FROM THE PRESIDENT

Attached to this issue of the Laker Log is information received from Vice Chancellor for Research and Planning Haskin Pounds. This new publication, "Institutional Assessment Quarterly," is published by his office and is being distributed throughout the System in order to disseminate information and articles on assessment as widely as possible. We are very much interested in supporting these new initiatives and making use of them as we continue to move ahead with our Institutional Effectiveness activities at Gainesville College.

FROM THE DEAN OF THE COLLEGE

We are continuing the transition toward the following position/organizational reporting arrangements, all of which will become operational by July 1, 1989, unless otherwise noted:

1. The position as Director of Enrollment Services is being discontinued. Salary savings from this move will allow increased staffing capabilities at the operational level in admissions/recruitment and in the Registrar/records areas. A minimum of one new position will be established in each area to meet demands generated by growth, CPC screening, and admissions competition, etc.
2. The Registrar/Information and Computing Services office will continue essentially as is with Rick Coker reporting to the Dean through the Dean's Council.
3. The recruitment/admissions functions will be headed by Martha Hembree who will be appointed Acting Director of Admissions, effective July 1, 1989. Current plans are to conduct a search for this position to be completed prior to July 1, 1990. The admissions/recruitment function will report directly to the President as a part of the merged and expanded advancement/external relations thrust.
4. The Financial Aid Office with continuing leadership provided by Steve Langston will report directly to the President also.
5. The responsibilities of Doyle Webb are being expanded to include coordinating responsibilities for student activities with a title as Director of Student Development Services. Clara Murray will continue for another year as Acting Director of Student Activities. Current plans are to conduct a search for a Director of Student Activities to be completed prior to July 1, 1990. That position will have expanded responsibilities at a minimum for student discipline, recreation, and student center administration. These support services will report to the Dean through the Dean's Council with Doyle Webb as their representative on the Council.
6. Effective this quarter, John Hamilton has been appointed Coordinator of Institutional Research as part of the Planning and Decision-making activity of the Title III Project. In that position, he reports directly to the President.
7. Effective this quarter, Linda Duncan has assumed responsibilities as Coordinator of Hazardous Materials. In that capacity, she is responsible for supervising all activities related to the use of hazardous materials on campus. For those responsibilities, she will report directly to the President as expected under System guidelines.

The functional administrative meeting groups of the College, being phased in spring quarter, are:

President's Council (3)

President

Dean

Chief Business Officer
