childhood majors should take Education 727, Trends in Early Childhood.
Program With Thesis. The program with thesis requires a minimum of 45 quarter hours of course work, of which at least 25 hours must be in courses numbered 700 or above. The program with thesis will be organized in the following manner:

A. Education 700—Foundations of Education ........................................ 5 hours*
B. Education 701—Educational Research ........................................ 5 hours
C. Education 702—Psychology of Classroom Learning ............................. 5 hours
D. Education 713, 734, 773, or Special Education 770 ............................. 5 hours
   (Students should take the curriculum course related to their area.)
E. Academic Concentration (Minimum) .................................................. 25 hours
F. Thesis  
   (Students should register for Education 709) .................................... 10 hours
Total ........................................................................................................ 55 hours

*Early childhood majors should take Education 727, Trends in Early Childhood.

Candidates for the M.Ed. degree must meet certain undergraduate and graduate requirements in the teaching area. Since these requirements vary from department to department it will be necessary for the student to plan with an adviser in the department. It is the student’s responsibility to insure that all requirements both undergraduate and graduate have been met. Each department will provide the candidate with a list of requirements upon request.

Course Numbers, Load and Schedule

Courses numbered 700 and above are open only to graduate students. Certain courses devoted to fundamental knowledge carry a 300/400 number of an undergraduate in the senior division and a corresponding 600 number for a graduate student.

A full load for a graduate student is 10-15 hours per quarter. If students are fully employed, they should take only five hours of graduate work during the time of employment. A student on a graduate assistantship may take a maximum of ten hours of graduate work per quarter.

The College makes every effort to maintain the schedule of courses as announced in its bulletin. However, the right is reserved to withdraw courses, change instructors, or change the schedule of classes at any time without previous announcement.

All students should be careful not to enroll in courses which they have previously taken. The final responsibility for non-duplication of courses rests with the student.

Thesis

The thesis must embody the results of a study related to the student’s academic concentration. The study must demonstrate the ability to successfully attack a genuine education problem and draw logical and significant conclusions from the data.

Each student undertaking a thesis should register for Education 709. Grading for this course will be done by the student’s major professor.

The format of the thesis must conform to the requirements specified by the College.
The candidate must consult with all thesis committee members as the thesis progresses, and suggestions must be incorporated before the final form of the thesis is typed. The final copy of the thesis must be submitted to all members of the examining group not later than one week preceding the date of the thesis examination. Revisions or corrections by the examining committee must be made before acceptance of the thesis becomes final.

Faculty Committees

For students admitted to candidacy in programs requiring a thesis, an advisory committee is appointed by the Director of Graduate Studies. The chairman shall come form the academic Department concerned, with the remaining two members coming from the Department of Education. The chairman serves as the major professor for work on the thesis, but candidate is expected to consult regularly with all members of the committee while the work is in progress. The thesis defense is conducted by the student's committee.

Students who are candidates in the program not requiring the thesis will be advised only by their major professor until they reach the point of taking their comprehensive examinations. At this time the major professor will choose two additional faculty members and form a committee to administer the area examination. The committee must be approved by the Director of Graduate Studies. The core comprehensive examination is required of all candidates and is administered by the Director of Graduate Studies.

Comprehensive-Final Examinations

Comprehensive-final examinations must be taken and passed by all candidates for a graduate degree. The core comprehensive examination will evaluate the required education courses. The area comprehensive examination will evaluate the content courses. The following regulations govern the administration of the comprehensive examinations:

1. The student must be registered when taking the core and/or the area examination.
2. Students must apply with the Director of Graduate Studies to be permitted to take the core examination and with the appropriate advisor to take the area examination.
3. Each student is required to take an examination. Whether it is oral and/or written is determined by the student's major department.
4. The area examinations are administered by the committee comprised of the major professor and two or more additional faculty members. The committee must be approved by the Director of Graduate Studies.
5. The area examination covers all work prescribed by the student's program of work, including transferred work, and, if applicable, the thesis or research project.
6. The core comprehensive examination is required for all candidates and is administered by the Director of Graduate Studies.
GRADUATION

Students who finish all degree requirements in the summer or fall must apply for graduation at the Registrar’s Office during the first week of their final quarter. Students finishing the winter or spring quarter must apply for graduation during the first week of the winter quarter. The fee will be submitted to the Registrar of the College. Students are expected to attend the graduation exercises at which their degree is to be conferred. No students will be issued diplomas or transcripts of credits if they are in default of any payments due the College.

ACADEMIC GUIDELINES

Grading System

All institutions of the University System of Georgia shall be on a 4.0 grade point average system. The following grades are approved for use in institutions of the University System of Georgia and are included in the determination of the grade point average:

A — Excellent
B — Good
C — Satisfactory
D — Passing
F — Failure
WF — Withdrew, failure

The following grading symbols are approved for use in the cases indicated, but will not be included in the determination of the grade point average.

I — This symbol indicates that a student was doing satisfactory work but, for non-academic reasons beyond the student’s control, was unable to meet the full requirements of the course. If an “I” is not satisfactorily removed within two quarters, the symbol “I” will be changed to the grade “F” by the appropriate official.

W — This symbol indicates that a student was permitted to withdraw without penalty. Withdrawals without penalty will not be permitted after the midpoint of the total grading period except in cases of hardship as determined by the appropriate official of the respective institution.

V — This symbol indicates that a student was given permission to audit this course. Students may not transfer from audit to credit status or vice versa.

Academic Performance

A graduate student must maintain a grade point average of 3.0 or better. No grade below a “C” will be accepted toward a degree. The record of any student receiving more than two “C’s” will be subject to review by an ad hoc graduate review committee appointed by the Chair of the Graduate Council and composed of no fewer than three members.
Graduate students whose academic performance is unsatisfactory will be subject to the following:

1. Academic Notice. When any student's GPA falls below a B average that student will be placed on academic notice until the B average is attained. No student may become a candidate for the degree or take the comprehensive examination while on academic notice.

2. Probation. A student will be placed on probation for either of the following reasons:
   a. The student's grade point average falls below 2.67 any time after 30 quarter hours have been attempted. (Probation is removed when the GPA reaches 3.0 or higher.)
   b. The student earns one "F". (Probation is removed when the course or a substituted course, approved by the Director of Graduate Studies, is taken and a grade of "B" or "A" is attained.) No student may be a candidate, or take the comprehensive examination while on probation.

3. Suspension. Any student receiving 2 "Fs" or any 3 grades below "C" will be suspended. No student may enroll in any graduate courses while on suspension. (If suspended, a student may reapply for admission. Readmission is subject to the approval of the Graduate Admissions Committee.)

Time Limit, Residence Requirement

In any graduate program all work submitted for a degree (including the comprehensive examinations) must be completed within a six-year period. It is expected that the student will complete the program with reasonable continuity. Students called into military service, stricken by serious illness, or the like, may apply for an extension of time.

At least half of all coursework must be completed on-campus.

Scores on graduate admission tests may not be over 5 years old.

Transfer, Extension, Correspondence Credit

In any graduate program a maximum of 10 quarter hours of graduate credit may be transferred from another accredited institution subject to the following conditions: (1) work already applied toward another degree cannot be accepted; (2) work must have been completed within the six-year period allowed for the completion of degree requirements; (3) work must have been applicable toward a graduate degree at the institution where credit was earned; (4) work offered for transfer must have the approval of the Director of Graduate Studies and the head of the department or advisor of the student's major; (5) acceptance of the transfer credit does not reduce the residence requirement stated above; (6) once enrolled in the NGC graduate program, students desiring to take courses at another institution must apply for transient permission to the Director of Graduate Studies, after securing the written approval of their advisor.

Under no circumstances may credit earned through correspondence work be applied toward satisfaction of degree requirements.
Transient Students

A student who has taken work in a college or university may apply for the privilege of temporary registration in North Georgia College. Such a student will ordinarily be one who expects to return to the college or university in which he was previously enrolled.

The following policies shall govern the admission to students on a transient status:

1. The student must apply for admission to North Georgia College.
2. The admissions officer must have evidence that the institution that the student previously attended was an accredited or an approved institution.
3. An applicant will be accepted as a transient student when it appears that the applicant's previous academic work is of satisfactory quality. The Director of Admissions may require the applicant to submit a transcript of his previous college work.
4. An applicant for admission as a transient student must present a statement from the dean or registrar of the institution that he last attended recommending his admission as a transient student. Students on academic probation or suspension or on disciplinary suspension will not be admitted.

Transient Student Permission

Any student may apply to the Director of Graduate Studies in writing for authorization to complete certain courses at another college or university as a transient student. This application must be approved by the Director of Graduate Studies before enrollment in the course. If an academic major has been chosen, the application must also be approved by the academic advisor concerned. Transient student permission will not be granted to students on academic notice, probation, or suspension, or for the purpose of repeating courses.

Change of Program

Before a graduate student may transfer from one degree program to another, he must submit his request in writing to the Director of Graduate Studies. This request must then be approved by the new major department and the Director of Graduate Studies. Unauthorized changes may result in additional degree requirements.

The Off-Campus Program

North Georgia College provides graduate courses in a number of locations throughout the Northeast Georgia area. Off-Campus sites may vary from quarter to quarter, but every effort is made to provide the graduate student the convenience of taking courses at locations in or near their home community. Students are allowed to take up to one-half of their course work at off-campus locations. Costs for off-campus courses are slightly higher than for on-campus courses.

Advisers

The Director of Graduate Studies in Education is the general adviser for all graduate students, but, so far as particular courses are concerned, a student is counseled by the
head of the major department or by professors appointed as academic advisers for each student. A new student seeking an adviser should report to the Director of Graduate Studies, who will assign the student to a particular adviser.

The adviser is expected to provide the graduate student with a list of courses required for graduation. At the time of each registration, the adviser should approve the student’s program of study for that quarter.

**Teacher Certification**

Teacher certification is a complex process. If students work closely with their advisors in establishing and implementing their Program of Studies, difficulties regarding State certification can be kept to a minimum. However, if the student does not hold a teaching certificate additional work will be required. Questions should be referred to the Director of Graduate Studies or to the Head of the Department of Education.

Master of Education Course Descriptions
Biology

M. Ed. in Biology

Requirements

Persons who pursue the graduate program in Biology should normally have an undergraduate background in the Biological Sciences equivalent to the Major in Biology-Secondary Education curriculum as listed in the most recent North Georgia College Bulletin. Other requirements are found in various sections of the Graduate Bulletin. The 25 to 30 hours graduate level Biology should consist of a broad coverage of the area or select courses designed to complement an individual’s specific background or objectives.

</table>
tionary biology, the history of evolutionary thinking, the mechanisms of evolution, evidence of evolution, evolutionary theories, the early history of life on Earth, and human evolution. Five lectures per week.

BIOL— Physiology 5 hrs
650
Prerequisites: Biology 225, 226, or 250-251. An exploration of the functions of tissues, organs, and organ systems. Laboratory includes introductions to techniques of physiological measurement and data interpretation. Four lectures and one two-hour laboratory per week.

BIOL— Marine Biology 5 hrs
660
Prerequisites: Biology 225 or 326. The principles of marine biology, physical, chemical and biological oceanography, and marine ecology. A mandatory four-day field trip to the Georgia coast is required for successful completion of the course. Five lectures per week.

BIOL— Neurobiology 2 hrs
668
Prerequisites: Junior or senior standing in Biology, Chemistry, or Psychology. A brief but comprehensive survey of the human nervous system presented from the viewpoints of neuroanatomy, neurophysiology and clinical neurology. Two, two-hour lecture-demonstration-laboratory sessions per week.

BIOL— Animal Histology 5 hrs
670
Prerequisites: Biology 226. A study of selected mammalian tissues and organs with emphasis on humans. Laboratory work involves the microscopic study of tissues and the use of histological techniques in the preparation of animal tissue slides. Three lectures and two, two-hour laboratories per week.

BIOL— General Embryology 5 hrs
680
Prerequisites: Biology 226. An introduction to the patterns of animal development, mechanisms of cellular differentiation, and cell interactions. Four lectures and one two-hour laboratory per week.

BIOL— Man and the Environment 5 hrs
700
A study of the fundamentals of ecology with emphasis upon man's interaction with the natural world. The fundamentals will be used to analyze environmental problems and their implications for the human future. Projects will individualize the course according to student need, interest and expertise.

BIOL— Teaching Strategies for Middle and Secondary School Science Teachers 5 hrs
704
This course has as its primary objective the assisting of individuals working to improve their teaching of science. The format of the class will include discussion, lecture, and practice of teaching techniques.

BIOL— Curriculum Planning in Science 5 hrs
708
This course includes a study of factors which influence science instruction in today's schools. Historical, psychological, social, philosophical and practical concerns will be addressed and considered in the processes of selecting and developing curriculum materials.

BIOL— Animal Ecology for Teachers 5 hrs
720
A survey of the taxonomy of animal groups from sponges through mammals, with attention to basic organization and function, ecology, and evolutionary relationships. Select groups will be considered in terms of life history, behavior, and population patterns.

BIOL— Plant Ecology for Teachers 5 hrs
730
This course introduces the teacher to subject matter in plant ecology that is appropriate for use in middle and secondary school science courses. A lecture/laboratory/field format will be employed.

BIOL— Independent Study in Biology 5 hrs
780

BUSINESS EDUCATION

BADM— Intermediate Macro 5 hrs
621
Economic Analysis
Prerequisites: BADM221 and 222. An intensive study of the measurement, analysis, and control of aggregate economic activity. The economic principles underlying national income, business cycles, and growth are examined, and particular attention is given to problems involved in formulating economic policies.

BADM— Intermediate Micro 5 hrs
622
Economic Analysis
Prerequisites: BADM 221 and 222. An intensive study of price theory and its uses. Specific topics covered include the theory of demand, the theory of the firm, pricing in competitive and monopolistic markets, and the pricing of economic resources.

<tr>
<td>BADM-624</td>
<td>Money and Banking</td>
<td>5 hrs</td>
<td>Prerequisites: BADM 221. A study of the basic principles and concepts of money and credit and their importance in the present economy. The major topics emphasized are the key role of the commercial banking system in our economy, central banking as a means of expanding and stabilizing the supply of money and credit, monetary theory, monetary and fiscal policies, international banking and finance, and other banking and credit institutions.</td>
</tr>
<tr>
<td>BADM-626</td>
<td>Labor Economics</td>
<td>5 hrs</td>
<td>Prerequisites: BADM 221 and 222. A study of the origin of the labor movement, population and labor force, organized labor, union organization and management, collective bargaining, and the problems of unemployment, full employment, wage theory and policies, and labor legislation.</td>
</tr>
<tr>
<td>BADM-627</td>
<td>International Business</td>
<td>5 hrs</td>
<td>An analysis of the mechanics of doing business abroad including theories of trade, methods of trade, and balance of payments. In addition, the effect of cultural, economic, environmental, legal, political and sociological differences of US business operations abroad will be linked with the functional areas of international business, management, accounting and finance.</td>
</tr>
<tr>
<td>BADM-630</td>
<td>Financial Accounting</td>
<td>5 hrs</td>
<td>I, II, III</td>
</tr>
<tr>
<td>BADM-631</td>
<td>Intermediate Financial Accounting</td>
<td>5 hrs</td>
<td>I, II and III examines generally accepted principles of accounting for assets, liabilities and capital along with the implication for revenues and expenses. Authoritative literature is introduced. Additional specialized topics include leases, pensions, price-level changes and financial statement analysis. The courses are offered in sequence starting with the Fall quarter.</td>
</tr>
<tr>
<td>BADM-635</td>
<td>Federal Income Taxation</td>
<td>5 hrs</td>
<td>This course is an introduction to the taxation of individuals and the fundamental tax provision applicable to all taxable entities. These provisions include the revenue, gain and loss recognition, tax basis, capital gains and business expense.</td>
</tr>
<tr>
<td>BADM-636</td>
<td>Cost Accounting</td>
<td>5 hrs</td>
<td>A study of manufacturing costs and cost accumulation systems. Job order, process and standard cost systems are examined.</td>
</tr>
<tr>
<td>BADM-637</td>
<td>Managerial Accounting</td>
<td>5 hrs</td>
<td>Prerequisites: BADM 231 and 232. A study of the use of accounting as a tool in the decision making process. Major topics covered including budgeting, gross profit, and break-even and cost-profit-volume analysis, capital expenditures, and internal profit measurement.</td>
</tr>
<tr>
<td>BADM-638</td>
<td>Auditing</td>
<td>5 hrs</td>
<td>This course is a study of the principles and theory of the attest function of accounting applied internally and externally. Internal control systems and the review of authoritative professional literature are emphasized.</td>
</tr>
<tr>
<td>BADM-641</td>
<td>Risk and Insurance</td>
<td>5 hrs</td>
<td>Prerequisites: BADM 221 or permission of instructor. Studies the nature of risk and the role of insurance in risk management from individual and business view-points by considering insurance carriers, contracts, underwriting, and regulation.</td>
</tr>
<tr>
<td>BADM-642</td>
<td>Real Estate</td>
<td>5 hrs</td>
<td>A study of the concepts, principles, practices, and laws relating to acquiring, holding, utilizing, and disposing of real property.</td>
</tr>
<tr>
<td>BADM-644</td>
<td>Corporate Finance</td>
<td>5 hrs</td>
<td>Prerequisites: BADM 221 and 222. A study of financial organization and management from the standpoint of the chief financial officer of an operating business. Major topics emphasized are choosing a form of organization, planning and managing assets, planning the financial structure, managing short- and long-term funds, and valuing business enterprises.</td>
</tr>
<tr>
<td>BADM-646</td>
<td>Public Finance</td>
<td>5 hrs</td>
<td>Prerequisites: BADM 221 and 222. A study of the principles and techniques of government debt, specific tax and non-tax revenues, and expenditures at the national, state and local levels.</td>
</tr>
<tr>
<td>BADM-653</td>
<td>Quantitative Methods II—</td>
<td>5 hrs</td>
<td>Statistical Analysis for Business</td>
</tr>
<tr>
<td>BADM-654</td>
<td>Mathematical Analysis for Business</td>
<td>5 hrs</td>
<td>A course in statistical methods with special reference to economic and business applications. Topics include probability distributions, sampling and hypothesis testing, statistical decision theory, regression and correlation, time series and trend, and index numbers.</td>
</tr>
</tbody>
</table>

34
of business problems for decision making. A brief review of relevant mathematical subjects is conducted. Topics include decision models under conditions of uncertainty, linear programming, forecasting techniques, CMP, PERT, Monte Carlo simulation, and others.

BADM—Human Resources Management 5 hrs
A study of the principles and procedures of the recruitment, selection, and placement of a labor force. Treatment of grievances, problems of collective bargaining, compensation policies, merit rating, promotion, transfer and discharge, training and personal records are emphasized.

BADM—Retailing Management 5 hrs
A study of the organization, planning, policies, procedures problems, and controlling of the various types of retailing institutions. The major topics emphasize the selection of retailing locations, organization or retailing services, and the selection, training, compensation and supervision of retailing personnel.

BADM—Small Business Management 5 hrs
A complete coverage of sound business practices for starting and operating a small business establishment.

BADM—Principles of Advertising 5 hrs
A study of planning, organizing, and controlling involved in the management of the advertising function of business. Major consideration is given to budgeting for advertising, advertising research, media selection, preparation of advertisements, services of advertising agencies and the economic and social effects of advertising.

BADM—Sales Management 5 hrs
Prerequisites: Business Administration, 361, 371. A study emphasizing the role of personal selling within the marketing mix, including principles of selling, building or organization, controlling and evaluating the sales force.

BADM—Marketing Research 5 hrs
Prerequisites: Business Administration 251, 353, 354. A study of the principles and methods of marketing research. Topics include: information sources; project design and administration; data processing and analysis; and report writing.

BADM—Marketing Management 5 hrs
Prerequisites: Business Administration 373, 474. A study of various policies and problems requiring decisions by market management in the areas of product policy, distribution policies and physical distribution, pricing, advertising, sales promotion, and management of personal selling.

BADM—Principles and Problems in Business Education 5 hrs
Principles of business education in relation to the contemporary problems that face business teachers in the secondary school.

BADM—Problems in Teaching Basic Skill Courses 5 hrs
The theory and psychological principles of skill building and evaluation.

BADM—Problems in Teaching Basic Business Courses 5 hrs
Teaching procedures, materials, standards and evaluation in teaching bookkeeping, management, economics and related courses in the secondary school.

BADM—History and Philosophy of Vocational and Business Education 5 hrs
This course is designed to acquaint students with the philosophy and principles of vocational education specifically, federal financial support and other encouragement; organization, administration, and supervision of vocational education.

BADM—Economics for High School Teachers 5 hrs
Develops the content, teaching, and application of economics to citizen needs for teachers who desire an understanding of general economics in the public school curriculum.

BADM—Economics for Elementary and Middle School Teachers 5 hrs
Develops the content, teaching, and application of economics for teachers who desire an understanding of general economics in the K-8 public school curriculum.

BADM—Consumer Economics 5 hrs
This course is designed for teachers and those students who desire a detailed study of consumer problems. The more important elements of consumer education are reviewed, including consumer goods, consumers' services, buying problems, consumer organization, problems of personal finance, and well-balanced spending programs.

EDUC— Special Problems in Education 5-10 hrs
600

EDUC— Child Development 5 hrs
601
A study of the roles played by maturation and experience in the social, emotional, moral, cognitive, and physical development of children from the prenatal period to adolescence. Observation of children in public school required for two hours weekly.

EDUC— Human Growth and Development 5 hrs
603
A study of the development of the human from the prenatal period through adolescence. Focuses on the role played by maturation and experience in the social, emotional, intellectual, moral, and physical development of the individual. Includes genetic and environmental influences on the development of the person. Educational practices considered in relation to their effect on the development of children. Treats the relationship of learning and learning theory on classroom teaching and planning. Observation and study of children in public school required two hours weekly.

EDUC— The Nature and Development of the Middle Grades Learner 5 hrs
604
This course focuses on the nature and diversity of the middle grade learner. Emphasis is placed on the physical, emotional, social, and intellectual development of children from the end of early elementary to the early high school years.

EDUC— Problems in Educational Psychology 2 hrs
605

EDUC— Introduction to Word Processing for Teachers 3 hrs
607
This course is designed to enable teacher education majors at all levels to become proficient in the use of word processing as a tool for professional work and classroom applications. Emphasis will be placed on writing activities for students in public school classrooms. Emphasis will also be placed on software evaluation by teachers.

EDUC— Communication Arts in Early Childhood 5 hrs
614
This course will examine the nature of language development, foundations for language growth, children’s literature, as well as methods and materials in the skill areas of listening, speaking, writing, and reading.

EDUC— Social Studies for Teachers 5 hrs
623
An integrated social studies course designed for teachers. Topics considered include responsibilities of family membership, occupations, labor unions, taxation, local government functions, ways of communications and world cultures other than that of the U.S.A.

EDUC— Classroom Management and Organization 5 hrs
640
This course is designed to provide classroom teachers with the knowledge and skills for managing the total instructional setting, including the individualization of instruction. Emphasis will be placed on grouping, teacher-student relationships, establishing the classroom environment and coping with class conflict.

EDUC— Educational Media 5 hrs
641
The psychological principles underlying the use of audiovisual equipment and materials will be discussed. Extensive laboratory work will be included.

EDUC— Effective Teaching Strategies 5 hrs
646
A course designed to instruct students in methods of enhancing the public school curriculum. Students will study the forces at work in the community and learn how to use the community to benefit the school curriculum in such diverse areas as language arts, social studies, and the arts and sciences.

EDUC— Science for Elementary School Teachers 5 hrs
660
This course is for teachers of grades K-8. It deals with the every day aspects of physics, chemistry, and astronomy as they might need to be explained by the elementary teacher. The work will include demonstrations and suitable experiments that can be performed with materials available in the average elementary and home situation.

EDUC— Teaching of Modern Science Curricula—(K-8) 5 hrs
661
Five hours of "hands on" class activity per week designed to familiarize the student with modern Elementary Science Programs and how to teach them.
<table>

</tr>
</thead>
<tbody>
<tr>
<td>EDUC 662</td>
<td>Teaching of Modern Science Curricula (7-12)</td>
<td>5 hrs</td>
<td>Five hours of &quot;hands on&quot; class activity per week designed to familiarize the student with modern Junior High and Secondary Science Programs and how to teach them.</td>
</tr>
<tr>
<td>EDUC 667</td>
<td>Career Education</td>
<td>5 hrs</td>
<td>This course provides the student with an orientation toward specialized skills and approaches in implementing world of work concepts through numerous classroom and field based activities. The student will examine existing materials for the purpose of adaptation to this classroom setting.</td>
</tr>
<tr>
<td>EDUC 675</td>
<td>Outdoor Education for Teachers</td>
<td>5 hrs</td>
<td>A course designed to enrich the school curriculum through experiences in the outdoors. Particular emphasis will be given to school camping and to the conservation of soil, water, forests and wildlife. The course requires extensive work in the field.</td>
</tr>
<tr>
<td>EDUC 700</td>
<td>Foundations of Education</td>
<td>5 hrs</td>
<td>The sociological, historical, and philosophical foundations for education in America.</td>
</tr>
<tr>
<td>GEOG 700</td>
<td>Concepts and Materials in Geography for Teachers</td>
<td>5 hrs</td>
<td>This course considers the evolution of the discipline, its current conceptual core, area &quot;element-complexes,&quot; systematic vs. regional analytical procedures. Considers standard bibliographic statistical and cartographic sources.</td>
</tr>
<tr>
<td>EDUC 701</td>
<td>Educational Research</td>
<td>5 hrs</td>
<td>Research procedures, experimental designs and the application of findings, and a research project conducted by the students.</td>
</tr>
<tr>
<td>EDUC 702</td>
<td>Psychology of Classroom Learning</td>
<td>5 hrs</td>
<td>Analytical study of learning activities in the classroom, with reference to the learning of school subjects. The focus is on the learning process. Theories and principles of learning are related to classroom situations.</td>
</tr>
<tr>
<td>EDUC 703</td>
<td>Statistics for Teachers</td>
<td>5 hrs</td>
<td>A basic introduction to probability and statistics for classroom teachers. Emphasis is placed on the normal distribution, sampling, and measures of central tendency.</td>
</tr>
<tr>
<td>EDUC 704</td>
<td>Teaching Supervision</td>
<td></td>
<td>Prerequisites: Hold Professional Certificate. The first course of the two course sequence designed to provide teachers with an introduction to the theory, knowledge and practices utilized in effective supervision of student teaching and other field experiences. The course focuses upon specific supervising teacher competencies and the relationship of these competencies to effective supervision.</td>
</tr>
<tr>
<td>EDUC 705</td>
<td>Internship in Student Teaching Supervision</td>
<td>5 hrs</td>
<td>Prerequisites: EDUC 704 and serving as student teaching supervisor. Purpose of the internship is to assist in the development and utilization of the supervisor of a student teacher. This field-oriented course is designed to meet specific individual needs of the supervisor. Direct assistance is provided through on site observations and feedback in addition to group seminars.</td>
</tr>
<tr>
<td>EDUC 707</td>
<td>Humanistic Psychology</td>
<td>5 hrs</td>
<td>Humanistic psychology includes the study of self-theory, being-psychology, and wholistic approaches to human behavior.</td>
</tr>
<tr>
<td>EDUC 708</td>
<td>Interpersonal Relationships</td>
<td>5 hrs</td>
<td>A course intended to train teachers in basic, effective, teacher-student communication skills. Interpersonal skills are taught and demonstrated by the instructor. Students practice the skills in role playing situations. Skills included are: attending, responding, personalizing and initiating, problem solving, encouragement, and consequences.</td>
</tr>
<tr>
<td>EDUC 709</td>
<td>Research Problems—Thesis</td>
<td></td>
<td>5-15 hrs</td>
</tr>
<tr>
<td>EDUC 711</td>
<td>Curriculum Planning</td>
<td>5 hrs</td>
<td>A study of curricula in the public school. Areas of concentrated study will be determined jointly by the school districts involved and the college.</td>
</tr>
<tr>
<td>EDUC 712</td>
<td>Language and the Young Child</td>
<td>5 hrs</td>
<td>Language and its acquisition, studied in relation to mental development and school achievement.</td>
</tr>
<tr>
<td>EDUC 713</td>
<td>Early Childhood Curriculum</td>
<td>5 hrs</td>
<td>Principles and practices for planning learning activities for preschool and primary grades. Directed observation in selected schools is required.</td>
</tr>
</tbody>
</table>
EDUC— Administration and Supervision of Early Childhood Programs 5 hrs
714
A study of administrative and supervisory procedures, organization, policies, standards, funding, staffing, housing, and educational program planning for various kinds of programs for young children. Parent involvement and education will be given special attention.

EDUC— Practical and Creative Activities for the Young Child 5 hrs
715
A course designed to give students experiences in selecting and presenting art activities, stories, finger plays, music, rhythms, woodworking, science and nature experiments.

EDUC— Educational Measurements and Evaluation 5 hrs
716
Theory of and practice in construction, administration, and interpretation of teacher-made and standardized test. Introductory statistical concepts of measurement.

EDUC— Introduction to School Administration and Supervision 5 hrs
717
This course is an introduction to the study of school administration and supervision, and its contribution to the total school program. Emphasis will be placed on the underlying theories and significant studies which form the basis for the operation of today's schools. Students will study the various roles and responsibilities of the school leader, including personal management and staff development. In addition, students will be introduced to basic legal principles applicable to public education.

EDUC— The Young Child in the Home and Community 5 hrs
726
A study of the role of the home, community, and state in the education of young children in order to get maximum home reinforcement of the knowledge and skills taught by schools.

EDUC— Trends in Early Childhood 5 hrs
727
An overview of the history of early childhood education. Current trends and issues with emphasis placed on various approaches to Early Childhood Education.

EDUC— Practicum in the Middle Grades 5 hrs
730
Prerequisites: ED 604, ED 734. A supervised practicum for teachers working with 9-13 year olds.

EDUC— Practicum in Early Childhood 5 hrs
731
Field work based upon the background and individual needs of each student. Prerequisite: Permission of the instructor.

EDUC— Middle School Curriculum 5 hrs
734
In this course students will analyze and evaluate current curriculum trends and practices. Theories and philosophies of curriculum for the middle grades learner will be used as the basis for analysis and evaluation. Development of appropriate learning experiences will provide practical application of the theories and philosophies of curriculum.

EDUC— Diagnostic Teaching 5 hrs
735
Deals with the learner's needs. This course is designed to help the practitioner learn to diagnose learning problems and learning needs. Students will develop diagnostic models to be implemented in the classroom.

EDUC— Math for Teachers (K-8) 5 hrs
742

EDUC— Problems in School Organization and Curriculum 5 hrs
743

EDUC— Art for Teachers 5 hrs
744

EDUC— Music for Teachers 5 hrs
745
Advanced techniques and materials involved in the effective guidance of learners in kindergarten through high school are studied. Field experience and observation are required.

EDUC— Motivation and the Learning Environment 5 hrs
747
The purpose of this course is to train teachers in skills for motivating the learner. Topics included are: one to one and group communication skills, behavior modification, encouragement, consequences and problem solving. Understanding and application of skills will be stressed via feedback and discussion of demonstrations in class and on-the-job.

EDUC— Guidance in the Elementary School 5 hrs
748
Studies the nature and development of guidance services in the elementary school. Emphasis is given the particular characteristics of the elementary school as a unique climate for learning.
EDUC — School Law  5 hrs
751
A course designed to introduce the practicing educator to basic concepts, laws, and significant court decisions related to schooling in America. Laws based upon the United States Constitution will be addressed in addition to important laws and policies of the state of Georgia. Topics include teacher employment rights, student rights, special education law, religion and the public school, and teacher liability.

EDUC — Secondary School Curriculum  5 hrs
773
Deals with theories and philosophies of curriculum and the development of learning experiences in the secondary schools. Students will analyze and evaluate current curriculum practices.

EDUC — Problems in Teaching  5 hrs
779
This course can serve as an elective for graduate students in all majors. The content will vary according to the needs of students, availability of qualified personnel and the relevance of the topic.

EDUC — Independent Study  5 hrs
780

LANGUAGE ARTS

LART — Children’s Literature  5 hrs
608
The reading and evaluation of books for children. Discussed in the course are sources of information about children’s books, children’s interests in reading, the work of important authors and illustrators, and problems in the guidance of reading.

LART — Language Arts for Elementary Grades  5 hrs
609
This course provides for individual diagnosis and correction of problems in the student’s handwriting, spelling, oral and written expression. Consideration is given to the study of appropriate techniques and materials of the teaching of reading, handwriting, spelling, and oral and written expression in the elementary school.

LART — The Teaching of Reading  5 hrs
620
An intensive study of reading skills. The role of readiness, vocabulary development, phonics, and word recognition as each is related to comprehension will be studied. Students will be required to participate in the teaching of reading in the public school.

LART — Teaching Reading in the Content Areas  5 hrs
630
Study of objectives and methods for teaching comprehension, vocabulary, study skills, and critical reading in the content areas. Attention to remedial and enrichment techniques for secondary students.

LART — Juvenile Literature  5 hrs
633
Reading and study of the various types of literature for young people, as well as a study of the appropriate reading programs for junior high school pupils, are included in this course.

LART — Methods in Teaching Composition  5 hrs
634
A study of the objectives and methods for teaching oral and written composition in grades K-8. Instructional methods as they relate to the processes of developing prewriting skills, utilizing varying modes of discourse, revising and editing compositions, and writing across the curriculum will be emphasized. This course also includes a microcomputer component in which the skills needed to integrate word processing within the composition curriculum will be taught.

LART — Trends and Practices in Reading Education  5 hrs
720
Survey and critical study of the recent research, changes, and innovative approaches in the field of reading. Current methods and practices in the teaching of reading will be examined, with emphasis on classroom organization or developmental reading.

LART — Diagnosis of Reading Disabilities  5 hrs
721
Prerequisites: LART 620. This is an advanced course dealing with the causes of reading disability and methods for diagnosis both in the classroom and in the special reading program. Emphasis will be placed on preparing the classroom teacher for a role of a “diagnostician” of students with reading disabilities.
COURSE DESCRIPTION

LART—Remediation of Reading Disabilities 5 hrs
722
Prerequisites: LART 620, 621. This is an advanced course dealing with the correction and remediation of reading disabilities. Emphasis will be placed on the study of a variety of remedial strategies, materials needed for a program of remediation and management of the remedial program. Field experiences will be required.

LART—Practicum in Developmental and Remedial Reading 5 hrs
732
Supervised practice of diagnosis and remediation of disabled readers within public school setting. Regular classroom teaching of reading using a variety of approaches. Experience in working with a reading specialist under faculty supervision.

LART—Teaching Reading in Elementary and Middle Schools 5 hrs
736
In-depth analysis of current methods and practices in the teaching of reading. Examination and evaluation of various commercial materials will be studied as to effectiveness and adaptability. Laboratory time for teacher-made materials.

LART—Organization and Supervision of the Reading Program 5 hrs
737
Study of methods of organizing the reading program as part of the total curriculum. Role and responsibilities of the reading specialist. Steps to follow in coordinating a school-wide reading program.

LART—Materials and Reading 5 hrs
738
Examination of leading basal readers with manuals and skill texts. Phonics materials, audio visuals, games, and various commercial materials will be studied as to effectiveness and adaptability. Laboratory time for teacher-made materials.

LART—Psychology of Reading 5 hrs
739
Study of neurological and psychomotor development, the processing of information, learning principles, motivation, the effects of culture and the use of operant conditioning as related to reading.

LART—The Teaching of Composition 5 hrs
742
A study of current approaches to the teaching of composition with the specific emphasis on sequential curriculum development K-12, motivational strategies, techniques of student evaluation, processes of revision, and program evaluation.

SPECIAL EDUCATION

Mental Handicaps, Learning Disabilities, Behaviorally Disordered, Interrelated, and Gifted Education Endorsement.

SPED—Assessment of Exceptional Children 5 hrs
650
Prerequisites: SPED 660. A course offering tests unique to assessing the developmental levels and potential achievement of exceptional children. Emphasis is on the use of the tests in planning and selecting curricular programs and activities for various cultural differences.

SPED—Behavior Management 5 hrs
658
A course emphasizing clinical management of life events, permitting, tolerating, interfering, environmental manipulation, life-space interviewing. Focuses on classroom management.

SPED—Introduction to Exceptional Children 5 hrs
660
A study of physical, social, intellectual and emotional differences in children. The characteristics, both physical and behavioral, as well as methods of diagnosis and remediation for the academically talented, the mentally handicapped, blind, partially sighted, deaf, hard of hearing, specific learning disabled, culturally disadvantaged and behaviorally disordered are reviewed.

SPED—Working with Parents of Exceptional Children 5 hrs
664
A course designed to teach the techniques which an educator uses in communicating with parents of exceptional children from various cultures. The means of interpreting handicapping conditions and school programs to parents in order to get maximum home reinforcement of the attitudes, skills and knowledge taught in school are covered.

SPED—Introduction to Mental Handicaps 5 hrs
670
A course designed to review the historical treatment, etiology and characteristics of the mentally handicapped. Methods of diagnosing, placing and working with the mentally handicapped are covered.
SPED—Curricula for Mentally Handicapped 5 hrs
Curricular skills that will enable the special educator to match the individual mentally handicapped student with the educational curriculum that best meets the student's developmental level and needs.

SPED—Speech and Language Development of Exceptional Children 5 hrs
This course covers the current understandings of speech and language development of exceptional children, including non-English speaking and diverse cultural and racial groups.

SPED—Vocational Training and Career Education for the Exceptional Child 5 hrs
A course emphasizing the educator's role in career development and vocational experiences in the school and community. Job counseling, working with other disciples and agencies in the community, supervision in job training situations, and community based instruction are covered.

SPED—Methods and Materials for Teaching the Mentally Handicapped 5 hrs
Prerequisites: SPED 650 and 670. Methods and materials as they relate to the development of desirable attitudes, abilities and skills of the mentally handicapped.

SPED—Methods and Materials for Teaching Severely/Profoundly Mentally Handicapped 5 hrs
Prerequisites: SPED 650 and 670. A course covering diagnostic criteria and the development of teaching materials and relationships with community organizations and other disciplines.

SPED—Introduction to Behavioral/Emotional Disorders 5 hrs
A course designed to discuss behavioral characteristics of children with emotional and/or behavioral problems. Factors of etiology, identification and therapy are covered.

SPED—Characteristics of the Gifted 5 hrs
A course covering the identification and characteristics of gifted and talented students from pre-school through high school. Consideration is given to the exploration of alternatives for recognizing gifted and talented children who are culturally different and/or underachieving. Alternative services models and the major instruments used for identifying gifted and talented will be studied.

SPED—Program Development and Curriculum Planning for the Gifted 5 hrs
Prerequisites: SPED 685. Methods and materials as they relate to fostering creativity, developing interests, and channeling abilities of the gifted and talented students from preschool through high school. The course will explore ways of organizing and promoting programs within the public school setting.

SPED—Introduction to Learning Disabilities 5 hrs
A course giving an overview of the field of learning disabilities as concerned with etiology, referral, diagnosis, management and educational practices.

SPED—Practicum in Learning Disabilities I & II 10 hrs
Prerequisites: Approval of Advisor. Supervised practicum in programs for children with learning disabilities.

SPED—Practicum for Teachers of the Interrelated Area I & II 10 hrs
Prerequisites: Approval of advisor. Supervised practica in programs for children with mild learning and/or adjustment problems.

SPED—Advanced Theory in Curriculum Development and Methods for Teaching the Exceptional Child 5 hrs
Prerequisites: SPED 670 or 690, and 674 or 676, and 650. Advanced techniques in class organization, curricular adjustment, and methods and techniques of teaching children with mental handicaps, behavior problems, or learning disabilities.

SPED—Practicum in Mental Handicaps I, II, & III 15 hrs
Prerequisites: Permission of advisor. Supervised practicum in programs for the mentally handicapped.

SPED—Methods and Materials for Teaching Children with Learning Disabilities 5 hrs
Prerequisites: SPED 690 and 650. A review of theory and research in identifying effective methods of prescriptive teaching and task analysis. Appropriate materials are identified for use in teaching children with specific learning disabilities.
SPED—Methods and Materials for Teaching Children with Behavioral/Emotional Disorders 5 hrs
781
Prerequisites: SPED 650 and 680. A review of major approaches in the education of behaviorally and emotionally disordered children. Adaptations in the educational programs for disturbed children is stressed.

SPED—Practicum in Behaviorally Emotionally Disordered I & II 10 hrs
782
783
Prerequisites: Advisor Approval. Supervised practicum in programs for behaviorally disordered and/or emotionally disturbed.

SPED—Practicum in Special Education 5 hrs
788
Prerequisites: Completion of SPED 782 and 783; or SPED 746A and 747A. Practicum area is based on student's need.

SPED—Problems of Teaching Special Education 5 hrs
790
Prerequisite: Permission of instructor. A directed study providing the opportunity of examining problems and issues which teachers have in teaching handicapped and gifted children. The seminar is taught in relation to individual experiences and needs of teachers.

FINE ARTS
Candidates for the M.Ed. degree in Art Education should have an undergraduate major in Art Education or be qualified for an NT-4 Georgia teaching certificate in Art Education as well as meet the graduate admission requirements as outlined in this catalog.

Graduate studies courses require comparable undergraduate courses as prerequisites. Candidates must demonstrate art and design skills suitable to perform on a graduate level as determined by a graduate faculty review of the candidate's portfolio.

| ART— Drawing | 610 A sequence of directed studies in drawing | 5 hrs |
| ART— Painting | 615 A sequence of directed studies in painting | 5 hrs |
| ART— Sculpture | 620 A sequence of directed studies in advanced techniques in sculpture in various media such as plaster, clay, metal, stone and fiber | 5 hrs |
| ART— | 621 Through lecture, slides, films, and filmstrips the developmental stages of Children's Art, media and techniques appropriate for preschool and elementary grade levels, and planning for art lessons are introduced. Studio activities involve the student in experimentation with art materials, design concepts, and projects for art teaching at the elementary level | 5 hrs |
| ART— Secondary School Art | 632 Art teaching concepts directed toward the adolescent and adult age levels. Studio activities will involve experimentation with art materials, teaching techniques, and art education philosophy that can be applied to secondary school and/or adult art program | 5 hrs |
| ART— Teaching Crafts | 633 Experiences in a variety of craft activities to encourage design and cultural awareness. Skills of children at various levels will be considered as Craft Units are planned and adapted to classroom use | 5 hrs |
| ART— Graphics | 640 A sequence of directed studies in printmaking | 5 hrs |
| ART— Contemporary Art History | 650 Contemporary art and its development | 5 hrs |
| ART— American Art History | 651 The development of painting, sculpture, architecture, and crafts in the United States | 5 hrs |
| ART— Renaissance Art History | 652 An analysis of art monuments of the Renaissance | 5 hrs |
ART—Textile Design
660 A series of directed studies in surface design on fabrics. 5 hrs
661 5 hrs
662 5 hrs
663 5 hrs
664 5 hrs

ART—Weaving
665 A series of directed intermediate and advanced studies in weaving theory, spinning, and dyeing. 5 hrs
ART— 734
666 5 hrs
667 5 hrs
668 5 hrs
669

ART—Pottery
670 A sequence of directed studies of advanced ceramic techniques will be studied which will include the following. Production techniques as well as forms of individual expression, clay and glaze formulating various methods of kiln firing and kiln construction. 5 hrs
671 5 hrs
672 5 hrs
673 5 hrs
674

ART—An open studio 5 hrs
692

ART—Thesis I and II 719 10 hrs
Preparation and execution of an applied project in Art Education.

ART—Classroom Art Curriculum 733 5 hrs
In-depth researching into problems of teaching art in the classroom. Curriculum planning and involvement in art materials and classroom teaching techniques will be observed.

ART—Techniques of Teaching Art 734 5 hrs
In-depth techniques involved in effective methods of guiding and supervision sequential art learning for early childhood to adolescence.

ART—Analysis of Art for Teachers 735 5 hrs
A non-studio course designed to assist the teacher in ‘art appreciation’ activities. Historical and contemporary art movements will be compared and analyzed.

ART—Independent Study 780 1-5 hrs
in Art

LANGUAGE, LITERATURE, SPEECH and DRAMA

Candidates for the M.Ed. degree in English Education should have an undergraduate equivalent to a major in English-Secondary Education. Those who do not may be asked to take background courses before beginning the Master’s program of study. See Modern Languages section for courses in modern language.

ENGL—History of English Language 601 5 hrs
A study of the background, origins, and development of the English language, with emphasis on phonological and morphological aspects.

ENGL—American Romanticism 602 5 hrs
American prose and poetry between 1820 and 1860 with emphasis on Emerson, Hawthorne, Thoreau, Melville, and Whitman.

ENGL—American Realism/Naturalism 603 5 hrs
A study of major works of American literary realism and naturalism.

ENGL—Southern Literature 604 5 hrs
The literature of the South, including a brief background study of the literary trends from the Civil War to the Southern Renaissance and concentrating on writers of the twentieth century.

ENGL—Shakespeare I 605 5 hrs
A study of the tragedies and romances with attention given to their historical contexts and to the major interpretive approaches.

ENGL—Shakespeare II 606 5 hrs
A study of the histories and comedies with a focus on their background and on the major interpretive approaches.

ENGL—Advanced English Grammar 607 5 hrs
A study of the structure of English with an introduction to the theories of traditional grammar, structural linguistics, and transformational-generative grammar.

ENGL—Twentieth Century American Literature 608 5 hrs
A study of Twentieth Century American prose, poetry, and drama.
ENGL— World Drama 5 hrs
616  A comprehensive study of the theatrical literature of the world, both ancient and modern.

ENGL— Selected Studies 5 hrs
620  Prerequisites: Permission of the Department. Reading, investigation, and writing, in the classroom or under informal direction of the faculty, on selected topics or areas not covered in other catalog listings. This course may be repeated for credit.

ENGL— Chaucer 5 hrs
640  Emphasis on the Canterbury Tales.

ENGL— English Renaissance 5 hrs
660  A survey of non-dramatic English literature from 1500 to the Restoration.

ENGL— English Literature of the Eighteenth Century 5 hrs
680  A study of the major British writers of the neo-classical and pre-Romantic periods.

ENGL— English Literature of 19th Century Romanticism 5 hrs
690  A study of Romanticism with emphasis on the major poets.

ENGL— English Literature of the Victorian Era 5 hrs
695  A study of the major writers of the period in both prose and poetry with the background of social conditions in England from 1832 to 1900.

ENGL— Seminar in Nineteenth Century American Literature 5 hrs
715-716  Content will vary according to writers and movements studied.

ENGL— Seminar in Twentieth Century American Literature 5 hrs
720-721  Content will vary according to genres, authors, movements studied.

ENGL— Shakespeare's Tragedies 5 hrs
740  An intensive study of Shakespeare's major tragedies.

ENGL— Shakespeare's Comedies 5 hrs
741  An intensive study of Shakespeare's major comedies.

ENGL— Composition Studies for Teachers 5 hrs
750  Study and practice of composition theory and teaching techniques.

ENGL— Independent Study in English 1.5 hrs
780

ENGL— Studies in Nineteenth Century British Romanticism 5 hrs
790-791  An intensive study of Wordsworth-Coleridge or Byron-Shelley-Keats.

MATHEMATICS

In addition to the basic requirements of North Georgia College for admission to the graduate program, a candidate in the area of Mathematics Education must exhibit training in Mathematics and Mathematics Education which qualifies the candidate for the T-4 teaching certification in Mathematics. Until such requirements are met as approved by the Director of Certification of the State Department of Education, the student will not be allowed to file a program of study toward the degree.

All study programs must include Mathematics 701 and/or Mathematics 702.

MATH— Differential Equations 5 hrs
600  Prerequisite: Grade of C or above in MATH 246. An introductory course in ordinary differential equations of the first and second order.

MATH— Differential Equations II 5 hrs
601  Prerequisite: C or above in MATH 300 or approval of instructor. A second course in ordinary differential equations, with emphasis on series solutions of second order differential equations. Topics will include the method of Frobenius and systems of linear differential equations.

MATH— Number Systems for Teachers 5 hrs
610  This course develops the concepts, structure, and style of mathematics studied and taught in the elementary school with emphasis on the arithmetic strands. An introduction to informal geometry is included.

</table>
MATH— Foundations of Geometry 5 hrs
712  A study of Euclidean and Non-Euclidean topics.

MATH— Topics in Modern 1-5 hrs
721  Algebra for Teachers

MATH— Topics in Matrix 1-5 hrs
722  Algebra for Teachers

MATH— Topics in Calculus 1-5 hrs
723  for Teachers

MATH— Topics in Geometry 1-5 hrs
724  for Teachers

MATH— Topics in Graph 1-5 hrs
725  Theory for Teachers

MATH— Topics in Combinatorial 1-5 hrs
726  Mathematics for Teachers

MATH— Topics in Computer 1-5 hrs
727  Science for Teachers

MATH— Topics in Discrete Mathematics 1-5 hrs
728  for Teachers

MATH— Computers in Mathematics 5 hrs
738  Education

Description: A study of curriculum issues involving computers and mathematics, the use of the computer as a teaching aid, mathematical applications of BASIC and LOGO, and strategies of implementing and teaching a computer based curriculum.

MATH— Probability and Statistics 5 hrs
740  A study of various distributions and hypothesis testing.

MATH— Independent Study 5 hrs
780  in Math

MODERN LANGUAGES

Candidates for the M.Ed. degree in Modern Languages should have an undergraduate equivalent to a major in a foreign language education area. Those who do not will need to take background courses before beginning the Master’s program of study.

MLAN— Advanced French 5 hrs
615  Composition and Syntax

MLAN— French Literature of the 5 hrs
617  Seventeenth Century

MLAN— French Literature of the 5 hrs
618  Nineteenth Century

MLAN— Contemporary French 5 hrs
619  Literature

MLAN— Guided Study in 5 hrs
620  Foreign Languages

MLAN— French Phonetics 5 hrs
650  An intensive study of pronunciation building fluent expression.

MLAN— "Study Abroad Program" 5 hrs/5hrs
695-696

MLAN— Advanced French Grammar 5 hrs
701

MLAN— Advanced German Grammar 5 hrs
702

MLAN— Advanced Spanish Grammar 5 hrs
703

MLAN— Romance Philology 5 hrs
706  For French and Spanish

MLAN— Old French 5 hrs
707  An introduction to the morphology and syntax of early French.

MLAN— French Literature of the 5 hrs
721  Renaissance

MLAN— French Literature of the 5 hrs
722  Eighteenth Century

MLAN— German Literature Since 5 hrs
731  1945

MLAN— Independent Study in 5 hrs
780  Foreign Languages

MLAN— "Studies Abroad" 5, 5, 5, hrs
795-796-797
PHYSICAL EDUCATION

The Department of Health, Physical Education and Recreation offers a 30 to 35 hour (advisor discretion) multi-disciplinary program leading to a Masters of Education in Physical Education. In addition to the Admission Requirements of the North Georgia College Graduate Program, a candidate seeking T-5 certification must have an undergraduate background in Physical Education. A specific requirement is that 10 of the 30 to 35 hours in the core area of physical education be 700 level courses.

PHED—Sex Education 5 hrs
600 A study of the attitudes and standards of the physical, emotional and behavioral aspect of sex. This is a teacher education course in which the learner becomes familiar with the how, when, where, and why of presenting sex and AIDS education to varying age groups.

PHED—Materials and Methods in 5 hrs
605 Physical Education
A study of the administrative processes and methodology needed to develop a thorough understanding of desirable standards and program implementation in physical education.

PHED—Elementary and Secondary 5 hrs
620 School Physical Education
A study and practicum in the objectives, needs, methods, and materials of elementary and secondary school children involved in a modern day physical education program.

PHED—Exercise Physiology 5 hrs
650 A combined study of the structure and function of the human body. Lecture and laboratory experience includes the study of the minute and gross anatomical and physiological structures of man as it relates to man living in the physical world of muscular activity.

PHED—Kinesiology and 5 hrs
660 Therapeutics
A study of the movements of the human body and their working relationship in normal and atypical individuals.

PHED—Health Education 5 hrs
690 A study of the physical and mental health problems of society as they relate to man and his confrontations with mental health, alcohol, disease, drugs, marriage, nutrition, physical fitness and sex.

PHED—Wellness 5 hrs
695 This is a lifestyle course covering the many facets of wellness and its relationship to improving both the quantity and quality of life. Topics include, but are not limited to self responsibility, nutritional awareness, environmental sensitivity, stress management, and personal fitness.

PHED—Curriculum Planning in 5 hrs
700 Physical Education
Deals with the administration, planning, construction, and content of curriculum in modern day physical education programs.

PHED—Scientific Aspects of 5 hrs
704 Exercise
A consideration of the effect of exercise on the functions of the organic systems of the body with particular emphasis on the physiological changes occurring from sports and physical activities.

PHED—Prevention and Treatment 5 hrs
705 of Athletic Injuries
This course deals specifically with the immediate care and long term prevention, treatment and rehabilitation of injuries occurring from sports and physical activities.

PHED—Analysis of Motor Skills 5 hrs
706 Analysis of motor skills based on laws and principles of mechanics.

PHED—Administration of Physical 5 hrs
713 Education in the School Program
Program planning, budgeting, selection, care and maintenance of equipment and facilities, personnel, and other administrative problems, evaluation of physical education in the school programs.

PHED—Current Problems in Health, 5 hrs
714 Physical Education and Recreation
Problems met in a comprehensive program of health, physical education or in recreation in the school and community. Special emphasis given to problems in areas of students' interests.

PHED—History of Physical 5 hrs
715 Education
Greek and Roman concepts of physical educa-
tion, education and physical education in the Renaissance and Reformation, historic events, and principles of European and American physical education. Special reference given to the value of physical education in the current economic and social life of the nation.

**PHED—** Case Studies in Physical Education 5 hrs

Problems dealing with the administration and teaching of physical education and athletics are studies by using the case study method.

**PHED—** Movement Education 5 hrs

Movement education, which emphasizes exploration and discovery of sound natural movement, will be studied to provide a basic understanding of the evolution, nature, purpose, methods, and various techniques used in this modern approach to physical education.

**PHED—** Aspects of Sports in American Culture 5 hrs

An analysis of the place of sport in American culture. A study of the historical influences of sport on economics, politics, nationalism, curriculum and methods of instruction, professional preparation, dance, leisure, and amateur and professional status.

**PHED—** Theories of Coaching 5 hrs

A focus on why athletics and spectators behave the way they do in various athletic and physical activity settings and how said scope encompasses the major psychological dimensions underlying such behavior.

**PHED—** Independent Study in Physical Education 5 hrs

The study of a topic or problems in Physical Education significantly related to the student's interest. (By approval of student's advisor.)

**PHYS—** Mechanics for Teachers 5 hrs

Four lectures and discussions and one two-hour laboratory period per week. Prerequisite: MATH 245. The course is designed to aid the elementary physics teacher in dealing with problems in mechanics which may arise in his teaching. The effective presentation of physics concepts in this area will be emphasized.

**PHYS—** Waves, Electricity, and Magnetism 5 hrs

Prerequisite: Physics 605. This course is designed to aid the elementary physics teacher in dealing with problems in waves, electricity, and magnetism which may arise in his teaching. The effective presentation of physical concepts in this area will be emphasized. Four lectures and discussions and one two-hour laboratory period per week.

**PHYS—** Modern Physics 5 hrs

Prerequisite: Physics 605. This course is designed to aid the elementary physics teacher in dealing with problems in modern physics which may arise in his teaching. The effective presentation of physical concepts in this area will be emphasized. Four lectures and discussions and one two-hour laboratory period per week.

**PHYS—** Mechanics—Analytical 3 hrs

Prerequisite: Physics 230/605. May be taken concurrently with MATH 300. Kinematics, using vector analysis, dynamics of particles, rotation and planetary motion, the linear harmonic oscillator, studies of energy, momentum and impact, introduction to the most general methods of solving dynamical problems.

**PHYS—** Computer and Digital Design 3 hrs

An introduction to the fundamental concepts of digital systems, including digital computers. Emphasis is placed on the structure of digital systems and the basic organization of digital computers.

**PHYS—** Computer Interfacing 5 hrs

Prerequisite: PHYS 224, PHYS 376L. This course will demonstrate some of the possible applications of microcomputing to scientific data acquisition, display and processing; in BASIC or machine language or a hybrid combination of the two. The students will be provided with hands-on experience with the different types of hardware and interfaces usually found in microcomputer systems.

**PHYS—** Science for Elementary School Teachers 5 hrs

This course is for teachers of grades K-8. It deals with the everyday aspects of physics, chemistry, and astronomy as they might need to be explained by the elementary teacher. The work will include demonstrations and suitable experiments that can be performed with materials available in the average elementary and home situation.
PHYS—Teaching of Modern Science 5 hrs
661 Curricula—(K-8)
  Five hours of "hands-on" class activity per week designed to familiarize the student with modern Elementary Science Programs and how to teach them.

PHYS—Teaching of Modern Science 5 hrs
662 Curricula—(7-12)
  Five hours of "hands-on" class activity per week designed to familiarize the student with modern Junior High and Secondary Physical Science Programs and how to teach them.

PHYS—Physics Laboratory I 1, 1, 1 hrs
675A, 676A, 677A
  Selected experiments from the various branches of physics, clarifying and expanding the work of the classroom, and developing good laboratory techniques. The evaluation and the interpretation of experimental data.

PHYS—Thermodynamics 5 hrs
700
  Prerequisites: Physics 225 and MATH 300. A study of the temperature and its measurement, calorimetry, and some topics from thermodynamics. Five lecture-reactions per week.

PHYS—Curriculum Study Physics, 5, 5 hrs
701-702 Physical Science or Astronomy for Secondary Teachers
  These courses are designed to acquaint the student with some of the problems encountered in teaching these subjects at the secondary level. A variety of instructional techniques will be used to introduce students to current curricula in Physics, Physical Science and Astronomy. Both need not be taken to receive credit.

PHYS—Electricity and Magnetism I 5 hrs
710
  Prerequisite: Physics 240 or 610. With consent of instructor, may be taken concurrently with MATH 300. A course considering in somewhat more advanced manner the topics of electrostatics, magnetostatics, electrolysis, basic circuit theory, and related topics.

PHYS—Electricity and Magnetism II 5 hrs
720
  Prerequisite: Physics 410 or 710. This course is a continuation of Physics 410 with emphasis on electrodynamics, alternating current theory, transmission line, filters, electromagnetic wave theory and related topics.

PHYS—Nuclear Physics 5 hrs
740
  Prerequisite: Physics 320 or 250. A study of natural radioactivity, interaction of radiation with matter, radiation measuring instruments and the detection of nuclear particles plus a survey of the current state of experimental and theoretical nuclear physics.

PHYS—Quantum Mechanics 5 hrs
750
  Prerequisites: Physics 250 or 320, MATH 300. Introduction to the quantum mechanics of one-dimensional systems. An introduction to Schroedinger's equation with emphasis being placed on solutions for one-electron atoms.

PHYS—Physics Laboratory II 1, 1, 1 hrs
775, 776, 777
  A continuation of Physics Laboratory I.

PHYS—Independent Study
780

PHYS—Introduction to Research Methods 1-5 hrs
790A-E
  This course consists of two or three lectures and demonstrations per week with laboratory work. The lectures will include the various research techniques, theory of errors, analysis of experimental data, use of library sources, and report writing. The student will be required to use library sources and to perform various experiments. The student will also be required to report his work by class talks and written reports.

PSYCHOLOGY

PSYH—Child Development 5 hrs
601
  A study of the roles played by maturation and experience in the social, emotional, moral, and physical development of children from the prenatal period to adolescence. Observation of children in public school required for two hours weekly.

PSYH—Developmental Psychology 5 hrs
602
  A study of the physical, social and cognitive aspects of human behavior from birth to death.

PSYH—Educational Psychology 5 hrs
605
  Emphasis on learning, its nature, motivation, retention, appraisal, transfer, and application. Adjustment of educational practices to individual differences in abilities and interests.
among pupils will be considered. Some observation in teaching-learning situations will be done.

PSYH— Health Psychology 5 hrs
606
A survey of the role of psychological factors in the promotion and maintenance of health, in the prevention and treatment of illness and dysfunction, and in the operation of the health care system.

PSYH— Statistics for the Behavioral Science 5 hrs
607
Prerequisites: Math 240. A survey of the statistics which are most frequently used in the behavioral sciences. Particular emphasis will be placed on analysis of variance techniques; some to the more useful nonparametric techniques will also be covered. Primary concern will be with computation and interpretation.

PSYH— Experimental Psychology 5 hrs
608
Prerequisite: PSYH 307 and MATH 240. This course is designed to introduce students to experimental methods as applied to behavior. Some basic standard tools will be presented. Students will learn design of elementary experiments. Laboratory time will be spent implementing simple procedures.

PSYH— History and Systems 5 hrs
609
An integrative course emphasizing the origins and background of the science of behavior. Important contributors and their schools of thought will be studied. Relating these schools of thought to present systematic developments in psychology will be emphasized.

PSYH— Psychological Reading and Research 2 hrs
610
Prerequisite: Permission of Instructor

PSYH— Social Psychology 5 hrs
615
A survey of the effects of the social environment on human behavior. Coverage includes: aggression, altruism, attitude change; audience effects, conformity, group dynamics, interpersonal attraction, leadership, sex roles and social perception.

PSYH— Measurement of Individual Differences 5 hrs
619
An introduction to theories and practices of psychological measurement. The character-
istics and uses of specific maximum and minimum performance assessment devices will be included.

PSYH— Psychology of Leadership 5 hrs
620
Psychology 101 is recommended but not required as a prerequisite. The characteristics of an effective leader will be studied and analyzed employing both a theoretical and an applied approach.

PSYH— Physiological Psychology 5 hrs
623
Prerequisite: 10 hours Biology. Personality is viewed as the integration of the morphology, physiological and psychological aspects of the organism. The relationship between the internal environment and such behaviors as food intake control, mating behavior, neural action, emotion, etc., will be considered.

PSYH— Sensation and Perception 5 hrs
625
A study of sensory systems emphasizing behavioral significance of structure and physiology.

PSYH— Comparative Behavior 5 hrs
628
A treatment of evolutionary trends in behavior including neural and hormonal mechanisms, with emphasis on physiology and function.

PSYH— Psychology of Learning and Cognition 5 hrs
631
An empirical and theoretical study of classical, and operant conditioning, perception, attention, memory thinking and language.

PSYH— Individual Intelligence Testing: Wechsler and Stanford-Binet Scales 5 hrs
633
Prerequisite: Psychology 419. Training in the administration, scoring, and interpretation of the Wechsler and the Stanford-Binet Scales. A minimum competency in the use of these scales for both children and adults is required.

PSYH— Behavior Modification 5 hrs
635
Selected behavior modification techniques including experimental analysis, successive approximation and other operant techniques, counter-conditioning, reciprocal inhibition, and others as applied to learning problems, mild behavioral disturbances, mild cases of retardation, and stress related disorders.

PSYH— Theories of Personality 5 hrs
643
A critical evaluation of the major theories of personality and a survey or research on major personality variables comprise this course.
PSYH—Applied Research 5 hrs
Techniques
A study of the research methodology for applied problems and for non-laboratory settings. Coverage includes consumer, field, marketing, policy-oriented, program evaluation and survey research techniques. Active student participation in applied research projects is emphasized.

PSYH—Psychopathology and Maladaptive Behaviors 5 hrs
This course involves the study of the historical perspectives of abnormal behavior, the various psychosocial models used to understand behavior as well as the study of personality development and adjustment. The major emphasis of the course will be a thorough investigation—invoking the causes, dynamics, and treatment—of the following forms of abnormal behavior: transient situational disorders, neuroses, schizophrenia and paranoia, major affective disorders and suicide, sociopathic disorders, delinquency and crime, alcoholism and drug dependence.

PSYH—Introduction to Clinical Psychology 5 hrs
This course emphasizes clinical assessment techniques, biological and psychological therapies, and contemporary issues in clinical psychology.

PSYH—Industrial/Organizational Psychology 5 hrs
The study of human problems in work settings, selection, placement, motivation and job satisfaction, leadership, performance assessment, organizational development.

PSYH—Psychological Counseling and Psychotherapy 5 hrs
Prerequisites: PSYH 453. A study of the various methods employed in counseling and psychotherapy. These methods will be interpreted as they are applied in the treatment of both the "disturbed" and the "normal" individual.

PSYH—Group Dynamics 5 hrs
The study of the psychology of small group behavior. Coverage includes situational, physical and personality factors as they relate to group formation, interaction, and performance.

PSYH—Advanced Educational Psychology 5 hrs
Prerequisite: PSYH 101, PSYH 305 and two senior division courses in psychology. Applications of the scientific findings of psychology to the more complex problems of the educative process.

PSYH—Applied Psychology 5 hrs
Application of the principles of psychology to social, business, industrial, governmental, educational, military and other professional fields.

PSYH—Independent Study in Psychology 5 hrs
Independent reading and research in the area of student's interest with consent of instructor.

SCIENCE
The Master of Education degree consists of 25 hours of education courses, 10 hours of biology, 10 hours of chemistry and 10 hours of physics. Specific courses will vary according to the needs of each student. Persons seeking this degree must have the following pre-requisites:

1. Forty undergraduate hours in one of either biology, chemistry or physics.
2. Fifteen undergraduate hours in each of the two sciences not chosen in number one above. These 15 hours should be equivalent to the following undergraduate courses at North Georgia College:
   a. Biology 105, 106, 107
   b. Chemistry 121, 122, 123
   c. Physics 223, 224, 225
SOCIAL SCIENCE

The Department of Social Sciences offers a thirty hour Multi-disciplinary program leading to a Masters of Education in Social Science. In addition to the admission requirements of the North Georgia College graduate program a candidate must have an undergraduate background in the Social Sciences.

All study programs in the Social Sciences must include Social Science 601 (Research Methods), Social Science 602 (Statistics for the Social Sciences) and four other courses drawn from the courses listed below. At least one course must be at the 700 level. Candidates must successfully complete a written and oral comprehensive examination during their final quarter after consultation with academic concentration professors.

HISTORY

Seminars and Colloquiums

600 level courses are formal lecture-discussion format. 700 level courses are seminar or colloquium format.

SOCIAL SCIENCE

SOSC—Research Methods in the Social Sciences A basic introduction into the area of research methods. The main areas of social research will be examined. Field Survey Evaluation, Experimentation and Content, Pragmatic and Theoretical considerations will also be examined. A research project will be required of all students. 5 hrs
601

SOSC—Statistics for the Social Sciences Prerequisite: MATH 240 and SOSC 601. A brief review of the basis for inferential and descriptive statistics, statistical inference and the assumption of causality through specific techniques and procedures including correlation, regression, etc. Emphasis will be placed on understanding the concepts behind the techniques as well as the mechanical skills involved. Calculators will be helpful for this course. 5 hrs
602
SOSC— 635  
Family Violence  5 hrs  
Interdisciplinary course which will deal with the main areas of family violence, wife beating, husband beating, child abuse, sibling violence and "granny-bashing". These areas will be explored concerning causation social and cultural context. Research in the area, responsibility and proposed means of prevention will also be dealt with.

SOSC— 650  
Law and Society  5 hrs  
A general overview of how laws can affect society and how people's attitudes can affect the law. It will deal with several landmark cases and laws including Brown vs. Board of Ed. (desegregation), Roe vs. Wade (abortion), prohibition laws, drug abuse laws, and laws against homosexuality. The course will be taught in a seminar format.

SOSC— 700  
Social Awareness  1-5 hrs  
Interdisciplinary readings and research course taught in a seminar format. This course will explain the historical, political, and social implications of issues in the contemporary world.

SOCIOLOGY

SOCl— 605  
Race and Ethnicity  5 hrs  
An examination of the development and persistence of racial and ethnic cleavages in societies, especially the U.S. Close attention will be given to the historical and economic functions of racism and discrimination, as well as their implications for a pluralistic society.

SOCl— 610  
Sociological Theory  5 hrs  
A survey of the major theoretical concepts of major writers in sociology from Comte to the present.

SOCl— 615  
Social Stratification  5 hrs  
Explores the economic, political and social basis of stratification and inequality in the U.S. today. Attention is given to the origins and nature of social classes, as well as other social divisions such as occupation, sex, race, ethnicity, wealth and power.

SOCl— 618  
Social Movements and Collective Behavior  5 hrs  
An analysis of mass movements and collective protest from a historical and behavioral perspective. Emphasis is on understanding social movements as both agents and products of social change and their relationship to various other forms of collective phenomena.

SOCl— 621  
Juvenile Delinquency  5 hrs  
This course emphasizes three area of the problem of juvenile delinquency—Causation, Treatment, and Prevention.

SOCl— 623  
Social Change  5 hrs  
This course examines the theories, directions, mechanisms, patterns, spheres and impacts of change at various levels of social organization in society.

SOCl— 630  
The Feminist Movement  5 hrs  
A historical study of the Feminist Movement in the United States emphasizing its political, economic, and social impact.

SOCl— 635  
Political Sociology  5 hrs  
A sociological analysis of political systems and power and their relationship to social and economic forces. Attention is given to exploring the question of "who rules America" and the processes involved in maintaining and legitimating political order.

SOCl— 640  
Population and Environment  5 hrs  
An examination of the sociological relationships between population growth, economic policies, natural resources, and environmental degradation. Emphasis is on viewing such problems from an ecological perspective and their consequences for future survival.

SOCl— 641  
Environment Technology and Society  5 hrs  
An examination of the sociological relationships between population growth, economic policies, natural resources, and environmental degradation. Emphasis is on viewing such problems from an ecological perspective and their consequences for future survival.

SOCl— 650  
Occupations and Organizations  5 hrs  
An analysis of occupations, professions, and work roles from an organizational perspective. Attention is paid to such topics as occupational inequalities, mobility, and professional ethics, as well as the effect of technology on work and job satisfaction.
The following Economics courses offered by the Department of Business Administration will be acceptable toward the fulfillment of requirements for the M.Ed. degree in Social Science Education.

Graduate Faculty
GRADUATE FACULTY

DELMAS J. ALLEN (1988) ............................................. Professor of Biology
B.A., University of North Carolina; B.S., M.S. American University of Beirut; Ph.D., University of North Dakota.

SARAH B. ALLEN (1989) ........................................... Assistant Professor of Language, Literature, Speech and Drama
B.A., University of North Carolina; M.A., University of North Dakota; Ph.D., University of Toledo.

LINDA B. AUGUST (1972) ........................................... Associate Professor of Social Science
A.B., Wesleyan College; M.S.S.W., University of Tennessee.

DAVID W. BARNETT, JR. (1979) ................................... Assistant Professor of Music
B.M.E., M.M.E., Florida State University; D.M.A., University of Miami.

GEORGE B. BELDEN (1971) ......................................... Professor of Education
B.A., M.S., Ph.D., Florida State University.

SIDNEY E. BENTON (1975) ......................................... Fieldale Professor of Education
B.S., University of Montevallo; M.A., University of Alabama; Ed.D. University of Georgia.

JOSEPH A. BIESBROCK (1970) .................................... Professor of Biology
B.S. Utah State University; M.S., Ph.D., University of Georgia.

PHILLIP G. BUCKHIESTER (1976) ................................. Professor of Mathematics and Computer Science
B.S., Ph.D., Clemson University.

MAC A. CALLAHAM (1963) ......................................... Professor of Biology
B.S., University of Georgia; M.A., Ed.S., Peabody College; Ph.D., University of Georgia.

NANCY C. COILE (1989) ............................................ Assistant Professor of Biology
B.S., M.S., Ph.D., University of Georgia.

V. KAY COLBERT (1972) ........................................... Professor of Education
B.A., University of Arkansas; M.A., Ph.D., University of Alabama.

JIM G. COONE (1968) ............................................... Professor of Psychology
A.B., Carson-Newman College; M.S., Ph.D., University of Georgia.
WINSLOW G. CRANNELL (1971) ......................Professor of Fine Art
A.A., Manatee Junior College; B.A., M.F.A., Florida State University.

THOMAS C. DAVIS (1964) ..........................Professor of Chemistry
B.S., North Georgia College; Ph.D., Florida State University

LENNET J. DAIGLE (1990) ... Professor of Language, Literature, Speech and Drama
B.A., University of Dallas; M.A., Ph.D., University of South Carolina.

H. LAWRENCE DENNIS (1968) .................Professor of Business Administration
B.S., Newberry College; CPA, State of South Carolina; M.S., University of South Carolina; D.B.A., University of Kentucky.

LEO C. DOWNING, JR. (1980) ..................Associate Professor of Criminal Justice/
Sociology
B.S., Northeastern University; M.A., Indiana State University; Ph.D., Oklahoma State University.

ALLEN R. ELLINGTON (1964) .....................Professor of Business Education
B.S., M.A., Appalachian State College; Ed.D., University of Georgia.

CLAUD F. ELLIOTT, JR. (1984) ...................Associate Professor of Physics
A.S., Gainesville Junior College; B.S., North Georgia College; Ph.D., Clemson University.

JAMES M. EWING, JR. (1971) .........Professor of Language, Literature, Speech and Drama
B.A., M.A., University of Mississippi; Ph.D., University of Southern Mississippi.

DAVID FORE (1978) .............................Associate Professor of Education
A.B., Davidson College; M.A., Boston University, Ed.D., University of Houston.

THOMAS H. FOX (1976) ..........................Professor of Biology
B.A., Gettysburg College; Ph.D., University of North Carolina at Chapel Hill.

SUSAN P. GANNAWAY (1988) ..................Associate Professor of Education
A.B.H., Ohio Wesleyan University; M.Ed., University of Georgia; Ed.D., Auburn University.

MARC J. GILBERT (1981) .......................Associate Professor of History
B.A., M.A., Ph.D., University of California.

KATHLEEN A. GRIENHAGEN (1986) ..........Assistant Professor of Education
B.S. Purdue University; M.Ed., Ed.D., University of South Carolina.
BOB W. JERROLDSD (1990) ...........................................Professor of Education
B.S., Southeast Missouri State College; M.S., Ph.D., University of Wisconsin.

ROSALIE S. JENSEN (1988) ..........Professor of Mathematics and Computer Science
B.A., Shorter College; M.A., University of Georgia; Ph.D., Florida State University.

PERCY C. JONES (1980) ......................Associate Professor of Physical Education
B.S., M.S., University of Southern Mississippi; Ed.D., University of Georgia.

JUDITH L. LONG (1979) .........................Associate Professor of Education
B.A., M.Ed., Georgia State University; Ph.D., University of Georgia.

PETER J. McDONALD (1977) ....................Associate Professor of Psychology
B.A., Macalaster College; M.S., Ph.D., Tulane University.

TERRY M. McLEOD (1975) ........................Professor of Education

MARY RUTH MILLER (1976) ....................Professor of Language, Literature, Speech and
Drama
A.B., Florida State University; M.A., George Peabody College; Ph.D., Duke University.

BRIAN MURPHY (1981) ............................Associate Professor of Political Science
B.A., University of Dayton; M.A., Ph.D., Miami University.

CHARLES S. NOBLE (1971) ........................Professor of Psychology
B.A., Hanover College; M.S., Ph.D., University of Georgia.

W. GUY OLIVER (1964) ..........................Professor of Language, Literature, Speech and Drama
B.S., B.D., University of Manchester; Ph.D., Hebrew Union College.

JANIE D. OSBORN (1975) ........................Professor of Education
B.S., M.S., Ed.D., University of Alabama.

JOHN H. OWEN (1970) .............................Professor of Biology
B.S.A., University of Florida; M.S., Ph.D., University of Wisconsin.

ROBERT L. OWENS (1965) ........................Professor of Art
B.F.A., M.F.A., University of Georgia.

DAVE PANDRES, JR. (1971) ........................Professor of Mathematics
B.S., M.A., Ph.D., University of Texas.
JAMES C. PARKER (1975) Associate Professor of Biology
B.A., Shorter College; Ph.D., Virginia Polytechnic Institute and State University.

JAMES C. PARKS (1980) Professor of Psychology
B.S.Ed., Auburn University; M.Ed., Ph.D., University of Georgia.

PAUL R. PATTEN (1980) Associate Professor of Mathematics and Computer Science
B.A., University of Oklahoma; M.A., University of Massachusetts; Ph.D., University of Oklahoma.

JOHN F. PEARCE (1970) Fuller E. Callaway Professor of Economics
B.S., Furman University; M.A., University of Pennsylvania; Ph.D., University of Alabama; C.L.U., American College of Life Underwriters.

WINSTON K. PENDLETON, III (1988) Professor of Physics
B.S.E., University of Michigan; M.S., Ph.D., Air Force Institute of Technology.

JOHN E. RABER (1971) Professor of Physical Education
B.S., Lock Haven State College, M.S., Bucknell University; Ed.D., University of Georgia.

RICHARD W. REISELT (1990) Assistant Professor of Physical Education
B.A., Augustana College; M.S., Indiana University; D.A., Middle Tennessee State University.

RAY C. RENSI (1966) Professor of History
A.B., Milligan College, M.A., East Tennessee State University; Ph.D., University of Georgia.

ALICE H. REYNOLDS (1981) Associate Professor of Language, Literature, Speech and Drama
B.A., Georgia College; M.A., Ph.D., University of Georgia.

THOMAS W. RICHARDSON (1971) Professor of Chemistry
B.S., M.A., University of Texas at Austin; Ph.D., University of Florida.

GEORGE S. ROSS (1977) Associate Professor of Education
B.S., M.Ed., North Georgia College; Ed.S., Ed.D., University of Georgia.

ROBERT G. SABA (1972) Professor of Education
B.S., College of Santa Fe; M.Ed., Louisiana State University; Ph.D., University of Southern Mississippi.
TOMMYE M. SCANLIN (1972) .................. Associate Professor of Fine Arts

GREGORY L. SHEETS (1987) .................. Assistant Professor of Sociology
B.A., M.A., Arkansas State University; Ph.D., Oklahoma State University.

KATHLEEN A. SISK (1981) .................. Assistant Professor of Mathematics
B.S., M.Ed., North Georgia College; Ed.S., University of Georgia; Ph.D., Georgia
State University.

LAWRENCE J. SOROHAN (1972) ................. Professor of Education
B.S.Ed., University of Dayton; M.Ed., Ph.D., Ohio University.

JAMES R. SPROUSE (1990) ............. Assistant Professor of Language, Literature,
Speech and Drama
B.A., Tennessee Temple University; M.A., University of Mississippi; Ph.D., University
of Tennessee.

JUDITH N. TRUE (1975) ......................... Professor of Education
B.A., Marshall University; B.S., M.S., Florida State University; Ph.D., Georgia State
University.

JEWEL M. WADE (1975) ........................ Professor of Education
A.B., Mercer University; M.Ed., Ed.D., University of Georgia.

JIMMY C. WOODS (1988) ........ Assistant Professor of Mathematics and Computer
Science
B.S., M.Ed., North Georgia College; Ed.D., University of Georgia.
